Schedule.

Shire of Chittering Town Planning Scheme No. 2  
SHIRE OF CHITTERING TOWN PLANNING  
SCHEME No. 2 (SPECIAL RURAL ZONES).

THE Chittering Shire Council, under and by virtue of the powers conferred upon it in that behalf by the Town Planning and Development Act, 1928 (as amended), hereby makes the following Town Planning Scheme for the purpose of—

- (a) zoning land for Rural Small Holdings;
- (b) enabling the development of Rural Small Holdings in a controlled, orderly manner with a minimum of detriment to the existing environment;
- (c) establishing certain criteria for the planning and development of such lands;
- (d) setting aside land for future public use as Reserves;
- (e) other matters authorised by the enabling Act.

Arrangement of Scheme.

- Part I—Preliminary.  
Part II—Objectives of the Scheme.  
Part III—Reserved Land.  
Part IV—Policy Areas and Zones.  
Part V—Non-Conforming Uses.  
Part VI—General Provisions.  
Part VII—Finance and Administration.  
Part VIII—Schedules.

The following documents form part of the Scheme:

- (i) Land Use Map.
- (ii) Scheme Map.

PART I—PRELIMINARY.

1.1 Citation.

This Town Planning Scheme may be cited as the Shire of Chittering Town Planning Scheme No. 2 hereinafter called "the Scheme" and shall come into operation on publication of notice of the Minister's final approval thereof in the *Government Gazette*.

1.2 Scheme Area.

The Scheme shall apply to the whole of the land within the broken black border shown on the scheme map, consisting of Policy Areas numbered consecutively from and including 1.

1.3 Responsible Authority.

The Authority responsible for carrying out the Scheme is the Council of the Shire of Chittering, hereinafter referred to as "the Council".

1.4 Interpretations.

In this Scheme the terms used will have the respective interpretations set out in Appendix "D" of the Town Planning Regulations 1967 unless otherwise specified by the Scheme and with the addition of the following:

Rural Uses means uses normally carried out in connection with agriculture, grazing or farming generally including residential use but not including piggeries, noxious uses or other uses considered by Council to be detrimental to the health or amenity of the area, but may with consent of Council include establishments for the breeding and sale of animals.

Building Envelope is an area of land within a lot defined on a plan of subdivision lodged with the Council, and related by measurement to the boundaries of the lot, and within which all buildings on the lot are to be contained.

Tree Preservation Area is an area of land within a lot defined on a plan of subdivision lodged with the Council and related by measurement to the boundaries of the lot, or defined by other means within the Scheme within which no indigenous trees or vegetation may be removed except under the conditions laid down in the Scheme.

PART II—OBJECTIVES AND POLICIES.

2.1 Council's primary objective will be to ensure that development which takes place within the Scheme Area as a result of increased residential and recreation uses should occur with the least detrimental effect possible to the Shire's rural landscape, its social structure and its economic management.

2.2 Council's Policy in order to achieve its objectives will be to require that applications for development in the Scheme Area must show an adequate concern for the environment and show minimal detrimental intrusion into the landscape, the area's ecology, and the Shire's social and economic structure.

2.3 The Scheme defines Policy Areas within which the Council will consider the establishment of Special Rural Zones and consequent subdivision and development into rural small holdings appropriate to the Scheme requirements for that Policy Area.

2.4 Upon receipt of a proposal to subdivide and develop lands within a Policy Area, and subject to the Council being satisfied that the proposals will achieve its objectives, Council will initiate procedures to enable the land included in the proposal to be rezoned to Special Rural Zone.

2.5 (a) Upon its agreement to initiate rezoning to Special Rural Zone under the provisions of Clause 2.4, Council will require application to be made to the Town Planning Board for approval to subdivide the proposals upon which its agreement was based including any amendments which may have been agreed to.

(b) If an application to subdivide under the conditions of this clause is not lodged with the Town Planning Board or if the application so made differs materially from the proposals on which Council agreed to initiate rezoning, Council will during the advertisement period of the rezoning amendment lodge an objection to the rezoning with the Minister for Town Planning and Urban Development.

PART III—RESERVED LAND.

3.1 (a) Land set aside under this Scheme for the purposes of a reservation is deemed to be reserved for the purposes indicated on the Scheme Map or for such other purpose as may from time to time be decided by the Authority in whom the Reserve is vested or is controlled.

(b) Except as otherwise provided in this Part a person shall not carry out any development on land reserved under this Scheme, other than the erection of a boundary fence, without first applying for and obtaining the written approval of the Council.

(c) In giving its approval the Council shall have regard to the ultimate purpose intended for the reserve and shall in the case of land reserved for the purposes of a public authority confer with that authority before giving its approval.

(d) No provision of this Part shall prevent the continued use of land for the use for which it was being lawfully used immediately prior to the Scheme having the force of law, or the repair and maintenance, for which the prior consent in writing of the Council has been obtained, of buildings or works lawfully existing on the land.

3.2 (a) Where a Council refuses approval for the development of land reserved under the Scheme on the ground that the land is reserved for public purposes, or grants approval subject to conditions that are unacceptable to the applicant the owner of the land may, if the land is injuriously affected thereby, claim compensation for such injurious affection.

(b) Claims for such compensation shall be lodged at the office of the Council not later than six months after the date of the decision of the Council refusing approval or granting it subject to conditions that are unacceptable to the applicant.

(c) In lieu of paying compensation the Council may purchase the land affected by such decision of the Council at a price not exceeding the value of the land at the time of refusal of approval or of the grant of approval subject to conditions that are unacceptable to the applicant.

#### PART IV—POLICY AREAS AND ZONES.

4.1 (a) The Scheme consists of Policy Areas numbered consecutively from 1.

(b) The Policy Areas contain land within the Shire of Chittering considered to be suitable to contain Special Rural Zones subject to the need to consider in detail matters of environmental protection within them.

(c) The Policy Areas contain:

Rural Zones within which no further subdivision will be permitted except under conditions normally applied by the Town Planning Board to rural land.

Reserves of various types as indicated on the Scheme Map.

Special Rural Zones within which applications for subdivision to small holdings will be considered subject to compliance with the requirements of the Scheme.

#### 4.2 Policy Area 1.

Council Policy will be to ensure that development within the Policy Area takes place in such a way as to assist in the growth of South Bindoon Townsite and its environs as a nodal point of closer settlement within the Shire.

4.2.1 Within the Policy Area Council will initiate and pursue re-zoning of land to special Rural Zone on the basis of proposals to develop which may be submitted to Council and which in the opinion of Council satisfactorily achieve the objectives of:

- (a) Satisfactorily assisting in the development of closer settlement based on the present townsite of South Bindoon.
- (b) Achieving satisfactory development within the Policy Area as a whole by showing the way in which the proposal will conform to an overall road and access structure and to an overall system of reserves and tree protection areas.
- (c) Protecting the environment of the Brockman River, Lake Needonga and Lake Chittering by, where appropriate, providing additional reserves associated with the lakes, by ensuring that pollution of the lake system will be minimized, or by other measures if the environment of the lakes seems likely to be affected by the proposed development.
- (d) Protecting the character of the landscape by closely relating matters such as the range of lot sizes and lot layout to a close and critical analysis of the landforms, soil types, topography, tree cover and visual characteristics.

(e) Minimizing the difficulties of fire control by demonstrating that the subdivision and development by its design and/or its management policies can satisfactorily ameliorate fire risk and allow adequate control of bushfire.

(f) Ensuring adequate conditions for occupation of individual holdings by demonstrating the means by which it is proposed that each lot may obtain a supply of water adequate for domestic use and for such stock or other uses reasonably consistent with occupation appropriate to good land management practice.

(g) Preserving the visual amenity of the area by nominating tree preservation areas and building envelopes for each lot intended for sale within a subdivision.

(h) Avoiding deterioration of the land by identifying areas of actual or incipient soil erosion or soil salinity and proposing measures which might be taken to rectify or ameliorate such problems.

4.2.2 (a) Council may at its discretion prepare or cause to be prepared or adopt a structure plan for the Policy Area or for any portion of the Policy Area where it considers that orderly planning of the areas requires this to be done.

(b) Upon preparation and adoption by the Council and the Town Planning Board of a Structure Plan prepared under the provision of this clause proposals for subdivision and development shall conform to the requirements of the Structure Plan or any variation therefrom as may be acceptable to the Council and the Town Planning Board.

4.2.3 No building on a lot may be erected closer to the frontage of that lot than:

- (a) from the frontage to roads shown on the Scheme Map as major roads—50 metres;
- (b) from the frontage to roads shown on the Scheme Map as important roads—30 metres;
- (c) from the frontage to other roads—20 metres.

4.2.4 No lot may be of a lesser area than 2 hectares, except that where it can be demonstrated to the satisfaction of Council that the particular site topography or the needs of environmental protection require or can be best served by subdivision into lots of lesser size, Council may accept and approve a proposal for lots of a minimum size of 1 hectare provided that the number of lots which would result therefrom does not exceed the number which would be obtained if a minimum lot size of 2 hectares were applied to the area.

4.2.5 Open space for recreation shall be provided and transferred to the Crown free of cost at the rate of ten per cent of the area to be subdivided and shall be located so as to provide reservation over areas of environmental importance or as extensions to existing reserves where such exist adjacent to the proposed subdivision and where extension of the existing reserve is possible and desirable.

#### PART V—NON-CONFORMING USE OF LAND.

5.1 No provision of the Scheme shall prevent:

- (a) the continued use of any land or buildings for the purpose for which it was being lawfully used at the time of the coming into force of the Scheme; or
- (b) the carrying out of any development thereon for which, immediately prior to that time, a permit or permits required under the Town Planning and Development Act, 1928 (as amended), and any other law authorising the development to be carried out have been duly obtained and was current.
