Direction by the Minister.

I, RICHARD CHARLES OLD, Minister for Agriculture, being the Minister for the time being administering the Dairy Industry Act, 1973, pursuant to the powers conferred by section 27 of the said Act, hereby direct the Dairy Industry Authority to determine applications for market milk and special products milk quotas made to it under section 26 of the Act in respect of the quota year commencing on 1st January, 1980, on the following basis or principles—

1. (1) Subject to this paragraph, a dairyman holding a market milk quota or a special products milk quota at the end of the 1979 quota year shall be granted a market milk quota or a special products milk quota, as the case requires, for the 1980 quota year of an amount that is not less than the amount held by him at the end of the 1979 quota year (disregarding the whole or any part of a market milk quota surrendered by the dairyman on or immediately before the 31st December, 1979).

(2) Subject to subparagraph (3) and subparagraph (4) of this paragraph, where a dairyman had what would otherwise have been his market milk quota or his special products milk quota for the 1979 quota year reduced because of short supply in delivery during the year ending on the 30th June, 1978, his market milk quota or his special products milk quota, as the case requires, for the 1980 quota year shall be not less than his market milk quota or his special products milk quota, for the 1978 quota year.

(3) Where a dairyman—

(a) had what would otherwise have been his market milk quota for the 1979 quota year reduced because of a short supply in delivery during the year ending on the 30th June, 1978, and short supplied on that reduced quota during the year ending on the 30th June, 1979; or

the market milk quota to be granted to the dairyman for the 1980 quota year shall be of an amount that is equal to the product of 366 and the number obtained after ascertaining the average daily supply to be delivered under the market milk quota applicable to the dairyman at any time during the year ending on the 30th June, 1979, and subtracting therefrom the number that is equal to the average daily amount short supplied by the dairyman in respect of that quota in the month of greatest average daily short supply in relation to the quota for the time being applicable to him at any time during the year ending on the 30th June, 1979, but disregarding the months of March, April and June.

(4) Where a dairyman—

(a) had what would otherwise have been his special products milk quota for the 1979 quota year reduced because of a short supply in delivery during the year ending on the 30th June, 1978 and short supplied on that reduced quota during the year ending on the 30th June, 1979; or

(b) short supplied the special products milk quota applicable to him at any time during the year ending on the 30th June, 1979,

the special products milk quota to be granted to the dairyman for the 1980 quota year shall be of an amount that is equal to the product of 366 and the number obtained after ascertaining the average daily supply to be delivered under the special products milk quota applicable to the dairyman at any time during the year ending on the 30th June, 1979, and subtracting therefrom the number that is equal to the product of the number 2 and the number that is equal to the average daily amount short supplied by the dairyman in respect of that quota in the month of greatest average daily short supply in relation to the quota for the time being applicable to him at any time during the year ending on the 30th June, 1979, but disregarding the months of March, April and June.

(5) Subparagraphs (3) and (4) of this paragraph do not apply where a dairyman by written notice served on the Authority within 14 days of receiving from the Authority its decision on his application for a market milk quota or a special products milk quota is able to satisfy the Authority that the short supply

was due to reasons beyond his control and in any event a market milk quota shall not be less than 89 670 litres for the quota year.

2. A special products milk quota for a maximum of 18 300 litres for the 1980 quota year may be granted to a dairyman who held a market milk quota during 1979 but who was not also holding a special products milk quota.

3. Dairymen who have not previously held market milk quotas may be granted such quotas of not less than 89 670 litres for the 1980 quota year and shall be selected for this purpose in accordance with the principles set out in paragraph (c) of the principles published in the *Government Gazette* on 24th December, 1976.
