Shire of Busselton.

Town Planning (Guided Development) Scheme
No. 14—Quindalup Common.

Scheme Text.

PART 1—Preliminary.

1.1 The Council of the Shire of Busselton under and by virtue of the powers conferred upon it by the Town Planning and Development Act 1928 (as amended) hereby makes the following Town Planning Scheme.

1.2 Citation: This Town Planning Scheme may be cited as the Shire of Busselton Town Planning (Guided Development) Scheme No. 14 (hereinafter referred to as "The Scheme").

1.3 Scheme Area: The Scheme shall apply to the whole of the land contained within the broken black line shown as the Scheme Boundary on the Scheme and Land Use Maps forming part of this Scheme.

1.4 Responsible Authority: The Authority responsible for enforcing the observance of the Scheme is the Council of the Shire of Busselton (hereinafter referred to as "The Council").

1.5 Scheme Documents: The documents comprising the Scheme are:—

- (i) Scheme Report.
- (ii) Scheme Text.
- (iii) Land Use Map.
- (iv) Scheme Map.

1.6 Arrangement: The Scheme Text is arranged into the following Parts:

PART 1.—Preliminary.

PART 2—General Objectives.

PART 3—Scheme Provisions.

PART 4—Administration.

PART 2—GENERAL OBJECTIVES.

2.1 The general objectives of this Scheme are to ensure that the subject land having been selected in accordance with the criteria set down in the proposed Shire of Busselton Town Planning Scheme No. 5:—

- (i) is properly planned and subdivided in accordance with a pattern of subdivision which takes account of the physical and topographical features of land;
- (ii) is, once subdivided in accordance with this Scheme, not subjected to further ad hoc subdivision proposals;
- (iii) retains, as far as possible, its present character and environmental characteristics by the preservation of existing trees and shrubs complemented where necessary by new planting and landscaping;
- (iv) is used in a manner which will not detract from the amenity of individual lots within the Scheme area or the area generally;
- (v) is maintained in a neat and tidy condition at all times;
- (vi) is not subjected to the visual clutter of indiscriminate advertising.

2.2 In addition to the general objectives set out in the preceding paragraph, the Scheme specifies the abilities and powers of Council to control development and enforce the provisions of the Scheme.

PART 3—Scheme Provisions.

3.1 Subdivision:

3.1.1. The land within the Scheme Area shall be subdivided generally in accordance with the design of roads and lots shown upon the Scheme Map. However, should the Town Planning Board and the Council agree that a variation from that pattern of subdivision is justified to enhance the prospects of achieving the objectives of this Scheme then nothing in this Clause shall be deemed to prevent such a variation. Once subdivided in accordance with any such overall plan of subdivision, the Council will not support any further subdivision of the land.

3.1.2. No lot shall be smaller than 2 ha and an overall average lot size of 3 ha shall be maintained throughout the Scheme Area.

3.1.3. Prior to the grant by the Town Planning Board of its final approval to a plan of subdivision, all lots created within the Scheme shall be provided with a functioning water bore or dam or shall have access to an alternative supply of water satisfactory to Council.

3.1.4. Prior to the grant by the Town Planning Board of its final approval to a plan of subdivision, the access ways to all blocks of battle axe design shall be constructed to a gravel, road base or limestone standard to the satisfaction of the Council.

3.1.5. At the time of the subdivision or the appropriate stage of subdivision as the case may be, the subdivider shall:—

- (a) Construct to Council's specification and satisfaction, all roads necessary to serve the lots to be created.
- (b) Indicate on the appropriate Diagram or Plan of Survey the bridleway/emergency accessway to be a Right of Way to vest in the Crown.
- (c) Construct the bridleway/emergency access way to a gravel, road base or limestone standard to a width of 4 metres to provide a trafficable access route in the event of emergency.
- (d) Enter into an agreement with Council regarding the maintenance of the bridleway/emergency access way for the ensuing 3 year period following construction.

3.2 Amenity and Landscape:

3.2.1. Insofar as it is practicable to do so the rural and visual amenity of the locality shall be maintained by preserving existing trees and vegetation supplemented where necessary by additional landscaping as may be required by Council.

3.2.2. No lot shall be cleared of natural vegetation to an extent greater than 50% of its total area, which cleared area shall include the land upon which any buildings have been or are proposed to be erected except that the Council may permit parkland clearing of a further 25% of the lot area where it is satisfied that such a use will not detract from the visual and rural amenity of the area and that development will not become more conspicuous from local roads.

3.2.3. Where a lot has been cleared of more than 50% of its natural vegetation prior to the Scheme coming into effect the new planting areas shown upon the Scheme Map shall be laid out, planted and thereafter maintained in such a manner as may be prescribed by the Council prior to the creation of the lots concerned or alternatively at such a

time and in such a manner as may be agreed formally between the Council and the subdivider.

3.2.4. No person shall use or cause or permit to be used any lot within the Scheme Area in such a manner that:

- (a) the visual, rural and residential amenities of adjoining lots are adversely affected by reason of noise, smoke, dust, smell or by any other cause;
- (b) any existing natural vegetation or newly planted trees and shrubs are harmed or destroyed, except where the Council's approval has been granted for the clearance of land pursuant to this Scheme.

3.3. Building and Other Development:

3.3.1. No development of any land within the Scheme Area shall be commenced without the prior consent of the Council having been sought and obtained.

3.3.2. In considering any application for planning consent to commence development, the Council will take into account the objectives of this Scheme, in particular the need to preserve the visual and rural amenity of the locality, and will only approve the erection of buildings and other structures designed and constructed to harmonise with the rural character within which it is to be built or erected.

3.3.3. No building shall be erected otherwise than within the building envelope prescribed for that lot on the Scheme Map, and shall be constructed of materials approved by Council as being in harmony with the rural amenity of the locality.

3.3.4. Notwithstanding the provisions of Clause 3.3.3., where upon a detailed evaluation of any lot to be created pursuant to this Scheme, the building envelope shown upon the Scheme Map does not best serve the environmental and visual amenity interests of the area or it is determined that buildings can be erected, without conflict with the aims and objectives of this Scheme, on other portions of the lot, the Council may extend or alter the building envelope for that lot accordingly.

3.3.5. No dwelling erected within the Scheme Area shall have a floor area of less than 100 metres² as ascertained by external measurement excluding car ports, garages and open verandahs.

3.3.6. Each dwelling shall be provided with a supply of potable water either from a reticulated system, an underground supply or a rainwater storage system with a minimum capacity of 90 000 litres to the satisfaction of the Council.

3.4. Uses:

3.4.1. No person shall use or permit to be used any lot or a part or any lot:

- (i) for the intensive keeping and rearing of pigs;
- (ii) for the purpose of a poultry farm;
- (iii) for intensive keeping and rearing of cattle;
- (iv) for the keeping and breeding of dogs;
- (v) for the grazing or keeping of any animals at an intensity which would adversely affect the pasture and other vegetation on the lot concerned or be likely to result in soil erosion.

The "intensive" keeping and rearing of animals specified in this Clause shall be determined as involving the keeping of animals in any manner in such numbers as may result in a loss of amenity to the locality by reason of noise, smell, additional traffic or from any other cause.

PART 4.—Administration.

4.1. Powers and Authorities of Council:

4.1.1. In carrying out the provisions of this Scheme the Council shall have the following powers and authorities:—

- (i) to enter and inspect any land within the Scheme Area at any reasonable time;
- (ii) to enter into agreements with the owners or occupiers of any land within the Scheme Area;
- (iii) to enter into agreements with the purchaser or prospective purchasers of any land within the Scheme Area;
- (iv) to resume any land required for a public purpose including but not limiting the generality of this Clause, a road, right of way, footway drainage reserve or any other purpose necessary for the effective implementation of this Scheme;
- (v) to buy, sell, lease or dispose of any land within the Scheme Area to achieve the objectives of this Scheme.

4.2. Claims for Compensation:

4.2.1. The time limited for making claims for compensation pursuant to section 11 of the Act is six months after the date when notice of approval to the Scheme is published in the manner prescribed by the Regulation made under that Act.

4.3. Enforcement:

4.3.2. Any expense incurred by the Council in doing any of the works pursuant to any default by a person described in paragraph 4.3.1. may be recovered from the person in default by action for a civil debt recoverable summarily in any Court having jurisdiction in respect of the amount involved.

4.3.3. Notwithstanding the powers and authorities available to the Council pursuant to Clauses 4.3.1. and 4.3.2. hereof, failure to:—

- (a) comply with the provisions of this Scheme;
- (b) comply with any notices served pursuant to this Scheme;
- (c) comply with any conditions imposed by the Council on any planning consent to commence development;
- (d) carry out development in strict accordance with plans approved by the Council,

shall constitute a contravention of the Scheme and the remedies, including the revocation of a planning consent granted, available to the Council under section 10 of the Act may be pursued.

4.4 Notices:

4.4.1. Any notice served by the Council pursuant to this Scheme:—

- (i) shall be addressed to the owner, occupier or lessee of the land concerned;
- (ii) shall describe in general terms the matters requiring attention;
- (iii) shall require the owner, occupier, or lessee of the land concerned to carry out within the period specified in the notice (not being less than 30 days) such works as may be necessary:—

4.4.2. Notices to an owner, occupier or lessee of land served or given pursuant to this Scheme shall be deemed to have been sufficiently served if sent to such owner by registered post in an envelope addressed to that person at his/her address appearing in the Rate Book of the Council and a notice so sent shall be deemed to have been served on the day following the date of posting.

4.5: Appeals:

4.5.1. Any person who is aggrieved by a decision made by the Council exercising a discretionary power available to it under this Scheme may appeal in accordance with Part V of the Act.

PART 3: Zone Development Controls.

3.1 The Scheme Area is divided into seven zones set out hereunder:—

- Residential.
- Commercial.
- Industrial.
- Community.
- Recreation.
- Rural.
- Hotel.

3.2 All development shall be in accordance with the provisions of the Zoning Indicator appended to this Part and such development must accord with the Policy Statement and Regulatory Controls set forth under Clause 3.5 of this Part together with the provisions contained in Part 2 and Part 4 of this Scheme.

3.3 The Zoning Indicator appended to this Part indicates the several uses permitted by this Scheme in the various zones, such uses being determined by cross reference between the list of uses on the left hand side of the Zoning Indicator and the list of zones on the top of the Zoning Indicator.

3.4 The symbols used in the cross reference in the Zoning Indicator appended to this Part have the following meanings:—

“P” A use that is permitted under the Scheme.

“AA” A use that is not permitted unless approval is granted by the Council.

“X” A use that is not permitted.

3.5 Regulatory Controls: The following shall be deemed minimum acceptable standards for development:—

Residential—

(a) Effective—single family house—18 m; duplex—20 m Frontage.

(b) Parking—2 spaces per unit.

(c) Setbacks 7.5 m front; 7.5 m rear; side setback 2.5 m each storey provided that on single storey dwellings the setback may be 1.5 m on one side.

Other forms of Residential Building—

Where comprehensive architectural plans for triplex, quadruplex or multi unit developments are proposed, in addition to ensuring that the proposal meets the above set-back and parking standards the Council shall also require that adequate landscaping shall be provided.

Commercial—

(a) Area—200 m².

(b) Lot Frontage—6 m.

(c) Parking—

Shops—1 space per 10 m² of floor area.

Hotel—1 space per bedroom plus 1 space per 5 m² of bar space.

Tavern—1 space per 3.5 m² of bar area.

Motel—1 space per bedroom plus 3 additional spaces.

Other—In accordance with the Council's requirements.

Industrial—

(a) Area—1 000 m².

(b) Lot Frontage—20 m.

(c) Parking—3 spaces plus 1 per every 20 m² of production and storage floor space, or as directed by the Council.

(d) Landscaped Area—30% of the lot.

(e) Setbacks—15 m front; 3.5 m side; 2 m rear.

Community—Requirements as determined by the Council.

3.6 Policy Statement:

(a) Residential Zone:

(i) All new subdivisions intended for residential development shall be permitted with provision for septic sewerage disposal until such time as a comprehensive deep sewerage headworks/reticulation system is available and whereby connection from the proposed development is feasible.

(ii) In respect of the two broad acre areas available for residential development on land owned wholly by the Crown, a comprehensive plan of subdivision shall be prepared in respect of the whole of each area before approval shall be granted for the development of any of that land within that area.

(iii) Before any further subdivision is approved within the large, privately owned Residentially zoned broad acre area, a suitable comprehensive overall plan shall be prepared of the whole area showing the general disposition of roads, public open space

areas, school sites and any other form of development considered reasonable for future consideration and development. Such plan shall have the approval of the Council and the Board and shall form the basis of future development in this area. Such plan shall be in general conformity with the Scheme Map subject to the other relevant provisions of the Scheme Text.

(iv) Such plan referred to in subclause (iii) above shall be adopted by the Council as the basis on which further programmed development will be considered in the area.

(v) When considering an application for residential development, special regard shall be had to the height of the proposed development together with the facing materials to be used and the relationship of these factors to existing approved adjoining development, where this is considered by the Council, to be essential for the amenity of the area.

(vi) It is the intention of the Scheme that uses compatible with residential enjoyment should be encouraged to locate within the zone. The compatibility of any non-residential form of development will depend on the proposed design, use and likely noise emission from occupation and arriving and departing vehicles together with consideration as to adequacy of access and off street parking. The Council shall take these matters into account in reaching a decision.

(b) Commercial:

(i) Because within the context of this Commercial Zoning it is not possible or necessary to predetermine the availability of particular lots for specific uses, it is the intention of the Scheme that any of the uses permitted or uses permitted subject to approval by Council, shall be able to locate anywhere within the Zone.

(ii) When considering proposed development involving a use at the discretion of the Council, the Responsible Authority shall have regard to the physical effect of the proposed use on adjoining existing or approved development and shall also satisfy itself that such proposed development shall not in any way cause any detrimental effect to the enjoyment and occupation of the existing or proposed adjacent development: providing that such control shall not be construed as to give the Responsible Authority the power to consider such matters as would affect only the business prospects of nearby premises by reason of close proximity of competition from a like business, as such matter is not within the authority of the Council.

(iii) All additional major future retail development should be within the major commercial area. Any diversification of retail outlets will prejudice the viability of the existing centre. Any proposal for small developments of the corner shop variety may be permitted if the Council consider such development appropriate.

(iv) When considering car parking requirements Council shall have proper regard to the existing nature of the commercial area and any proposal for the co-ordinated dev-

elopment of the centre for the time in being, together with the existing availability or deficiency of adequate car parking facilities.

(c) Industrial:

- (i) It is the intention of the Scheme that no industry of a noxious or hazardous variety should be permitted within an Industrial Zone owing to the proximity of these zones within the built up town area.
- (ii) It is the intention of the Scheme that any future industrial development shall be located in the new industrial zone at the northern end of the town and that a comprehensive plan of development shall have been prepared before the Crown releases any land within this area.

(d) Community:

- (i) Except as otherwise provided in this Part, a person shall not carry out any development on land zoned Community under the Scheme, other than the erection of a boundary

fence, without first applying for and obtaining the written approval of the Council.

- (ii) In giving its approval the Council shall have regard to the ultimate purpose intended for the land.
- (iii) No provision of this Part shall prevent the continued use of land for the use for which it was being lawfully used immediately prior to the Scheme having the force of law, or the repair and maintenance, for which the prior consent in writing of the Council has been obtained, of buildings or works lawfully existing on the land.
- (iv) Where the Council refuses approval for the development of land zoned Community under the Scheme on the ground that the land is set aside for a public purpose, or grants approval subject to conditions that are unacceptable to the applicant, the owner of the land may, if the land is affected thereby, claim compensation for such injurious affection.

- (c) Where the developer can demonstrate to the satisfaction of the Council that there is not the demand for the number of parking spaces specified under the development controls, landscaping may be provided in lieu of carparking spaces not constructed; provided that the Council may at any time require that the additional parking spaces be provided.

4.2. Landscaping:

- (a) The Council may require the provision of any amount of landscaping that it considers reasonable and desirable in the circumstances.
- (b) As a guide to the Council and developer, landscaping may include natural bushland, swimming pools and areas under covered ways; laundries, drying yards and garbage collection spaces shall not be included.
- (c) Access driveways between street alignment and setback line, may be included in the landscaping requirement but otherwise carparking areas and driveways shall not be included.
- (d) Council may restrict the use of concrete, gravel, pebble and similar hard materials and require planting of lawns, trees or shrubs in lieu thereof.
- (e) No person shall occupy any buildings forming part of an approved development until the required landscaping has been constructed and/or planted, unless the Council otherwise approves.

4.3. Storage of Craypots etc:

- (a) No person shall store crayfish pots or fishing gear within a residential zone unless such craypots or fishing gear are stored at the rear of a dwelling house or if stored at the front or side of a dwelling house, shall be so screened from the view of adjacent houses and from any public place.
- (b) Where there is no house on a residential lot the Council may approve the storage of crayfish pots and other gear providing they are satisfied that the storage area is adequately screened.

- (c) In any event crayfish pots and other fishing gear shall not be stacked to a height exceeding 2 m and shall at all times be stacked in a neat and tidy manner to the satisfaction of the Council.

PART 5: Non-Conforming Uses.

5.1 Right to Continue Use:

No provision of the Scheme shall prevent:—

- (a) The continued use of any land or building for the purpose for which it was being lawfully used at the date of gazettal of the Scheme; or
- (b) the carrying out of any development thereon for which, immediately prior to that time, a permit or permits required under the Act, and any other law authorising the development to be carried out has been duly obtained and was current.

5.2 Extension of Non-Conforming Use:

- (b) Where in respect of land zoned for any other purpose under Part 2 of the Scheme a non-conforming use exists or was authorised as mentioned in Clause 5.1 of this Part on that land, and provided the prior consent in writing of the Council has been obtained buildings may be extended to the limits prescribed by the Uniform Building By-laws made under the Local Government Act, 1960 (as amended) or by any other by-laws made under the Act for the purpose of limiting the size, location and distance from boundaries and any other matter required by law for that class of use within the boundary of the lot or lots on which the use was carried on immediately prior to the coming into force of the Scheme.
- (c) The Council shall not permit any aspect of the non-conforming use which is inconsistent with the provisions of the Scheme to become more inconsistent but may allow physical extensions to the use under the provisions of this clause.

5.3 Change of Non-Conforming Use: The Council may permit the use of any land to be changed from one non-conforming use to another non-conforming use, provided the proposed use is, in the opinion of the Council, less detrimental to the

amenity of the neighbourhood than the existing use, or in the opinion of the Council is closer to the intended uses of the area.

5.4 Discontinuance of Non-Conforming Use:

(a) Notwithstanding the preceding provisions of this Part, except where a change of non-conforming use has been permitted by the Council under Clause 5.3 when a non-conforming use of any land or building has been discontinued, such land or building

shall not thereafter be used other than in conformity with the provisions of the Scheme.

(b) The Council may effect the discontinuance of a non-conforming use by the purchase of the affected property or by the payment of compensation to the owner or the occupier or both and may enter into an agreement with the owner for that purpose.
