## PART II.—General Objectives and Policies.

2.1 Objectives: The Council’s major objectives shall be to develop areas of rural small holdings and industrial use of the highest possible standard suitable for the pursuit of a variety of associated rural activities in the rural area and a rational distribution of industrial activities in the industrial zoned areas.

The general objectives of the Scheme Area are as follows:—

- (a) On land zoned Rural/Residential by the Shire of Carnarvon Town Planning Scheme No. 2:—
  - (i) In the short to medium term to make provision for the subdivision of land into small rural holdings of varying size to accommodate such activities as hobby farms, riding schools and stables, veterinary clinics, kennels, horticulture, playgrounds, etc.
  - (ii) In the long term to enable closer subdivision for residential and associated uses to occur.
- (b) Reserve an area for Public Purposes for the development of a village settlement for the Aboriginal population displaced from the Morgantown area.

- (c) On land zoned General Industry and Light Industry to make general provision for the subdivision of land to suit a variety of industrial requirements.

2.2 General Policies: The Scheme shall establish policies and specific controls for the progressive subdivision and development of the Scheme Area such that adequate provision is made for:—

- (a) the subdivision of land for small holdings.
- (b) the provision of public open space.
- (c) the provision of bridle paths.
- (d) the provision of land for an Aboriginal village settlement area.
- (e) the subdivision of land for light and general industrial use.
- (f) the circulation of traffic within the Scheme Area and the connection of the Scheme Area to adjacent areas of the Shire of Carnarvon.
- (g) the closure of unmade roads not required for the proposed traffic circulation system.
- (h) the comprehensive drainage of roads created within the Scheme Area and the drainage of any land within the Scheme Area that requires such works.
- (i) the provision of electric power to all lots created.
- (j) the fencing of all lots created.
- (k) the possible closer subdivision of Rural/Residential Zoned land in the long term for residential uses, such that provision may readily be made for a primary school, public open space, commercial activity and other residential associated uses.

#### PART III—Subdivision and Development Criteria.

##### PART III (a): Rural/Residential Land.

To achieve the objectives stated in clause 2.1, the Scheme makes the following general policies for the subdivision and development of the Rural zoned land within the Scheme Area.

3.1 Overall Structure: The Scheme Maps indicate the broad guidelines for structure planning and are based upon the following policies:—

- (a) to retain a "rural" approach to the Carnarvon town centre by subdividing land fronting North West Coastal Highway into larger sized lots and applying deep building setbacks from the front boundary.
- (b) to provide medium sized lots to form a buffer along the boundary between the Rural/Residential Area and the Light and General Industrial Area and along Boor Street as a buffer to smaller internal lots.
- (c) to provide adequate protection of land, buildings and other works within the Scheme Area, against the adverse physical effects of flooding.
- (d) in those parts of the internal area that are not flood prone to provide smaller sized lots.
- (e) to defer the construction of dwellings on that land forming a floodway to the Gascoyne River until such time as the levee system is extended to Brown Range.
- (f) to provide a subdivision pattern and lot design such that transition to a closely subdivided residential area will be facilitated.
- (g) to provide a subdivision pattern that conforms, as far as possible, to existing lot boundaries, for ease of subdivision by individual owners.
- (h) to retain the existing Caravan Park and Service Station.
- (i) to provide an area as a Village Development for an Aboriginal settlement.
- (j) to provide public open space and bridle paths located such that conflict with vehicular traffic is minimised.

3.2 Detailed Planning: Detailed plans for subdivision shall be required by the Council and the Town Planning Board before such subdivision can occur, and such plans shall be in accordance with the provisions of the Scheme.

Criteria adopted in detailed planning shall include:—

3.2.1 Minimum Lot Sizes: Clause 3.3 specifies minimum lot sizes for the three Rural/Residential Policy Areas within the Scheme Area. These minimum lot sizes may be reduced as and when the Town Planning Board, in consultation with the Council and the Public Works Department, considers such a reduction appropriate.

At such time the Council may amend the Scheme to allow closer subdivision to occur. Such amendment shall ensure that provision for public open space, a primary school and any other public uses deemed appropriate is made by contribution in either land or cash by owners carrying out closer subdivision.

3.2.2 Land Use: Within the land shown on the Scheme Map as Rural/Residential the following uses may be permitted with the permission of the Council following application. Such applications shall be in writing stating the intended use and shall be advertised once in a locally circulating newspaper.

The Council may consider granting approval to the following uses:

- (a) rural activities including horticulture, nurseries, kennels, stables and horse riding schools, intensive agriculture.
- (b) other activities not inappropriate to the Rural/Residential Area being education establishments, home occupation, public and private recreation, veterinary clinics and hospitals, residential, public utility

and any other use considered appropriate upon application to the Council.

3.2.3 Roads and Drainage: The roads shown on the Scheme Maps are regarded as essential to both traffic circulation and the subdivision pattern of the Scheme Area. Roads shall be provided generally in the location and to the widths shown on Maps 5 and 6.

3.2.4 Bridle Paths: The bridle paths shown on the suggested subdivision layout map are regarded as essential to the amenity of the area, and are an essential element in the achievement of the Council's major objective stated in clause 2.1. Bridle paths shall be provided generally in the locations shown and to the width of seven metres and shall be transferred to the Crown under Section 20A of the Town Planning and Development Act, 1928 (as amended). No motorised vehicles of any kind shall be permitted on bridle paths for any reason, other than public authority vehicles for maintenance purposes.

3.2.5 Public Open Space and Special Public Uses: Public Open Space and Special Public Uses shall be provided in the general location shown on Map 4 and contributions toward such provision shall be made by all subdividers of land within the Rural/Residential Area.

 (ii) in any case a Spread-of-flame Index not greater than 9, except as provided in sub-by-laws (2) and (3).

*Special Fire Tests.*

(2) A material not complying with sub-by-law (1) may be used in a member or assembly of members if so constructed that—

- (a) when assembled as proposed in a building the material is protected on all sides and edges from exposure to the air;
- (b) the member or assembly of members, when subjected to the Early Fire Hazard Test in accordance with Specification No. 8, shall have a Smoke-developed Index and a Spread-of-flame Index not exceeding those prescribed in sub-by-law (1); and
- (c) the member or assembly of members when subjected to the conditions of the Standard Fire Test in accordance with Specification No. 8 shall retain the protection in position so that it continues to screen the materials from access to free air for a period of not less than ten minutes.

*Certain Construction Deemed to Comply.*

- (3) A material that, when emplaced, is completely covered on all faces by concrete or masonry not less than 50 mm thick shall be deemed to comply with sub-by-law (1).

*Fire-isolated Stairways, Passageways and Ramps.*

- (4) In a fire-isolated stairway, fire-isolated passageway or fire-isolated ramp in a building described in sub-by-law (1)—
- (a) any material, other than a sarking-type material, used in a ceiling or as an attachment to or part of an attachment to a structural member or as the finish, surface, lining or the like of a structural member shall—
    - (i) have a Spread-of-flame Index not greater than 0;
    - (ii) have a Smoke-developed Index not greater than 2; and
    - (iii) if combustible, not exceed 1 mm in finished thickness and be attached directly to a non-combustible substrate;
  - (b) any sarking-type material used in the form of an exposed wall or ceiling, or as a finish or attachment thereto shall have a Flammability Index not greater than 0; and
  - (c) sub-by-laws (2) and (3) shall not apply to any material used in or as a component of a structural member.

*Buildings of Certain Classes—Public Corridors and Public Hallways.*

- (5) In a Class II or III building or in a building of Class IX which is not otherwise legally controlled for the purpose of this by-law, in any internal public corridor, internal public hallway or the like serving as a means of egress to a stairway required to be fire-isolated, or an external stairway used in lieu thereof, to a passageway required to be fire-isolated or to a ramp required to be fire-isolated—
- (a) any material, other than a sarking-type material, used as the finish, surface, lining or the like or any attachment to or part of an attachment to any wall or ceiling shall—
    - (i) have a Spread-of-flame Index not greater than 0;
    - (ii) have a Smoke-developed Index not greater than 5; and
    - (iii) if only one surface of the material complies with subparagraphs (i) and (ii), have its non-complying surface in continuous and intimate contact with a non-combustible substrate;
  - (b) any sarking-type material used in the form of an exposed wall or ceiling, or as a finish or attachment thereto shall have a Flammability Index not greater than 5; and
  - (c) sub-by-laws (2) and (3) shall not apply to any material used—
    - (i) in or as a component of a structural member; or
    - (ii) as the finish, surface, lining or the like; or
    - (iii) as an attachment to or part of an attachment to any wall or ceiling.

*Restrictions on Sarking-type Material.*

- (6) Except as prescribed in sub-by-laws (4) and (5), a sarking-type material in a building described in sub-by-law (1) shall have a Flammability Index not greater than 5 when installed anywhere in—
- (a) a building of Type 1 or Type 2 construction; or
  - (b) a roof space having any portion above a ceiling required to have a one-hour resistance to the incipient spread-of-fire unless divided into separate roof spaces as described in sub-by-law (7).

*Concessions for Sarking-type Materials in Roof Spaces.*

(7) The Flammability Index prescribed in sub-by-law (6) need not apply in that portion of a roof space in a building of Type 3, 4 or 5 construction if above a ceiling not required to have a one-hour resistance to the incipient spread of fire, provided that the sarking-type materials of differing Flammability Indexes are separated by a wall—

- (a) having a fire-resistance rating of at least one-hour; and
- (b) extending from below the level of the ceiling (or below the level of the lower ceiling if the ceilings are at different levels) to—
  - (i) the underside of the roof covering if it is non-combustible; or
  - (ii) 450 mm above the adjoining roof covering if it is combustible, and

12. The hirer of the hall, or any portion thereof, shall comply with the provisions of the Health Act or any Act or regulations in force for the time being and applicable to the hiring and use of the buildings. If in the opinion of the Council, all necessary actions have not been taken to comply with the said Act, or any Acts in force, the Council may at any time prior to or during the term of engagement, forbid and prevent the use of the hall or portion thereof. The hirer must accept full responsibility in the event of any dispute arising in connection with the provisions or necessities of this by-law or the non-compliance therewith.

13. In the event of the use of the hall or any portion thereof being forbidden or prevented under the last preceding by-law the hirer shall forfeit the full amount of the hire charge and the Council shall not be responsible to the hirer for any loss or damage sustained.
