At any time during the currency of the lease, subject to the agreed development obligations and other conditions having been met to the satisfaction of the Hon. Minister, the lessee may surrender his lease to the intent that he may apply for purchase of the said land.

In the event of the lessee surrendering his lease and becoming the successful applicant for purchase of the said land, a purchase price of \$1 000 per lot shall apply for a period of 3 years from the date of approval of his lease (following which period the price shall be subject to review) and fees associated with the issue of a Crown Grant shall be payable.

The land is made available for leasing subject to the following conditions:—

- (7) The lessee shall, within twelve months from commencement of the lease, fence the external boundaries with security fencing to the satisfaction of the Minister.
- (8) The lessee shall indemnify the Minister against all claims for damage to property or persons arising from the use of the land.
- (9) The Minister or his representative may enter the land for inspection at any reasonable time.
- (10) Compensation shall not be payable to the lessee in respect of any improvements effected by him on the demised land and remaining thereon at the expiration or earlier determination of the lease.
- (11) It shall be lawful for the lessee at any time within the three calendar months immediately following the expiration of the term or earlier determination of the lease, to take down, remove, and carry away any buildings, structures, improvements and plant the property of the lessee.
- (12) On determination of the lease, the lessee shall fill in, consolidate and level off any unevenness, excavation or hole caused by him during the term of the lease or by removal of his improvements and shall leave the demised land in a clean, neat and tidy condition to the satisfaction of the Minister for Lands and shall remove any or all waste matter as required by the Minister.
- (13) Neither the Government nor the Local Authority shall be responsible for providing services to the site.

A person in the employ of the State must apply through the Under Secretary for Lands for the Governor's permission to hold this land. Written approval of the Permanent Head concerned should accompany such application.

"Board" means the Town Planning Board of Western Australia.

PART II—OBJECTS.

2.1 General Objects: The general objects of the Scheme are:—

- (a) To plan, facilitate and encourage the progressive subdivision and development of the land within the Scheme Area for industrial and other purposes;
- (b) To co-ordinate and control development in the Scheme Area;
- (c) To plan and make provision for suitable roads within the Scheme Area;
- (d) To make provision for and ensure the proper drainage of the roads and all other parts of the Scheme Area which require drainage;
- (e) To make provision for the creation of drainage reserves and easements within the Scheme Area;
- (f) To make provision for the reticulated supply of water and all works and matters incidental thereto within the Scheme Area;
- (g) To make provision for land to be used for Scheme purposes, and for the development thereof within the Scheme Area;
- (h) To establish standards for the development of land within the Scheme Area;
- (i) To make provision within the Scheme Area for such of those matters set out in the First Schedule of the Act as are necessary or incidental to the good and effective planning, subdivision and development of an industrial development scheme;
- (j) To improve and secure the amenity, health and convenience of the Scheme Area.

PART III—SUBDIVISION AND DEVELOPMENT.

3.1 Scheme Map: The Scheme Map forms a basis for the development of the Scheme Area showing the proposed location of roads, and indicates the proposed subdivision design for the Scheme Area.

3.2 Subdivision:

3.2.1 As and when an owner of land within the Scheme Area ("Owner") subdivides or develops his land such subdivision or development shall be according to a plan which will be capable of forming part of the overall plan of subdivision for the Scheme Area shown on the Scheme Map.

3.2.2 After considering the recommendation of the Council the Board may permit departures from the subdivision design shown on the Scheme Map if it considers the proposed subdivisional design to be of a similar standard to that shown on the Scheme Map but no departure from the subdivisional design shall be permitted if it would impede the subdivision of the Scheme Area as a whole.

3.3 Developer to Submit Plans: An Owner who desires to develop his land either alone or in conjunction with other owners shall submit a plan of the proposed development to the Council and if the proposals involve subdivision he shall submit to the Board a plan of subdivision in conformity with the Scheme Map which such modifications are as approved under the provisions of Clause 3.2.2.

3.4 Survey: Each Owner shall upon the approval of the plan of subdivision of his land arrange for the survey of his land in conformity with the approved plan of subdivision and shall pay the costs of such survey.

PART IV—NEW ROADS AND ROAD CLOSURE.

4.1 Construction by Owners:

4.1.1 Every new road shall be constructed and drained at the expense of the Owners of the land in which such road is shown to be situated in the Scheme Map and each Owner shall when subdividing his land make available the land required for such road and pay the costs of the construction and drainage of the roads within the land owned by him.

4.1.2 In cases where the situation of a new road is such that in the opinion of the Council it would be fair and equitable that the Owners of adjoining land should each contribute to the cost of the construction or drainage of that road and apportion the value of the land made available for such road and such Owners are unable to agree upon the proportion of the costs payable by each of them the amount (if any) payable by each such Owner shall be determined by the Council.

4.2 Construction by Council: The Council may construct and drain any new road if it so elects and may resume or otherwise acquire the land necessary for that purpose. If the Council does so prior to the subdivision of the land adjoining the road the costs of the construction and drainage of the road and all compensation and other costs consequent upon the acquisition of the land shall be paid to the Council by each respective Owner in accordance with the provisions of the preceding clause.

4.3 Closure of Roads: The roads shown on the Scheme Map as roads to be closed shall be closed as the development of the Scheme Area proceeds and as such roads are no longer required. When the said roads have been closed the land comprising the closed roads shall be used for the purposes shown on the Scheme Map.

PART V—CONSTRUCTION OR IMPROVEMENT OF EXISTING ROADS.

5.1 Construction by Council: The construction, improvement, widening or drainage of or other works relating to any roads within the Scheme Area which have been dedicated prior to the date of gazettal of final approval to the Scheme but are unmade or in the opinion of the Council require improvement, widening, drainage or other works shall be carried out by the Council unless in any particular case it decides otherwise.

5.2 Scheme Road: If a road referred to in Clause 5.1 is designated on the Scheme Map as a Scheme Road the cost of construction improvement, widening, drainage, or other works shall be a Scheme cost.

5.3 Other than Scheme Road: If a road referred to in Clause 5.1 is not designated on the Scheme Map as a Scheme Road each owner of land adjoining the road shall pay his proportion of costs or estimated costs of the construction, improvement, widening, drainage, or other work and all compensation and other costs consequent upon the acquisition of land for road widening.

PART VI—WATER SUPPLY DRAINAGE AND LIQUID WASTE DISPOSAL.

6.1 Water Supply and Drainage Works: Such local drainage works and water supply works as are in the opinion of the Council necessary for the proper servicing of the Scheme Area and the connection of the land therein to main drains, and to water mains shall at the appropriate times be carried out by the Owners of the land served by such works or by the Council if it elects but in any event at the cost of the Owners served by the works.

6.2 Resumption or other Acquisition of Land: The Council may resume or otherwise acquire such land as it considers necessary for drainage or water supply services and may set aside land for drainage sumps and compensating basins and other works.

6.3 Carrying out by Council: If the Council in accordance with the last two preceding clauses carries out the local drainage works or water supply works or resumes or otherwise acquires land necessary for drainage or water supply services each Owner of land served by those works or benefiting from those services shall pay his proportion of the costs or estimated costs of the works and all compensation and other costs consequent upon the acquisition of land in accordance with the last preceding clause.

6.4 Progressive Development: The Scheme Area may be progressively developed as the drainage and water supply works proceed.

6.5 Liquid Waste Disposal: It is anticipated that the Scheme Area will be subdivided and developed without a sewer connection being available. Any proposal for development in the Scheme Area shall therefore be subject to approval by Council having regard to the nature of the soil in the Scheme Area and its ability to permit efficient operation of an apparatus for bacteriolytic treatment of the sewage and disposal of effluent likely to be produced by the proposed development.

PART VII—OTHER WORKS AND ASSOCIATED MATTERS.

7.1 Natural Gas Pipeline: No building shall be erected within a distance of twelve metres (12 m) of the natural gas pipeline. Soil of a depth of at least 1.2 m shall at all times be kept over the natural gas pipeline and a person shall not by digging or excavation on any land within the Scheme Area reduce the depth of the soil above the pipeline to less than 1.2 m.

7.2 Levelling and Filling: If any land requires levelling or filling before it can be subdivided or built upon the costs of such works shall be borne by the Owner of the land.

PART VIII—FINANCE AND ADMINISTRATION.

- 8.2.2 Each owner when subdividing his land shall pay or make satisfactory arrangements with the Council to pay his proportion of Scheme costs referred to in Clause 8.1 before the Council gives a clearance to the Board prior to its endorsement of final approval of subdivision.

(g) To dispose of any lots to which it becomes entitled whether under subclause (c) or (f) hereof or otherwise upon such terms and conditions as it may think fit and without limiting the generality of the foregoing the Council may sell the lots singularly or in groups and on conditions if it sees fit to improve them.

(h) To exercise any other power referred to in the First Schedule of the Act.

8.7 Acquisition of Land by the Council:

8.7.1 If any owner of land within the Scheme Area:—

(i) does not proceed with the subdivision and/or development of his land in accordance with the terms of the Scheme or

(ii) by the reason of the nature of his land is unable to subdivide and/or develop it,

and his failure to do so will, in the opinion of the Council unduly delay the subdivision and/or development of the Scheme Area, the Council may exercise its powers to compulsorily acquire the land under Section 13 of the Act and proceed with the subdivision and/or development of the land in accordance with the provisions of the Scheme.

8.7.2 In the event of the Council exercising its powers under subclause 8.7.1 it shall have all the powers of an owner in the subdivision development and disposal of the land. 9.1.2 If a valuation made by the valuer shall be changed as a result of an objection, the valuer may reconsider the values placed on other lands and make such re-valuations as he considers just and equitable.

9.2 Estimates of Costs: The Council may from time to time estimate the appropriate proportion of the costs payable by any Owner pursuant to any provision in the Scheme, prior to the determination of the final costs. The costs required by the Council to be contributed by any Owner pursuant to any provision of the Scheme may be the estimated costs provided that upon the determination of the final costs the Council shall make appropriate adjustments to recover from Owners any amount by which the estimate falls short of or to repay any amount by which the estimate exceeds the final costs as determined.
