Department of Lands and Surveys,  
Perth, 10 September 1982.

File No. 3409/66, V2.

HIS Excellency the Governor in Executive Council has been pleased to approve under Part V Division 4 sections 84, 86(c) and 87 of the Land Act 1933 of Oldfield Location 1371, containing an area of 2054.6811 hectares, being set apart as Special Settlement Lands and made available for selection at a price of \$47.43 per hectare, by the class of selectors and subject to the conditions detailed below. This location is situated about 16 kilometres east of Ravensthorpe Townsite.

Class of Selectors:

Applications are restricted to the class of persons detailed hereunder who will be required to establish to the satisfaction of the Land Board that they are persons who:—

- (a) are new farmers, including share farmers, who have a minimum capital of \$90 000 available for investment on the land allotted within three (3) years of the commencement of development, which capital may be in the form of farming plant or realisable assets; or
- (b) are established farmers who can demonstrate that they are in need of land, additional to that which they already hold, to achieve an economic standard which in the opinion of the Minister constitutes viability; or
- (c) are sons of established farmers who cannot achieve economic independence on land owned by their father and whom their father is prepared to support financially.

In the case of established farmers and sons of established farmers as referred to in (b) and (c) above, the established farmer must have a minimum surplus capital of \$45 000 which may take the form of money borrowed on the security of the established farm. In addition, the existing farming plant, sheds and housing on the established farm must be sufficient to ensure satisfactory development and farming of the new land allotted. The established farm must be proven to be in such a financial position as to be sufficient to pay all operating costs, including plant replacement and debit servicing.

The successful applicant will be required to provide an "initial development plan", prepared in consultation with officers of the Department of Agriculture in order to minimise environmental hazards consequent to clearing and cultivation of virgin land. The initial development plan must be lodged with the Department of Lands and Surveys for approval by the Minister for Lands.

The lessee shall ensure that all farm development (including clearing) is in accordance with the approved initial development plan. As development proceeds, the "plan" may be modified as necessary, in consultation with officers of the Department of Agriculture. A copy of the revised plan must be lodged with the Department of Lands and Surveys for approval by the Minister for Lands.

## Special Conditions:

This location is made available for selection subject to Mining Conditions and to the development conditions applicable under Part V, Division 1 of the Land Act.
