## LAND ACT 1933.

Land Release.

Newman Town Centre.  
Commercial Centre—Stage 1.

File No. 3152/981.

APPLICATIONS are invited under section 45A of the Land Act 1933 for the purchase in fee simple of Newman Lots 1512-1515 inclusive, and 1517, as one unit, containing a total area of 4.724 3 hectares for the purpose of "Commercial Centre (Stage 1)" at a purchase price of \$30 000 plus a service premium of \$32 000 and subject to the following conditions:

Advice to Applicants and Conditions of Application.

1. The concept for the Newman Town Centre Stage 1 release anticipates development to include:

- 1.1 a major Super-Market facility,
- 1.2 a range of small and medium shop sites,
- 1.3 a Tavern-Restaurant,

- 1.4 a Service Station,
- 1.5 service facilities, possibly oriented to the motor trade,
- 1.6 adequate on-site parking, oriented to the requirements of the various sections of the development.

2. Valuable guidance is contained in the Newman Town Centre Planning Report September 1981 prepared by Taylor and Burrell, which is available upon request from the Department of Lands and Surveys at a cost of \$15.00.

3. All land released in the Town Centre requires a contribution to the cost of works, with funds being held in Trust by the Shire of East Pilbara until the works can be effected. The Service Premium of \$32 000 represents a contribution to future Town Centre works to be co-ordinated by the Shire for the undermentioned:

- 3.1 upgrading and widening of the existing Main Drain through the Town Centre, and
- 3.2 landscaping of Public Areas, provision of pedestrian and cycle access, and a footbridge across the drain.

4. The following aspects are basic to the concept, and are to be incorporated in any proposed development plan.

- 4.1 Surface drainage (as against underground piped drainage) shall be utilised whenever possible.
- 4.2 Land in the development area shall be graded to provide a minimum fall of 1 in 120 in at least one direction to provide adequate drainage.
- 4.3 All street pavements shall be constructed to a minimum of 1.0 metre above the main drain invert level when measured 90° to the drain centreline.
- 4.4 On all commercial land, finish ground levels shall be to a minimum of 1.0 metre above main drain invert level.
- 4.5 All building finished floor levels shall be to a minimum of 1.25 metres above main drain invert levels.

5. Sewer design should take note of the requirement to accommodate a subsequent link serving the Service Station proposed for later development on Lot 1516.

6. Water supply design, will need to recognise the long term intention for extension of mains northwards to service the balance of the Town Centre area.

7. The overall drainage concept plan anticipates discharge from the project area to the Main Drain traversing the Town Centre.

8. Intending applicant shall submit with their applications:

- 8.1 Detailed plans of the proposed development to be in compliance with the Town Planning Regulations and Building By-laws as administered by the Shire of East Pilbara with particular reference to provision of parking, use of suitable building materials and landscaping proposals. Conceptual development strategies are illustrated in Taylor and Burrell's September 1981 Town Centre Report. (Refer paragraph 2 above.)
- 8.2 Details of timing of the proposed development programme including details of staging where proposed, as from the date of allocation of the site.
- 8.3 Details of cost estimates, related to stages of development.
- 8.4 Details of source/s of funds.
- 8.5 Details of any previous experience in the development and/or management of similar projects.

## Conditions of Sale.

9. The Minister for Lands reserves the right to refuse any application on the grounds that the proposed development and/or development programme is inadequate or unsuitable or that the applicant has failed to show adequate capacity to fund his development programme.

- 9.1 A deposit of 10% of the purchase price and service premium is payable on application and the balance payable within 30 days of allocation of the land.
- 9.2 On payment of the purchase money a licence will be available upon which a mortgage can be registered. A Crown Grant (freehold) will become available when the purchaser has complied with the building requirements as defined.
- 9.3 Prior to the commencement of construction the Minister shall advise the purchaser of the extent of development that will be necessary to enable the issue of a Crown Grant.
- 9.4 The purchaser shall within the six months next following the date of approval of the sale of the land commence to erect or construct or cause the erection or construction to be commenced and will thereafter diligently proceed with and complete or cause to be completed within the two years next following the date of approval of the sale the erection or construction on the said land of premises designed and constructed for purposes compatible with the approved layout for the Commercial Centre. If this condition has not been complied with in the time prescribed the land may be absolutely forfeited together with all the purchase money and fees that may have been paid.
- 9.5 Subject to agreement between the purchaser and the Minister, the foregoing site development obligations and other conditions set out herein may be varied or added to from time to time.

## Obligations of Developer for Provision of Services.

10. The developer will be required to instal at his expense, within a period of 12 months from the date of land allocation, utility services as listed below:

- 10.1 Roadways and Bridgeworks.  
All roadways and bridgeworks as illustrated in brown on the print at page 4 of Lands and Surveys File No. 3152/981, are to be carried out to the specifications approved by the Shire of East Pilbara. At a time to be agreed with the Shire, the existing link between Fortescue Avenue and the Town's main entry road, shown in broken brown line at page 4, is to be removed.
- 10.2 Sewer and Water Supply.  
The design and specifications for the provision of reticulation services for sewer and water supplies to accommodate the land release shall be to the approval of the Mt. Newman Mining Co Pty Limited or an alternative controlling authority. Conceptual treatment for water and sewer mains is shown in blue (water) and purple (sewer) at page 4.
- 10.3 Electric Power Supply and Street Lighting.  
This service is required to accommodate the land released in a manner compatible with future requirements in the Town Centre. The street lighting shall extend to all roads constructed under paragraph 10.1 above. The design and specifications shall be to the approval of the Mt. Newman Mining Co. Pty Limited or an alternative controlling Authority. In conformity with standards already established in the town, power reticulation services should be located underground.
- 10.4 Drainage.  
Surface drainage from the project area, including the roadways which are required to be constructed shall be to the design and specifications approved by the Shire of East Pilbara.

11. In connection with the foregoing development obligations it is required as a condition of release that the developer give satisfactory undertakings regarding the handover to the nominated authorities of all road drainage and bridgeworks effected outside the land under purchase, and all sewer, power and water reticulation lines (as against internal linkages) together with all or any required easements over alienated land, upon the completion of these works to the satisfaction of the relevant controlling authority.

12. Upon confirmation of land allocation, the successful applicant shall be granted right of entry to affected areas of road and vacant Crown land to facilitate his development of road and utility service facilities as nominated in paragraph 10.

A person in the employ of the State must apply through the Under Secretary for Lands for the Governor's permission to hold this land. Written approval of the Permanent Head concerned should accompany such application.

Applications must be lodged at the Department of Lands and Surveys, Perth, on or before Wednesday, 10 November 1982, accompanied by a deposit of \$6 200 together with the required development details and completed Land Board Questionnaire.

All applications lodged on or before that date will be treated as having been received on the closing date and, if there are more applications than one for the land, the application to be granted will be decided by the Land Board.
