- (e) In respect of each such owner who does not become entitled to an interest in the Scheme, deduct the sum calculated under paragraph (c) from the compensation payable to that owner;
 - (f) In respect of each such owner who does become entitled to an interest in the Scheme, deduct or add as appropriate the sum calculated under paragraphs (c) and (d) in the calculation of the owner's entitlement to share in the Scheme net profits or obligation to contribute to any Scheme loss.
 - (g) In the event that the sum calculated under paragraph (c) of the preceding subclause exceeds the value of the owner's interest in the Scheme or the compensation payable to him, the excess shall be paid by the owner to the Council within twenty-eight days of the Council by notice in writing requiring payment.
20. If an owner shall object to the before value placed on his land he may give notice of such objection to the Council within twentyeight days after having been served with notice of the said value. If the valuer does not agree to change the value to a figure acceptable to the owner, the before value shall be determined by arbitration in accordance with the provisions hereinafter contained and in making his determination the arbitrator shall have regard to the parity between the valuation the subject of the objection and the before values of other land in the Scheme Area and if the evidence relating to land values shows a disparity the arbitrator shall determine a value which is comparable with the basis of and valuations made of the other land in the Scheme Area.
21. (1) The before value placed upon the land of any owner may be revised from time to time by the valuer provided that if it is necessary as a result of such revision, the valuer may reconsider the before values placed on other lands and make such revisions as he considers just and equitable.
- (2) If a valuation made by the valuer shall be changed as a result of an objection, the valuer may reconsider the before values placed on other lands and make such revaluations as he considers just and equitable.
22. If more than half the owners of land within the Scheme Area object to the before values placed on their land within the period of twentyeight days referred to in Clause 20 hereof, the Council shall appoint three independent valuers nominated by the President for the time being of the Australian Institute of Valuers (Inc.) (W.A. Division). This panel of valuers shall reassess all valuations for the purpose of the foregoing clauses and the determination of such panel of valuers shall be accepted as the final before value for the purpose of the Scheme.
23. The Council shall cause to be kept a Register of Owners' Interests in the Scheme and such Register shall be in the form of and contain the information detailed in the Third Schedule.
24. On the completion of the Scheme each owner who has accepted the said offer shall be entitled to share in the Scheme net profits according to his interest in the Scheme.
25. A person may in writing signed by him and the transferee in the form in the Fourth Schedule hereto transfer his interest in the Scheme. Upon the receipt of a transfer duly stamped the Council shall cause the transferee's name to be entered in the Register as the owner of the interest in the Scheme the subject of the transfer. A transfer by an owner of any land transferred to him by the Council pursuant to the Scheme does not of itself transfer that owner's interest in the Scheme.
26. (1) If in the opinion of the Council it is not necessary in order to pay the costs of the Scheme to sell all of the subdivisional lots produced within the Scheme Area excluding any Private Development Lands the Council may after subdivision transfer new lots to those participating owners who desire to have such lots and who agree to the conditions of development (if any) imposed pursuant to the following clauses and the value as at the date of transfer of a lot so transferred shall be debited against the owner's entitlement to share in the Scheme net profits. The said value shall be a fair market value certified by the Council, acting on the advice of the valuer. The Council shall allocate as

equitably as possible the lots to be transferred to the participating owners and shall allocate lots to each owner located as near as possible to that owner's original land holding.

(2) Notwithstanding the provisions of the preceding subclause, the Council may retain sufficient lots to provide for future adjustments of Scheme Costs not ascertained at the time of distribution of lots to owners. Any such retained lots remaining after the Scheme Costs have been ascertained and paid may be transferred to participating owners in accordance with the preceding subclause or otherwise sold and the proceeds of sale distributed in accordance with Clause 40 hereof.

27. The Council may specify standards for the development of new lots within the Scheme Area other than for single or duplex houses including the Private Development Lands and may impose such conditions as it sees fit before transferring lots to participating owners and in the case of owners of Private Development Lands such conditions may be imposed in the agreement referred to in Clause 44 hereof or at any other time.

School Sites.

28. (1) The lands shown on the Scheme Map as a primary school shall be transferred to the Education Department of the State of Western Australia upon payment to the Council by the Education Department of the following moneys:—

- (a) A sum equivalent to one half of the cost as determined by the Council of providing the roads fronting the primary school site, but including in the determination of that cost any fees paid to consultant engineers or surveyors;
- (b) A sum equivalent to the cost as determined by the Council of providing reticulated water in those roads; and
- (c) Such contribution to the cost of providing the sewerage as is determined by the Council after reasonable discussion and negotiation with the Education Department.

(2) (a) If the primary school site is on Private Development Lands that site shall be transferred to the Council free of cost in order that the Council may transfer the same to the Education Department in accordance with the preceding subclause.

(b) The Council shall credit to the landowner the net value of the primary school site less the value of the owner's contribution to that site ascertained in accordance with paragraph (a) of subclause (5) of Clause 44.

(c) The moneys received from the Education Department for the primary school site insofar as they do not exceed the net value of the primary school site shall be set off first against any liability or anticipated liability of the landowner for Scheme Costs and any balance shall be paid or otherwise credited to the landowner. Insofar as the moneys received from the Education Department do exceed the net value of the primary school site, that excess shall be credited to the Scheme.

(d) The Council at its option may transfer to the landowner lots, or money and lots in lieu of any balance sum required to be paid to the landowner pursuant to the preceding paragraph of this subclause.

(3) The lands shown on the Scheme Map as a high school site shall be made available for acquisition by the Education Department on such terms and conditions as the Council and the Education Department agree and in default of agreement as determined by arbitration in accordance with the provisions for arbitration hereinafter set out. In any event and notwithstanding any other terms and conditions agreed or determined by arbitration, the Education Department shall pay all costs associated with the servicing of the High School Site. The moneys received by Council in respect of such acquisition shall be applied as follows:—

- (a) To pay up to one half of the Scheme Costs incurred in respect of the Sub-Area in which the high school site is situated insofar as those costs relate to the provision of roads and ways adjoining the high school site, the provision of water reticulation in those roads, and a contribution towards the costs of providing the sewerage; and

- (b) Any balance of moneys shall be applied to the Scheme Net Profits for each sub-area and distributed to each owner of Private Development Lands in the same ratio as each contributed to the land required for the high school site or the net value thereof.

(4) "Net value" in relation to the primary school site, the high school site and the Community Purposes Site for the purpose of this clause and Clause 44 means the amount ascertained by the Valuer as at the date of gazettal of the Scheme as the *en globo* value of the land comprising the site plus a margin for profit and risk which could reasonably have been expected by a developer if the land had been subdivided in accordance with the lot equivalent of the site and sold as individual residential lots.

Development in Sub-Areas.

29. If the Council elects to subdivide and develop land within the Scheme Area by Sub-Areas, it may treat a Sub-Area as the Scheme Area for the purpose of all relevant provisions of this Scheme. The Council may make adjustments in the payment of the Scheme Costs between Sub-Areas to ensure that so far as possible, equality of burdens and benefits is achieved.

Private Development Lands.

30. Owners of Private Development Lands shall contribute to the Scheme Costs as provided in their respective agreements with the Council made in accordance with Clause 44 hereof.

Council Lands.

31. If the Council is or shall be the owner of any land in the Scheme Area other than as the Responsible Authority under the Scheme it shall have similar rights to an interest in the Scheme as have other owners of land within the Scheme Area and for those purposes shall be a participating owner.

Additional damage or Inconvenience.

32. If an owner shall in the opinion of the Council suffer any additional damage or inconvenience by reason of the Scheme, the Council may offer to such owner such sum of money or additional lot as it (acting on the advice of the valuer) considers equitable. The said offer shall be made with the offer referred to in Clause 15 hereof to the intent that the owner may not accept the offer mentioned in Clause 15 either wholly or in part without accepting the offer mentioned in this clause.

Nature of Offers and Acceptances.

33. The offers mentioned in Clause 15 shall be made in writing in the form in the Fifth Schedule or as near thereto as the circumstances permit to each of the owners according to the Register of Owners and shall be served by certified post on such owner at his address as appearing in the Register of Owners.

34. The offer shall specify a date not being less than twenty-eight days after the posting of the said offer within which the offer may be accepted.

35. The offer may be accepted by delivery to the Council of a notice in writing in the form in the Sixth Schedule at any time before the date specified in the said offer and if not accepted within such time shall be deemed to have been rejected unless the time is extended by the Council. Delivery to the Council of such notice shall be by personal delivery receipted by a member of the Council staff or by certified post.

36. If any land in respect of which an offer has been made was at the date on which the land was acquired by the Council subject to an encumbrance or caveat noted on the Certificate of Title no acceptance of the offer shall be deemed valid unless all persons entitled to an interest in the land have consented to the acceptance of the offer.

37. If an offer be accepted it shall be accepted by the owner on the basis that such acceptance is a complete bar to all claims for compensation which the owner may have had in respect of the resumption from

him of his land in respect of which the offer was made and otherwise in respect of the operation of the Scheme but shall not debar him from participating in the profits of the Scheme while he is the owner of an interest in the Scheme.

38. If an owner does not accept the offer he shall not be entitled to any interest in the Scheme or to participate in the Scheme net profits but shall be entitled to claim compensation in accordance with the provisions of the Public Works Act 1902 (as amended) in respect of any land resumed pursuant to the provisions of the Scheme.

Sale of Lots.

39. The Council may sell the lots created by the re-survey of the Scheme Area other than the lots to be transferred to owners, either by public auction tender or private contract in groups or in separate lots upon such terms and conditions as to the Council shall seem fit. When offering lots for sale by tender, the tenderer may be asked to submit an outline of the proposed development and the approximate cost thereof and to agree to carry out the development within a limited time if his tender be accepted. The Council in calling for tenders may specify standards with which the proposed buildings must comply. The Council shall not be bound to accept the highest or any tender but may accept a tender which contains proposals the Council thinks the most suitable. In the event of a sale by private contract the price shall be not less than the price recommended by the valuer unless after submitting the land for sale by public auction or tender that price has not been obtained.

Division of Profit.

40. The Council on completion of the Scheme shall divide any balance of Scheme Net Profits among the participating owners according to their interests recorded in the Register of Owners' Interests.

Encumbrances on Title.

41. In the event of any land in the Scheme Area being subject to a registered mortgage charge or lease or to a caveat to protect the interest of the purchaser mortgagee chargee or lessee as at the date of acquisition by the Council, the Council shall not make any payments to nor transfer a new subdivisional lot to the owner without the consent of all persons entitled to the benefit of the encumbrance or unless subject to similar encumbrances.

Rates and Taxes and Moneys Owing to Council.

42. (1) Owners of land within the Scheme Area shall continue to be liable for and to pay rates and taxes on the proportion of their holdings included in the Second Schedule, and owners also shall continue to be liable for and to pay rates and taxes on other parts of their original holdings until excluded from actual occupation thereof.

(2) Owners shall be liable for the payment of rates and taxes on any new lot or lots received from the Scheme from the time that the transfer in respect of such lot or lots has been executed by the Council.

(3) The Council shall deduct from any money payable to an owner the amount of any unpaid rates or taxes and any other money owing by the owner to the Council pursuant to the Scheme. Except in the case of pensioners the payment of whose rates has been lawfully postponed, no transfer of a new lot executed by the Council shall be made available to an owner unless all money owing by him for rates and taxes and other moneys owing pursuant to the Scheme have been paid.

Nursery Site.

43. The following provisions shall apply to the land known as Lot 12 Newburn Road and more particularly described as Portion of Swan Location 2753 and being Lot 12 on Diagram 19754 and being the whole of the land in Certificate of Title Volume 1362 Folio 595 ("Lot 12"):-

- (a) Lot 12 shall be included in the Scheme;
- (b) The portion of Lot 12 and the portion of the adjoining Lot 11 Newburn Road both portions shown crosshatched on the Scheme Maps ("the Nursery Land") shall not be subdivided or developed by the Scheme;

- (c) The balance of Lot 12 shall be subdivided and developed in accordance with the provisions of the Scheme and for that purpose will be acquired by the Council;
 - (d) In accordance with the preceding provisions of the Scheme Text, the whole of Lot 11 Newburn Road shall be acquired by the Council, and after the transfer to the owner of Lot 12 of the portion of Lot 11 included in the Nursery Land the balance of Lot 11 shall be subdivided and developed in accordance with the provisions of the Scheme;
 - (e) The interest in the Scheme of the owner of Lot 12, in respect of the balance of Lot 12 not included in the Nursery Land shall be assessed on the before value of that balance less the before value of the portion of Lot 11 included in the Nursery Land, but there shall be no entitlement to an interest in the Scheme in respect of the portion of Lot 12 included in the Nursery Land;
 - (f) Should the owner from time to time of the Nursery Land at any time proceed with the total or partial subdivision of that land then he shall pay to the Council the Scheme Costs referred to in the next paragraph calculated in accordance with paragraphs 19.5(b), (c) and (d) for each subdivisional lot to be created;
 - (g) The Scheme Costs payable in accordance with the preceding paragraph shall be the cost of the works for Sub-Area 2 escalated from the date of completion of subdivision and development by the Council of that Sub-Area to the time of payment to include increases in the standard water and sewerage headworks charges levied by the Metropolitan Water Authority;
 - (h) Should the Scheme Costs assessed in accordance with paragraphs (f) and (g) be paid before the winding up of the Scheme, the amount paid shall be treated as Scheme income;

- (4) The Scheme Costs to which an owner of Private Development Lands may be required to contribute for the purpose of an agreement of the kind referred to in subclause (1) of this Clause shall include those costs referred to in Clause 13 hereof excluding the costs of compulsory acquisition of land (other than land described in the First Schedule hereof) and an amount estimated by the Council as being equivalent to the costs of administration for works not related to the Scheme Area as a whole.
- (5) Without limiting the generality of the provisions contained in paragraph (b) of subclause (2) and in subclause (4) of this Clause the Council shall not require an owner of Private Development Lands to make contribution to any of the following Scheme Works in a proportion greater than that referred to hereunder in relation to that work namely;

- (a) in respect of the Primary School Site the value of the contribution to be produced within the Private Development Lands in question bears to the total of residential lots to be produced in Sub-Areas 1 to 4 inclusive. - (b) in respect of the high school site the value of the contribution to be made shall be in the same proportion of the net value of the high school site as the number of residential lots to be produced within the Private Development Lands in question bears to the total number of residential lots to be produced in Sub-Areas 1 to 5 inclusive, subject to the provisions of Clause 28 hereof. The lot equivalent of the high school site for the purpose of this Clause shall be 93 residential lots.

In the matter of the Government School Teachers Arbitration and Appeal Act and in the matter of an application to amend the Government School Teachers' Salaries Award (1981).

Between The State School Teachers' Union of Western Australia (Incorporated) Applicant, and the Minister for Education, Respondent.

Order.

Upon hearing Mr. W. Latter on behalf of the Applicant and Mr. M. O'Connor on behalf of the Respondent the Tribunal, pursuant to the provisions of section 26 (2) of the above Act, hereby orders that:

1. The Government School Teachers' Salaries Award (1981) be amended as follows:

- (i) by increasing the salaries and other payments prescribed under Parts III, IV and V of Clause 5 thereto by 5.3 per centum with effect on and from 6 September 1982;
- (ii) by adding the following proviso to the paragraph under Part I—General:—

Provided that the said pay rates shall be varied by such percentage as is equal to 80 per centum of the sum of the changes in the Consumer Price Index for the December 1982 and the March 1983

quarters payable on and from the first day of April 1983 and the effect of any such national wage case decision handed down on or before the 30th day of September 1983 shall be limited to the amount the variation thereunder expressed as a per centage exceeds that determined under this proviso.

2. Upon the publication of the Consumer Price Index for the September 1983 quarter the parties shall have liberty to apply on the issue of whether or not any further variation should be made based on movements reflected in that index after the preceding March quarter.

Application No. S3/82.

BEFORE THE GOVERNMENT SCHOOL
TEACHERS' TRIBUNAL.

Reasons for Decision.

On 6 September 1981 and pursuant to the provisions of section 18 of the Government School Teachers Arbitration and Appeal Act the applicant submitted to the Tribunal for arbitration a claim to amend the above award in these terms, viz:—

Amend Clause 5—Part I, General, to read:

"That all pay rates prescribed in this Award shall be varied to the extent necessary to give effect to any decision by the New South Wales Industrial Commission in respect to the Crown Employees (Teachers, Education Teaching Service) Award, so that the nexus established for the sixth, seventh, eighth and fourth, fifth, sixth, seventh incremental rates of the respective three-year and four-year-trained teachers is retained."

Amend Clause 5—Parts III and IV, Salary Tables. All pay rates prescribed in this Award be increased by 4.7% from the beginning of the first pay period to commence on or after 27 August 1982. In

addition to the foregoing shall be added any amount which may arise from the formulae established in Clause 5, Part I, General.

Alternatively

Amend Clause 5—Part I, General, to read:

"Either party is granted liberty to apply to vary the pay rates prescribed in this Award in the event of—

- (a) A movement of teachers' salaries in N.S.W.
- (b) A movement of teachers' salaries, generally, in other States.
- (c) A movement in the Consumer Price Index.
- (d) A National Wage movement as decided by the Australian Conciliation and Arbitration Commission.
- (e) Any other circumstances which may warrant an increase in teachers' salaries."

Amend Clause 5—Parts III and IV, Salary Tables.
All pay rates prescribed in this Award be increased by 10.9% from the beginning of the first pay period to commence on or after 27 August 1982.

Alternatively

Amend Clause 5—Part I, General, to read:

"That all pay rates prescribed in this Award shall be varied to the extent necessary to give effect to the June quarter 1982 Consumer Price Index increase, and any subsequent increases in the Consumer Price Index for the term of this Award."

Amend Clause 5—Parts III and IV, Salary Tables.

All pay rates prescribed in this Award be increased by 10.9% from the beginning of the first pay period to commence on or after 27 August 1982.

By his answer filed on 13 September the Respondent rejected such claims in the terms of his letter to the General Secretary of the applicant dated 2 September. At the hearing Mr. O'Connor for the Respondent advised the Tribunal that the offer of settlement contained in that letter if now applied meant an increase across the board of 3.75%. The Respondent, we were told, objected to any amendment to "Part I—General" which provides for adjustment of salaries during the currency of the award in accordance with decisions of the Australian Conciliation and Arbitration Commission made on economic grounds and of general application.

In his opening, Mr. Latter for the applicant said that the claim preferred by his client was for an order that:—

- (i) the salaries of teachers in Western Australia be increased by 4.7% to bring them into line with those being paid to their counterparts in New South Wales, and
- (ii) the salaries so varied be further varied from time to time in accordance with decisions of the Industrial Commission of New South Wales affecting the rates of salaries payable to teachers in that State.

The Tribunal is informed that there is at present before the Industrial Commission of New South Wales a claim for an increase of 5.9%. If teachers in New South Wales were to obtain the order sought, as the applicant believes they will, then under this claim the Respondent would be called upon to meet cumulative increases totalling 10.9% within a very short time span.

In the course of the comprehensive review of salaries conducted before the Tribunal last year the Applicant sought, in effect, the insertion of a term in the award providing for automatic variations of rates in accordance with decisions of the Industrial Commission of New South Wales. In the decision handed down on 20 November 1981 the Tribunal rejected that claim. No evidence has been adduced or argument presented on this occasion to persuade the Tribunal to overrule that determination. The reasons given therefor and referred to by Mr. O'Connor (see page 32 of the transcript) are as valid now as they were then.

Each of the claims made in the alternative is presented as a package and it now follows, if the application is to succeed, it must be under another head.

As we understand Mr. Latter's submissions the Applicant claims relief upon the following grounds:—

- (i) comparative wage justice, calls for higher salaries because of the salaries now paid to teachers in New South Wales and elsewhere, and
- (ii) the current salaries are unfair because they do not reflect movements in the Consumer Price Index.

Before dealing with those submissions we refer to the application for the issue of the award. In 1981 the Applicant presented to the Tribunal a comprehensive work value case in which it was claimed that the salaries then being paid did not adequately provide for the increase in the value of the work of teachers since 1974. That claim was upheld and in the award made on 20 November teachers were granted an increase of 5.9% commencing on or after 27 August. By consent of the parties the award contained the provision for variations of salaries in accordance with decisions of the Australian Conciliation and Arbitration Commission to which we have already referred. Notwithstanding the abandonment of indexation by that commission on 31 July (see National Wage Case Print E 3700) it appeared that the parties contemplated that when the issue was later reviewed wage increases based on the Consumer Price Index would be granted. In the circumstances the Tribunal did not bring into account any movement in the Consumer Price Index subsequent to the March 1981 quarter in fixing the value of the increase in work value. To have done so would have introduced the risk of double counting. In point of fact indexation in any form has not been reviewed by the Australian Commission.

On 30 April this year the Applicant submitted to the Tribunal for arbitration a claim to amend the award under the provisions of section 26 (3) of the Act which provides that the Tribunal on application by a party may vary or rescind all or any of the provisions of an award if in its opinion—

- "(a) circumstances have arisen which, at the time the award was made, or when the provisions were, or the provision was, last reviewed under this Part, could not reasonably have been foreseen by the parties; and
- (b) those circumstances render those provisions or that provision of the award no longer just."

In bringing that application the Applicant acknowledged that the terms of award were just at the time it was made. The Tribunal found that since 20 November 1981 salaries in Western Australia had fallen, in comparative terms, to the lowest paid to teachers in Australia. The parties agreed that at the time of the making of the award they had contemplated that within twelve months salaries would be varied as a result of a National Wage Case decision. In fact, of course, no such decision was made. The Tribunal held that a case had been made out and ordered that all salaries be increased by 7.5% with effect from the first pay period commencing on or after 27 May 1982.

Since the end of the March 1981 quarter a substantial upward movement has occurred in the Consumer Price Index. The indices down to June 1982 have been published and from that data and the material produced at the hearing it is not a matter of great difficulty to make a reasonable estimate of the movement for the period from 1 July, 1982 to the date of hearing. In our judgment the total change in the Consumer Price Index from the March 1981 quarter has been about 14.9%.

Mr. O'Connor urged us not to impose a burden which would place too great a stress on the financial resources of the State. He pointed to a series of tables (Exhibit B) indicative of the difficulties in the economy which would only be exacerbated if excessive salary increases were granted.

Movements in rates of salaries are not determined on grounds which are purely economic. There has developed an overlay of what is fair and just. Economists agonize over this development. Referring to the Harvester Case, Shann said (see the Economic History of Australia, Page 375, published in 1930)—"In 1907, a Judge of

the High Court of Australia, presiding over a Federal Arbitration Court, took high morale ground in claiming for the workers a wage independent of supply and demand."

The effrontery of Higgins, J. as seen by Shann would not attract that kind of criticism in the field of industrial relations today. Nevertheless every wage fixing authority must have regard for the economic environment in which it functions.

We are referred to a table setting out the growth in average weekly earnings from 1966 to 1981. It is noted that there has been a marked acceleration of change since the abandonment of indexation. For the year ending 30 June 1982, the percentage of change from the previous year is given as 17.4%. Mr. O'Connor says that figure represents an upward movement of 6% in real terms. It would appear that his estimate is too conservative and should be 6.7%—an increase of almost 50% on the amount of the change for the preceding year. It is generally conceded that increases in salaries in real terms come mainly from growth in productivity. If growth in salaries outstrips growth in productivity then increased prices will follow and the risk of higher unemployment is heightened.

Rates of change in teachers' salaries we note have been significantly less than the national average (see exhibit B). For the year ending 30 June 1981 the only changes were those reflecting National Wage Case determinations. Again for the next year—without discounting any part of the work value increment of 5.9%—the total change amounts to 13.4%.

Whatever the factors which brought to an end indexation, the rate of change in the salaries of teachers in this State could not reasonably be seen to be an influence. Again the increases in real terms they have gained do not appear to have materially outstripped the growth in national income. Within the broad economic framework and having due regard for the matters to which we have referred it is clear that in fairness teachers' salaries should now be increased.

In our view the proper course in the first instance is to look to the movements in the Consumer Price Index. The change of 14.9% should be reflected by an increase of 5.3% calculated as follows:—

	4.3%	being June and September 1981 quarters.
	8.5%	being 80% of the change thereafter.
	12.8%	
less	7.5%	awarded in application S2/82.
	5.3%	

Applying the principles of comparative wage justice, as to which the parties are in agreement, we now look to the rates of salaries for teachers prevailing in other States. Whilst the incremental pattern on the automatic scales varies substantially from State to State, that in New South Wales closely resembles that in Western Australia. At the present time the rates in New South Wales are from 3.8% to 5.2% higher than here. In contrast the relevant percentages in South Australia are 2.2% and 7.1%. In all the circumstances

we consider that an increase across the board of teachers' salaries by 5.3% is justified. That increase shall apply on and from the date of the reference to arbitration, viz. 6 September 1982.

The claim for an automatic adjustment looms larger now than heretofore because it appears almost certain that a national wage decision of general application will not be brought down in the foreseeable future. We are conscious of the strong objections of the Respondent to the application of the Consumer Price Index for this purpose and of the criticism that has been levelled at that indicator as an appropriate measure for the determination of just wages. Nevertheless, if we are to achieve any levelling out of the crests and troughs in salaries with which teachers are now burdened, an automatic adjustment is necessary. The Consumer Price Index in one form or another has been used as a determinant by wage fixing tribunals over a considerable period of time. With whatever its inherent shortcomings the index provides a measure enjoying broad acceptance by salary earners.

We consider that the addition of an alternative provision for automatic adjustment based on the Consumer Price Index will lessen and not aggravate the problem of leap-frogging evident in the determinations of salaries for teachers in each State.

In adopting the leadership role in this area we must exercise and be seen to be exercising caution. We therefore propose to grant a further increase equal to 80% of the total of the changes in the Consumer Price Index for the December 1982 and March 1983 quarters to be payable on and from the first day of April 1983. We are not prepared to go further than that at this stage. The parties shall have liberty to apply on the issue of whether or not any further variation should be made following the publication of the index for the September 1983 quarter.

On this application we find that no further order should be made.

This decision now provides for rates for the second year of the term of the award. Our analysis of the effect of the award as amended is that over the period since the cessation of variations based on the Consumer Price Index the changes in salary rates for teachers will be of the order that applied under indexation. Further we see the risk of a marked disparity in salaries being suffered by teachers during the next year materially reduced.

The Tribunal thanks the advocates for the able manner in which each has presented the argument of his client. We also note with some satisfaction that the gap of difference between the parties on salaries is less than it has been for some time.

A formal order will now issue amending the award in accordance with these reasons.
