E. TACOMA,

N. I. DAWKINS,

Schedule.

City of Canning Town Planning Scheme No. 16—
Amendment No. 265—Appendix 4.

Group Housing Criteria.

A. Mandatory Requirements.

1. Where any other requirements of the Scheme conflict with those set out in this Appendix, the latter shall prevail.

2. Number of Storeys—where land is zoned "G.R.4(R)", single storey development only. Where land is zoned "G.R.4", the restriction does not apply.

3. Minimum Development Lot Area: 800 square metres.

4. Maximum Number of Units per Lot: 8 Units, unless approval of Council is obtained for a greater number.

5. Minimum Site Area per Unit*: 400 square metres. The Council may allow a reduction to 350 square metres per unit.

6. Types of Units Permitted: Each unit shall be a self-contained single family unit, comprising a minimum of four habitable rooms. Units may be sited singly, or grouped and joined by party walls (subject to the provisions of the Uniform Building By-laws).

7. Subdivision of Lots: Units shall be designed so that lots may be subdivided on the basis of Strata Titles as laid out under the Strata Titles Act 1966 (as amended).

8. Setbacks: Minimum setbacks shall be as follows:

(A) From walls of dwelling** to—

(1) a street—7.5 metres.

(2) other lot boundary—

(a) 3.0 metres per storey.

(b) where the development abuts a lot zoned "S.R.2" or "S.R.3", units shall be restricted to single storey within 10 metres of the S.R. lot boundary.

(c) where development abuts a lot zoned "S.R.2" or "S.R.3", any window openings or open balconies on the upper floor of a two-storey unit which face the S.R. lot boundary, to be 20 metres from the S.R. lot boundary. Where the Council is satisfied that no loss of privacy will result to the single residential lots, it may allow a reduction in the 20 metre setback.

- (B) From garages, carports, patios, outbuildings and stores to:

(1) a street—7.5 metres. The Council may allow pergolas to within two metres of any street boundary, provided a 9 m x 9 m sight distance for corner lots is maintained.

(2) other lot boundary—

(a) NIL, in the case of a brick parapet wall being constructed (i.e. on lot boundary).

(b) 1.0 metres for other than brick parapet.

- (C) Between a dwelling unit and the edge of its defined use area***:

(3) where there are major openings to habitable rooms—3.0 metres, Single Storey. Second Storey—6.0 metres to edge of neighbouring defined use area.

Garages, carports or patios may be sited within the setback distances between dwellings, provided that roof drainage is contained within the defined use area of the unit.

9. Unit Yard Areas:

(A) Each unit shall include an enclosed private yard area; such yard area having direct access to the dwelling.

(B) Minimum area of any unit yard area shall be 100 square metres; each unit's yard area shall contain an area of 70 square metres in one "usable" parcel having a minimum dimension of 6.0 metres.

10. Parking Requirements and Access:

(A) Minimum 2 paved car parking spaces (minimum of 3.0 metres x 5.5 metres) per unit, each with unrestricted individual access, of which one shall be contained within a garage or carport.

(B) Minimum 1 paved recreation vehicle parking space (minimum 3.0 metres x 6.0 metres) for every three dwelling units or part thereof. The Council may allow a reduction in this requirement if suitable alternative parking is available within the yard areas of the individual units.

Parking spaces referred to at (A) and (B) to be sited—

(1) minimum 7.5 metres from a street; and

(2) not within the defined use area of any unit (except as referred to at (B)).

Recreation vehicle parking shall be suitably screened so as to maintain an aesthetic quality in keeping with the development on site; and is provided for the storage of boats, caravans and other such vehicles.

(C) Minimum 1 paved visitor vehicle parking space (minimum 3.0 metres x 5.5 metres) for every 2 dwelling units or part thereof. Council may reduce this requirement where adequate kerb-side or other parking areas for visitor cars are available.

(D) Vehicle accessways to parking spaces for individual units shall be a minimum of 3.0 metres wide. Where the accessway serves more than one unit's parking spaces, it shall be a minimum of 4.5 metres wide.

External Storage Facility: Each unit shall include a lock-up storage facility having a minimum area of 4.0 square metres, and constructed of the same materials as the dwelling; unless the Council specifically allows other materials to be used. The storage facility may form part of the dwelling structure with direct external access; it may be incorporated as part of a garage or carport; or it may be a separate structure.

12. Pedestrian Access: A pedestrian accessway having a minimum width of 0.8 metres shall be provided to the "usable" yard area of each unit. Such may comprise either an external accessway or may be provided through a garage or carport.

13. Drying Areas: A drying area shall be provided for each unit, such area being suitably screened from view from public roads, public open space areas and other dwelling units (both on and off the lot on which the unit is located).

14. Patios: Patios are to be constructed so as not to restrict light and ventilation to any buildings or open yard areas. When a roofed patio is to be located over part of the minimum "usable" yard area, such patio may contain a dado wall up to 1 metre high, with fly-wire only between this and the roof.

15. Definitions:

- *—"Site Area per Unit" means the total area of the lot divided by the number of units.
- **—"Dwelling" for the purpose of these criteria shall not include a garage, carport, patio or outbuilding or stores.
- ***—"Defined Use Area" of a unit means the area within—(a) the enclosed private yard,—(b) the dwelling,—(c) the landscaped area set aside for the use of the unit. The Defined Use Area is to be delineated on a site plan of development.
- ****—"Major Openings"—any door or window capable of being opened shall be considered as a major opening. Permanently fixed glazing, highlights or air-bricks will generally not be considered to be major openings.

10. Control of Noise—service vehicles, cars, between Units, between Yards, and urban noise. Car parking should not be located near bedrooms of other units.
11. Two-Storey Units—to be designed so as not to prejudice the privacy of adjoining developments.
