PART 3—SCHEME AREA DIVISIONS.

3.1 The Scheme Area is divided into three Areas denoted as Area No. 1, Area No. 2 and Area No. 3 upon the Scheme Map.

3.2 For the purpose of this Part unless the context otherwise requires, the expression "Area" shall be interpreted as Area No. 1, Area No. 2 or Area No. 3.

3.3 By virtue of the fact that the Scheme is to be divided into Areas the Council shall:—

- (i) determine the equities of each land holder within each Area with respect to that Area only and all costs payments and settlements between the Council and all such owners shall be determined accordingly.
- (ii) apportion Scheme Costs relating to the entire Scheme Area between the Areas in as equitable a fashion as possible bearing in mind:—
 - (a) the area of land being subdivided within each Area.
 - (b) the extent of the application of the particular Scheme Cost to the Area concerned.
 - (c) the extent to which each Area is benefited by the Scheme work or service.
- (iii) maintain separate accounts for each Area and may finalise such accounts coincidental with the date upon which all works, services and land and financial transactions within each Area have been completed or as soon thereafter as may be practicable.
- (iv) in the event that upon finalisation of the accounts of one Area there is a surplus, redistribute such monies amongst the owners of lots extant prior to the implementation of subdivision pursuant to this Scheme or if the surplus is, in the opinion of the Council, insufficient to justify such redistribution, the monies may be applied to the development of Public Open Space or other public facilities within the Scheme Area.

PART 4—METHOD BY WHICH OBJECTIVES ARE TO BE ACHIEVED.

4.1 Subdivision.

4.1.1 As and when the owners of existing lots within the Scheme Area desire to subdivide their land such subdivision shall accord:—

- (a) without variation with the layout of Principal Roads shown as such on the Scheme Map and
- (b) With the layout of other roads and lots shown upon the Scheme or such other layout as may be approved pursuant to Clause 4.1.2.

In general the Council will not seek to compel an owner to subdivide his land unless the failure to do so would in the Council's view impede the progressive implementation of the Scheme.

4.1.2 Subdivision and development of land within the Scheme Area shall be carried out generally in accordance with the plan of subdivision shown on the Scheme Map or in accordance with alternative plans of subdivision which may be approved by the Town Planning Board provided that any such approval is only given,

- (i) where the Town Planning Board following consultation with the Council is satisfied that the objectives of the Scheme will still be capable of achievement;
- (ii) where it can be demonstrated that the alternative form of subdivision will not prejudice the proper and orderly subdivision of the remainder of the land within the Scheme Area

in accordance with a revised overall plan indicating the manner in which co-ordinated subdivision may be achieved, together with the provision of services, in particular, surface water drainage.

4.1.3 Subdivision and Development pursuant to Clause 4.1.2 of this Scheme may be carried out—

- (i) by the owners of the land;
- (ii) by groups of owners of land;
- (iii) by the Council being owner of land within the Scheme Area acquired pursuant to the provisions of this Scheme;
- (iv) by any body or corporation appointed by the owners of land within the Scheme Area, or the Council for the purpose of developing land within the Scheme Area.

4.1.4 Any application for the subdivision of land within the Scheme Area together with associated documents (if any) shall be submitted to the Town Planning Board for approval. Plans accompanying such applications shall indicate not only the subdivision of the land concerned in the application but also the relationship of that subdivision to the subdivision of the surrounding land and in particular the connection of any roads and pedestrian accessways to the roading and pedestrian movement systems within, and if appropriate, outside the Scheme Area.

4.2 New Roads and Footways.

4.2.1 Prior to the grant by the Town Planning Board of its final approval to a plan of subdivision, any owner of land within the Scheme Area, when subdividing his land shall:—

- (i) make available all land necessary for all roads, rights of way, footways and pedestrian accessways, and
- (ii) subject to the following clauses, carry out all work necessary for the survey, construction, paving and drainage of all roads, rights of way, and pedestrian accessways, or,
- (iii) pay to the Council, the cost of all or part of such work which he may request the Council to carry out on his behalf.

4.2.2 Where work involving the survey, construction, paving and drainage of any road, right of way, footway, or pedestrian accessway is carried out by an owner on his land but such work serves or benefits other land within the Scheme Area, then the owners of the land so served or benefited shall contribute to the cost of such works in such proportions as the Council may in its discretion determine. In the event that the owners of the land are unable to agree upon the proportion of the costs payable by each of them, the amount (if any) payable by each such owner shall be determined by arbitration between the owners concerned in the manner hereinafter provided.

4.2.3 The Council may survey, construct, pave and drain any new roads and footways within the Scheme Area and may resume or otherwise acquire the land necessary for that purpose. If the Council does so prior to the subdivision of the land adjoining such road or footway, the costs of the survey, construction, paving and drainage of the said road or footway and all costs incurred by Council consequent upon the resumption or acquisition of the land including the payment of compensation shall be paid to the Council by the owners of the land adjoining the road or footway in accordance with the ensuing provisions prior to the grant by the Town Planning Board of final approval to the subdivision of their land or at such later date as may be agreed between a subdivider and the Council.

4.2.4 If an owner subdivides his land and if he or any predecessor in title has claimed or been paid compensation by reason of the resumption by the Council of the land for a new road or footway within the Scheme Area, he shall before the final approval by the Town Planning Board to his plan of subdivision, release the Council from the payment of compensation or repay to the Council the compensation paid by it to him or his predecessors in title as the case may be.

4.3 Closure of Roads.

4.3.1 Those roads and rights of way within the Scheme Area which are shown hatched on the Land Use Map accompanying the Scheme Map as roads to be closed shall be closed as the development of the land

proceeds as such surveyed roads are no longer required. When the said roads are closed the land shall be made available by the Crown to adjoining land owners, failing which it shall be made available to the Council.

4.3.2 If the land is made available to Council pursuant to the preceding Clause, it shall be dealt with by Council in a manner consistent with the uses shown on the Scheme Map and to promote the objectives of this Scheme and to this end the Council may:—

- (i) sell or exchange the land or any part thereof to owners of land adjoining the closed roads;
- (ii) retain the land or any part thereof for the various public uses shown on the Scheme Map;
- (iii) retain the land or any part thereof for the purpose of development either alone or in conjunction with other land acquired pursuant to the other provisions of this Scheme.

4.4 Public Open Space.

4.4.1 The land shown as "Public Open Space" on the Scheme Map shall be vested in the Crown as Reserves for Recreation.

4.4.2 The Council may as and when it deems fit acquire the said lands shown as Public Open Space or any parts thereof either by purchase or resumption or partly by one method and partly by the other.

4.4.3 When land set aside for Public Open Space pursuant to this Scheme has been acquired by Council and the surrounding subdivision has been completed, Council shall vest the Public Open Space in the Crown as a Reserve for Recreation.

4.4.4 Each owner of land, upon endorsement by the Town Planning Board of its approval to the Diagram or Plan of Survey giving effect to the subdivision of his land or any part thereof, and subject to the ensuing provisions of this part shall:—

- (a) vest in the Crown as Reserves for Recreation all of the land shown as being set aside for Public Open Space on the Scheme Map;
- (b) where no Public Open Space is shown affecting an owner's present holding, transfer to the Council an area of land equal to ten per centum (10%) of that land holding;
- (c) where an area of less than ten per centum (10%) of Public Open Space is shown affecting an owner's present land holding, transfer to the Council following compliance with sub-clause (a), an area of land equal to the amount by which the Public Open Space falls short of the said ten per centum of that land holding.

4.4.5 If within an owner's land more than the said ten per centum is required by the Council for Public Open Space, the owner shall, upon the subdivision of his land or any part thereof, vest in the Crown as Reserves for Recreation the land required for that purpose and the Council shall pay to the owner by way of compensation the value of the land exceeding the said ten per centum. If the Council and the owner so agree, the Council may transfer to the said owner other land in or near the Scheme Area either owned by the Council or acquired by it for that purpose to compensate him for the land in excess of the said ten per centum required by the Council in which case, the amount of compensation payable by the Council to that owner shall be reduced accordingly.

4.4.6 If, pursuant to Clause 4.4.4 (b), it is not possible for an owner to transfer an area of land exactly equal to ten per centum of the allotment being subdivided, he shall transfer to the Council land as nearly as possible equal in area to the said ten per centum of the allotment being subdivided and the Council shall pay to or receive from the owner, a cash adjustment representing the value of the area of land by which the area transferred exceeds or is less than the said ten per centum or the Council may agree upon a cash payment in lieu of the transfer of any land.

4.4.7 Land to be transferred to the Council pursuant to Clause 4.4.4 shall not include any land which is or is intended to be a road or part of a road created by the subdivision or a drainage reserve.

4.4.8 The Council may sell or otherwise dispose of any land transferred to it under the preceding clauses and not required by it for Public Open Space provided that all monies received by the Council in respect

of such sales shall after making all necessary payments to owners under the foregoing clauses and after payment to it of the cost of land (if any) acquired for transfer to owners under the Clause 4.4.5 be expended by the Council in the acquisition or improvement of land for Public Open Space in the Scheme Area.

4.4.9 If the Council shall have resumed land for Public Open Space, roads, footways, community uses or drainage purposes, it shall be reimbursed all compensation and costs from monies received from the sale of land under the preceding clauses, or in the event of a deficiency in funding from this source as a scheme cost.

4.4.10 If the Council shall have resumed land for Public Open Space, roads, footways, or for drainage purposes, the amount and value of the said ten per centum of an owner's land shall be assessed on the basis that such land has not been resumed.

4.4.11 For the purpose of the foregoing clauses, the valuations shall be made on the basis that the whole of the owner's land is offered for sale taking into account that the subdivision can be approved but not on the basis of the total of the values of the individual lots in the subdivision.

4.4.12 If an owner of land subdivides his land and if he or any predecessor in title has claimed or has been paid compensation by reason of the resumption by the Council of land for Public Open Space within the Scheme Area, the amount of compensation paid shall be taken into account in assessing the payments to or by an owner in accordance with the foregoing Clauses and if no compensation has then been paid the owner shall release the Council from the payment of any such compensation except that the said release shall not affect the obligation of Council to repay to an owner such compensation and/or land to which he is entitled under this Scheme to recompense him for land surrendered for Public Open Space in excess of the ten per centum of his land referred to in Clause 4.4.5.

4.5 Drainage.

4.5.1 The principal drainage works are shown on the Scheme Map as Scheme (Main) Drains comprised of drainage routes and outfalls to the Collie River. In addition to the Scheme (Main) Drains, the Council may also include other drainage works which are necessary for the effective drainage of the Scheme Area; being works which are of such size and in such locations as not to be reasonably undertaken by individual land owners within the Scheme.

4.5.2 The Council shall, at the appropriate time or times, carry out the drainage works referred to in the previous clause either to a staged subdivision or to the final subdivision of the Scheme Area as it deems fit and the Council may acquire, either by agreement with the land owners concerned or by resumption, all necessary land and all necessary easements for drainage purposes both within and outside the Scheme Area.

4.5.3 All drainage works other than those specified in Clause 4.5.1 shall be undertaken by the subdivider at his expense as works required to service his land.

4.5.4 All costs incurred by the Council in the provision of drainage facilities as set out in Clause 4.5.1 and resultant from the acquisition or resumption, including the payment of compensation, of land and easements required therefor as specified in Clause 4.5.2 shall be recovered by the Council as Scheme Costs whether or not those Costs are apportioned between the respective Areas of the Scheme or applied to the Scheme as a whole.

PART 5—SCHEME COSTS.

5.1 Scheme Costs.

5.1.1 For the purpose of this Scheme, Scheme Costs are those items listed hereunder:—

- (a) the costs of and incidental to the preparation, administration and implementation of the Scheme including amounts to reimburse Council for:—

- (d) the cost of reimbursement to Council of any monies expended in the construction of drainage facilities generally in the vicinity of Archer, Laurie, Saunders and Steere Streets where such construction has been carried out in terms of extent and capacity to take account of the subdivision and development of land within the same Scheme Area;
- (e) the cost of the sewerage works necessary for the connection of any land in the Scheme Area to a sewer and of the resumption or other acquisition of lands for that purpose;
- (f) the cost of supplying water to and throughout the Scheme Area;

- (j) all compensation payable and all costs and expenses incurred in determining and settling compensation;
- (k) all other costs and expenses which the Council shall be required to meet or consider necessary in order to implement and complete the Scheme and which are not recoverable by virtue of the other provisions of this Scheme.

5.1.2 Costs and expenses not referred to in the foregoing Clause are deemed to be subdivision costs and shall be borne by the subdivider in each case.

5.2 Estimate of Scheme Costs: If any of the items of the Scheme Costs have not been paid or ascertained at the time of the giving of a notice by the Council as prescribed in the following Clause, the Council may estimate the cost of such items of Scheme Costs. An estimate may be revised from time to time.

5.3 Payment of Scheme Costs.

5.3.1 Each owner shall:—

- (i) prior to the endorsement of the Town Planning Board of its approval to a Diagram or Plan of Survey giving effect to the subdivision of his land; or
- (ii) at such time either before or after the subdivision of his land as may be agreed in writing between the land owner and the Council,

pay to the Council an amount which bears the same proportion to the total Scheme Costs as the area of nett subdivisible land within an owner's existing allotment bears to the whole of the nett subdivisible land (excluding the land comprised of dedicated roads to be retained as roads within the Scheme) within the Scheme Area or the Sub-area of the Scheme. (See Appendix 5 for details of Land Ownership, Existing Lot Areas, Nett Subdivisible Areas and Proportions of Lot Areas relative to the total of the land within the Scheme Area).

5.3.2 Failure by any land owner to comply with the provisions of Clause 5.3.1 shall constitute a contravention of the Scheme and the Council may:—

- (a) recover the amount of Scheme Costs, together with any costs which may be incurred in litigation, from the land owner as a simple contract debt in such Court of Civil Jurisdiction as is competent to deal with the amount of the claim;
- (b) prosecute the land owner pursuant to section 10 of the Act;

PART 6—POWERS OF COUNCIL AND ADMINISTRATION.

6.1 Powers and Authorities of Council.

6.1.1 In carrying out the provisions of the Scheme the Council shall have the following powers and authorities:

- (a) to enter and inspect any land within the Scheme Area;
- (b) to enter into agreements with the owners or occupiers of any land within the Scheme Area;
- (c) to enter into agreements with purchasers or prospective purchasers or prospective occupiers of land within the Scheme Area;
- (d) to enter into agreements with the Crown and any department of the State with reference to the carrying out of any of the objects or works of the Scheme;
- (e) to purchase land within the Scheme Area and for that purpose to enter into contracts and agreements with owners and thereafter to deal with the land in any way to give effect to the general objectives of this Scheme;
- (f) to resume any land for the purpose of a road, right of way, footway, pedestrian access-way or for public open space, educational establishments, community use, or for drainage or deep sewerage or for any other purpose necessary for the effective implementation of the Scheme;
- (g) If any owner of land within the Scheme Area does not proceed with the subdivision of development of his land in accordance with the Scheme or by reason of the nature of his land he is unable to subdivide or develop it and his failure to do so in the opinion of the Council will unduly delay the subdivision and development of the Scheme Area, the Council may resume or purchase the land of such owner or any part or parts thereof and proceed with the subdivision and development of the said land in accordance with the provisions of the Scheme.
- (h) In the event of the Council exercising its powers under Paragraph (g) hereof it shall have the powers of an owner in the subdivision development and disposal of the said land. If land shall have been resumed and if the owner shall not have been paid compensation by reason of the resumption, the Council before selling the land so subdivided and developed, shall offer the new lots to the original owner upon his paying to the Council all costs and expenses consequent upon the resumption, subdivision or development of the said land and upon his releasing the Council from all claims for compensation in respect of such resumption. The said offer shall be made in writing and if not accepted within one calendar month of the service thereof, the Council may proceed with the sale of the subdivided lots. All moneys received by it from such sale shall be applied firstly in payment of all costs and expenses consequent upon such subdivision and secondly in payment of all compensation in respect of the resumption of the said land. The balance, if any, of such moneys may be retained by the Council and the Council shall make good any deficit.
- (i) If the offer mentioned in Paragraph (h) hereof be not accepted, the Council may retain all or any part of the said land. If it does so it

shall be responsible to pay to the former owner such costs of subdivision of the said land and compensation for its resumption as are then unpaid. Such compensation in these circumstances shall not be recoverable as a Scheme Cost.

- (j) To dispose of any lots to which it becomes entitled whether under Paragraph (g) hereof or otherwise upon such terms and conditions as it may think fit and without limiting the generality of the foregoing, the Council may sell the lots singly or in groups and on the condition that buildings of a specified character with specified parking or other facilities shall within a limited period, be constructed thereon or that the land and buildings be used for a specified purpose.
- (k) to extend the time within which payments are to be made to the Council and agree to the securing of such payments.
- (l) To transfer any land owned by it or acquired by it pursuant to the Scheme as compensation or part compensation and to enter into agreements relative to the determination and settling of compensation.
- (m) To acquire and/or develop land for Public Open Space within the Scheme Area.
- (n) To raise finance for the purposes of acquiring land, providing public services and facilities as specified in the Scheme, or for any purpose appropriate to achieving the objectives of the Scheme.
- (o) To provide for the repayment by land owners within the Scheme of any public monies expended by Council to achieve the objectives of the Scheme.
- (p) To determine the priorities of the commitments to public funding of the stages of the Scheme and to make financial arrangements with land owners accordingly.

6.2 Claims for Compensation: The time limited for making claims for compensation pursuant to Section 11 of the Town Planning and Development Act 1928 (as amended) is six months after the date when notice of the approval of the Scheme is published in the manner prescribed by the Regulations under the Act.

6.3 Valuations.

6.3.1 Where it is necessary to ascertain the value of any land for the purpose of the Scheme, the value shall be determined by either the Valuer General or by a licensed valuer appointed by the Council.

6.3.2 If an owner shall object to the value so determined he may give notice of such objection to the Council within twenty eight (28) days after having been informed of the said value or the revised value. If the valuer does not agree to change the value to a figure acceptable to the owner, the value shall be determined by arbitration in accordance with the provisions hereinafter contained.

6.4 Arbitration: Any dispute or difference in respect of any matter which by the terms of the Scheme may be determined by arbitration may be referred to the arbitration of a single arbitrator in the manner provided for by the Arbitration Act 1895 or any statutory modification thereof for the time being in force and if the parties fail to agree upon any one single arbitrator, he may be nominated by the President of the Law Society of Western Australia for the time being but if the dispute or difference relates to values only, the arbitrator shall be a valuer appointed by the President for the time being of the Western Australian Division of the Australian Institute of Valuers (Inc.).

6.5 Enforcement of Provisions.

- (a) If any person contravenes or fails or neglects to comply with any of the provisions of the Scheme, the Council may by notice in the manner set out in Clause 6.7 hereof, order such person to discontinue forthwith any such contravention, and within thirty clear days after the service of such notice to remove, pull down, take up, alter or otherwise make good any work which contravenes the Scheme, or to carry into effect any provisions of the Scheme which are not being complied with and at the same time it may, pursuant to

subsection 1 of Section 10 of the Act advise such person that in the event of him failing to comply with the provisions thereof in the time limited for compliance then the Council by its agents will enter such person's property and cause to be done such works and things as shall be specified in such notice.

- (b) Any expense incurred by the Council in doing any works pursuant to any default under Paragraph (a) hereof may be recovered from the person in default by action for a civil debt recoverable summarily in any court having jurisdiction in respect of the amount involved.

6.6 Enforcement Notices: Any notice required under this Scheme:—

- (a) shall be addressed to the owner, or occupier or lessee of the land in question;
- (b) shall describe in general terms the matters requiring attention, the remedial action required and shall specify the period (not being less than 28 days), within which the work shall be carried out;
- (c) shall where necessary, advise the person to whom it is addressed that in default of his compliance with such notice, the Council will enter such land and carry out the requirements of such notice itself at the expense of that person;
- (d) shall be sufficiently served if sent to such owner by registered post in an envelope addressed to him at the address appearing in the Rate Book of the Council and a notice so sent shall be deemed to have been served on the day following the date of posting.
