of the Council free of cost to the Council by  
the developer and new roads within the Special  
Rural Zone shall be constructed to the Council's  
rural road standards with bitumen sealed  
pavement and gravel shoulders where necessary.  
The Council may from time to time modify its  
specifications if it is of the opinion that such  
a modification will contribute to the  
achievement of the objectives or the purpose  
and intent of the Zone, and will be in  
accordance with sound engineering practice.
4. The Parks and Recreation Reserve in Stage  
1, adjacent to the Equestrian Centre, being  
vested in the Crown under Section 20A of  
the Town Planning and Development Act for  
revesting in the Shire of Swan. The remainder  
of the Parks and Recreation Reserve, as  
shown on the Structure Plan being transferred  
to the National Parks Authority at the time  
of final approval to the rezoning.
5. The coverage of each individual lot by  
buildings shall not exceed 3% of the area  
of that lot.
6. No building shall be constructed within the  
Zone of materials, the nature, colour or  
texture of which in the opinion of the Council  
is undesirable for the locality.
7. Except with the approval of the Council, no  
boundary fence within a Special Rural Zone  
shall be constructed of the following materials:
  - (i) asbestos;
  - (ii) metal sheeting;
  - (iii) wooden pickets.

Any approval of Council to use any of the  
materials referred to in this item for a boundary  
fence shall not be regarded as satisfying the  
requirements of this item unless the approval  
refers in express terms to the request for the  
use of those materials.

The Council may require that any fencing of  
whatsoever kind be constructed before it gives to  
the Board clearance or otherwise indicates to the Board  
its satisfaction with the performance by the sub-  
divider of any conditions imposed by the Board  
upon its approval of the subdivision. The Council  
where appropriate may require that the cost of  
fencing be borne by the subdivider.

8. All buildings upon lots which abut public  
open space shall present an appearance to  
the public open space which in the Council's  
opinion is complimentary to the public open  
space area.

9. The Council shall in the interest of landscape preservation require building envelopes to be shown on all lots proposed within the zone. Where a building envelope is defined for a lot in a subdivisional proposal and that proposal is approved by the Board, no building shall be constructed on that lot unless it is within the defined building envelope, except where it is shown to the satisfaction of the Council at the time of application for development approval or for a building permit, that the proposed location will be less detrimental to the preservation of the landscape or to the environment than if it was sited within the building envelope.
10. Prior to the Council giving any clearance to the Board of the conditions imposed on the Board's approval of the subdivision, each lot within the area proposed to be subdivided shall be supplied with a boundary firebreak no less than 3 metres wide constructed to the satisfaction of the Council except in those instances where strategic firebreaks have been constructed by the subdivider in a manner which obviates the need for additional protection.
11. No lot shall display a sign hoarding or billboard without the prior consent of the Council, and in any event the Council shall not give approval to the display on any lot of a sign hoarding or billboard other than a single sign advertising activities conducted on-site and any such sign shall not exceed 0.2 sq. metres in area.
12. With the intention of preventing over-stocking or other practices detrimental to the amenity of the zone, the approval of the Council is required prior to the commencement of any intensive agricultural pursuit or the breeding or keeping of animals. In giving approval for the purpose of this item, the Council may impose limits of stocking or such other conditions as the Council seem fit and may modify or vary such conditions to take account of seasonal changes.
13. Every effort shall be made to retain trees and shrubs including those on street verges. Where trees are proposed to be removed, the Council as a condition of development approval may require suitable mature trees to be planted to replace them and the cost of replacement to be borne by the developer.
14. Indigenous trees which are:
  - (i) contiguous to a creek or water course; or
  - (ii) critical landscape elements such as view corridors and skylines;
 shall not be felled except where such indigenous trees are dead, diseased or dangerous or where the felling is for the purpose of a firebreak required by the preceding provisions of this paragraph or by any rule, regulation or by-law.
 

Notwithstanding the preceding provisions in this item, the Council may at its discretion vary the position of any required firebreak to avoid destruction of vegetation or otherwise to take account of the physical features of the subject land.
15. The Council may, by notice served upon individual landowners or upon a subdivider of land within a Special Rural Zone, require the preservation of groups of trees or may require that trees be planted and maintained in certain places for the purposes of landscape upgrading and thereafter no landowner shall cut, remove or otherwise destroy any tree or vegetation unless the Council rescinds the notice of order.
 

Within areas identified on the Structure Plan as Vegetation Protection Areas, no person shall cut, remove or otherwise destroy any tree except with the approval of the Council and then only for the purposes of building construction and access thereto from a public road.
16. The Council may require the developer or owner of land within a Special Rural Zone to advise future land holders of the restrictions in relation to the clearing of the land.
17. The Council's prior approval to commence development on land zoned or reserved by the Scheme is required for any development including the erection on a lot of a single dwelling house whether or not it will be near any building on that lot, but shall not be required for the carrying out of any works on, in or under a street or road by a public authority acting pursuant to the provisions of any statute.
18. No building shall be constructed closer than 15 metres to a lot boundary, except that Council may approve a lesser distance if it can be shown to be necessary or desirable for reasons of topography or other site conditions.
19. Where a strategic firebreak designated on the Structure Plan passes through land in public or private ownership the subdivider shall construct and the owner shall maintain a 6 metre wide space for emergency access and equestrian traffic. The firebreak shall be kept open at all times in a manner suitable for access by vehicles during emergency situations.
20. Water quick-fill facilities for bush fire fighting shall be provided at the cost of the subdivider at places designated on the Structure Plan. The facilities will be such that water remains permanently available in volume and in speed of delivery suitable for fire fighting purposes.
21. Where open space is vested in the Crown for recreation purposes within Special Rural Zone—Swan Valley Special Rural and Recreation and that open space is situated along a stream or creek alignment no septic tanks shall be installed closer than 100 metres to the creek or stream.
22. It is intended that strategic firebreaks will be used by pedestrian and equestrian traffic only other than at the time of emergencies and for the purposes of maintaining such firebreaks and adjoining parkland. Vehicles shall not otherwise have thoroughfare over strategic firebreaks.
23. The developer shall construct a water supply system within the Scheme Area to the specification of the Public Works Department or the Metropolitan Water Authority and will thereafter maintain it to the satisfaction of that Department until such time as the Department may take over the system.
24. Where reticulated water supply is not provided as a condition of subdivision, no dwelling unit shall be constructed or approved for construction unless a roof water tank having a minimum capacity of 90 000 litres, or some other suitable domestic water supply of no less capacity is incorporated in the plan submitted for development approval. No dwelling house will be considered fit for human habitation unless a system for the supply of potable water has been installed and is operating to the satisfaction of the Council. The requirement of this item may be satisfied where the developer produces to the Council evidence from some competent professional person or authority which satisfies the Council that an adequate potable on-site water supply is available, particularly where ground water is to be used as a source of potable water, provided that such evidence must prove to the satisfaction of the Council that potable water is available to each proposed subdivisional lot.

25. Before the Council gives to the Board any clearance or other approval required from the Council prior to the Board endorsing its approval upon a Diagram or Plan of Survey, the Council may require the subdivider to demonstrate to the satisfaction of the Council the availability of a second class water supply to all lots for other than domestic household purposes. In any case where the Council has stipulated that it requires such a supply the supply of second class water shall be provided by either an earthen dam, a soak, a bore or reticulated from a dam or dams of sufficient capacity to adequately serve each proposed subdivisional lot, or by a combination of such means.
26. Development of land adjacent to the Swan River shall provide for the disposal of storm-water to the satisfaction of the Swan River Management Authority.
27. At the time of consideration by the Town Planning Board of each stage of subdivision the developer shall mark each lot on the ground so as to enable assessment of the ability of each lot to accommodate an on-site effluent disposal system.
28. Prior to the final approval of a plan or diagram of subdivision the developer shall produce certificates from a registered engineer that each of the lots within the subdivision is geologically suitable for the construction of a dwelling house within the defined building envelope.
29. With the approval of the Town Planning Board, the Structure Plan may be modified where circumstances direct, but the number of lots created through subdivision of the entire property shall not exceed 380-390.
30. At the time of subdivision of the uplands area identified as Stages 2, 3, 4, 5 and 6 in the Scheme Report, the developer will provide for an escape access for motor vehicles from the property to connect to either O'Brien Road or Weir Road.

## Western Australia.

## GOVERNMENT SCHOOL TEACHERS' TRIBUNAL.

Before: The Government School Teachers' Tribunal  
Application No. S1/81.

In the Matter of: An application for an award to provide travelling, transfer, relieving and removal allowances for teachers.

Between: The State School Teachers' Union of Western Australia (Incorporated) Applicant and the Hon. Minister for Education Respondent.

## Decision of the Tribunal.

The State School Teachers' Union of Western Australia (Inc.) applies for the issue of an award to be entitled the Government School Teachers' Travelling, Transfer, Relieving and Removal Allowances Award. That title indicates the kind of benefits sought to be conferred. Prior to the hearing, the parties reached agreement on a wide number of issues raised by the application but there still remained a considerable number of claims which had not been agreed and are now referred to the Tribunal for determination. The Tribunal is satisfied that an award should be made.

Prior to the proclamation of the Government School Teachers' Arbitration and Appeal Act 1979 (later in these reasons referred to as the Tribunal Act), the Government School Teachers' Tribunal was constituted under the Education Act. In relation to the salaries and allowances payable to teachers, the Tribunal then did not possess any original jurisdiction. Under the Education Act, the Minister was burdened with the duty of making determinations from time to time as to the salaries and allowances payable to teachers considered appropriate. Teachers had the right of appeal to the Tribunal against the terms of any such determination. The Tribunal Act empowers the Tribunal to make an award upon the application of the Union. This extended jurisdiction has been resorted to on a number of occasions and as a consequence salaries and locality allowances, *inter alia*, payable to teachers are now the subject of awards.

On 29 November 1974, the Minister published a determination relating to travelling, transfer, relieving, removal and district allowances for teachers. The Union appealed against that determination and as a result a number of amendments were made and a schedule of conditions and allowances to apply (except district allowances which were dealt with separately) to teachers was issued by the Tribunal with effect on and from 21 October 1977. In this application, the Union applies for an award to replace the determination so amended. Since 1977, variations have been made to some of the benefits so conferred by administrative action. The fact that no application for an award has been pursued before the Tribunal earlier suggests that there has been general acceptance of the prevailing conditions and the manner in which the administration has interpreted them.

The Tribunal is concerned that no contemporaneous application has been made in relation to the Government School Teachers' (Education Department) Locality Allowances Award 1981, the term of which has now expired, because it is apparent that there is some overlapping in the areas covered by that award and now proposed to be covered by the award sought. In proceeding with this application, the Tribunal points out that, when the award referred to is reviewed, such review shall have to be undertaken in the light of this decision.

The Tribunal hears this application in the restrained atmosphere which has been induced by the wage freeze of 1983, the realisations flowing from the National Economic Summit Conference of April 1983 and the National Wage Case decision handed down on 23 September last. Emphasis is placed on the guidelines published by the Australian Conciliation and Arbitration Commission in the National Wage Case. Those guidelines do not have the force of law but it is clear that the Tribunal must have due regard for the terms of them and for the reasons upon which they are based. Neither party suggests otherwise. In fact, Ms Parker for the Union had this to say:

"While we realize that the Tribunal is not bound by the wage fixation principles, we do consider that cognizance is to be taken of those principles, and the Union itself is bound by them in a written undertaking to the Minister."

The constraints imposed by the Australian Conciliation and Arbitration Commission in the National Wage Case and of relevance in this application are evidenced in the following principles:

Principle 9—Allowances: Allowances and service increments may be adjusted or awarded only in accordance with this Principle.

## (a) Existing allowances:

- (i) Existing allowances which constitute a reimbursement of expenses incurred may be adjusted from time to time where appropriate to reflect the relevant change in the level of such expenses.
- (ii) Existing allowances which relate to work or conditions which have not changed may be adjusted from time to time to reflect the movements in wage rates as a result of national wage adjustments.
- (iii) Existing allowances for which an increase is claimed because of changes in the work or condition will be determined in accordance with the relevant provisions of Principle 4.

## (b) New allowances:

- (i) New allowances will not be created to compensate for disabilities or aspects of the work which are comprehended in the wage rate of the classification concerned.

- (ii) New allowances to compensate for the reimbursement of expenses incurred may be awarded where appropriate having regard to such expenses.

- (v) No other new allowances may be awarded.

Principle 10—First Awards and Extensions of Existing Awards.

- (a) In the making of a first award, the long established principles shall apply, i.e. *prima facie* the main consideration is the existing rates and conditions (General Clerks Northern Territory Award). (1965) 111 C.A.R. 899 at p. 916.
- (b) In the extension of an existing award to new work or to award-free work the rates applicable to such work will be assessed by reference to the value of work already covered by the award.
- (c) .....

Principle 11—Conditions of Employment: Applications for changes in conditions other than those provided elsewhere in the Principles must be considered in the light of their cost implications both directly and through flow-ons.

Each of the parties produced a draft award from which the differences between them are readily ascertainable. The Tribunal now turns to the specific terms of the application.

### 3. Scope.

The applicant seeks strict preference for its members for the incorporation of a Scope clause in these terms:

This award shall apply to all members of the State School Teachers' Union of Western Australia (Incorporated) who are employed in Government Schools.

The respondent on the other hand asks for the coverage to extend to all Government school teachers. As we have indicated on prior occasions, the Tribunal Act applies to Government school teachers generally and invests the Tribunal with jurisdiction to deal with "industrial matters" relating to them. If it were intended that the Tribunal make awards for the benefit of members of the Union only, then the power to do so should be expressly provided in the statute. The Tribunal can appreciate the concern of the applicant that non-members unfairly enjoy benefits which have been and might be gained through the efforts of the Union at the cost of its members. The limitation in the scope of the proposed award is rejected.

### 4. Definitions.

The respondent seeks the following definition to be added to the definitions proposed by the Union:

"Dependent spouse" means a teacher's spouse who has earned in the previous financial year and/or usually earns an income not exceeding the maximum non-taxable income.

The object of including this definition is to limit the liability of the respondent and eliminate the advantage now held by male teachers. At the present time, some benefits are payable to a male teacher in respect of his spouse whether or not the spouse is dependent. In the case of a female teacher, she must prove that her spouse is dependent before entitlement to the like benefits can arise. The Tribunal considers that, in the prevailing legal and social climate, discrimination on the basis of sex cannot be endorsed. We believe that some form of limitation of liability of the employer in the case of the spouse in employment should apply. In determining the nature of that limitation, the Tribunal considers that account should be taken of the fact that in remote areas the spouse of a teacher often performs valuable work on a part-time basis in the teacher's school or otherwise for the benefit of the community and should not be inhibited from so doing provided that the spouse remains dependent on the teacher as the main source of support. In the Locality Allowances Award (see Clause 5 (ii)) in relation to entitlement to an allowance at the married rate, it is provided that the teacher must show that he or she is the main support of relatives. As far as we are aware, the expression "main support" has not caused any administrative difficulty and no appeal has been brought to the Tribunal in relation to the application of that provision. The Tribunal considers that the terms of the definition proposed by the respondent are too restrictive and that the following is appropriate:

"Dependent spouse" means that teacher's spouse who is not in full-time employment, and of whom the teacher is the main source of support.

The Tribunal, for reasons which will become clear in discussing subsequent provisions, considers that the following definitions should be added:

- (i) "Metropolitan Schools District" means the area bounded by the Metropolitan Schools Boundary and the coast together with Rottnest Island.
- (ii) "Director-General" means the Director-General of Education for the time being appointed under the Education Act 1928/81.

As a consequence the definition of "Locality" is amended to provide in (i) "The Metropolitan Schools District".

### 5. Term.

The parties agree that the Award shall operate for a period of three years with a liberty to apply in the event of changes occurring in the conditions applicable to public servants. In our view, the following clause is appropriate:

This Award shall operate for a period of three years as from the date hereof with liberty to either party to apply from time to time in the event of and whenever a change occurs in the conditions of service of public servants relevant to this Award.

6. Accommodation and Other Allowances Payable on Appointment, Promotion or Transfer.

Subclauses (a) to (f) in the claim have been agreed.

Subclause (g) makes provision for the reimbursement of expenditure actually incurred when that expenditure is in excess of that which would otherwise be payable under paragraphs (a) and (b). The Union seeks the insertion of a new clause in these terms:

Where it can be shown by the production of receipts or other evidence that allowances payable under subclauses (a) and (b) would be insufficient to meet reasonable additional costs incurred, the teacher shall receive the appropriate additional reimbursement subject to the Department being able to dispute the amount and the matter being determined by Clause 15 of this award.

The respondent's submission is that, where it is shown that allowances are insufficient to meet the reasonable additional costs actually incurred by the teacher, an appropriate rate shall be determined by the Director-General as is the case under subclause (c). In our view, the latter proposal should be adopted subject to the right of reference to the Tribunal in the event of a dispute.

7. Allowances for Teachers Relieving Away from their Usual Locality.

There is no dispute between the parties as to the terms of this clause which confers longstanding benefits and is adopted by the Tribunal.

8. Allowances for Removal of Household Furniture, Appliances and Effects on Appointment, Promotion, Transfer and Resignation.

Subclause (a) as proposed by the applicant is in these terms:

(a) A teacher who is relocated in the public interest or in ordinary course of promotion or transfer or on account of illness due to causes over which the teacher has no control shall be reimbursed:

- (i) the actual reasonable cost of conveyance of teacher, the teacher's spouse and dependants;
- (ii) the actual reasonable cost of conveyance of teacher's furniture, effects and appliances, including insurance of such furniture whilst in transit; such furniture, effects and appliances shall, where required, be transported on two separate dates;
- (iii) an allowance for accelerated depreciation and extra wear and tear on furniture, appliances and effects in accordance with the provisions of Clause 8 (a) (iii) of the Public Service Miscellaneous Allowances Award No. 14 of 1982 *Mutatis Mutandis*. Payment of this allowance to teachers shall be made on every transfer, appointment or promotion.

The respondent adopts the above subclause save as to the provision contained in subparagraph (ii) that "such furniture, effects and appliances shall, where required, be transported on two separate dates". From the submissions made by the advocate for the applicant, the Tribunal is persuaded that circumstances might well arise where it would be unfair to restrict the claim to the movement of the furniture of a teacher on one date. We find that to allow the movement of furniture on two separate dates not more than six months apart would be reasonable. It also appears to the Tribunal that the proposed clause should be amended to provide for the teacher taking up a first appointment as is the current practice.

In subclause (b), the applicant seeks to provide all the benefits conferred by subclause (a) for teachers who resign and return to the metropolitan area. The proposed subclause is not clear but it appears that it is intended to limit the benefits to teachers who have taught for at least twelve months and who resign at

the end of a school year. The respondent argues that subclauses (a) (i) and (ii) only should apply to a teacher who "has served a period of two years in the locality and is eligible for a transfer or any other special cases approved by the Director-General." The point made for the respondent is that these allowances were intended to meet expenses for teachers continuing in the service, and there is no justification for granting the Depreciation Allowance to a teacher who resigns. We consider there is justification in limiting the rights of a teacher who resigns after spending a relatively short period in a locality. However, where the teacher has served at least two years in a locality and then resigns, we think that teacher should enjoy all the benefits conferred under subclause (a). In the case of a teacher who serves for one year and resigns at the end of the school year, we would grant benefits prescribed under subparagraphs (i) and (ii) above and disallow the claim for a depreciation allowance.

Subclause (c) as proposed by the applicant seeks to increase the allowance payable to a teacher for travelling to the new locality in the teacher's private motor vehicle from one-half of the rate prescribed in clause 5 of the Public Service Motor Vehicle Allowances Award to the full rate under that award irrespective of whether such travelling occurs north or south of the 26° south latitude. No evidence was called in support of this amendment. The Tribunal is of the opinion that such claim is not justified. Nevertheless, we consider that it would be proper to increase the rate for travel within Locality Allowance District 2 to .625 of the appropriate rate under the Public Service Motor Vehicle Allowances Award and to the full rate in Locality Allowance Districts 3-6 inclusive. Current ceiling provisions shall apply.

Under subclause (d), the applicant seeks the adoption of the following provisions:

Where teachers incur any additional costs in excess of allowances payable in respect of removal of household furniture, appliances and effects, the teacher shall be reimbursed such costs.

The respondent contends that, as has been the case since 1977, the maximum reimbursement must be as determined by the Director-General. There is no evidence that that provision has been applied harshly or resulted in any unfairness to a teacher and, in the absence of any such evidence, we find that the retention of the provision that the ceiling limit be determined by the Director-General should be adopted in the award.

There is some difference between the parties as to the entitlement of a teacher to store furniture. The applicant claims that a teacher should have an unfettered right to store all or any part of the teacher's furniture and be reimbursed the cost of such storage and associated insurance charges. The respondent on the other hand contends that the entitlement should be limited to a case where the teacher moves to furnished accommodation as a result of a transfer or promotion and that in any event the actual cost is authorized by the Director-General. The Tribunal considers that in all the circumstances the following subclause is appropriate:

8. (g) Where a teacher is transferred or promoted and the accommodation provided is furnished and, as a consequence, it is reasonably necessary for the teacher to store all or part of the furniture owned by the teacher, the actual cost of such storage and insurance as approved and authorized by the Director-General shall be reimbursed.

The parties are in agreement as to the remaining provisions of the claim under Clause 8.

9. Travelling Concessions for Teachers Travelling During Vacation.

In broad terms, the applicant sought to double the concessions which now apply. That is to say instead of teachers being reimbursed for the cost of one trip per year to Perth or Geraldton they would be entitled to two trips. Ms. Parker, for the applicant, conceded that to grant this claim would be contrary to the principles enunciated in the National Wage Case referred to and, as a consequence, she amended the claim to provide for one trip per year. By way of an alternative, Ms. Parker sought and was granted leave to claim an additional travel allowance for teachers in isolated schools to which reference will be made later in these reasons. The Tribunal considers that some modification to the

terms now prevailing is justified. We find that teachers employed in Locality Allowance Districts 3, 4, 5 and 6 should be entitled to a trip to either Perth or Geraldton in the vacations once per year. The actual concessions should be as claimed. Such travelling concessions shall not apply to the spouse of a teacher unless such spouse is a dependent spouse in the terms mentioned.

In relation to Locality District 2, again the benefit is restricted to a trip once every two years as is the current entitlement. Where a teacher travels by road in his own private motor vehicle, the amount of the reimbursement shall be fixed at the rate of .625 of the appropriate rate under the Public Service Motor Vehicle Allowances Award No. 13 of 1976. In 1977, the rate was fixed at 10c per kilometre and the new rate represents in round terms the same proportion of the Public Service Rate as the old rate did to the Public Service Rate then prevailing.

10. Travel Concessions for Teachers Travelling to Obtain Emergency Medical or Dental Treatment or for Urgent Family Business.

The applicant claims new benefits under this heading as follows:—

- (a) A teacher, spouse or dependant who requires emergency medical or dental treatment shall be reimbursed the costs incurred in travel to any centre more than 100 kilometres distant from their locality.
- (b) A teacher who travels to a centre more than 100 kilometres distant from the teacher's locality for the purpose of taking leave for urgent family business shall be reimbursed reasonable travel costs.

The respondent objects to the inclusion of the above provisions and as to (a) points out the benefits which now apply by way of concessions and allowances and in particular to those components of the Locality Allowances in relation to isolation and cost of living. No evidence was led in support of these claims and, bearing in mind the economic constraints to which we have referred, the Tribunal finds that the inclusion of these provisions in the award to issue is not justified.

11. Allowances Payable to Teachers Required to Travel on School or Departmental Business.

There is agreement between the parties as to the retention of the benefits which now apply. As to additional concessions sought by the applicant, the respondent objects. The applicant claims:

- (d) A teacher who is required to use the teacher's own motor vehicle for travelling on school business or other approved activities as defined in clauses (a) and (b), and who is deprived of the use of such vehicle as a result of damage occurring to the vehicle while on such business, or other approved activities, shall be reimbursed at a reasonable rate the cost of hiring a vehicle for the appropriate period, less any reimbursement obtained from other sources.

The respondent contends that a risk of this nature is covered in the usual insurance policies and should not form a part of any award. Again, no evidence was led in support of the proposal and the Tribunal considers that the adoption of it is not justified. The applicant further makes a specific claim for teachers located in Special Aboriginal Schools and others for reimbursement for use of their own motor vehicles to transport children to learning centres away from the school. We are told that in practice this benefit is payable and in the view of the Tribunal it should be. There is, however, no justification for a special provision when it is clearly covered under the general provision relating to use of a private motor vehicle for school business.

The applicant seeks additional benefits for teachers employed in areas where harsh climatic conditions prevail and where the Relative Strain Index exceeds .3 for 50 or more days per annum. Climate loomed large in the calculations from which allowances for teachers were fixed under the Government School Teachers' (Education Department) Locality Allowances Award and any claim for an additional benefit under this head should be the subject of an application to vary that award. This item is rejected.

12. Allowances Payable to Teachers Involved with Excessive Daily Travelling to School.

The applicant seeks to extend the benefits which now apply for teachers who have to travel an excessive amount. It is agreed that a teacher appointed to a school outside the Metropolitan Schools District, who is unable to obtain suitable residential accommodation within 16 kilometres of the school, shall be reimbursed for travel to and from the school in excess of 16 kilometres each way necessarily undertaken in the teacher's own motor vehicle. The respondent seeks the retention of the allowance at one-half of the appropriate rate under the Public Service Motor Vehicle Allowances Award and in calculating the distances no travel within the Metropolitan Schools District should count. The applicant seeks full Public Service Rates and to include travel within the Metropolitan Schools District. The Tribunal considers that the provisions now operating in practice should continue to apply save that the rate of reimbursement should be increased from one-half to .625 of the appropriate rate prescribed under Clause 5 of the Public Service Motor Vehicle Allowances Award. An allowance is now paid to a teacher employed outside the Metropolitan Schools District at different locations on different days of the week. The applicant claims that a teacher whether employed within or without the Metropolitan Schools District should be entitled to a travel allowance at the full rates appropriate under Clause 5 of the Public Service Motor Vehicle Allowances Award excluding distance travelled each way within 16 kilometres of the residence of the teacher and provided that the travelling is authorized by the Department. The respondent strongly objects to any allowance applying within the Metropolitan Schools District. We cannot see any logical justification for denying full-time teachers employed within the Metropolitan Schools District the benefit under this head when they are obliged to travel to two or more centres on different days each week, and we reflect that view in Clause 11 of the Award to issue.

In relation to teachers in the Technical Division, the following new provision is sought:

- (d) Technical Division teachers required to travel between colleges on official duty shall receive an allowance payable on an hourly basis, calculated on 1/30 of the usual weekly rate of pay of the teacher involved. No reimbursement shall be provided if the teacher has more than two hours break between duty time in the first college and the time needed to commence travelling to the second college.

The special consideration given to teachers in this division is reflected in the Administrative Instructions but from what is before us the Tribunal is not satisfied that it is now appropriate that the hourly allowance sought should be included in the award. The Tribunal is prepared to grant an allowance for travel between colleges at the appropriate Public Service Rates under the Award referred to.

Alternative claim for teachers in isolated schools.

The Tribunal is sympathetic to the alternative claim for extra travel concessions for teachers in isolated schools. The Tribunal did not have the benefit of hearing witnesses on this subject and no doubt the Union relies heavily on the knowledge the members of the Tribunal have accumulated over the years in their contact with teachers and schools throughout the length and breadth of the State. That experience has been of great assistance in our consideration of this aspect of the application. In determining what is an isolated school, we have had regard for:

- (i) the location of the school in relation to a significant centre of European population;
- (ii) access to the school—whether served by an all-weather road;
- (iii) the size of the school; and
- (iv) the nature of the community served by the school.

Applying the above criteria, we have decided that the schools listed in the schedule to the Award to issue are isolated schools. We find that an additional benefit should be conferred on teachers in those schools comprising one trip each year to the centre or one of the centres named adjacent to the school in that schedule and in the terms provided in Clause 12 of that Award.

13. Property Allowances, 14. Camping Allowances,

15. Disputes.

The parties are in agreement as to the provisions contained in these clauses of the applicant's claim, and the Tribunal adopts those provisions with some drafting changes where deemed desirable.

The award of the Tribunal issued upon the application of the Union is now annexed hereto.

Dated at Perth this 10th day of April, 1984.

(h) Claims under this clause must be submitted to the Department within 12 months of the date the costs or expenses are incurred by the teacher.

Where a teacher has served for one year in the locality and the teacher's resignation takes effect at the end of the school year, such teacher shall be entitled to reimbursement of costs in moving to the Metropolitan Schools

District as prescribed in paragraphs (i) and (ii) of subclause (a). Otherwise a teacher who resigns shall not be entitled to any benefits under this clause unless the Director-General in his discretion otherwise determines.

(c) A teacher shall be reimbursed the full freight charges necessarily incurred in respect of the removal of the teacher's vehicle. If authorized by the Director-General to travel to the new locality in the teacher's own motor vehicle, the teacher shall, for all purposes, be deemed to be in the course of his employment and shall be reimbursed for the distance necessarily travelled outside the Metropolitan Schools District at the following rates:

Within Locality Allowance District 1 at the rate of .5 of the appropriate rate of hire prescribed by Clause 5 of the Public Service Motor Vehicle Allowance Award No. 13 of 1976;

Within Locality Allowance District 2 at the rate of .625 of the appropriate rate of hire so prescribed;

(j) Where a spouse referred to in this clause is also a teacher who is appointed, promoted or transferred to the same locality as the teacher, a spouse may not claim allowances for reimbursement of expenses incurred on behalf of the spouse and dependants and claimed for by the teacher.

(k) Payment of the allowances under this clause shall not apply to teachers transferred in accordance with the provisions of section 7 (c) of the Education Act, or to teachers who seek transfers after periods of service of less than two years in a particular locality unless payment of an allowance is approved by the Director-General.

(l) Where a teacher is appointed, promoted or transferred and incurs expenses in the areas referred to in subclause (1) as a result of that move then the teacher shall be granted a Disturbance Allowance and shall be reimbursed the actual expenditure incurred upon production of receipts.

(1) The Disturbance Allowance shall include:

- (i) costs incurred for telephone installation at the new residence provided that the cost of telephone installation shall be reimbursed only where a telephone was installed at the teacher's former residence including departmental accommodation.
- (ii) costs incurred with the connection or reconnection of services to the household, including departmental accommodation for water, gas or electricity.

(m) Claims under this clause must be made within twelve months of the appointment, promotion or transfer.

#### 9. Travelling Concessions for Teachers Travelling During Vacation.

(a) Teachers employed in Locality Allowance Districts 3, 4, 5 and 6 shall be entitled to the following concessions once per year when proceeding to either Perth or Geraldton in the Summer Vacation.

(c) Teachers employed in Locality Allowance District 2 shall be entitled to reimbursement of fares by road and/or rail to Perth for the teacher, dependent spouse and dependants once every two years. A teacher who elects to travel by road in the teacher's own vehicle shall be reimbursed at .625 of the appropriate rate prescribed in the Public Service Motor Vehicle Allowances Award No. 13 of 1976.

(d) The mode of travel used by teachers under this clause shall be subject to the approval of the Director-General.

- (i) of a return air fare by public air services of a teacher when travelling alone or the return air fares of the teacher, teacher's dependent spouse and dependants when travelling together, and
- (ii) where air travel is inappropriate, of a return first-class rail fare of a teacher when travelling alone or the return first-class rail fares of the teacher's dependent spouse and dependants when travelling together.

(g) Where a teacher, subject to subclause (d), travels by private motor vehicle and through no fault of the teacher is prevented by natural disaster, such as flood or cyclone, from returning to the locality in which the teacher is employed after the vacation, the teacher shall be entitled to reimbursement of reasonable costs incurred in transporting the teacher, the family of the teacher and the motor vehicle to that locality by alternative means approved by the Director-General.

#### 10. Allowances Payable to Teachers Required to Travel on School or Departmental Business.

(a) A teacher who is required to maintain and use a private motor vehicle for travelling on school business shall be reimbursed the appropriate rate of hire prescribed by Clause 5 of the Public Service Motor Vehicle Allowances Award No. 13 of 1976 *mutatis mutandis* provided that such travelling is authorized by an officer approved by the Director-General. For the purposes of this clause, school business shall include: measuring bus routes, travelling between dispersed schools for the purpose of teaching when not part of the usual duties of the teacher, transporting sick school children, collecting official mail and stock, school banking, school sports meetings, school camps, field trips, site visits and in-service training courses.

(b) A teacher who is required to accompany school groups attending educational and sporting functions when public transport is used, shall be reimbursed the cost of the fare incurred.

(c) A teacher shall be reimbursed reasonable meal and accommodation expenses outlaid whilst travelling on school business in accordance with Clause 5 of the Public Service Miscellaneous Allowances Award No. 14 of 1982, *mutatis mutandis*; provided that such travelling is authorised by an officer approved by the Director-General.

(d) Teachers shall be reimbursed all expenditure outlaid while using a Government vehicle on approved Departmental business.

#### 11. Allowances Payable to Teachers Involved with Excessive Daily Travelling to School.

(a) (i) A teacher appointed to a school outside the Metropolitan Schools District, who is unable to obtain suitable residential accommodation within 16 kilometres of the school shall be reimbursed for any travel to and from the school in excess of 16 kilometres each way necessarily undertaken in the teacher's own motor vehicle. In calculating distances no travel within the Metropolitan Schools District shall count.

(ii) Payment of an allowance under this Clause is dependent upon a Superintendent of Education certifying that no suitable accommodation within 16 kilometres of the school, or alternative means of transport, was available.

(b) A teacher employed full time and at different locations on different days of the week shall be reimbursed for the distance necessarily travelled in excess of the distance between the teacher's residence and the location of work closest to that residence, at the appro-

appropriate rate of hire as prescribed by Clause 5 of the Public Service Motor Vehicle Allowances Award No. 13 of 1976, *mutatis mutandis*; provided that the distance necessarily travelled shall not include any distance travelled each way within 16 kilometres of the residence of the teacher, and provided that such travelling is authorized by an officer approved by the Director-General.

(c) A Technical Division teacher required to travel between colleges on official duty shall be reimbursed in accordance with the Public Service Motor Vehicle Allowances Award No. 13 of 1976, for the use of the teacher's own vehicle. #### 12. Allowances Payable to Teachers in Isolated Schools.

In addition to the benefits otherwise conferred by this and/or any other award or agreement, teachers located at the isolated schools named in the schedule hereto shall be entitled to claim reimbursement for travelling once each year to the centre or one of the centres opposite the name of the school in that schedule under the terms and subject to the conditions so far as applicable set out in Clause 9 of this Award, provided that where a teacher travels by road using a Government vehicle such teacher is only entitled to reimbursement of expenditure incurred in the use of that vehicle as if the teacher were travelling on approved Departmental business.

(c) A teacher is not entitled to the payment of a property allowance in respect of a sale or purchase within the terms of subclause (a) which is effected more than twelve months after the date on which the teacher took up duty in the new locality or after the date on which the teacher received notification of transfer back to the former locality, provided that the Director-General may in exceptional circumstances grant an extension of time for such period as is deemed reasonable.

(d) A teacher is not entitled to be paid a property allowance under subclause (a) (ii) unless that teacher is entitled to be paid a property allowance under clause (a) (i) unless the teacher can show that it is necessary to purchase a residence or land for the purpose of erecting a residence thereon in the new locality because of the transfer or promotion of the teacher.

(e) For the purposes of this clause, it is immaterial that the relevant transaction is made or entered into—

- (i) in the case of a married teacher solely, jointly or as a tenant in common with—

Where portions of a day are spent camping, the formula contained in clause 5 of the Public Service Miscellaneous Allowances Award No. 14 of 1982 shall be used for calculating the portion of the allowance to be paid for that day.

For the purposes of this subclause, arrival at headquarters shall mean the time of actual arrival at camp. Departure from headquarters shall mean the time of actual departure from camp or the time of ceasing duty in the field subsequent to breaking camp, whichever is the later.
