15. On determination of the lease, the lessee shall fill in, consolidate and level off any unevenness, excavation or hole caused by him during the term of the lease or by removal of his improvements and shall leave the demised land in a clean, neat and tidy condition to the satisfaction of the Minister and shall remove any or all waste matter as required by the Minister.

A person in the employ of the State must apply through the Under Secretary for Lands for the Governor's permission to hold this land. Written approval of the Permanent Head concerned should accompany such application.

APPLICATION FOR LEASING.

Department of Lands and Surveys,  
Perth, 19 April 1985.

Corres. 723/70 V3.

APPLICATIONS are invited under section 117 of the Land Act 1933, for the leasing of the Derby lots shown in the Schedule for the purpose of "Light Industry" for a term of 21 years at the annual rentals shown in the said Schedule.

Intending applicants shall submit with their applications details of intended utilisation and proposed development indicating size and type of intended structures, cost estimates, source of funds and programme for construction whether staged or not.

The Minister for Lands and Surveys reserves the right to refuse any application on the grounds that the proposed utilisation, development and/or development programme is inadequate or unsuitable or that the applicant has failed to show adequate capacity to fund the development.

The services provided to the lots are roads, power and water and the service premium and survey fee shown in the Schedule are payable within 30 days of acceptance of application.

Where the in-going lessee indicates that he anticipates a requirement for freehold during the currency of the lease, the Hon. Minister shall signify the extent of development (which may be additional to that required as the basis for leasing the site) that will be necessary to enable the issue of a Crown Grant.

Subject to agreement between the lessee and the Minister, the foregoing development obligations and other conditions set out herein may be varied or added to from time to time.

Provided that there are no objections from the Shire of Derby/West Kimberley, the erection of a residence is not opposed by the Department. However, it should be clearly understood that assessment of the suitability of development as a prerequisite to freehold will relate particularly to development for the lease purpose of "Light Industry" and will not be largely influenced by the existence of a residence.

At any time during the currency of the lease, subject to the agreed development obligations and other conditions having been met to the satisfaction of the Hon. Minister, the lessee may surrender his lease to the intent that he may apply for purchase of the said land. In this event a purchase price in accordance with the Schedule shall apply for a period of 3 years from the date of approval of the lease (following which period the price shall be subject to review) and fees associated with the issue of a Crown Grant will be payable.

The land is made available for leasing subject to the following conditions:—

1. The land shall not be used for any purpose other than "Light Industry" without the prior approval in writing of the Minister for Lands and Surveys.
2. The rent shall be subject to reappraisal at the end of the third year of the term of the lease and each successive three yearly period thereafter.

3. The lessee shall not without the previous consent in writing of the Minister assign, transfer, mortgage, sublet or part with the possession of the demised land.
4. The land shall be occupied and used by the lessee for the purpose specified within nine (9) months of the commencement of the lease and thereafter will be continuously so used to the satisfaction of the Minister.
5. The lessee shall commence construction within nine (9) months and thereafter continue construction and complete and operate the works within two (2) years from the date of the commencement of the lease.
6. Replanning and reconstruction of the Scheme Area.

## CONTENTS.

 Part II—Subdivision and Development.  
 Part III—Roads Pedestrian Accessways and Public Rights of Way.  
 Part IV—Water Supply and Drainage.  
 Part V—Reserves.  
 Part VI—Finance and Administration.

## PART I—Preliminary.

1.1 Citation: This Town Planning Scheme may be cited as the Shire of Boulder Town Planning Scheme No. 2—Somerville Guided Development Scheme, hereinafter called "the Scheme", and shall come into operation on publication in the *Government Gazette*.

1.2 Responsible Authority: The Authority responsible for implementing the Scheme is the Council of the Shire of Boulder, hereinafter called "the Council".

1.3 Scheme Area: The Scheme Area applies to all that land within the inner edge of a broken black border shown on the Land Use Map and the Scheme Map.

- 1.4 Contents of Scheme: The Scheme comprises:  
 (a) This Scheme Text.  
 (b) The Scheme Map.  
 (c) The Land Use Map.

1.5 Scheme Objectives: The general objectives of the Scheme are:

- (a) to facilitate and encourage the progressive subdivision and development of the land within the Scheme Area for residential, home occupation and other purposes permitted under the zoning of the land within the Kalgoorlie-Boulder Joint Town Planning Scheme.

- (b) To co-ordinate and control development in the Scheme Area.  
 (c) To plan and make provision of land for, and the construction of, suitable roads and the improvement of existing roads within the Scheme Area.  
 (d) To make provision for the reticulation of water throughout the Scheme Area.  
 (e) To provide for the equitable distribution of Scheme Costs amongst owners of land within the Scheme Area.

1.6 Relationship to the Kalgoorlie-Boulder Joint Town Planning Scheme: The Scheme is complementary to and is not a substitute for the Kalgoorlie-Boulder Joint Town Planning Scheme. The provisions of the Kalgoorlie-Boulder Joint Town Planning Scheme, as amended, continue to have effect. In so far as an Outline Development Plan is required for the development of land within the Residential Development Zone, the subdivision shown on the Scheme Map shall be regarded as an Outline Development Plan.

1.7 Interpretation: In this Scheme unless the context otherwise requires, words and expressions have the respective meanings given to them in Appendix D of the Town Planning Regulations 1967 unless otherwise provided herein.

"Act" means the Town Planning and Development Act, 1928 (as amended).

"Clause" means a clause of the Scheme.

"Council" means the Council of the Shire of Boulder.

"Owner" means an owner of land within the Scheme Area.

"Scheme" means this Town Planning Scheme.

"Scheme Area" means the area defined in Clause 1.2.

"Sub-clause" means a sub-clause of the clause in which the term is used.

## PART II—SUBDIVISION AND DEVELOPMENT.

2.1 Scheme Map: The Scheme Map forms a basis for the development of the Scheme Area showing the proposed location of roads, and indicates the proposed subdivision design for the Scheme Area.

2.2 Subdivision: As and when an owner subdivides his land such subdivision shall generally be in accordance with the overall plan of subdivision for the Scheme Area shown on the Scheme Map.

2.3 Departures from Design: After considering the recommendation of the Council the Board may permit departures from the subdivision design shown on the Scheme Map if it considers the proposed subdivisional design to be of a similar standard to that shown on the Scheme Map but no departure from the subdivisional design shall be permitted if it would impede the subdivision of the Scheme Area as a whole.

2.4 Developer to Submit Plans: An owner who desires to develop his land either alone or in conjunction with other owners shall submit a plan of the proposed development to the Council and if the proposals involve subdivision he shall submit an application for approval to subdivide to the Town Planning Board in accordance with the Act and Regulations made pursuant to the Act.

## PART III—ROADS, PEDESTRIAN ACCESSWAYS AND PUBLIC RIGHTS OF WAY.

3.1 Road Frontage: Each owner is responsible for providing new lots created from the subdivision of his land with frontage to a constructed road connected to the constructed road system of the locality. Such roads are to be constructed and drained to the satisfaction of the Council.

3.2 Resumption and Construction: The Council may resume or otherwise acquire the whole of or any portion or portions of the land required for new roads or pedestrian accessways and may construct and drain any existing or new roads or pedestrian accessways within the Scheme Area. If the Council shall do so prior to the subdivision of the land abutting such road or pedestrian accessway, the costs of the construction and drainage of the said road or pedestrian accessway and all compensation and other costs consequent upon the acquisi-

tion of the land shall be paid to the Council by the respective owners of land in accordance with the foregoing provisions as and when they subdivide their land.

3.3 Repayment by Owners who Subdivide after Council Resumes and/or Construct: If an owner shall subdivide his land and if he or his predecessor in title shall have claimed or shall have been paid compensation by reason of the resumption or acquisition by the Council of the land for a new road or pedestrian access-way within the Scheme Area and/or shall have benefited from the construction and drainage of any existing and/or new road or pedestrian accessway carried out by the Council under this Scheme, he shall before the approval from his survey plan of subdivision release the Council from the payment of compensation or repay the Council the compensation paid by it to him or his predecessor in title as the case may be, and/or repay to the Council the cost of the said construction and drainage and all interest costs and appropriate fees as identified in Clause 6.1.

3.5 Sharing of Costs between Owners: Where an owner has paid or contributed to the payment for any road works or pedestrian accessway necessary to enable the Scheme to be implemented but the cost of which is not a Scheme Cost such costs shall be apportioned among the owners who take advantage of the works to facilitate or enable the approval of their respective applications for subdivision to be granted. The proportion payable by each such owner shall be the same as the frontage of his land to the road or pedestrian accessway bears to the total frontage provided to land owned by owners who can take advantage of the works to facilitate or enable the approval of their respective applications for subdivision to be granted. The amount payable by each owner shall be paid to the Council when that owner pays his proportion of the Scheme Costs.

3.5 Closure of Public Roads and Rights of Way: The lands shown as "closed roads" or "closed rights of way" on the Scheme Map shall be closed either by resumption under the Public Works Act or as provided for under Section 288A of the Local Government Act

#### PART IV—WATER SUPPLY AND DRAINAGE.

4.1 Water Supply and Drainage Works: Water supply works as are in the opinion of the Council necessary for the proper servicing of the Scheme Area and the connection of the land therein to existing drains and to water mains shall at the appropriate times be carried out by the owners of the land served by such works or by the Council if it elects to, in any event at the cost of the owners served by the works.

4.2 Resumption or Other Acquisition of Land and/or Easements: The Council may resume or otherwise acquire such land and/or easements as it considers necessary for drainage or water supply services and may set aside land for drainage sumps and compensating basins and other works.

4.3 Carrying Out by Council: If the Council in accordance with the last two preceding clauses, carries out the local drainage works or water supply works or resumes or otherwise acquires land and/or easements necessary for drainage or water supply services, each owner of land served by those works or benefitting from those services shall pay his proportion of the costs or estimated costs of the works and all compensation, interest and other costs consequent upon acquisition of land and/or easements and/or works relating to water supply and drainage works.

4.4 Sharing of Costs between Owners: Where an owner has paid or contributed to the payment for any water supply and drainage works necessary to enable the Scheme to be implemented but the cost of which is not a Scheme Cost such costs shall be apportioned among the owners who take advantage of the works to facilitate or enable the approval of their respective applications for subdivision to be granted. The proportion payable by each such owner shall be the same as the number of lots which have access to that service bears to the total number of lots shown on land owned by owners who can take advantage of the works to facilitate or enable the approval of their respective applications for subdivision to be granted. The amount payable by each owner shall be paid to the Council when that owner pays his proportion of the Scheme Costs.

#### PART V—RESERVES.

5.1 Existing Reserves: The Scheme Area contains two existing reserves under the Land Act 1933, as amended.

- (a) Reserve 8455 for the purposes of the Church of England (Church Site).

5.2 Alienation and Re-use of Reserves: The Crown may alienate or the Council may initiate the alienation of all or part of the land held within Reserves 8455 and 8682 and/or its re-use in the manner and for the purposes shown on the Scheme Map.

#### PART VI—FINANCE AND ADMINISTRATION.

6.1 Scheme Costs: The costs or estimated costs of the following items are hereinafter referred to as Scheme Costs.

- (a) all compensation payable and all costs and expenses of determining and settling compensation and any payment for damage or injurious affection arising out of the Scheme;

- (c) the administration costs of the Scheme including an amount to reimburse the Council for such overhead and supervision costs as may be incurred in the implementation of the Scheme. The term "administration costs" shall include all legal costs, planning costs, payments to consultants, engineers and other professional consultants, management costs and valuation costs in each case where incurred before or after the coming into effect of the Scheme and reimbursement to the Council for the recorded time spent by an officer, employee or agent of the Shire of Boulder in so far as that time was spent in connection with the Scheme and including time spent prior to the coming into operation of the Scheme in addition to administration or supervision fees payable in accordance with the Local Government Act 1960, as amended;
- (d) the costs of acquisition of any land and/or easement within the Scheme Area for the benefit of the Scheme in the event of such land and/or easements being acquired other than by resumption;
- (e) the costs of upgrading drainage works, outside the Scheme Area necessary for the appropriate drainage of the Scheme Area;
- (f) the costs to Council of any road construction or service installation within the Scheme Area;

#### 6.2 Payment of Scheme Costs.

6.2.1 Each owner shall pay to the Council a proportion of Scheme Costs. Unless otherwise provided in this Scheme the appropriate proportion of the Scheme Costs payable by each owner shall be an amount which bears the same proportion to the Scheme Costs as the area of the owner's land within the Scheme Area which may be subdivided bears to the whole of the land within the Scheme Area which may be subdivided (excluding land shown on the Scheme Map as being reserved for water supply or park and recreation purposes and land which cannot be further subdivided).

6.2.2 Each owner when subdividing his land shall pay or make satisfactory arrangements with the Council to pay his proportion of Scheme Costs referred to in Clause 6.1 before Council gives a clearance to the Board prior to its endorsement of final approval of subdivision.

- (c) to enter into agreements with purchasers or prospective purchasers or prospective occupiers of land within the Scheme Area;
- (d) to enter into agreements with any person or to make arrangements with any Government instrumentality for the purpose of carrying out any of the Scheme works or otherwise for the purpose of the Scheme;
- (e) to extend the time within which payments have to be made to the Council and agree to the securing of such payments;
- (f) to resume any land within the Scheme Area for public purposes, or in order to make it available for any of the purposes for which the Council by the provisions of this Scheme is empowered to acquire land in cases where the owner thereof will not agree to make the land available for that purpose in accordance with the provisions of this Scheme;

6.3.2 The Council may at any time exercise the powers conferred by Section 13 of the Act.

#### 6.4 Claims for Compensation.

6.4.1 Claims for compensation by reason of the operation of the Scheme shall be made within six (6) calendar months of the date of gazettal of final approval to the Scheme.

6.4.2 When an owner subdivides his land and if he or his predecessors in title have claimed or have been paid compensation by reason of the resumption of the Council pursuant to this Scheme of a former part of that land for a new road he shall before the final approval by the Board to his plan of subdivision release the Council from the compensation paid by it to him or his predecessors in title as the case may be.

#### 6.5 Valuations:

6.5.1 If it is necessary for the purpose of this Scheme to ascertain the value of any land, such value shall be determined by a valuer licensed under the Land Valuer's Licence Act 1978, as amended, appointed by Council. If an owner shall object to the value so determined, he may give notice of such objection to the Council within twenty-eight (28) days after having been informed of the said value or the revised value. If the valuer does not agree to change the value to a figure acceptable to the owner, the value shall be determined by arbitration in accordance with the provisions hereinafter contained.

6.5.2 If a valuation made by the valuer shall be changed as a result of an objection, the valuer may reconsider the values placed on other lands and make such revaluations as he considers just and equitable.

6.6 Tenders: Before undertaking any works associated with the Scheme the Council shall first make a public call for tenders and qualified persons may tender for the work. Council may also tender for the work itself and subject to normal considerations associated with the acceptance of a tender and the letting of a contract including the financial and technical ability of a tenderer, award a contract accordingly.

6.7 Estimates of Costs: The Council may from time to time estimate the appropriate proportion of the costs payable by any owner pursuant to any provision in the Scheme, prior to the determination of the final costs.
