#### BUSH FIRES ACT 1954.

Donnybrook-Balingup Shire Council.

##### Firebreak Order.

Important information relating to your responsibility as a landholder in the Donnybrook-Balingup Shire.

WITH reference to section 33 of the Bush Fires Act 1954, you are required to carry out fire prevention work on land owned or occupied by you in accordance with the provisions of this order.

This work must be carried out by 1 December 1985 and kept maintained throughout the summer months until 31 March 1986.

An inspection of firebreaks and hazard removal will be carried out in all areas of the Shire by an Authorised Officer.

Persons who fail to comply with the requirements of this order may be issued with an infringement notice (Penalty \$40.00) or prosecuted with an increased penalty, and additionally, council may carry out the required work at cost to the owner or occupier.

If it is considered for any reason to be impractical to clear firebreaks or remove flammable materials as required by this notice or if natural features render firebreaks unnecessary, you may apply to the council or its duly authorised officer not later than 15 November 1985 for permission to provide firebreaks in alternative positions or to take alternative action to abate fire hazards on the land. If permission is not granted by the council or its duly authorised officer, you shall comply with requirements of this notice. If the requirements of this notice are carried out by burning, such burning must be in accordance with the relevant provisions of the Bush Fires Act.

##### 1. Rural Land:

- (a) On land which is divided by or abuts a formed or partly formed road or railway reserve, a firebreak not less than 2 metres wide shall be provided within 60 metres of the boundary of the road or railway reserve.
- (b) A firebreak 2 metres wide shall be provided immediately surrounding and within 20 metres of the perimeter of all buildings, haystacks, and fuel storage areas situated on the land.

4. Fuel and/or Gas Depots: In respect of land owned by you on which is situated any container normally used to contain liquids or gas fuel, including the land on which any ramp or support is constructed, you shall have the land clear of all flammable materials.

D. JONES,

- (1) A firebreak not less than 2 metres wide inside and along and within twenty metres of the boundaries of all the land being used for pasture; and
- (2) A firebreak not less than 3 metres wide inside and along the boundary of the land where natural bush abuts the boundary; and

Firebreaks shall only be on the owners/occupiers land and shall not be installed on abutting Road Reserves or other reservations. Any Council authorisation to maintain a 2 metre clearing on a Council controlled Road Reserve, as a boundary fence protection measure, contiguous with the property line, is for that purpose only and shall not be used as a firebreak.

(2) Townsite Land: A firebreak not less than 2 metres wide around and within the boundaries of each individual Lot or, around and within a combination of lots where such lots are adjoining and used as one parcel of land for grazing, agricultural or other purposes.

(3) Wansborough Walk Subdivision (Town Planning Scheme No. 1). A firebreak not less than 3 metres wide around and within the boundaries of each individual lot.
