2. Minimum lot size shall be 2 hectares.

3. Within Special Rural Zone No. 5:

Home Occupation.

(d) All other uses not mentioned under (b) or (c) above are not permitted (X).

4. In order to achieve the intent stated in Provision 3, and with the exception of essential works, such as the provision of boundary fencing, firebreaks in accordance with Council's requirements, private bores for water supply, a driveway for access to a dwelling, drainage and the installation of services or approved signs, no building or development, which latter term includes a change of land use, shall be carried on outside of the building envelope(s) selected for development purposes on each new lot, as indicated on the Plan of Subdivision annexed to this Schedule.

5. Building or development shall be carried on within only one building envelope on Lots 1, 4, 6 and 12.

7. No dwelling shall be constructed within 15 metres of a lot boundary provided the Council may approve a lesser distance when Council is of the opinion that the topography or shape of the lot or natural flora upon it makes it desirable to alter this provision.

8. No building shall be constructed unless the colour and texture of external materials and building height comply with the policy of the Council.

9. With the intention of preventing, within the building envelope, overstocking or other practices detrimental to the amenity of the area, intensive agricultural pursuits and the breeding or keeping of animals for commercial gain shall not be permitted without approval in writing of the Council.

10. Notwithstanding anything else contained in the Scheme, Council may take appropriate action necessary to reduce or eliminate adverse effects on the environment caused solely or partly by stocking of animals or development on any lot.

11. In order to conserve the rural environment, or features of natural beauty such as creeklines, hillslopes, valleys and ridges, all trees shall be retained unless Planning Scheme Consent under Clause 5.1 of the Scheme Text is granted for their removal, except in the case of trees which are proposed to be removed to make way for house construction, fences, approved firebreaks or constructed accessways.

12. A reticulated public water supply shall be provided to all lots as a condition of subdivision approval.

13. Waste disposal shall be the responsibility of the individual landholder and shall be effected by septic waste disposal systems installed to the specifications of Council.
