“Pine Plantation” means land on which pine trees are planted covering an area greater than 400 square metres per lot or location, and intended for commercial purposes.

“Firebreak” means ground from which all inflammable material has been removed and on which no inflammable material is permitted to accumulate during the period earlier referred to.

“Haystack” means any collection of hay including fodder rolls placed or stacked together.

“Eucalypt Plantation” means land not being native forests, on which eucalypts have been planted covering an area greater than 400 square metres per lot or location, and intended for commercial purposes.

Guidelines for Alternative Breaks.

- (a) An alternative break shall be cleared as near as practicable to the position required by this notice, and such position shall be approved by either the Bush Fire Control Officer or Captain of the Bush Fire Brigade in the area concerned and forwarded in writing by 1 November 1985 by the owner or occupier to the Shire Council for confirmation, enclosing a map of the alternative positions endorsed by the said Fire Control Officer or Captain.
- (b) In relation to strategic or district breaks any alternative submitted must be by mutual agreement between the land holders and the Brigade, and in addition to the requirements of the preceding paragraph shall be accompanied by a letter from the Bush Fire Brigade showing that the alternative has been approved at a properly constituted meeting of the Brigade.
- (c) Any alternative submitted has no effect until approved by the Council after which notification in writing will be given.
- (d) All alternative breaks approved may be reviewed by the Council at any time after the expiry of 1 year.

- (e) Cultivation of roadsides will be allowed on road reserves only with the written permission of the Council, and for the purpose of protection of fencing only, and not as an alternative to a firebreak.
- (f) Pine Plantations: Alternative firebreaks may be provided by special permission of the Council after application by 1 November 1985, supported by a plan showing full detail, and where two or more owners are concerned an agreement in writing that they will be jointly and severally liable for compliance. Upon application and with special approval of the Council a totally cleared road survey on which a road has not been formed may be utilised as a firebreak.

Special Notice to Land Owners and Occupiers.

The council forwards a copy of this firebreak order with rate assessments each year. The notice is also published in the Warren Blackwood Times and additional copies are obtainable at the Shire Office counter.

The aim of the Council is to eliminate destructive bush fires and to this aim, some areas of the Shire are subject to hazard removal and roadside burning which is carried out by the Shire's bush fire brigades and council workforce.

The requirements of this order are considered to be the minimum standard of fire prevention work required to protect not only individual properties but the district generally. In addition to the requirements of this order, council may issue separate special orders on owners or occupiers if hazard removal is considered necessary in some specific area.

3.2 The Scheme also defines 7 areas for Coastal Management Purposes.

3.3 Table No. 1 appended to Clause 3.4 of this Part indicates the several uses permitted by this Scheme in the various zones, such uses being determined by cross reference between the list of "Use Classes" on the left hand side of the Table and the list of Zones on the top of that Table.

3.4 The symbols used in the cross reference in Table 1 appended to this clause have the following meanings:

- "p"—means that the use is permitted provided it complies with the relevant standards and requirements laid down in the Scheme and all conditions (if any) imposed by the Council in granting Planning Consent.
- "AA"—means that the Council may, at its discretion, permit the use.
- "IP"—means that a use is not permitted unless such use is incidental to the predominant use as decided and approved by the Council.
- "X"—means that the use is not permitted.

3.5 If the use of land for a particular purpose is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the interpretation of one of the use categories the Council may:

- (a) determine that the use is not consistent with the objectives and purpose of the particular zone and is therefore not permitted, or
- (b) determine by absolute majority that the proposed use may be consistent with the objectives and purpose of the zone and thereafter follow the advertising procedures of Clause 4.2 in considering an application for planning consent.

T.P.B. 853-11-3-2, Pt. 46.

IT is hereby notified for public information, in accordance with section 7 of the Town Planning and Development Act 1928 (as amended) that the Minister for Planning approved the Shire of Boulder Town Planning Scheme Amendment on 11 September 1985 for the purpose of:—

1. Amending Table 1—Zoning Table of the Scheme Text by deleting the symbol "X" from the column headed "Extensive Development" at line 10 "Dwellings" and replacing it with the symbol "AA" signifying that "Dwellings" within the Extensive Development Zone is a use that is not permitted unless special approval is granted by the Council.

2. Deleting Clause 3.11 Extensive Development Zone of the Scheme Text and replacing it with a new Clause 3.11 as follows:—

"3.11 Extensive Development Zone:

The Extensive Development Zone is established to provide for the control of development surrounding the Kalgoorlie urban area. The uses permitted within this Zone are described within Table 1—Zoning Table. It is the Council's intention that this Zone should remain predominantly in its existing rural and extractive industrial use. However provision is made for new mining activity and for extensive tourist developments to be located within the Zone. In addition to these uses, the Council may permit dwellings on lots where it is satisfied that such dwellings will not impede extractive industrial use of land surrounding Kalgoorlie. All dwellings approved within the Extensive Development Zone shall have access to adequate services, including a reticulated public water supply."

H. R. REILLY,

C. L. FARRELL,
Shire Clerk.

The accounts of the Shire of Wyalkatchem are prepared on the basis of historical cost. In preparing its balance sheet it is not the policy of the Shire to:—

- (i) recognise all liabilities which exist at balance date; and
- (ii) charge depreciation to write off the cost of each fixed asset over its estimated useful life. Charges for depreciation in previous years have been written back this year through the adjustment account and fixed assets are this year retained in the balance sheet at cost.

This policy complies with the requirements of the Local Government Act and the Accounting Directions, although it is not in accordance with generally accepted accounting standards.

I have, with the assistance of my staff, audited the books of the Shire of Wyalkatchem for the year ended 30 June 1985. In my opinion, the balance sheet, statement of receipts and payments, adjustment account and municipal accumulation account are prepared on a basis consistent with the Local Government Act Accounting Directions, and are in agreement with the books and records of the Shire.
