1. The accounts of the Shire of Derby/West Kimberley are prepared on the basis of historical cost. In preparing its balance sheet it is not the policy of the Council to recognise all liabilities which exist at balance date.

2. This policy does not comply with the Local Government Act, which requires an annual statement showing the liabilities of the Council, nor does it comply with generally accepted accounting standards, although it is consistent with previous years.

3. At 30 June 1985, Council has written back to the municipal accumulation account the balance of depreciation provided at 30 of each fixed asset over its estimated useful life. This policy complies with the requirements of the Local Government Act and the Accounting Directions, although it is not in accordance with generally accepted accounting standards.

4. There is some doubt as to the legality of certain rates, including mining rates, which Council has raised, and until the situation is clarified, the collection of such rates is doubtful. In my opinion a provision of \$125 000 for doubtful debts should be raised and charged to the municipal accumulation account to cover these and other debtors.

5. I have, with the assistance of my staff, audited the books of the Shire of Derby/West Kimberley for the year ended 30 June 1985. In my opinion, the balance sheet, statement of receipts and payments, adjustment account and municipal accumulation account are in agreement with the books and records of the Council, and, subject to my comments in paragraph 2, are prepared on a basis consistent with the Local Government Act and the Accounting Directions.

REPORT OF THE AUDITOR GENERAL.

The accounts of the Shire of Wanneroo have been audited for the financial year ended 30 June 1985. The accounts have been found to be in order and properly kept in accordance with the provisions of the Local Government Act 1960 and have been allowed.

In my opinion, the Balance Sheet and the related financial statements for the year ended 30 June 1985 have been prepared on a basis consistent with the Local Government Act Accounting Directions and present fairly the affairs of the Shire.

My report for the financial year ended 30 June 1982 stated that certain expenditures associated with Town Planning Scheme No. 5 were being contested in a Supreme Court action, brought against the Shire by scheme participants, on the grounds that these expenditures were either not authorised by the scheme text and hence contrary to law or were subdivisional costs of work undertaken by the Shire without authority of landowners.

On 18 September 1985, the Council entered into a Deed of Compromise and Arrangement with the landowners within Town Planning Scheme No. 5 to compromise the claim being contested in the Supreme Court.

This settlement resulted in the Town Planning Scheme No. 5 liability of \$1 808 504.44 shown in the Balance Sheet at 30 June 1985 being increased to \$1 857 202.11 due to the inclusion of agreed new works at an estimated cost of \$88 880.00 and refunds of \$295 491.93 due to landowners, offset by an amount of \$335 674.26 payable by the Municipal Fund under the terms of the Deed.

The Scheme liability of \$1 857 202.11 is to be met from contributions of \$451 042.55 from landowners and \$1 406 159.56 from the Municipal Fund. The latter amount is comprised of concessions to landowners in accordance with the Deed, \$1 355 840.14, and the net costs of \$50 319.42 attributable to the Scheme from 1 October 1984 to 30 June 1985.

The liability of \$1 285 915.91 to the Municipal Fund as shown in the notes to the financial statements comprises the \$335 674.26 and \$1 406 159.56 together with further costs to complete the Scheme, estimated at \$462 653.00 less \$918 570.91 due to the Fund from the Scheme.

It is anticipated that in future years the liability will be reduced by the sale of 14 lots in the Scheme area, the proceeds from which are estimated by Council at \$935 000.

W. F. ROLSTON,
Auditor General.

SHIRE OF WANDERING.

Applications.

Applications for the award of a permit over any of the above areas are required to be made in the approved manner submitted in triplicate and should be accompanied by:—

(a) Details of—

- (i) the applicant's assessment of the petroleum potential of the area, including a geological and geophysical review and technical assessment of the area, and the concepts underlying the proposed exploration programme;
- (ii) the applicant's minimum guaranteed proposal (in terms of operational activity and indicative minimum expenditure) for data evaluation, seismic surveys and exploration wells to be drilled, on the basis that none of the wells drilled encounters significant hydrocarbons, for each year of the first three years of the permit term. This proposal, to be known as the "minimum guaranteed dry hole work programme", should only include work expected to involve a substantial exploration component—appraisal work should not be included;
- (iii) the applicant's proposal (in terms of operational activity and estimated minimum expenditure) for data evaluation, seismic surveys and exploration wells to be drilled, for each of the remaining three years of the permit term. This proposal, to be known as the "secondary" work programme, should only include work expected to involve a substantial exploration component—appraisal work should not be included.

(b) Particulars of—

- (i) the technical qualifications of the applicant and of its employees;
- (ii) the technical advice available to the applicant;
- (iii) the financial resources available to the applicant, including evidence of the applicant's ability to fund the work programme proposal, a statement of other exploration plans and commitments over the next six years, and a copy of the latest annual report for each applicant company;
- (iv) where relevant, the viability of the consortium lodging the application, including evidence that a satisfactory settlement has been, or can be, reached on the joint operating agreement (a copy of a Heads of Agreement dealing will generally suffice);
- (v) the percentage participating interest of each party to the application, and
- (vi) the business address for service of notices in respect to each applicant.

- (c) Such other information as the applicant wishes to be taken into account in consideration of the application including, for example, past performance in offshore exploration either in Australia or overseas, past performance and future intentions as to the sourcing of goods and services to be used in operations; evidence of recent willingness to apply for "frontier" exploration areas, such as previously unavailable areas, deeper water areas, hostile environments; proposals to improve technical capabilities through research to be undertaken in Australia or overseas, and, in the case of foreign companies, proposals to transfer technology and skills to Australians.

- (d) A fee of \$3 000, payable to the Commonwealth of Australia through an Australian bank or bank cheque, is required for each area (see section 21 of the Petroleum (Submerged Lands) Act).
