## FISHERIES ACT 1905.

## Notice No. 224.

I, JULIAN FLETCHER GRILL, Minister for Fisheries acting pursuant to sections 10 and 23A of the Fisheries Act 1905 declare that as from 14 November 1986—

1. Every rock lobster pot used or intended to be used within the West Coast Rock Lobster Fishery between 21° 44' South latitude and 34° 24' South latitude shall conform with the provisions of this notice.
2. Every rock lobster pot shall have only one entrance or neck which shall be positioned on the upper surface of the pot, having the mouth or entrance parallel to the base of the pot.
3. Every rock lobster pot other than a batten or plastic rock lobster pot shall have inserted therein a device or devices that:—
  - (a) creates three escape gaps that are as nearly as practicable rectangular in shape and when measured internally each shall measure not less than 305 millimetres in length and not less than 54 millimetres in height;
  - (b) is constructed of steel flat-bar having a width of not less than 20 millimetres and a thickness of not less than five millimetres or more than six millimetres, and shall be constructed in accordance with diagram 1 in the schedule to this notice;
  - (c) shall be located at least 150 millimetres away from the attachment point or points of the hauling rope and not between the attachment points if there are two;
  - (d) shall be positioned on the side of the pot so that the longer sides of the gaps that they create are generally parallel to the base of the pot and the lower internal edge of the escape gaps are not more than 110 millimetres from the base of the pot and shall be positioned in accordance with diagram 2 in the schedule to this notice;

- (e) the material to which the escape gap is, or escape gaps are, attached must not be—

- (i) constructed of material, the thickness of which, exceeds 13 millimetres;
- (ii) in the horizontal plane, within five millimetres of the internal edge of the escape gap.

4. Every batten rock lobster pot shall have therein three or four escape gaps that:—

- (a) are as nearly as practicable rectangular in shape and each escape gap when measured internally shall measure not less than 305 millimetres in length and not less than 54 millimetres in height, except where the length of the pot is varied in accordance with paragraph (b) (iv) of this clause;

- (b) where—

- (i) three escape gaps are fitted, they are positioned one on each side, other than the base in the rear half of the pot and one at the end of the pot opposite the hauling rope attachment point or points in accordance with diagram 3 in the schedule to this notice;
- (ii) where three escape gaps are fitted, and the length of the pot does not exceed 770 millimetres, they are positioned one on each side, other than the base of the pot and one at the end of the pot opposite the hauling rope attachment point or points;
- (iii) four escape gaps are fitted, they are positioned two on each side, other than the base or the end to which the hauling rope is attached to the pot in accordance with diagram 4 in the schedule to this notice;
- (iv) four escape gaps are fitted in accordance with this clause to pots which do not exceed 770 millimetres in length the length of one of the gaps fitted to each side of the pot may be less than 305 millimetres provided that the combined length of two escape gaps on each side of the pot shall be not less than 610 millimetres and provided that the smallest gap on each side of the pot shall be not less than 200 millimetres;

so that the longer sides of the gaps are generally parallel to the base of the pot and the lower internal edge of the escape gaps are no more than 110 millimetres from the base of the pot; and

- (c) are constructed of—

- (i) steel flat-bar having a width of not less than 20 millimetres and a thickness of not less than three millimetres and not more than six millimetres and shall be constructed in accordance with diagram 5 in the schedule to this notice;
- (ii) aluminium having a width of not less than 20 millimetres and a thickness of not less than four millimetres and not more than six millimetres and shall be constructed in accordance with diagram 6 in the schedule to this notice; or
- (iii) fibreglass with a thickness of not less than three millimetres and not more than six millimetres with reinforcing on the lip of the gap having a thickness of not less than five millimetres and not more than eight millimetres and having a width of not less than 30 millimetres. The widest measurement of the lip of the gap is not to exceed 12 millimetres and shall be constructed in accordance with diagram 7 in the schedule to this notice.

- (d) The material to which the escape gap is, or escape gaps are, attached must not be—
- constructed of material, the thickness of which, exceeds 13 millimetres;
  - in the horizontal plane within five millimetres of the internal edge of the escape gap; or
  - providing the escape gap is attached internally to the framework running horizontally along the bottom of the pot and the bottom internal edge of the escape gap is not within 10 millimetres of the attachment material, then the material to which the gap is attached can be greater than 13 millimetres but not more than 25 millimetres in thickness.
5. Every plastic rock lobster pot shall have therein three escape gaps that:—
- are as nearly as practicable rectangular in shape and each escape gap when measured internally shall measure not less than 305 millimetres in length and not less than 54 millimetres in height;
  - are positioned one on each side, other than the base, in the rear half of the pot and one at the end of the pot opposite the hauling rope attachment point or points and so that the longer sides of the gaps are generally parallel to the base of the pot and the lower internal edge of the escape gaps are no more than 110 millimetres from the base of the pot in accordance with diagram 8 in the schedule to this notice; and
  - are constructed of:—
    - the materials and to the specifications set out in clause 4 (c) (i) (ii) and (iii) of this notice; or
    - plastic having a thickness of not less than three millimetres and not more than six millimetres;
  - the material to which the escape gap is, or escape gaps are, attached must not be—
    - constructed of material, the thickness of which, exceeds 13 millimetres;
    - in the horizontal plane, within five millimetres of the internal edge of the escape gap.

6. Unless otherwise approved by the Director—

- (a) a batten rock lobster pot shall not exceed the following dimensions when measured internally—

Length	915 millimetres
Height	420 millimetres
Base Width	800 millimetres
Top Width	540 millimetres

- (b) where the height of the pot is less than 420 millimetres the top width of the pot may be increased by five millimetres for every 10 millimetres by which the height is reduced.

7. A plastic rock lobster pot formed by an injection moulding process shall not exceed the following dimensions when measured internally:—

Length	782 millimetres
Maximum Width	565 millimetres
Height	470 millimetres

8. Unless otherwise approved by the Director of Fisheries, a rock lobster pot other than a batten rock lobster pot and other than a plastic rock lobster pot formed by an injection moulding process shall not exceed the following dimensions when measured internally:—

Diameter	925 millimetres
Height	420 millimetres

9. A rock lobster pot shall not have any obstruction positioned in such a way as to restrict the movement of rock lobsters through the escape gaps or to reduce the internal measurement of the escape gaps, but in the case of a rock lobster pot constructed of cane or sticks one wire may pass perpendicularly across each escape gap at its narrowest measurement.

10. A rock lobster pot shall not have any form of chamber or partition within the pot capable of containing rock lobster other than that formed by the external frame of the pot.

11. A rock lobster pot shall not have internal volume, including that of any object enclosed within a pot such as bait baskets, neck and ballast within the frame of the pot which is greater than 0.257 cubic metres.

12. For the purpose of this notice, the measuring points for a battern pot for the determination of internal volume shall be those specified in diagram 9 in the schedule to this notice, and in the event the end frames have been modified by cutting the corners of the frame to the pot or modified in some other way, the measuring points for calculating internal volume are to be projected points as if the end and side frames were not cut or modified and were in accordance with those of Diagram 9 in the schedule to this notice.

13. Notice number 157 published in the *Government Gazette* of 12 October 1984 is hereby cancelled.

Dated this 18th day of March, 1986.

JULIAN GRILL,  
Minister for Fisheries.

#### DAIRY INDUSTRY ACT 1973-1983.

IT is hereby notified for general information that, in accordance with the provisions of the Dairy Industry Act 1973 (as amended) the Dairy Industry Authority of Western Australia has fixed the undermentioned prices and rates—

for market milk (deemed to include unflavoured reduced-fat milk) and the treatment and transport of market milk;  
for special products milk produced in dairy areas within the State of Western Australia for the manufacture of the following classes of dairy produce which are sold within the State of Western Australia and which are prescribed in the Dairy Industry Regulations, 1977—

PASTEURISED CREAM,  
YOGURT,  
FLAVOURED MILK, and

for special products milk produced in dairy areas within the State of Western Australia which is sold for human consumption within the State of Western Australia in areas not constituted as dairy areas within the meaning of the Dairy Industry Act 1973 (as amended) including milk for ships stores and international airlines (hereinafter embraced by the term ships' stores)

to be effective in the undermentioned dairy areas and districts as from 1 April 1986.

- (a) METROPOLITAN DAIRY AREA,
- (b) SOUTH-WEST COASTAL DAIRY AREA  
Shires of Collie, Dardanup, Harvey, Murray, Waroona.
- (c) SOUTH COASTAL DAIRY AREA.

#### MINIMUM PRICES TO DAIRYMEN

Minimum price to be paid to dairymen by the Authority at the dairy for market milk containing not less than 11.75 per cent total milk solids as determined by Australian Standard Method 1084-1974, section 3, in relation to a representative composite sample taken over a testing period; and containing not less than 3.2 per cent milk fat as determined by the Babcock or Milko-Tester methods in relation to the same representative composite sample at the rate of 31.69 cents per litre.

Minimum price to be paid to dairymen by the Authority at the dairy for special products milk containing not less than 11.75 per cent total milk solids as determined by the Australian Standard Method 1084-1974, section 3, in relation to a representative composite sample taken over a testing period; and containing not less than 3.2 per cent milk fat as determined by the Babcock or Milko-Tester methods in relation to the same representative composite sample at the rate of:

- 17.25 cents per litre for milk for pasteurised cream and yogurt;
- 31.69 cents per litre for milk for flavoured milk and ships' stores; and
- 20.12 cents per litre for other special products milk.

#### MAXIMUM PRICES TO AUTHORITY.

Maximum price to be paid to the Authority by dairy produce factories for market milk at the rate of 34.23 cents per litre.

Maximum price to be paid to the Authority by dairy produce factories for special products milk at the rate of:

- 18.19 cents per litre for pasteurised cream and yogurt;
- 32.63 cents per litre for milk for flavoured milk and ships' stores; and
- 21.06 cents per litre for other special products milk.

#### MAXIMUM TRANSPORT CHARGES (Market Milk only).

Maximum charge for transport of market milk from dairy produce factories outside the metropolitan area to dairy produce factories in the metropolitan area at the rate of 1.89 cents per litre.

#### OTHER CHARGES (Market Milk only):

Maximum charge for treatment, excluding pasteurisation and packing, of market milk at dairy produce factories outside the metropolitan area at the rate of 2.12 cents per litre.

Maximum price to be charged at dairy produce factories in the metropolitan area for market milk received for treatment from dairy produce factories outside the metropolitan area at the rate of 40.12 cents per litre.

#### ACCEPTANCE AND DISPOSAL OF MILK BY THE AUTHORITY.

It is further determined that, where milk delivered by a dairyman—

- is found to contain less than 11.75 per cent total milk solids, as determined by the aforementioned Standard Method during any testing period on a second or succeeding occasion after 1 January 1986 or a second or succeeding occasion in any subsequent quota year, milk supplied by that dairyman for the duration of that testing period will not be accepted by the Authority as market milk or special products milk.
- is found to contain less than 3.2 per cent milk fat, as determined by one of the aforementioned methods during any testing period on a second or succeeding occasion after 1 January 1986 or a second or succeeding occasion in any subsequent quota year, milk supplied by that dairyman for the duration of that testing period will not be accepted by the Authority as market milk or special products milk.
- is found by the Department of Agriculture of Western Australia on a certain day to contain antibiotic or other inhibitory substance on a second occasion after 1 January 1986 or a second occasion in any subsequent quota year, milk supplied by that dairyman for that one day will not be accepted by the Authority as market milk or special products milk.

- is found by the Department of Agriculture of Western Australia on a certain day to contain antibiotic or other inhibitory substance on a third or succeeding occasion after 1 January 1986 or on a third or succeeding occasion in any subsequent quota year, milk supplied by the dairyman for the duration of that testing period in which that day occurs will not be accepted by the Authority as market milk or special products milk.
- is found by the Department of Agriculture of Western Australia on a certain day to contain added water on the first occasion after 1 January 1986 or on the first occasion in any subsequent quota year, milk supplied by that dairyman for that one day will not be accepted by the Authority as market milk or special products milk.
- is found by the Department of Agriculture of Western Australia on a certain day to contain added water on a second or succeeding occasion after 1 January 1986 or on a second or succeeding occasion in any subsequent quota year, milk supplied by that dairyman for the duration of the testing period in which that day occurs will not be accepted by the Authority as market milk or special products milk.
- is found by the Department of Agriculture of Western Australia on a certain day to contain added solids on the first occasion after 1 January 1986 or on the first occasion in any subsequent quota year, milk supplied by that dairyman will not be accepted by the Authority as market milk or special products milk for a minimum of two testing periods.
- is found by the Department of Agriculture of Western Australia on a certain day to contain added solids on a second or succeeding occasion after 1 January 1986 or a second or succeeding occasion in any subsequent quota year, milk supplied by that dairyman will not be accepted by the Authority as market milk or special products milk for a minimum of four testing periods.
- is found by the Department of Agriculture of Western Australia on a certain day after 1 January 1986 or on any day in a subsequent quota year, to have a bacterial count of over 50 000 bacteria per millilitre not less than 10 days—  
after an initial examination indicating over 100 000 bacteria per millilitre; or  
after any two initial examinations within the quota year indicating over 100 000 bacterial per millilitre; or  
after two consecutive initial examinations indicating over 50 000 bacteria per millilitre—  
milk supplied by that dairyman will not be accepted by the Authority as market milk or special products milk as follows:  
on the first occurrence in any quota year—for that one day;  
on the second occurrence in any quota year—for that one day and for the two closest days within the same test period;  
on the third or succeeding occasion in any quota year—for the duration of the testing period in which that day occurs.

Where milk delivered by a dairyman is acceptable as market milk or special products milk and the abovementioned prices for market milk or special products milk apply—

- market milk or special products milk delivered by a dairyman to the Authority is accepted by the Authority at the dairyman's registered dairy produce premises.
- market milk or special products milk delivered by a dairyman and accepted by the Authority is disposed of by the Authority to the dairy produce factory at the point of acceptance by the Authority.

PROVIDED THAT nothing in the Dairy Industry Act 1973-1983, requires the Authority to accept all or any milk delivered to it by any person; and milk delivered to and accepted by the Authority may be disposed of by the Authority to milk vendors or other persons.

#### THE MAXIMUM PRICES—

- to be charged by milk vendors to milk vendors and milk distributors;
- to be charged by milk distributors to milk shops;
- to be charged to consumers.

shall be at the undermentioned rates and shall apply in the dairy areas and districts mentioned for market milk which is sold in—

- Ten or Twenty-litre Bags-in-Crate;
- Six-Hundred Millilitre Containers;
- One-litre Containers;
- Two-litre Containers;
- Three-Hundred Millilitre Containers.

#### OPTIONAL SERVICE FEE.

Notwithstanding the undermentioned rates a milk vendor may charge consumers a service fee of one cent per unit with the total service fee not to exceed two cents per delivery on each day milk is delivered to a household.
