### Auditor's Report

1. The accounts of the Shire of Wyndham-East Kimberley are prepared on the basis of historical costs. In preparing its balance sheet it is not the policy of the Council to:-

- (a) calculate depreciation to write off the cost of each fixed asset over its estimated useful life;
- (b) recognise all liabilities which exist at balance date; and
- (c) recognise as assets loans receivable where repayments are due after balance date.

2. The policy at (a) complies with the requirements of the Local Government Act and the Accounting Directions, although it is not in accordance with generally accepted accounting standards.

3. The policies at (b) and (c) do not comply with the Local Government Act, which requires an annual statement showing the assets and liabilities of the Council, nor does it comply with generally accepted accounting standards although it is consistent with previous years.

4. There is some doubt as to the legality of certain rates, including mining rates, which Council has raised, and until the situation is clarified the collection of such rates is doubtful. In addition there are other assets where recoverability is doubtful. In my opinion, a provision of \$ 335 000 for doubtful debts should be raised and charged to the municipal accumulation account to cover the possibility of non-recovery.

5. I have, with the assistance of my staff, audited the books of the Shire of Wyndham-East Kimberley for the year ended 30 June 1985. In my opinion, the balance sheet, statement of receipts and payments, adjustment account and municipal accumulation account are in agreement with the books and records of the Council, and, subject to my comments in paragraph 3, are prepared on a basis consistent with the Local Government Act and the Accounting Directions.
