3.2.1 The Zoning Table indicates, subject to the provisions of the Scheme, the several uses permitted in the Scheme in the various zones such uses being determined by cross reference between the list of use classes on the left hand side of the Zoning Table and the list of zones at the top of the Zoning Table.

3.2.2 The symbols used in the cross reference in the Zoning Table have the following meanings:

"P" means that the use is permitted provided it complies with the relevant standards and requirements laid down in the Scheme and all conditions (if any) imposed by the Council in granting planning consent;

"AA" means that the Council may, at its discretion, permit the use;

"SA" means that the Council may, at its discretion, permit the use after notice of Application has been given in accordance with Clause 6.3.

3.2.3 Where no symbol appears in the cross reference of a use class against a zone in the Zoning Table a use of that class shall not be permitted in that zone.

3.2.4 Where in the Zoning Table a particular use is mentioned it is deemed to be excluded from any use class which by its more general terms might otherwise include such particular use.

3.2.5 If the use of land for a particular purpose is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the interpretation of one of the use categories the Council may:

- (a) Determine that the use is not consistent with the objectives and purpose of the particular zone and is therefore not permitted, or
- (b) Determine by absolute majority that the proposed use is consistent with the objectives and purpose of the zone and thereafter follow the "SA" procedures of Clause 6.3 in considering an Application for planning consent.

MINING ACT 1978

MINING AMENDMENT REGULATIONS 1986

MADE by His Excellency the Governor in Executive Council.

Citation

1. These regulations may be cited as the *Mining Amendment Regulations 1986*.

Principal regulations

2. In these regulations the *Mining Regulations 1981** are referred to as the principal regulations.

[*Published in the *Gazette* of 13 November 1981 at pp. 4601-4676. For Amendments to 24 February 1986, see page 283 of the 1984 Index to Legislation of Western Australia.]

Part VI repealed and substituted

3. Part VI of the principal regulations is repealed and the following part is substituted—

“

PART VI—SURVEYS**Interpretation in Part VI**

116. In this Part, unless the contrary intention appears—
 “approved surveyor” means licensed surveyor who is for the time approved under regulation 117;
 “licensed surveyor” has the meaning given by section 3 of the *Licensed Surveyors Act 1909*;
 “mining survey” means survey required under the Act or these regulations in respect of the boundaries of the area of land to which a tenement relates;
 “tenement” means mining tenement or application therefor;
 “the Director” means the person for the time being holding or acting in the office of the Director of the Surveys and Mapping Division of the Department under the *Public Service Act 1978*.

Approved surveyors

117. (1) The Minister may from time to time—
 (a) approve for the purposes of this Part a person who is a licensed surveyor; and
 (b) on the recommendation of the Director given under subregulation (3), withdraw an approval given under this subregulation.
 (2) Subject to the Act and this Part, all mining surveys shall be carried out by approved surveyors in accordance with—
 (a) the *Licensed Surveyors Act 1909* and the *Licensed Surveyors (Guidance of Surveyors) Regulations 1961**; and
 (b) such directions as are from time to time published by the Department for the guidance of approved surveyors.
 (3) If, in the opinion of the Director, an approved surveyor has not complied with the requirements of subregulation (2), the Director may recommend to the Minister that the approval of the approved surveyor be withdrawn under subregulation (1).
 (4) If an approved surveyor ceases to be a licensed surveyor, his approval is deemed to be withdrawn under subregulation (1) at the time of that cessation.

[*Reprinted in the Gazette of 5 February 1986 at pp. 367-382.]

Initiation of mining surveys

118. The Director shall—
 (a) when a mining survey is ordered to be made under section 47 (1) or 58 (2) (b) of the Act;
 (b) subject to section 80 of the Act, after the lodging of an application for a mining lease;
 (c) subject to section 80, as read with section 90, of the Act, after the lodging of an application for a general purpose lease; or
 (d) when a mining survey is requested by the Minister or a warden for the purpose of determining any matter relating to the boundaries of a tenement,
 arrange for a mining survey of the relevant tenement to be made as soon as is practicable by an approved surveyor.

Boundary marks to be pointed out

119. When a mining survey is to be carried out, the applicant for or the holder of the tenement concerned who does not make himself or his agent available at a reasonable time in order to point out to the approved surveyor carrying out the mining survey his corner posts and other boundary marks commits an offence.

Adjustment of boundaries

120. (1) Subject to this regulation, an approved surveyor shall carry out a mining survey in respect of—
 (a) a tenement other than an exploration licence so as to conform with—
 (i) the land indicated by the applicant in marking out that tenement; and
 (ii) the prescribed shape referred to in section 105 (1) of the Act;
 or
 (b) an exploration licence or an application therefor to conform with the substance of the description thereof.
 (2) If, in the case of an application for a tenement other than an exploration licence, an adjustment made to achieve conformity under subregulation (1) would affect adjoining interests, the approved surveyor concerned shall survey the relevant tenement as strictly in accordance with its marking out as the circumstances permit.
 (3) If an approved surveyor finds that a tenement being surveyed by him encroaches on another tenement having priority in application over the firstmentioned tenement, the approved surveyor shall excise from the area of the firstmentioned tenement the area of that encroachment.

Disputes and objections in mining survey

- 120A. (1) If a dispute arises during a mining survey concerning the position of pegs or otherwise and the parties to the dispute cannot agree, the approved surveyor concerned shall—
 (a) forthwith report the matter to the Director at Perth; and
 (b) not proceed with the mining survey pending determination of the dispute under subregulation (5).
 (2) The Director shall, as soon as is practicable after receiving a report made to him under subregulation (1), refer the matter so reported to him to a mining registrar, together with his own report on that matter for the benefit of the warden.

(3) An objection to a mining survey shall be lodged in form 16 in the First Schedule at the office of a mining registrar, together with the prescribed fee, within a period of 14 days after the day on which survey marking on the ground was completed or such longer period as a warden considers reasonable, but no such objection shall be so lodged after the plan of the mining survey has been approved under the *Licensed Surveyors Act 1909*.

(4) Subject to section 135 of the Act, a dispute or objection referred or lodged under this regulation shall be heard by a warden's court and the mining registrar may for that purpose summon the approved surveyor concerned and all other interested parties to attend and give evidence.

(5) When a warden has heard a dispute or objection under subregulation (4), he shall forward the notes of evidence and his recommendation relating to the dispute or objection to the Minister, who shall determine the dispute or objection.

Cost of travelling

120B. When an applicant for or the holder of an isolated tenement requests that the relevant mining survey be expedited, that applicant or holder shall pay such contribution as the Director approves towards meeting the cost of any travelling undertaken in order to meet that request.

Correction of errors or omissions

120C. (1) The Director may request an approved surveyor to correct any errors or omissions in a mining survey carried out by the approved surveyor.

(2) If the approved surveyor to whom a request is made under subregulation (1) does not promptly comply with the request, the Director may request another approved surveyor to correct the errors or omissions concerned.

(3) If a mining survey has not been completed by an approved surveyor in accordance with these regulations or areas have been incorrectly computed, or plans incorrectly drawn, by an approved surveyor, but the Director does not wish to reject the mining survey concerned, the Director may request another approved surveyor to complete that mining survey in accordance with these regulations or to correct the computations or plans concerned, as the case requires.

(4) The cost of correction or completion in compliance with a request made under subregulation (2) or (3) is a debt due to the Minister by the approved surveyor—

(a) to whom the relevant request was made under subregulation (1); or

(b) who did not complete a mining survey, or who made incorrect computations or drew incorrect plans, within the meaning of subregulation (2),

as the case requires, and may be recovered from that approved surveyor by the Minister by action in a court of competent jurisdiction.

Cost of Check surveys and of correction of errors to be met by approved surveyors

120D. If an independent check survey requested by the Director within 2 years of the completion of a mining survey shows that unacceptable errors or omissions are present in the mining survey, the cost of that check survey and of correcting those errors or omissions is a debt due to the Minister by the approved surveyor who carried out the mining survey and may be recovered from that approved surveyor by the Minister by action in a court of competent jurisdiction.

Plans of surveyed tenements to be prepared

120E. An approved surveyor shall cause to be prepared a plan of each tenement surveyed by him together with a report in form 21A set out in the First Schedule. "

First Schedule amended

4. The First Schedule to the principal regulations is amended by inserting after form 21 the following form—

" Form 21A

WESTERN AUSTRALIA

Regulation 120E

REPORT OF APPROVED SURVEYOR (To be lodged for each tenement surveyed)
