7. The lessee shall, within 12 months from commencement of the lease, fence the external boundaries to the satisfaction of the Minister.

8. The lessee shall maintain existing and future improvements to the satisfaction of the Minister.

9. The lessee shall indemnify the Minister against all claims for damage to property or persons arising from the use of the land.

10. The Minister or his representative may enter the land for inspection at any reasonable time.

11. Compensation will not be payable for damage by flooding of the demised land.

12. Compensation shall not be payable to the lessee in respect of any improvements effected by him on the demised land and remaining thereon at the expiration or earlier determination of the lease.

13. It shall be lawful for the lessee at any time within the three calendar months immediately following the expiration of the term or earlier determination of the lease, to take down, remove and carry away any buildings, structures, improvements and plant the property of the lessee.

14. On determination of the lease, the lessee shall fill in, consolidate and level off any unevenness, excavation or hole caused by him during the term of the lease or by removal of his improvements and shall leave the demised land in a clean, neat and tidy condition to the satisfaction of the Minister and shall remove any or all waste matter as required by the Minister.

Corres No. 3813/78

HIS Excellency the Governor in Executive Council has been pleased to approve under section 84 of the Land Act 1933 of King Location 647 comprising approximately 240 hectares being set apart as Special Settlement Lands and of the location being offered for leasing by public tender pursuant to sections 86 (aa) and 86 (c) of the said Act, subject to the terms and conditions set out hereunder.

Conditions

Tenders shall be accompanied by a proposed budget and five year development programme which should be prepared in liaison with Officers of the Water Authority of Western Australia and the Department of Agriculture. Development plans will need to incorporate suitable soil conservation techniques to the satisfaction of the Department of Agriculture and the Commissioner for Soil Conservation.

The lessee or manager shall take-up residence on or within working distance of the farm within 12 months of allocation.

The successful tenderer will be required in the first three years of the lease, to provide an irrigated water supply to standards and requirements approved by the Water Authority of Western Australia, and to undertake land development and utilisation in accordance with plans submitted to and approved by the Department of Agriculture. A minimum of 10 hectares of suitable crops shall be grown in the first year, increasing to 20 hectares in the second year, which may be under rain-grown conditions. By the end of the third year not less than 40 hectares of crops acceptable to the Department of Agriculture shall be grown under irrigation. In subsequent years this level of utilisation shall be maintained.

On farm drainage is the responsibility of the lessee and shall be carried out in accordance with plans approved by the Department of Agriculture. Attention is drawn to By-law 11A of the Rights in Water and Irrigation Act.

Forfeiture provisions shall be in accordance with section 23 of the Land Act.

The lessee shall not sell, assign or agree to sell or assign, or otherwise dispose of the whole or part of the lease unless and until the Minister for Lands has given his consent to the proposed dealing.

The term of the lease shall be 10 years. At any time during the currency of the lease, if the foregoing conditions have been complied with, the land price and water charges fully paid, and 50 per cent of the cultivate area cleared, cultivated and utilised for agriculture to the satisfaction of the Department of Agriculture (such calculation to include areas required to be under irrigation) a Crown Grant will issue.

Terms

Ten per cent of the amount tendered is payable at the time of tendering with the balance payable over a period of 10 years by equal annual instalments, payable on each anniversary of the commencement of the term, including interest on the unpaid balance calculated at the long term bond rate prevailing at the commencement of the lease. If instalments remain unpaid for more than 30 days after the due date, accommodation interest shall be charged.

General Information

King Location 647 is situated approximately 10 kms south of Kununurra.

Soil surveys have been effected on the location and details are available from the undermentioned offices.

Water supply for the location may be obtained from Lake Kununurra. All works associated with the pumping and conveyance of irrigation water to the property and the drainage of waste water from the property shall be constructed by lessee at his own expense and in compliance with the requirements of the Water Authority of Western Australia. Irrigation charges for water consumed will be in accordance with the Rights of Water and Irrigation Act (1914) by-laws section 31A sub 2 (a) (ii). This charge is currently \$14.47 per hectare or part thereof, charged on maximum area watered in any one year.

The successful applicant shall negotiate with Telecom to provide that body with an easement under the Transfer of Land Act to protect the underground cable passing through King Location 647.

The highest, lowest or any tender will not necessarily be accepted and the successful tender shall be decided by the Land Board.

Any person over the age of 16 may submit a tender.

Tenderers must demonstrate their technical and financial capacity to meet the conditions of development.
