- (2) A firebreak not less than three metres wide inside and along the boundary of the land where natural bush abuts the boundary; and

Firebreaks shall only be on the owners/occupiers land and shall not be installed on abutting Road Reserves or other reservations. Any Council authorisation to maintain a two-metre clearing on a Council controlled Road Reserve, as a boundary fence protection measure, contiguous with the property line, is for that purpose only and shall not be used as a firebreak.

Where harvesting is in progress you are required to have a minimum of 400 litres of water with fire fighting equipment immediately adjacent to paddocks being worked.

(2) Townsite Land: A firebreak not less than two metres wide around and within the boundaries of each individual lot or, around and within a combination of lots where such lots are adjoining and used as one parcel of land for grazing, agricultural or other purposes.

Application to Vary Requirements—If it is considered impractical for any reason to clear firebreaks in accordance with this notice, written approval of the Council shall be obtained at least 21 days before the date by which firebreaks are required by this notice, authorising an alternative to the above requirements.

Penalty for failing to comply with this notice is a fine not exceeding \$400, a person in default is also liable, whether prosecuted or not, to pay costs of work directed by this notice if not carried out by owner/occupier by the due date.

"Inflammable Material" is defined for the purpose of this notice to include bush (as defined by the Bush Fires Act 1954), timber, boxes, cartons, paper and like inflammable material, rubbish and also any combustible matter, but does not include green standing trees, growing bushes or plants in gardens or lawns.
