BUSH FIRES ACT 1954

Shire of Murray

Firebreak Order—1986-87

WITH reference to section 33 of the Bush Fires Act 1954, you are required to carry out fire prevention work on land owned or occupied by you in accordance with the provisions of this order.

This work must be carried out by 30 November 1986, and kept maintained throughout the summer months until the expiration of the restricted burning period, ie 26 April 1987. An inspection of firebreaks will be carried out in all areas of the Shire by an authorised officer.

Persons who fail to comply with the requirements of this order may be issued with an infringement notice (penalty \$40) or prosecuted, and additionally, council may carry out the required work at cost to the owner or occupier.

If for any reason it is considered impracticable to comply with the provisions of this order, you may make a written application for variation to the Shire Clerk which must reach him not less than two weeks prior to the date by which the firebreak is required to be established.

No such application will be considered unless it bears the signature of the Fire Control Officer of the area, signifying his agreement to the variation. If the application is not approved by the Shire Clerk, you shall comply with the requirements of this notice.

1. Rural Land (all land other than that listed as urban): Except where an exemption is granted, a firebreak not less than 2 metres wide must be constructed inside all boundaries where practicable; or

- 1.1 Within 50 metres of the boundaries of all land including that which is uncleared so as to form a continuous break around the holding.
- 1.2 Inside and along the common boundaries of land which abuts a used public road or railway reserve. (Note: Firebreaks constructed on road reserves do not constitute a legal firebreak).
- 1.3 Not less than 20 metres and not more than 100 metres from the perimeter of all homesteads, buildings, haystacks and fuel storage areas. The area between the firebreaks and the building or haystack must be cleared of all flammable material by 1 December 1986.

3. Urban Land (Residential, Commercial and Industrial land within a townsite or within any area subdivided for residential purposes). In respect of land owned or occupied by you within any townsite or any area subdivided for other purposes, you shall:

- 3.1 Where the area of land is 2 024 sq m (approximately $\frac{1}{2}$ acre) or less, remove all flammable material on the land except living standing trees, from the whole of the land, and
- 3.2 Where the area of land exceeds 2 024 sq m ($\frac{1}{2}$ acre), provide firebreaks of at least two metres wide, immediately inside all external boundaries of the land and also immediately surrounding all buildings situated on the land. Special Orders—Section 33: The requirements of this order are considered to be the minimum standard of fire prevention work required to protect not only individual properties but the district generally. In addition to the requirements of this Order, Council may issue separate special orders on owners or occupiers if hazard removal is considered necessary.
