Given under my hand and the Public Seal of Western Australia, at Perth, this 7th day of October, 1986.

By His Excellency's Command,

I. F. TAYLOR,  
Minister for Lands.

GOD SAVE THE QUEEN !

AT a meeting of the Executive Council held in the Executive Council Chambers, at Perth, on 7 October 1986 the following Orders in Council were authorised to be issued:—

Land Act 1933  
ORDER IN COUNCIL

File No. 2310/06 V2.

WHEREAS by section 33 of the Land Act 1933, it is made lawful for the Governor to direct that any Reserve shall vest in and be held by any person or persons to be named in the Order, in trust for any purpose specified in such Order and with power of leasing; and whereas it is deemed expedient that Reserve No. 10164 (Cockburn Sound Location 2857) should vest in and be held by the Shire of Serpentine-Jarrahdale in trust for the purpose of "Recreation".

Now, therefore, his Excellency the Governor, by and with the advice and consent of the Executive Council, does hereby direct that the beforementioned Reserve shall vest in and be held by the Shire of Serpentine-Jarrahdale in trust for "Recreation" with power to the said Shire of Serpentine-Jarrahdale subject to the approval in writing of the Minister for Lands to each and every lease or assignment of lease being first obtained, to lease the whole or any portion thereof for any term not exceeding twenty-one (21) years from the date of the lease, subject nevertheless to the powers reserved to me by section 37 of the said Act; provided that no such lease or assignment of lease shall be valid or operative until the approval of the Minister for Lands or an officer authorised in that behalf by the Minister, has been endorsed on the Lease Instrument, or Deed to Assignment, as the case may be.

L. E. SMITH,  
Clerk of the Council.

Land Act 1933  
ORDER IN COUNCIL

File No. 2763/79.

WHEREAS by section 33 of the Land Act 1933, it is, *inter alia*, made lawful for the Governor by Order in Council to direct that any land reserved pursuant to the provisions of this Act shall be granted in fee simple to any person (as defined in the said section) subject to the condition that the person shall not lease or mortgage the whole or any part of the land without the consent of the Governor and subject to such other conditions and limitations as the Governor shall deem necessary to ensure that the land is used for the purpose for which the land is reserved as aforesaid: And whereas it is deemed expedient that Reserve No. 38403 should be granted in fee simple to the Trustees of The Grand Lodge of Western Australia of Antient Free and Accepted Masons to be held in trust for the purpose of "Hall Site (Masonic)".

Now, therefore, His Excellency the Governor by and with the advice and consent of the Executive Council, does hereby direct that the beforementioned reserve shall be granted in fee simple to the Trustees of The Grand Lodge of Western Australia of Antient Free and Accepted Masons to be held in trust for the purpose aforesaid subject to the condition that the land shall not be leased or mortgaged in whole or in part without the consent of the Governor.

L. E. SMITH,  
Clerk of the Council.

Land Act 1933  
ORDERS IN COUNCIL

WHEREAS by section 33 of the Land Act 1933, it is made lawful for the Governor to direct that any Reserve shall vest in and be held by any person or persons to be named in the Order, in trust for any of the purposes set forth in section 29 of the said Act, or for the like or other public purposes to be specified in such Order and with power of leasing: And whereas it is deemed expedient as follows:—

File No. 2426/33.—That Reserve No. 21187 (Ninghan Location 4250) should vest in and be held by the Aboriginal Lands Trust in trust for the purpose of "Use and Benefit of Aboriginal Inhabitants".

File No. 1686/986.—That Reserve No. 39552 (Bunbury Lot 685) should vest in and be held by the Honourable Ian Frederick Taylor, M.L.A., Minister for Health for the time being and his successors in Office in trust for "Health Purposes".

File No. 849/986.—That Reserve No. 39590 (Kununurra Lot 2255) should vest in and be held by the Honourable Ian Frederick Taylor M.L.A., Minister for Health for the time being and his successors in Office in trust for the purpose of "Clinic (Health Department)".

Now, therefore, His Excellency the Governor, by and with the advice and consent of the Executive Council, does hereby direct that the beforementioned Reserves shall vest in and be held by the abovenamed authorities in trust for the aforesaid purposes with power to the said authorities to lease the whole or any portion thereof for any term, subject nevertheless to the powers reserved to me by section 37 of the said Act.

L. E. SMITH,  
Clerk of the Council.

Land Act 1933  
ORDERS IN COUNCIL

WHEREAS by section 33 of the Land Act 1933, it is made lawful for the Governor to direct that any Reserve shall vest in and be held by any person or persons to be named in the order in trust for the like or other public purposes to be specified in such order: And whereas it is deemed expedient as follows:—

File No. 723/69.—That Reserve No. 31377 (Swan District and Ledge Point Lots 459 and 498) should vest in and be held by the Shire of Gingin in trust for the purpose of "Parking and Recreation".

File No. 3910/76.—That Reserve No. 34975 (Swan Locations 9713 and 10814) should vest in and be held by the Shire of Mundaring in trust for the purpose of "Public Recreation".

File No. 837/986.—That Reserve No. 39581 (Cockburn Sound Location 2850) should vest in and be held by the City of Cockburn in trust for the purpose of "Public Recreation".

File No. 2136/986.—That Reserve No. 39594 (Swan Location 10815) should vest in and be held by the Shire of Mundaring in trust for the purpose of "Public Recreation".

File No. 2135/986.—That Reserve No. 39595 (Swan Location 10816) should vest in and be held by Shire of Mundaring in trust for the purpose of "Public Recreation".

File No. 1345/986.—That Reserve No. 39602 (Canning Location 3506) should vest in and be held by the City of Gosnells in trust for the purpose of "Public Recreation".

Now, therefore, His Excellency the Governor, by and with the advice and consent of the Executive Council, does hereby direct that the beforementioned Reserves shall vest in and be held by the abovementioned bodies in trust for the purposes aforesaid, subject nevertheless to the powers reserved to him by section 37 of the said Act.

L. E. SMITH,  
Clerk of the Council.

Land Act 1933  
ORDER IN COUNCIL

File No. 2426/33.

WHEREAS by section 34B (1) of the Land Act 1933, it is made lawful for the Governor to revoke an Order in Council issued pursuant to section 33 of that Act. And whereas by Order in Council dated 26 June 1972 Reserve 21187 was vested in the Minister for Community Welfare in trust for "Community Welfare Purposes".

Now, therefore, His Excellency the Governor, by and with the advice and consent of the Executive Council, hereby directs that the relevant portion of the beforementioned Order in Council be revoked and the relevant portion of the Vesting Order cancelled accordingly.

L. E. SMITH,  
Clerk of the Council.

Land Act 1933  
ORDERS IN COUNCIL

WHEREAS by section 34B (1) of the Land Act 1933, it is made lawful for the Governor to revoke an Order in Council issued pursuant to section 33 of that Act.

File No. 2310/06, V2.—And whereas by Order in Council dated 11 March 1986, Reserve 10164 was vested in the Shire of Serpentine-Jarrahdale in trust for the purpose of "Recreation", with power, subject to the approval in writing of the Minister for Lands being first obtained, to lease the

whole or any portion thereof for any term not exceeding twenty one (21) years from the date of the lease.

File No. 723/69.—And whereas by Order in Council dated 9 June 1972, Reserve 31377 was vested in the Shire of Gingin in trust for the purpose of "Parking and Recreation".

Now, therefore, His Excellency the Governor, by and with the advice and consent of the Executive Council, hereby directs that the beforementioned Orders in Council be revoked and the Vesting Order cancelled accordingly.

L. E. SMITH,  
Clerk of the Council.

COMPANIES (APPLICATION OF LAWS) ACT 1981  
COMPANIES (APPLICATION OF LAWS)  
(SYNDICATION OF HORSES) (No. 2) REGULATIONS 1986

Whereas it is provided by section 16 of the *Companies (Application of Laws) Act 1981* that where the Ministerial Council approves the declaration of a right or interest as an exempt right or interest for the purposes of Division 6 of Part IV of the *Companies (Western Australia) Code* the Governor may make regulations accordingly, the following regulations are made in accordance with that section by the Governor in Executive Council.

**Citation.**

1. These regulations may be cited as the *Companies (Application of Laws) (Syndication of Horses) (No. 2) Regulations 1986*.

**Repeal**

2. The *Companies (Application of Laws) (Syndication of Horses) Regulations 1986\** are repealed.

[\*Published in the Government Gazette on 24 January 1986 at pages 257 and 258.]

**Interpretation.**

3. In these regulations "horse syndicate" means a body of persons or partnership, whether or not a Syndicate—

- (a) as defined in and for the purposes of the Australian Rules of Racing as applicable in the State;
- (b) for the purposes of The Rules of Trotting of the Western Australian Trotting Association; or
- (c) for the purposes of any other registration relating to the racing or breeding of horses, associated for the principal purpose of racing or breeding, or racing and breeding, one or more horses.

**Declaration as to exemption.**

4. For the purposes of Division 6 of Part IV of the *Companies (Western Australia) Code* a right or interest in a horse syndicate is hereby declared to be an exempt right or interest, except where and to the extent that the promoter or a company or an agent of a company, elects to comply with the provisions of that division in relation to any prescribed interest and serves notice in writing to that effect on the Commissioner for Corporate Affairs.

By His Excellency's Command,  
G. PEARCE,  
Clerk of the Council.

## SUNSCREEN PRODUCTS—EVALUATION AND CLASSIFICATION

STANDARDS ASSOCIATION OF AUSTRALIA  
Incorporated by Royal Charter

## PREFACE

This standard was prepared by the Association's Committee on Sunscreen Agents following a request from the Commonwealth Department of Health.

The committee was asked to prepare a method for evaluating the performance of sunscreen products under conditions that duplicate the in-use situation as closely as possible.

The committee was unable to reach a consensus concerning broad spectrum products. Consequently broad spectrum products are not dealt with in this standard. The committee intends, as a priority, to devote further time to this matter.

This standard sets out a method of evaluating the performance of sunscreen products in terms of their ability to prevent sunburn on human skin and describes the requirements for labelling sunscreen products in such a way that the information obtained by testing will be meaningful to most consumers.

It is emphasized that consumers will need to use this information sensibly because of the number of variables involved. The information gives a guide to the individual user as to how long one may remain exposed to sunlight before becoming sunburnt. However, it will not promise a precise result for each individual or indicate the range of the ultraviolet (UV) spectrum against which the product provides protection.

Reproducible test methods for evaluating some of the other properties attributed to sunscreen products, such as the promotion of tanning, are not, to the committee's knowledge, available at the present time in the context of simple test methods using a response on human skin as the yardstick.

The procedures described in this standard provide guidelines which should add some certainty and reproducibility to the methods of determining protection factors. All phases of the methods are described as closely as practicable, so far as existing facilities and available information and knowledge permit.

Following publication of the standard the committee intends to review the situation within two years as further experience is gained in the *in-vivo* testing of sunscreen products.

SUNSCREEN PRODUCTS—EVALUATION AND CLASSIFICATION

## FOREWORD

The need for a simple, quantitative method for determining the protective power of sunscreen products has led to the development of an experimentally determined 'protection factor'. The protection factor is the ratio of the UV radiation dose between skin treated with a sunscreen product and untreated skin, required to produce a recognizable constant skin response. The test procedures described in this standard employ minimum erythema as the constant skin response and 'solar simulator' lamps as the UV source.

The test procedures relate to the protection from UV radiation in a simple situation which is uncomplicated by processes such as sweating, swimming or similar activities. The tests are not intended simply to determine the strongest sunscreen products, but provides some comparative information about the protective powers of the products.

For a number of reasons, including variations in skin types, consumers require a range of sunscreen products with different protective powers and comparative information so that they can as far as possible select the best product for a particular situation.

It is a fairly simple matter to perform evaluations by exposing ordinary skin to sunlight. Unfortunately, there are so many variable factors which contribute significantly to the result that such a single random determination is unlikely to coincide with the most probable result obtained from a large number of determinations on different persons. Consequently, it is necessary, in a system intended to give a useful comparison of the potential protective efficiency of a wide range of sunscreen products, to specify certain constraints in the method. Such constraints must be sensibly related to the processes operating when sunscreen products are used to prevent sunburn. They should also be widely acceptable and readily realized in practice so that comparative evaluations can be made and preferably accepted in different locations, if necessary throughout the world. It is necessary to include statistical requirements in the method to achieve acceptable average results.

The committee decided against the use of natural sunlight as the source of UV radiation in the test method. Although sunlight may at times be convenient for sunburn tests, it is too variable and unpredictable to be used routinely for assessing large numbers of sunscreen products. In the tropics, if two consecutive days happen to be fine and cloudless, this is rare enough, but it is even more unusual to find that the UV-B intensity is unchanged. Skin temperature during UV exposure is an important factor and a wide variation may be expected in natural sunlight. This problem is compounded by intermittent cloud when the total radiation may be as low as 10 percent (affecting skin temperature), while the UV-B radiation (causing sunburn) may remain above 50 percent. The results obtained in sunlight are too slow for the practical testing of products with high protection factors.

Some test centres have used 'Osram Ultravitalux' lamps while others have used xenon arc lamps as a source of simulated sunlight. Although there have been various opinions as to whether one of these two UV lamp systems should be preferred, there does not appear to be a direct comparison of protection factors obtained with a xenon arc or a mercury sunlamp or sunlight under conditions such as those specified above. At present Europe appears to prefer the 'Ultravitalux' lamp while the U.S.A. favours a xenon arc as a solar simulator. The committee accepted the use of a solar simulator with properties that can be met using a xenon arc with filters.

The committee believes that if this standard is used as a basis for legislation, an interim period should be allowed for the collection of additional data by manufacturers who have used the 'Osram Ultravitalux' or other radiation sources.

## SPECIFICATION

1 **SCOPE.** This standard both sets out procedures for determining the performance of sunscreen products, in terms of their protection factors, using artificial sunlight as the ultraviolet (UV) source and human volunteers as subjects for skin response evaluation, and specifies labelling requirements for these products.

2 **APPLICATION.** This standard applies to sunscreen products represented as being suitable for application essentially to large surface areas of the body primarily to protect the skin from burning caused by the sun's ultraviolet rays.

Consequently this standard is not necessarily applicable to every cosmetic product that contains an UV light absorber. As examples, neither a lip-balm containing an UV light absorber or an aftershave containing an UV light absorber necessarily fall within the scope of this standard. However where claims of sunscreen activity are made for such products their labelling should be compatible with this standard.

Products with a mean protection factor of less than 2.0 shall not be regarded as sunscreen products.

3 **DEFINITIONS.** For the purposes of this standard, the following definitions apply:

3.1 **Minimum erythral dose (MED)**—the quantity of radiant energy required to produce the first detectable reddening of fair human skin following exposure to a specified wavelength or range of wavelengths. When the UV source has constant intensity, MED ratios may be determined by ratios of exposure durations.

3.2 **Solar simulator**—a lamp system that produces artificial or simulated sunlight (as described in Appendix D).

3.3 **Shall**—the use of the word 'shall' indicates that a requirement is mandatory.

3.4 **Should**—the use of the word 'should' indicates that a requirement is advisory.

3.5 **May**—the use of the word 'may' indicates that a requirement is optional.

3.6 **Protection factor**—a factor as described in Clause 5.

3.7 **Mean protection factor**—a factor as described in Clause 7.9.1.

3.8 **Label protection factor**—a factor as described in Clause 7.9.3.

4 **CLASSIFICATION.** Sunscreen products shall be classified with the appropriate category description according to their mean protection factors as follows:

<i>Range of mean protection factors</i>	<i>Category description</i>
15 and over .....	Maximum protection sunscreen
8 to under 15 .....	High protection sunscreen
4 to under 8 .....	Moderate protection sunscreen
2 to under 4 .....	Minimum protection sunscreen

The category description shall appear on the product (see Clause 8 (a)).

The appropriate label protection factor may appear on the product (see Clause 8 (b)).

NOTE: The method of calculation for assigning category descriptions and, where required, label protection factors, is described in Clauses 7.9.2 and 7.9.3. respectively.

5 **PRINCIPLE.** The protection factor (PF) of a sunscreen product shall be determined from the minimum erythral dose (MED) of skin that has been protected with the sunscreen product and from the MED of an adjacent area of unprotected skin, under specified conditions (see Clause 7) by means of the following relationship where the UV source has constant intensity:

$$\text{Protection factor} = \frac{\text{Exposure duration for minimum erythema in protected skin}}{\text{Exposure duration for minimum erythema in unprotected skin}}$$

NOTE: For experimental considerations concerning the determination of protection factors, see Appendix A.

6 **REFERENCE PRODUCT.** A reference sunscreen product is described in Appendix B. This product may be used if required to verify test procedures.

## 7 TEST PROCEDURES.

7.1 **General Principles.** The MED of the (untreated) subject at the test site is first determined. An experienced tester can often predict an MED for a particular lamp distance and subject but, where necessary, one or more sets of trial exposures must be made and after 16 h to 24 h read to determine the approximate MED without exposing the subject to excessive radiation. Exposures are made on one or more small subsite areas at measured exposure times.

On the basis of this predicted or approximate value, the MED is determined more precisely by a set of exposures which span a dose range of approximately 0.6 to 1.5 of the MED. Usually these doses are administered the day before the product is tested but they may be administered at the same time. When administered the day before, the result, when read, not only provides the denominator for calculating the PF but when multiplied by the expected or likely value of the product's PF, provides an estimate for the longer exposure needed to assess the product.

The product is assessed by exposing a set of small subsite areas adjacent to the untreated areas, after application of the product. Times of exposure are selected to bracket the estimate above. When read 16 h to 24 h later, the MED for the treated skin is divided by the MED for untreated skin to give the PF.

### 7.2 Selection of Test Subjects.

7.2.1 *General.* Test subjects shall be fair skinned male or female volunteers drawn from any of skin types 1, 2 or 3 (see Clause 7.2.2). A questionnaire shall be completed for each volunteer (by means of a personal interview). A suitable questionnaire is described in Appendix C. Volunteers with a history of abnormal response to medication, UV radiation or allergies to topically applied cosmetics shall be excluded. Volunteers taking photo-toxic or photosensitizing medication shall be excluded. All other medication being taken shall be recorded.

NOTE: The National Health and Medical Research Council recommends that informed consent should be obtained from each test subject.

7.2.2 *Classification of skin types.* Skin types shall be classified as follows:

- (a) Skin type 1—sun-sensitive skin which burns and never tans.
- (b) Skin type 2—skin which burns readily and tans slightly.
- (c) Skin type 3—skin which burns and tans moderately.

NOTE: Darker skins or rapid tanning skins are not suitable as response times are too long. It is understood that similar results may be obtained from any skin type; only the exposure times will differ.

7.2.3 *Number of test subjects.* The number of test subjects used to evaluate a single sunscreen product shall be not less than 10.

7.3 **Selection of Test Site.** Test sites shall comprise appropriate areas of clean dry skin selected so as to avoid any features such as existing suntan or sunburn, active dermal lesions, excessive hair, uneven skin tones or other properties that may modify uniformity of response across the test site.

Test sites shall be a minimum area of 30 cm<sup>2</sup>.

NOTE: Where difficulty is experienced in measuring small quantities of product because of its physical characteristics, it may be necessary to use test sites that are larger than 30 cm<sup>2</sup>.

7.4 **Delineation of Test Site.** The test subsites used to determine protection factors for a particular product shall be on comparable areas of the body and preferably within the same test site. Subsites shall be identified by means which do not interfere with the test or harm the subject.

The test site shall be divided into at least five subsites by suitable apertures or templates shown to allow no overlap of radiation. Areas of skin not forming part of the test should be protected from burns.

Each subsite should be not less than 1 cm<sup>2</sup> in area. It is preferable that subsites be separated from adjoining subsites by at least 1 cm and be not closer than 1 cm from any edge of the test site.

**7.5 Application of Products.** The product under test shall be applied to the skin within the outline borders of the test site, at a rate of 2 mg/cm<sup>2</sup> or equivalent volume. The product shall be spread using a fingerstall that has a smooth exterior surface, in such a way that the product appears to be of uniform thickness across the whole of the test site.

NOTE: The film thickness is a critical factor in obtaining meaningful results. It is important that the product film is evenly applied and is of uniform thickness.

**7.6 Waiting Period.** Before the test subsite areas are exposed to UV radiation, the product shall be allowed to dry in accordance with the manufacturer's instructions. Where no waiting period is specified, the product shall be allowed to dry for at least 15 min.

NOTE: For practical reasons the template should not be applied for at least 15 min after application of the product.

**7.7 Exposure Times.** Each test subsite area in a series shall be exposed to a different amount of simulated sunlight using a solar simulator that complies with the requirements of Appendix D.

From one area to the next, the exposure should increase by a constant ratio. Ideally, the test subsite area in the centre of the series should receive an exposure equal to the subject's MED multiplied by the expected protection factor of the product under test. In any case there shall be at least one low exposure subsite showing no erythema and at least one subsite with a higher degree of erythema on opposite sides of the subsite that shows an MED. (See Clause 7.8.)

Where the test subject's MED is not known, a wider range of exposures may be necessary to comply with this requirement than where it has previously been determined.

Time increments between subsequent exposures of not greater than 1.26 times (26 percent) should be used as a compromise between the number of steps and the uncertainty per step. The resulting sequence is then 1.00, 1.26, 1.59, 2.00, 2.52, 3.18, 4.00, 5.04, 6.35, 8.00 and so on, doubling every third step.

**7.8 Response Criteria.** After UV exposure of the test subsites has been completed, all immediate skin responses should be recorded. These responses may include the following:

- (a) An immediate darkening or tanning which is typically greyish or brownish in colour and fades within 30 min to 60 min.
- (b) An immediate reddening which fades rapidly.
- (c) An immediate generalized heat response resembling heat rash.

NOTE: Recording the above responses is not necessary in determining the protection factor of a particular product; however, it is recommended that the information be kept in anticipation that it may prove to be of value at a later date.

After the immediate responses have been noted, each subject shall shield the exposed area from further UV radiation for the remainder of the test day and during the following day. Common light shirts or blouses may not be sufficient if the subject needs to appear in summer sunlight.

The MED shall be determined not less than 16 h and not more than 24 h after exposure. The observer shall inspect the row of test subsites from the low exposure end to the high exposure end and shall select the subsite which he estimates is the first one to show any significant visible reddening. The MED for that series is the exposure (or time) for this selected subsite. There shall be at least one low exposure subsite showing no erythema and at least one subsite with a higher degree of reddening on either side of the selected subsite.

The MED for both protected and unprotected skin shall be judged in a similar manner using, wherever possible, the same observers.

The determination of MEDs shall be carried out in a room with neutral wall colours, using a light source sufficient to determine MEDs. The test subjects should be seated and rested during the determination.

## 7.9 Results.

**7.9.1 Mean protection factor.** The mean protection factor shall be calculated as the mean of the protection factors of the individual test subjects (Clause 7.2.3). For the result to be valid the standard error of the mean shall not be greater than 10 percent of the mean protection factor, for each sunscreen product tested.

$$\text{Standard error of the mean} = \frac{\text{Standard deviation of test}}{\sqrt{\text{Number of test subjects}}}$$

**7.9.2 Category description.** For the purpose of assigning a product with a particular category description, the mean protection factor shall be used.

Examples:

- Mean protection factor 3.9—minimum protection sunscreen.
- Mean protection factor 1.9—this is not a sunscreen product.

**7.9.3 Label protection factor.** Where required for the purpose of placing a protection factor number on the pack, the number to be used shall be the mean protection factor rounded down to the nearest whole number.

Example:

- Mean protection factor 8.9 (rounds down to 8).
- The label protection factor that may be claimed is 8.

NOTE: This rounding down procedure only occurs for the purpose of placing a number on the pack.

## 8 MARKING. Individual containers of sunscreen product shall be marked as follows:

- (a) The category description of the product as determined in accordance with Clauses 4 and 7.9.2 shall be marked on the primary display panel, close to the name of the product in bold-face sans-serif type. The size of the letters shall be not less than 25 percent of the size of the largest letters used on the display panel, and in any case, shall be not less than 1.5 mm in height. The letters shall be of a colour or colours that will be in distinct contrast to the background.

- (b) The label protection factor as determined in accordance with Clause 7.9.3 may also be stated on the pack as a whole number. In the case of a maximum protection sunscreen, the only label protection factor that shall be stated is: either '15 +' or '15 plus'.

A description of the skin type that the product is suitable for may also be given. Examples of suitable descriptive phrases are given below, but this list is not intended to be exclusive.

<i>Category description</i>	<i>Description of skin type</i>
Minimum protection ..... sunscreen	For skin which tans readily
Moderate protection ..... sunscreen	For skin which burns and tans moderately.
High protection sunscreen	For skin which burns readily and tans slightly.
Maximum protection ..... sunscreen	For highly sun-sensitive skin which burns and never tans

NOTE: Label protection factors greater than 15 may not be quoted as a product with this value may be capable of providing day-long protection.

- (c) Clear and adequate directions for use of the product shall appear on the container including a clear warning in any case where a danger exists if an incorrect method of use is employed.

NOTE: Although it is accepted that the directions for use may vary from product to product, the need to use sufficient product to achieve the anticipated result should be emphasized.

- (d) The names of the active ingredient or ingredients and their concentrations in the product shall be marked on the container using—
- where one exists, the name given in the (proposed) 'Australian Approved Names And Other Names For Therapeutic Substances'; or
  - where no such name is allocated, the name allocated in the Cosmetic, Toiletry and Fragrance Association Inc. (U.S.A.) Cosmetic Ingredient Dictionary or in the directives of the European Economic Community (EEC); or
  - where no such name is allocated, the scientific name.

#### APPENDIX A

##### EXPERIMENTAL AND STATISTICAL CONSIDERATIONS

A1 SCOPE. This Appendix summarizes some of the inherent uncertainties in the test method and the extent to which their influence on the resulting protection factor values may be controlled. The success of these controls will be reviewed by the committee as experience is gained in evaluating sunscreen products.

##### A2 UNCERTAINTIES.

A2.1 **Personal Factors.** The following factors may influence the evaluation:

- Skin sensitivity varies from person to person.
- The MED for any one subject may vary on different areas of the body.
- Judgement of erythema is not an infallible procedure as it may vary between observers and not be constant for any individual observer. However as it is a ratio that is being determined, the important factor is that judgements are made in a consistent manner.

A2.2 **Uniformity of Thickness.** The uniformity of the thickness of the sunscreen retained on the skin is a major uncertainty. The amount of radiation blocked by the sunscreen is not a linear function of sunscreen thickness; consequently control of thickness is critical.

A non-uniform layer will transmit more radiation overall than a layer with the same average thickness spread perfectly uniformly. The committee is not aware of a method to study or measure the thickness of a layer over any point on the skin.

There are several factors contributing to uneven thickness, as follows:

- The bottom of the layer follows the grooves, holes and undulations of the skin.
- The top of the layer is never perfectly smooth or parallel to the skin surface.
- Surface forces may alter the sunscreen distribution when the solvent vehicle evaporates after spreading.
- Physical contact with external substances such as other skin, clothing, water, perspiration, will remove some of the applied sunscreen.

#### APPENDIX B

##### REFERENCE SUNSCREEN PRODUCT

B1 SCOPE. This Appendix provides a formulation for preparing a sunscreen product that has been shown by inter-laboratory tests to provide mean protection factors as follows:

3.86, 4.50, 4.10, and 3.90 respectively.

##### B2 INGREDIENTS.

		Percentage m/m
Part A	Lanolin.....	5.00
	Homomenthyl salicylate .....	8.00
	White petrolatum.....	2.50
	Stearic acid.....	4.00
	Propylparaben.....	0.05
Part B	Methylparaben.....	0.10
	EDTA disodium .....	0.05
	Propylene glycol.....	5.00
	Triethanolamine .....	1.00
	Purified water.....	74.30

B3 PROCEDURE. Heat Parts A and B separately to between 77°C and 82°C with constant stirring until the contents of both are solubilized. Add Part A slowly to Part B while stirring. Continue stirring until the emulsion formed has cooled down to room temperature (15°C to 30°C). Add sufficient purified water to obtain 100 g of reference sunscreen product.

#### APPENDIX C

##### QUESTIONNAIRE FOR TEST SUBJECTS

C1 SCOPE. This Appendix describes a suitable questionnaire for test subjects for the evaluation of sunscreen products.

NOTE: Some of the information requested in the questionnaire is not mandatory in terms of the selection of test subjects. However it is recommended that this information be kept in anticipation that it may prove to be of value at a later date.

#### APPENDIX D

##### SOLAR SIMULATOR

D1 SCOPE. This Appendix describes the characteristics of the solar simulator to be used for the purpose of evaluating sunscreen products.

D2 WAVELENGTH REQUIREMENTS. The solar simulator shall—

- (a) have less than 1 per cent of its total energy contributed by wavelengths of less than 290 nm;
- (b) provide a spectrum in the UV-B region (290 nm to 320 nm) free from substantial peaks;
- (c) provide continuation of the spectrum through the UV-A region up to 400 nm.

D3 GENERAL REQUIREMENTS.

- (a) The xenon arc solar simulator is the preferred artificial radiation source. Xenon solar simulators may utilize xenon arcs from 150 W to more than 6 000 W. Solar simulators of 150 W are considered to be adequate for the determination of the PF values.
- (b) Xenon arc solar simulators use filters to absorb the shorter wavelengths below 290 nm. The filter should be a 1 mm Schott WG 320 or some other model with comparable properties. A dichroic or heat absorbing filter should also be employed to reduce unnecessary visible and infrared radiation.

- (c) Until appropriate radiation measuring devices are readily available, the solar simulator should be checked periodically using a sunscreen product that produces a known protection factor.
- (d) The solar simulator should produce a spectrum that does not deviate from the reference global spectrum substantially more than the solar simulator as illustrated in Fig. D1.

#### RADIATION SAFETY ACT 1975

#### RADIATION SAFETY (GENERAL) AMENDMENT REGULATIONS 1986

MADE by His Excellency the Governor in Executive Council.

##### Citation

- These regulations may be cited as the *Radiation Safety (General) Amendment Regulations 1986*.

##### Interpretation

- In these regulations—

“the principal regulations” means the *Radiation Safety (General) Regulations 1983*\*.

[\*Published in the Gazette of 21 February 1983 at pp. 555-636 and amended in the Gazette of 29 June 1984 at p. 1784].

##### Regulation 3 amended

- Regulation 3 of the principal regulations is amended in subregulation (1) by deleting the definition of “microwave oven” and substituting the following definition—

“ “microwave oven” means electronic product which is a microwave cooking appliance designed to heat food by the use of microwave energy in the frequency range between 300 MHz and 30 000 MHz; ”.

##### Regulation 7 amended

- Regulation 7 of the principal regulations is amended by repealing subregulation (2) and substituting the following subregulation—

“ (2) The electronic products specified in Schedule VII are exempted under section 6 from compliance with all the provisions of the Act and these regulations except for regulations 39 (1), 42, 43, 44, 45, 46, 47, 49 and 50 and those provisions of the Act necessary to support the making of those regulations. ”.

##### Regulation 28 amended

- Regulation 28 of the principal regulations is amended in subparagraph (i) of paragraph (g) of subregulation (1) by deleting “81st Session in October 1975” and substituting the following—

“ 93rd Session in June 1982 ”.

**Regulation 31 amended**

6. Regulation 31 of the principal regulations is amended in subregulation (5) by deleting paragraphs (b) and (c) and substituting the following paragraph—

- “ (c) the concentration of the radioactive substance in that waste discharged during any month (in this paragraph called “the month of discharge”) into that system from the premises concerned, ascertained by—
- (i) determining the average quantity of water discharged per month into that system from those premises during the period of 12 months ending immediately before the month of discharge; and
  - (ii) dividing the average quantity referred to in subparagraph (i) into the amount of the radioactive substance discharged into that system during the month of discharge,
- does not exceed the appropriate maximum concentration set out in column 2 of Table I of Schedule VIII; and ”.

**Regulation 39 amended**

7. Regulation 39 of the principal regulations is amended by repealing—

- (a) subregulation (1) and substituting the following subregulation—

- “ (1) A person shall not sell a microwave oven as a new microwave oven unless the model of microwave oven to which the microwave oven belongs—
- (a) complies with the requirements of the publication entitled “Approval and test specifications for particular requirements for microwave ovens”, being AS 3301-1978, published by the Standards Association of Australia; and
  - (b) has been tested by an approved laboratory and certified by it as complying with the requirements of the publication referred to in paragraph (a). ”;

and

- (b) subregulations (3), (4) and (5).

**Regulation 52 amended**

8. Regulation 52 of the principal regulations is amended in subregulation (1)—

- (a) by deleting the definitions of “class 1 laser”, “class 2 laser”, “class 3 laser” and “class 4 laser” and substituting the following definitions—

- “ “class 1 laser” means class 1 laser product as defined by Section 1.3.9 of the Australian Standard;  
“class 2 laser” means class 2 laser product as defined by Section 1.3.10 of the Australian Standard;  
“class 3A laser” means class 3A laser product as defined by Section 1.3.11 of the Australian Standard;  
“class 3B laser” means class 3B laser product as defined by Section 1.3.12 of the Australian Standard;  
“class 4 laser” means class 4 laser product as defined by Section 1.3.13 of the Australian Standard; ”;

- (b) by inserting after “means” in the definition of “laser system” the following—

“ functional ”;

- (c) in the definition of “the Australian Standard” by deleting—

- (i) “-1978” and substituting the following—

“ -1981 ”; and

- (ii) “December 1978;” and substituting the following—

“ May 1981. ”;

and

- (d) by deleting the definitions of “the Guidelines”, “type 1 area warning sign” and “type 2 area warning sign”.

**Regulation 53 amended**

9. Regulation 53 of the principal regulations is amended—

- (a) in subregulation (1) by inserting after “class 2 laser” the following—

“ or class 3A laser ”; and

- (b) in subregulation (3) by—

- (i) deleting “class 2 laser is operated” and substituting the following—

“ class 2 laser or class 3A laser is operated ”;

- (ii) inserting after “affix to the class 2 laser” in paragraph (a) the following—

“ or class 3A laser ”; and

- (iii) deleting paragraph (b) and substituting the following paragraph—

“ (b) display—

- (i) while the class 2 laser or class 3A laser is being operated or used, warning signs in conspicuous locations inside and outside the area in which that operation or use is taking place and on doors giving access to that area; and

- (ii) a warning sign in a prominent position near the class 2 laser or the class 3A laser,

in accordance with the requirements of the Australian Standard. ”.

**Regulation 54 amended**

10. Regulation 54 of the principal regulations is amended by deleting—

- (a) “class 3 laser” wherever it occurs and substituting in each case the following—

“ class 3B laser ”; and

- (b) “class 2 laser” and substituting the following—

“ class 3A laser ”.

**Regulation 55 amended**

11. Regulation 55 of the principal regulations is amended by deleting "class 2 laser and a class 3 laser" and substituting the following—  
" class 3A laser and a class 3B laser ".

**Regulation 56 amended**

12. Regulation 56 of the principal regulations is amended by deleting—
- " , class 3 laser" in the first 2 places where it occurs and substituting in both cases the following—  
" , class 3A laser, class 3B laser ";
  - "level applicable to the class of laser concerned" in paragraph (a) of subregulation (1) and substituting the following—  
" maximum permissible exposure level under Appendix A to the Australian Standard ";
  - "section 6.6.3 of the Guidelines" in paragraph (d) of subregulation (1) and substituting the following—  
" Section 4.3.2 of the Australian Standard ";
  - "applicable to that class of laser" in paragraph (d) of subregulation (1) and substituting the following—  
" under Appendix A to the Australian Standard " ; and
  - "class 3 laser" in the 2 places where it occurs in paragraph (a) of subregulation (2) and substituting in both cases the following—  
" class 3B laser ".

**Regulation 58 amended**

13. Regulation 58 of the principal regulation is amended—
- in subregulation (3) by deleting "An applicant" and substituting the following—  
" Subject to subregulation (5), an applicant ";
  - in subregulation (4) by inserting after "registration or licence" in paragraph (a) the following—  
" and subject to subregulation (5) " ; and
  - by inserting after subregulation (4) the following subregulation—  
" (5) An applicant for the grant or renewal of a licence in respect of the testing of microwave ovens who is—  
(a) a health surveyor employed by a municipality constituted under the *Local Government Act 1960*; or  
(b) an officer of the Health Department of the Public Service of the State, is hereby exempted from compliance with subregulation (3) or (4)(a). "

**Schedule XIII amended**

14. Schedule XIII to the principal regulations is amended by deleting—
- "CLASS 3" in the heading and substituting the following—  
" CLASS 3B ";
  - "class 3 laser" wherever it occurs and substituting in each case the following—  
" class 3B laser ";
  - "Appendix H.2 to the Guidelines" in item 9 and substituting the following—  
" Section 3.5.2 of the Australian Standard ";
  - "type 2 area warning signs in accordance with Appendix F.2 to the Guidelines" in item 15 and substituting the following—  
" area warning signs in accordance with Section 3.4 of the Australian Standard " ; and
  - "C to the Guidelines" in item 16 and substituting the following—  
" D to the Australian Standard ".

**Schedule XIV amended**

15. Schedule XIV to the principal regulations is amended—
- in item 1 by deleting "section 6.5.2 of the Guidelines" and substituting the following—  
" Section 4.3.2 of the Australian Standard ";
  - by deleting item 19 and substituting the following item—  
" 19. Electrical equipment forming part of the class 4 laser or its laser system shall comply with the requirements of the publication entitled "The electrical installations of buildings, structures and premises" known as the "SAA wiring rules", AS 3000-1981, and issued by the Standards Association of Australia. ";
  - in item 22 by deleting "Type 2 area warning signs" and substituting the following—  
" Area warning signs complying with Section 3.4 of the Australian Standard " ; and
  - in item 24 by deleting "C to the Guidelines" and substituting the following—  
" D to the Australian Standard ".

By His Excellency's Command,  
L. E. SMITH,  
Clerk of the Council.

## LIST OF MARINE COLLECTOR'S LICENCES

Issued During the Period 1/7/86 to 30/9/86

Name; Address; Date; Lic. No.

AUBURY, Ronald Arthur; 2 Hodges Street, Shoalwater, 26/8/86; 427.  
 BATES, Gary William; 2 Lulworth Place, Marangaroo; 26/8/86; 426.  
 CRAGAN, Alan Wayne; 35 West Street, Northampton; 4/9/86; 428.

## POLICE AUCTION

UNDER the provisions of the Police Act 1892-1983, unclaimed stolen and found property will be sold by public auction at the Property Tracing Section, Police Complex, Clarkson Rd, Maylands on Tuesday 21 October 1986 at 9.00 am.

Auction to be conducted by Mr B. Hooson, Acting Government Auctioneer.

B. BULL  
 Commissioner of Police.

## ROAD TRAFFIC ACT 1974

I, GORDON LESLIE HILL, being the Minister for the Crown for the time being administering the Road Traffic Act 1974, acting pursuant to the powers conferred by section 83 (1) of that Act, hereby approve the suspension of Regulations made under such Act, on the carriageways mentioned hereunder, within the Shire of Collie and nominated for the purpose of Motor Cycle Racing by members of the Collie Motor Cycle Club (Inc.) on Sunday, 9 November 1986 between the hours of 8.00 am and 5.00 pm.

Racing be strictly confined to Johnston Street, Atkinson Street, Jones Street, Newbold Street, Ogden Street, Holme Street and Princep Street.

Dated at Perth this 6th day of October 1986.

G. L. HILL,  
 Minister for Police.

## ROAD TRAFFIC ACT 1974

I, GORDON LESLIE HILL, being the Minister for the Crown for the time being administering the Road Traffic Act 1974, acting pursuant to the powers conferred by section 83 (1) of that Act, hereby approve the suspension of Regulations made under such Act, on the carriageways mentioned hereunder, within the Shire of York and nominated for the

purpose of Motor Car and Motor Cycle Racing by members of the Vintage Sports Car Club of Australia (WA Branch) and The Historic, Competition Drivers Club, on Sunday, 16 November 1986, between the hours of 8.00 am and 5.00 pm.

Racing to be strictly confined to Pool Street, Avon Terrace, Macartney Street, Howick Street, South Street, Railway Street, Joaquina Street and Low Street.

Dated at Perth this 6th day of October, 1986.

G. L. HILL,  
 Minister for Police.

## WESTERN AUSTRALIAN MARINE ACT 1982

Restricted Speed Areas—All Vessels

Department of Marine and Harbours,  
 Fremantle, 2 October 1986.

ACTING pursuant to the powers conferred by section 67 of the Western Australian Marine Act, the Department of Marine and Harbours, by this notice, limits the speed of all power vessels to that of six knots in the following areas:—

Port of Perth

Jervoise Bay Marina: All those waters contained within the main breakwater and east and south of an imaginary line commencing at the main breakwater light tower and drawn 000° to the foreshore at Woodmans Point.

Hillarys Boat Harbour: All those waters contained within the north and south breakwaters extending seaward from the entrance to the harbour in a 50 metres radius from the end of the southern breakwater.

Dated 3rd October, 1986.

Dated the 1st day of October, 1986.

W. P. SPENCER.  
For J. M. JENKIN,  
Harbour Master,  
Port of Perth.

IT is notified for public information that the following directions were given under the America's Cup Yacht Race (Special Arrangements) Act 1986.

**AMERICA'S CUP YACHT RACE  
(SPECIAL ARRANGEMENTS) ACT 1986**

**DIRECTIONS**

GIVEN by the Harbour Master of the Port of Fremantle

**Part I—General**

**Citation**

1. These directions may be cited as the *America's Cup Yacht Race Directions 1986*.

**Commencement**

2. These directions come into operation on 5 October 1986.

**Interpretation**

3. (1) In these directions—

“Control Area” means the waters comprised within the control area marked on Land Administration Miscellaneous Plan No. 1558;

“control vessel” means a vessel designated as a control vessel;

“Course Area” means the waters designated and indicated in the manner referred to in direction 10, as the area within which a race is to be held on a race day within a Designated Race Area;

“designated” means designated by the Harbour Master;

“Designated Race Area” in relation to a race to be held on a particular day, means the Race Area designated for that race on that day;

“Harbour Master” means the Harbour Master of the Port of Fremantle;

“permitted spectator vessel” means a vessel, or a vessel of a class, in respect of which a permit has been issued by the Harbour Master;

“race” means a race to which the Act applies;

“Race Area” means an area designated in accordance with direction 7;

“race day” means a day on which a race is held or is approved to be held;

“Restricted Area” means the waters within a Course Area or to which direction 11(2) applies;

“Schedule” means the Schedule to these directions;

“the Act” means the *America's Cup Yacht Race (Special Arrangements) Act 1986*.

(2) In these directions, “authorised person”, “control area” and “vessel” have the respective meanings given in the Act.

**Application**

4. (1) Part I of these directions applies in relation to the Control Area generally.

(2) Part II of these directions applies in and in relation to a Designated Race Area, but not otherwise.

**Navigation in the Control Area**

## 5. In the Control Area—

- (a) subject to these directions, navigation shall conform to the International Convention for the Prevention of Collisions at Sea;
- (b) a person in charge of a vessel shall not cause or permit the vessel to obstruct commercial or naval vessels using the Port of Fremantle;
- (c) a person in charge of a vessel shall not navigate the vessel in a dangerous or unseamanlike manner;
- (d) a person shall not navigate or attempt to navigate a vessel while under the influence of alcohol or drugs, or both, to such an extent that the control of the vessel is or is likely to be affected;
- (e) a person shall not damage or interfere with a navigation aid, or a mark of the course, or any buoy or other marker denoting a Race Area, a Course Area or restricted waters;
- (f) a person shall not behave in a disorderly or dangerous manner on or in the vicinity of any vessel;
- (g) a person shall not throw or discharge garbage, rubbish or other matter into the waters;
- (h) a person in charge of a vessel shall not permit or suffer any garbage, rubbish or other matter from that vessel to be thrown, discharged or left in the waters.

**Directions given by authorised persons to be obeyed**

6. A person in charge of any vessel in the Control Area shall forthwith comply with any direction, including any oral direction, given by an authorized person—

- (a) prohibiting or restricting the entry of any person or vessel or the departure of any person or vessel into or from or in or about the Control Area;
- (b) prohibiting or restricting the movement of any person or vessel in or about the Control Area; or
- (c) prohibiting or restricting the mooring or berthing of any vessel in the Control Area.

**Race Areas**

7. (1) Within the Control Area not more than 10 areas, each comprising the waters within a radius of 4.5 nautical miles of the buoy known as rounding mark 3 which will normally be at the port end of the starting line of a race in that area, may be designated by the Harbour Master as Race Areas.

(2) The position of rounding mark 3 shall be either—

- (a) a position shown in the Schedule; or
- (b) a position approved by the Harbour Master,

indicated by an orange coloured spherical mark buoy.

**Designated Race Areas**

8. (1) America's Cup Selection or Match Races shall not be held except—

- (a) on a race day and at a starting time approved by the Harbour Master; and
- (b) in a Race Area designated for that race day and race.

(2) For public information, particulars of the race days and the race area designated for a race shall be posted on a notice board at the office of the Fremantle Port Authority not later than 1100 hours on that day.

**Part II—Racing****Rules for races**

9. Subject to these directions, navigation in the America's Cup Selection and Match Races shall be in accordance with the race regulations under the America's Cup Selection and Match Race Rules.

**Course Areas**

10. (1) In a Designated Race Area the waters within an area the sides of which are sufficiently outside the marks of the course (having regard to prevailing and anticipated conditions) to prevent interference with that race constitutes the Course Area for a race.

(2) A Course Area shall—

- (a) so far as may be practicable, be marked and kept marked by yellow coloured can buoys; and
- (b) if not so marked, be constituted by the waters within lines parallel to and 500 metres outside the marks of the course.

(3) The likely Course Area and time for the start of a race shall, so far as it can be ascertained in advance, be set out in the notice posted pursuant to direction 8(2).

(4) Within a Designated Race Area, depending on conditions, the Course Areas in relation to races starting at different times may vary.

(5) Having regard to the need for tacking and race manoeuvres, the Course Area marked prior to the start of a race shall be approximately diamond shaped, but if the marks of the course for any race change the Course Area shall, if that is necessary to prevent interference with the race, be changed also.

**Restricted Area**

11. (1) The waters within a Course Area, as bounded—

- (a) by lines of sight from Course Area marker to Course Area marker for any race; or
  - (b) where Course Area markers are, or a Course Area marker is, not laid in respect of any race, by lines parallel to and 500 metres outside the marks of the course for that race,
- are a Restricted Area.

(2) Taking into account that more than one Course Area may be marked within a Designated Race Area where more than one race starts or is to start, the waters on the race side of the line of sight from one Course Area marker to another Course Area marker, not necessarily being Course Area markers relating to the same race, may be designated as a Restricted Area.

(3) Where waters are designated a Restricted Area in accordance with direction 11(2), that designation shall be made known to, and may be brought to the attention of, persons in charge of vessels in the vicinity of the Course Area by whatever means are practicable.

#### Navigation in a Restricted Area

12. (1) A person in charge of a vessel other than—

- (a) a competing vessel;
- (b) a control vessel; or
- (c) a permitted spectator vessel,

shall not during a race, in the period of 90 minutes prior to the time at which a race is to start, or in the period of five minutes after the last boat in the race to finish crosses the finish line, cause or permit the vessel to enter any Restricted Area.

(2) Notwithstanding that direction 12(1) does not apply to a permitted spectator vessel, pursuant to direction 6 an authorized person may give a direction to the person in charge of a permitted spectator vessel in relation to the presence or movements of that vessel in a Restricted Area.

#### Further restrictions on large vessels

13. A person in charge of a vessel which has a waterline length in excess of 30 metres, and which is not a vessel authorized or permitted to enter a Restricted Area, shall not, during a race or in a period referred to in direction 11, cause or permit the vessel to be navigated within a distance of 500 metres of a Restricted Area.

#### Starting times

14. In considering whether to approve the starting time for a race the Harbour Master shall have regard both to the requirements of racing and to the operations of the Port of Fremantle.

#### Schedule

## BUSH FIRES ACT 1954

### Shire of Jerramungup

### 1986-1987 Firebreak Order

Notice to all owners and/or occupiers of land within the Shire of Jerramungup

PURSUANT to the powers contained in section 33 of the above Act, you are hereby required on or before 1 November 1986 to clear of all inflammable material firebreaks as stated hereunder and thereafter to maintain the firebreaks clear of inflammable material up to and including 30 April 1987.

1. Prepare firebreaks not less than three metres wide within 200 metres of all neighbours boundaries whether such land is cleared, part cleared or uncleared, except where

neighbours jointly agree to maintain a single firebreak. Where this variation is sought a permit is required from the local Fire Control Officer.

1a. Breaks alongside constructed roads optional, except where the land is sown to crop for harvesting. In such cases where crop is sown, prepare a three metre wide break immediately inside the boundary adjoining the crop.

2. Embark on a policy of strategic firebreaks in lieu of property breakdown. The use of farm roads cleared of inflammable material, graded contours, graded dam catchments, all not less than three metres wide, will be accepted. Further use of salt creeks, lakes and naturally bare ground will be allowed so that a ratio of one kilometre of break per 250 hectares exists.

3. Prepare firebreaks not less than three metres wide within 100 metres of and surrounding all buildings, haystacks and fuel dumps.

4. Prepare firebreaks not less than 10 metres wide immediately around the perimeter of any scrub of timber which has been logged, chained or otherwise prepared for burning, within seven days of such work being completed, no area to be greater than 400 hectares.

5. In respect of land within any townsite within the Shire, you shall:—

- (a) where the area is 2 000 square metres or less, remove all inflammable material on the land from the whole of the land;
- (b) where the area of the land exceeds 2 000 square metres, firebreaks not less than two metres wide shall be prepared immediately inside and along all external boundaries of the land.

Penalty for non-compliance: \$400.

If it is considered to be impractical for any reason to clear firebreaks as required by this Notice, the approval of the Council must be obtained to clear such firebreaks in an alternative position. Approval to any variation will only be granted where a Bush Fire Control Officer has first signified his approval of the variation.

It is an offence to provide firebreaks on a road reserve without the approval of the Council or Main Roads Department in the case of Declared Main Roads.

Harvesting and motor powered machines excepting the operation of clover harvester

A person shall not operate any harvesting machine or header in any crop during the prohibited time unless:—

1. One hand-held water filled fire extinguisher (minimum capacity 7.5 litres) is fitted in a readily accessible position on the machine.
2. A readily mobile fire fighting unit of a minimum 400 litres capacity powered by an engine-driven pump is in attendance in or adjacent to the entrance of the paddock being harvested; or a tractor and plough are readily available in or adjacent to the entrance of the paddock being harvested for the purpose of fighting fires.
3. All trucks must carry a hand held fire extinguisher while operating in the paddock during harvesting time.

### Regulation 38A.

- (i) Where a Bush Fire Control Officer is of the opinion that the use or operation of any engines, vehicles, plant or machinery during the prohibited burning times or restricted burning times, or both, is likely to cause a bush fire, or would be conducive to the spread of bush fire, the Bush Fire Control Officer may, by notice or direction, prohibit or regulate the carrying out of any activity or operation in a specified area, either absolutely or except in accordance with conditions specified in the notice or direction or without consent of the local Authority or Bush Fire Control Officer.

- (ii) A notice or direction under subregulation (i) of the regulation—

- (a) may be given by wireless broadcast or in writing;
- (b) shall have effect for such periods during the prohibited burning times or restricted burning times, or both, as is specified in the notice or direction;
- (c) may be varied or cancelled by a Bush Fire Control Officer by a subsequent notice or direction in the manner set out in the subregulation.

- (iii) During any period for which a notice or direction under subregulation (i) of this regulation has effect a person shall not, in any area specified in the notice or direction, operate or use any engines, vehicles, plant or machinery contrary to the notice or direction.
- (iv) A person shall, when required by a local authority, provide a plough, or other specified machine, appliance or fire fighting equipment in or in the vicinity of any land or paddock where harvesting operations are being carried out.
- (v) In accordance with section (i) above a defined grain storage and/or outloading complex shall mean "an area not less than 100 metres in diameter cleared of all inflammable material and adjacent to a made road".

Penalty for non-compliance: \$200.

By Order of the Council,

F. J. PECZKA,  
Shire Clerk.

Shire Clerk.

**BUSH FIRES ACT 1954**

**Shire of Manjimup**

**Notice to All Owners/Occupiers of Land**

PURSUANT to the powers contained in section 33 of the above Act owners and/or occupiers of land situated within the Shire of Manjimup shall have firebreaks or remove inflammable material from the land owned or occupied by you in accordance with the dates specified hereunder and in such places and to such dimensions as required by this notice unless otherwise specified.

**Specified dates.**

Zone 6 (Northcliffe/Walpole) 1 January 1987 to 15 April 1987.

Zone 8 (Manjimup/Pemberton) 22 December 1986 to 15 April 1987.

**1. Rural Land.**

- (a) Trafficable firebreaks clear of all inflammable material and not less than three metres wide shall be constructed inside and within 15 metres of the boundaries of all land, where trees, bush or scrub adjoin the boundary of that land and the trees, bush or scrub predominantly cover an area of land exceeding one hectare.
- (b) Firebreaks, clear of all inflammable material and not less than three metres wide shall be constructed as close as reasonably practicable around the immediate surrounds of all buildings or haystacks.
- (c) Where rural land whether cleared or uncleared abuts the gazetted townsite boundary of the towns of Manjimup, Pemberton, Northcliffe and Walpole, three metres wide firebreaks shall be constructed immediately along the common boundary.
- (d) Firebreaks not less than three metres wide shall be constructed around the perimeters of all coarse grain crops and such firebreaks shall be kept clear of inflammable material until the crop has been harvested.
- (e) For the purpose of this notice a "Haystack" shall mean any collection of hay which is placed together.

**2. Townsite Land (including Residential, Commercial, Industrial, Deferred Urban and Special Rural whether such land is occupied or not).**

- (a) Where the land is 2 024 square metres (approx. ½ acre) or less, removal of all inflammable material from the whole of the land. (For the purpose of this notice, inflammable material does not include live standing trees, cultivated plants or shrubs in gardens.)
- (b) Where the land exceeds 2 024 square metres (approx. ½ acre) you shall have firebreaks not less than three metres wide and clear of all inflammable material immediately inside and along all external boundaries of the land and immediately surrounding all buildings, haystacks and improvements on the land.

**3. Fuel and Gas Storage Containers/Installations:** In respect of any land owned or occupied by you upon which there is situated any container/installation used for the storage of flammable liquid or gas fuels, you shall:—

- (a) Townsite Land: Clear the whole of the land of inflammable material.
- (b) Rural Land: Locate such containers/installations not less than 15 metres from any public thoroughfare or improvement upon the land.

Construct firebreaks not less than six metres in width around and immediately adjacent to all such containers/installations.

**4. Commercial Plantations:** For the purposes of this notice a "Commercial Plantation" shall be defined as land upon which any pine or Eucalyptus species of tree has been planted for the purposes of commercial production, including sawlog, pole, chip or pulp produce and "boundary" shall mean parcels of plantation land under separate ownership, title, lease or any form of contractual arrangement.

You shall on Pine Plantations:—

- 1. Construct firebreaks not less than 10 metres in width around and immediately inside all external boundaries of such land.
- 2. Construct firebreaks not less than six metres in width within the plantation so as to subdivide the plantation into areas or compartments each not exceeding 28 hectares.
- 3. Trees within two metres of the edge of any firebreak to be pruned so that access along the firebreak is not impeded by branches.
- 4. A map of each plantation showing roads, firebreaks, access points and water points shall be lodged with the Council on or before 15 December 1986.

All firebreaks as required by section 4 of this notice shall be constructed to a standard trafficable by tractor/trailer fire units and four-wheel drive vehicles.

**5. Penalty:** The penalty for not complying with this notice is a fine not exceeding \$400 and a person in default is also liable, whether prosecuted or not, to pay the cost of performing the work required by this notice.

6. If it is considered impracticable for any reason to clear firebreaks or remove inflammable material as required by this notice you may apply to the Council or its duly authorised officer not later than 15 December 1986 for permission to provide firebreaks in alternative positions or to take alternative measures to abate fire hazards on the land. Any such application must bear the signature of the Fire Control Officer for the area signifying his agreement to the variation. If permission is not granted, you shall comply with the requirements of this notice.

The Council forwards a copy of an abridged firebreak order each year to all landholders. The Firebreak Order is also published in the Warren Blackwood Times and additional copies are available from the Shire Office. The requirements of this order are considered to be the minimum standard of fire prevention work required to prevent not only individual properties but the district generally. In addition to this order Council may issue separate special orders to owners or occupiers if hazard removal is considered necessary in some specific area.

By Order of the Council,  
M. A. JORGENSEN,  
Shire Clerk.

#### BUSH FIRES ACT 1954

(Section 33)

Shire of Mullewa

Notice to Owners and Occupiers of Land in the Shire of Mullewa

PURSUANT to the powers contained in section 33 of the above Act you are hereby required on or before 1 October 1986 to plough, scarify, cultivate or otherwise clear, and

thereafter maintain free from all inflammable material until 31 March 1987, firebreaks of not less than two metres in width in the following positions on the land owned or occupied by you.

- (1) Inside and along the whole of the external boundaries of the property or properties owned or occupied by you.
- (2) Around all paddocks under crop.
- (3) Where buildings or hay-stacks are situated on property additional firebreaks not less than two metres in width must be provided within 1.5 metres of the perimeter of such buildings or hay-stacks, in such a manner as to completely encircle the building or hay-stacks. If for any reason it is considered impracticable to provide firebreaks in the position required by this notice, the approval of the Shire Council must be obtained to construct such firebreaks in an alternative position. Approval to any such variation will only be granted where the Bush Fire Control Officer for the area has first signified his approval to the variation.
- (4) The firebreak requirements will be met on vacant townsite lots if all inflammable material is removed from the lot by burning.

Where the land of an owner or occupier abuts a constructed road, the owner or occupier has after obtaining the approval of the Authority which has the control and management of such road, burned or cleared the bush between the road formation and the boundary of his land such firebreaks will be accepted as complying with the requirements of this notice as far as it applies to the abutting boundaries of the property.

Dated this 30th day of September, 1986.

T. J. HARKEN,  
Shire Clerk.

TOWN PLANNING AND DEVELOPMENT ACT 1928  
(AS AMENDED)

Advertisement of Approved Town Planning  
Scheme Amendment

City of Wanneroo Town Planning Scheme  
No. 1—Amendment No. 293

SPC 853-2-30-1, Pt. 293.

IT is hereby notified for public information, in accordance with section 7 of the Town Planning and Development Act 1928 (as amended) that the Hon. Minister for Planning approved the City of Wanneroo Town Planning Scheme Amendment on 21 September 1986 for the purpose of amending the above Town Planning Text by:

1. Adding the following new Clause 5.44 to Part 5.

5.44 Solar Housing Precincts.

- (a) The purpose of Solar Housing Precincts is to provide for the development of energy efficient dwellings which are designed and constructed in such a manner as to utilise solar radiation as a means of water heating, space heating or space cooling, power generation and illumination of such dwellings by the use of solar collectors, the protection of solar access, providing for the best orientation of dwellings and controlling the location of trees, other vegetation and buildings adjacent to the dwellings.
- (b) The provisions for controlling subdivision, development, construction of dwellings, buildings and structures, solar access, landscaping and promoting the purpose of Solar Housing Precincts are as specified in Schedule 8 of this Scheme.
- (c) Each Solar Housing precinct shall be subdivided and developed generally in accordance with a Development Plan approved by the State Planning Commission and the Council. A Development Plan shall set out the pattern of land subdivision of Solar Housing Precincts and its preparation shall take into consideration such matters as the slope of the land, housing density, existing and future vegetation, lot and dwelling orientation and climatic matters such as seasonal wind direction and velocity. Development Plans shall be prepared by the applicant.
- (d) For the purposes of this clause the following definitions shall apply:—

“Solar Access” means a right to a substantially unobstructed line of sight path from a solar collector to the sun, which permits radiation from the sun to be intercepted by that solar collector.

“Solar Collector” means a fixed device, structure, or part of a device or structure which is used primarily to admit daylight and transform solar radiation into thermal, chemical or electrical energy as part of a system which makes use of solar energy for such purposes as water heating, space heating or cooling, and power generation.

“Solar Envelope” means that portion of a lot defined and depicted as such in accordance with the legend on the Development Plan to which portion solar access shall be maintained.

“Building Envelope” means that portion of a lot defined and depicted as such in accordance with the legend on the Development Plan.

2. Adding the following New Schedule, Schedule 8.

Schedule 8                      Clauses Relating to Solar Housing  
Precincts

1. Part Lot 3 of (a) Subdivision and Development  
Swan Loc. shall be generally in accordance  
1315 with the Development Plan or  
Dalmain any other variation therefrom as  
Street may be approved by the Town  
Kingsley, as Planning Board and Council  
depicted on provided such variation is  
Development deemed to be consistent with  
Plan the purpose of Solar Housing  
No. 1. Precincts as described under  
Clause 5.44 of this scheme.

- (b) Notwithstanding the requirements of Table No. 2 of this Scheme all buildings shall be set back from boundaries in accordance with the requirements of the R-15 density code of the Residential Planning Codes, as set out in Appendix 2 of the statement of Planning policy No. 1 gazetted on 30 January 1985, save that:

- (i) all dwellings within a precinct shall be constructed within the limits of the building envelope depicted for each lot on the Development Plan and;
- (ii) outbuildings may be constructed outside the limits of the building envelope provided that such buildings comply with special provision (c) of part of this Schedule.
- (c) With the exception of a fence up to 1.8 metres in height constructed on a lot boundary, no person shall build, erect, alter, maintain, plant or cultivate any building, structure, tree or vegetation of any type on any part of this precinct in such a manner as to:
  - (i) encroach upon the solar access and cause the inefficient operation (as outlined in Australian Standard A.S. 2002-1981) of a fixed roof installed solar collector between the hours of 9.00 am and 3.00 pm;
  - (ii) encroach upon the solar access to northerly facing solar collectors fixed in or to the walls of any dwelling on adjoining lots between the hours of 9.00 am and 3.00 pm from 31 March to 31 October; or
  - (iii) encroach upon the solar access to the solar envelope of an adjacent undeveloped or partially developed lot.

## CEMETERIES ACT 1897

The Municipality of the Shire of Katanning  
By-laws Relating to the Katanning Public Cemetery

IN pursuance of the powers conferred upon it by the abovementioned Act and all others powers enabling it, the Council of the abovementioned Municipality hereby records having resolved on 22 August 1985 to make and submit for confirmation by the Governor the following by-laws.

1. The Katanning Public Cemetery By-laws published in the *Government Gazette* on 9 September 1949 are hereby revoked.

2. In these by-laws "Council" means the Council of the Shire of Katanning the "Shire Clerk" means the person for the time being employed by the Council as the Clerk of the Council, and such person shall, subject to the Council, exercise general supervision and control over all matters pertaining to the cemetery and to the carrying out and enforcement of these by-laws, and the directions of such person shall in all cases and for all purposes be presumed to be and to have been the directions of the Council.

3. The charges payable to the Council as set forth in Schedule "A" hereto shall be paid at the times and in the manner therein mentioned, unless otherwise directed.

4. Any person desiring to inter any dead body in the cemetery shall make application in the form contained in Schedule "D" hereto and shall pay the appropriate fees as set out in Schedule "A".

5. All applications for interment shall be made at the office of the Council in such time as to allow at least eight working hours notice being given to the Shire Clerk at the office prior to the time fixed for burial, otherwise an extra charge shall be made as set forth in Schedule "A" hereto.

6. The Council shall cause all graves to be dug and any vaults, brick graves, or other graves to be re-opened as and when required.

7. Every coffin shall have upon the lid an approved metal plate bearing the name of the deceased stamped or otherwise permanently inscribed in legible characters thereon. Any coffin not complying with these by-laws shall not be admitted to or be interred in the Cemetery.

8. Every grave shall be at least 1.8 metres deep at the first interment unless the presence of rock shall make it impractical in which event the minimum depth shall be 1.35 metres and the actual depth shall be recorded, and no interment shall be allowed in any grave with a less depth than one metre from the top of the coffin to the original surface of the surrounding ground.

9. Any person requiring an Exclusive Right of Burial in any part of the Cemetery shall apply to the Council in writing specifying the location of the grave. It is proposed to inter within the remains of any deceased person the name of such person must be shown in the application. If the application is approved by the Council a Grant of Exclusive Right of Burial shall be issued in the form of Schedule "B" hereto.

10. No brick grave or vault shall be constructed in any plot in respect of which an Exclusive Right of Burial has been issued unless the Council shall have first approved plans and specifications of the proposed work and the execution thereof.

11. Every grant of the Exclusive Right of Burial shall be subject to the by-laws for the time being in force, and no interment in any grave or vault within an area covered by such grant shall be allowed unless upon production of an Order of Burial in the form of Schedule "C" hereto nor shall any such grave or vault be opened unless with the prior written permission of the Council.

12. (a) Subject to sub-bylaw (b) hereof a person shall not bring a body into the Cemetery unless he, or his representative, has first handed to the Shire Clerk for inspection and return a medical certificate of death or a Coroner's order for burial in respect of the body.

(b) Where an undertaker or his representative, for good reason, is unable to produce a medical certificate or Coroner's order as required by sub-bylaw (a) hereof and he has given to the Shire Clerk a written undertaking to produce the certificate or order within three days he may bring the body into the cemetery.

(c) A burial shall not be permitted in the cemetery unless the provisions of this by-law have been complied with.

(d) If an undertaker or his representative has given a written undertaking as referred to in sub-bylaw (b) hereof and he has failed to produce the certificate or Coroner's order within the required period of three days, the undertaker's licence may be suspended until such medical certificate or Coroner's order is produced.

13. In the case of an application for interment in any private grave or vault to which the deceased had no claim during life, the written and verified consent of the grantee shall be submitted with the application.

14. If an application is made for an interment in any grave or vault of the remains of any person other than the person to whom the grant was issued or his registered assign, the written and verified consent of the grantee or of his assignee shall be submitted with Exclusive Grant of Right Burial.

15. No interment shall be allowed on a Sunday unless with the prior written permission of the Council or unless it is certified in writing by a Medical Officer of Health, or by a Magistrate, or by two Justices of the Peace, that for sanitary reasons or special religious reasons it is necessary or desirable for the burial to take place on that day.

16. The hours for burial shall be as follows, namely week days, 8.00 am to 6.00 pm, and Saturdays, 8.00 am to 12 noon. No burial shall be allowed to take place nor any coffin allowed to enter the cemetery at any other hour except with the prior written permission of the Council.

17. The time fixed for a burial shall be at that time at which the funeral is to arrive at the cemetery gates and such time shall be rigidly and punctually observed.

18. (a) Every funeral shall enter by the principal entrance and no vehicle except the hearse and mourning coaches shall be permitted to enter the cemetery proper or stand opposite the entrance gate.

(b) Vehicles shall not be allowed to proceed faster than 10 km/h within the cemetery and shall proceed by such roads as directed by the Shire Clerk or other officer of the Council from time to time.

19. Any driver or other person failing or neglecting to observe any lawful directions under these by-laws may be forthwith required to leave the cemetery.

20. Any person shall not ride a bicycle or animal within the cemetery.

21. If application be made to the Council to exhume any corpse for the purpose of examination or identification or for the purpose of its being interred elsewhere in accordance with the wishes of the deceased or its family an order from the Governor or warrant of the Coroner or Justice of the Peace issued in accordance with the law authorising the Council to permit the exhumation must be submitted with the application form.

22. Children under the age of 10 years entering the cemetery shall be in charge of some responsible person.

23. Fireworks shall not be allowed within or to be discharged within the cemetery, nor shall alcoholic liquor be consumed therein except as part of a religious ceremony.

24. No person shall remove any plant, tree, shrub, flower (other than withered flowers) or any article from any grave without first obtaining a permit so to do from the Council.

25. No person shall remove or carry out of, or attempt to remove or carry out of the cemetery, any tree, plant, shrub, flower, earth or any other material without the prior written permission of the Council.

26. No person shall pluck any tree, shrub, flower or plant growing in any portion of the cemetery.

27. No person shall promote or advertise or carry on within the cemetery any trade, business or calling, either by solicitation, distribution or circulars or by cards or otherwise, or by any other system of advertising whatsoever without the written consent of the Council and any person infringing this by-law shall be required to leave the cemetery.

28. No person employed by the Council shall be permitted to accept any gratuity whatsoever, nor shall he be pecuniarily interested in any work in the cemetery, other than with respect of the remuneration he receives from the Council, and any such person found to be guilty of accepting any gratuity, or being pecuniarily interested in any such work without such permission shall be liable to be summarily dismissed.

29. Any person desiring to place or erect or to alter or add to any monument, tombstone, or enclosure in any part of the cemetery must first obtain the written consent and approval of the Council and otherwise comply with section 23 of the Cemeteries Act 1897.

30. Every tombstone shall be placed in proper substantial foundations.

31. The materials used in every such construction shall be subject to the approval of the Shire Clerk, or other officer appointed by the Council and any material rejected shall be immediately removed from the cemetery. All refuse and other rubbish remaining after any work is completed shall immediately be removed from the cemetery by the person causing the same, and the surroundings shall be left clean and tidy, to the satisfaction of the Shire Clerk, who must be informed when work is completed thereon.

32. Should any work by a mason or any other person not be completed before Sunday, he shall be required to leave the work in a neat and safe condition to the satisfaction of the Shire Clerk.

33. All materials required in the construction and completion of any work shall, as far as possible, be prepared before being taken to the cemetery and all materials required by tradesmen shall be admitted at such entrance as the Shire Clerk shall direct, and no vehicle conveying any such materials, having wheels less than 100 millimetres wide shall be taken from any part of the cemetery for use in the construction of any monument or work, except with the prior written approval of the Council. No vehicle of a weight with load of more than three tonnes shall be permitted to enter the cemetery.

34. No catacomb shall be allowed.

35. Monumental masons shall not be permitted to carry on work within the cemetery otherwise than during the hours specified for the opening and closing of the gates, provided that on Saturdays work may be done from noon to 6.00 pm with the prior written consent of the Council.

36. No trees or shrubs shall be planted on any grave except such as shall be approved by the Shire Clerk.

37. All workmen whether employed by the Council or by any other person shall be, at all times, whilst within the boundaries of the cemetery, subject to the supervision of the Shire Clerk and shall obey such directions as that officer may find it necessary to give and any workman committing any breach of these by-laws, or refusing or neglecting to comply with any directions of the said Shire Clerk shall be removed from the cemetery.

38. Any person taking part in dressing or attending to any grave shall comply with the following rules:—

- (a) No rubbish, soil, sand or other material removed in dressing a grave shall be placed on any other grave, and if placed on any adjoining ground shall be removed immediately the work is completed.
- (b) No sand soil or loam shall be taken from any portion of the cemetery for the purpose of dressing any grave except with the permission of the Shire Clerk.
- (c) The dressing of all graves, and the wheeling and carting of any materials shall be subject to the supervision of the Shire Clerk.

- (d) Work in all cases shall be carried out with due despatch and only during the hours specified for the opening and closing of the gates on weekdays, provided that on Saturdays work may be done from noon to 6.00 pm with the prior consent of the Council.
39. The Council may decorate graves from time to time when desired by the grantee so to do. If the grantee does not desire the Council to carry out this work the grantee may either do it himself or employ any person to do this work subject to approval by the Council.
40. No person except the relatives of the deceased, the Council or those employed by the relatives, shall be permitted to decorate any grave.
41. If for the purpose of re-opening any grave the Council finds it necessary to remove edging tiles, plants, shrubs and similar material from the grave, the person so ordering the re-opening shall pay to the Council charges fixed by the Council in accordance with the work performed.
42. Notwithstanding anything contained in these by-laws to the contrary permission may be granted to the Defence Department of the Commonwealth to erect headstones on the graves of deceased service personnel without payment of any fees.
43. Free ground may be granted, if it is proved to the satisfaction of the Council that the deceased was a returned service person and that they died as a result of injuries whilst on active service provided however that such grant shall be made subject to the condition that only the remains of the deceased service personnel shall be interred in the grave.
44. A plan of the cemetery showing the distribution of the land compartments, sections, situations and numbers of graves, and a register of all certificates of Exclusive Rights of Burials shall be kept at the office of the Council.
45. Any person offending the rules of propriety and decorum or injuring any tree, shrub, flower, border, grave or erection or in any way infringing these by-laws shall be required to leave the cemetery.
46. A person who commits a breach of these by-laws commits an offence and shall for each offence be liable to a penalty not exceeding \$40 and in the case of continuing the breach a further sum not exceeding \$4 for every day during which such breach occurs.
47. Any person committing a breach of any by-law shall, in addition to being liable to a penalty as aforesaid, be liable to be removed from the cemetery by the Council or the Shire Clerk or other employees of the Council or by any Police Officer. If any such person resists removal from the cemetery or, if he shall, with the consent of the Shire Clerk again enter the cemetery within 24 hours of his removal therefrom, he shall be liable to a penalty not exceeding \$20.
