Numbers will then be selected at random by the computer and when printed on the receipted ticket will thereby constitute an authenticated entry in Lotto.

4.9 The taking of the receipted ticket shall constitute an acknowledgement that the Lotto numbers thereon are the subscriber's selections, and no coupon shall thereafter have validity or be of proof value for any of the purposes of the Lotto thereby entered.

## System entry

10.4 Notwithstanding that a Lotto coupon bears the name of a syndicate thereon, the Commission will only recognize the person whose name and address appears on the space provided on such coupon in accordance with Rule 1 of these Rules as the absolute owner thereof.

10.5 The subscriber shall accept all risks, losses, delays, errors or omissions which may occur in the ordinary course of delivery and the Commission or the agent shall be under no obligation to remit documents by registered post.

Division 4—\$66.00 per prize

Division 5—\$6.60 per prize

Provided that if the balance of the distributable prize pool for a Super 66 draw which does not include prize pool moneys deriving from the operation of the Jackpotting rule be insufficient to pay the expected prize money to holders of winning entry coupons or computer tickets for Divisions 2 and 3 and a minimum of \$16 666.00 per prize to the holder of a winning entry coupon or receipted ticket for Division 1 after payment of Division 4 and Division 5 expected prizes as stated in this Rule then the balance of such distributable prize pool payable to each holder of a prize winning entry in Division 1 if there be any and Division 2 and Division 3 shall be in such ratio that \$16 666.00 as to Division 1 winner(s) \$6 666.00 as to Division 2 winners and \$666.00 as to Division 3 winners bear to the aggregate of the balance remaining for such Division 1, 2 and 3 winners in such distributable prize pool.

## LOCAL GOVERNMENT ACT 1960

## The Municipality of the City of Wanneroo

## By-laws relating to fencing and private tennis court floodlighting

IN pursuance of the powers conferred upon it by the abovementioned Act and of all other powers enabling it, the Council of the abovementioned Municipality hereby records having resolved on 27 August 1986 to revoke the Fencing By-law published in the *Government Gazette* (No. 70) of 11 November 1977 and amended on 18 December 1981. Council further resolved to make and submit for confirmation by the Governor the following by-laws:

## 1. In these by-laws, unless the context requires otherwise:

"Commercial area" means an area which is within a Commercial Zone as classified by the City of Wanneroo District Town Planning Scheme;

"Council" means the Council of the Municipality of the City of Wanneroo;

"Dangerous" in relation to any fence means a fence or wall which is likely to collapse or fall or part of which is likely to collapse or fall by reason of its faulty design, location, construction, deterioration of constituent materials, damage by termites, decay, change in ground level, or other cause;

"Fence" includes a wall and a retaining wall;

"Height" in relation to a fence means:

- (a) if the fence is to be or is erected within 7.5 m of a street, the vertical distance between the top of the fence and the level of the road kerbing immediately opposite, but if no kerbing exists, the height is the vertical distance between the top of the fence and the level of the crown of the road immediately opposite, but where because of the natural contours of the land the Council is of the opinion that it would be unreasonable for the height of a fence or part of a fence to be determined in that manner the height of the fence or part of the fence is that approved by the Council;

- (b) if the fence is not or is not proposed to be erected within 7.5 m of a street, the vertical distance between the top of the fence and the ground level immediately below, if the ground levels are the same on each side of the fence, but if the ground levels are not the same on each side of the fence the height shall be measured from the original natural ground level and in case of doubt the natural ground level shall be a level fixed by the surveyor unless a Court of Competent Jurisdiction decides otherwise;

But in any case the height of a fence shall be measured inclusive of any retaining wall erected adjacent to the fence, whether it forms part of the fence or not;

"Industrial area" means an area which is within a Light Industrial Zone or within a General Industrial Zone as classified by District Planning Scheme;

"Residential area" means an area which is within a Residential Zone, a General Residential GR4 Zone or a Residential Development Zone as classified by District Planning Scheme;

"Special Rural Area" means an area which is a Special Rural Zone as classified by District Planning Scheme;

"Surveyor" means the Building Surveyor to the Municipality of the City of Wanneroo;

"District Planning Scheme" includes a Town Planning Scheme made in substitution for Town Planning Scheme No. 1 or other Town Planning Scheme for the time being in force whereby the district of the City of Wanneroo or part thereof is classified or zoned.

2. A person shall not commence to erect, proceed with the erection, re-build, reconstruct, or alter a fence, pergola or hood attached to a gateway and fence if it is situated within 7.5 m of a street and exceeds 1 m in height unless and until he has lodged with the Council two copies of the plan and specification of the proposed fence, or the proposed building, reconstruction or alteration, together with the written comments of the adjoining owners, and the Surveyor has approved a copy of the plan and specifications.

3. Where the height of the fence is tapered from a height exceeding 1 m to a height of or less than 1 m the tapering of the fence shall not be commenced at a distance of less than 7.5 m from a street boundary nor extend for a distance exceeding 1 800 m measured horizontally from the point at which the tapering commences.

4.1 A person shall not unless otherwise permitted by these by-laws:

- (a) erect a fence, not forming part of a retaining wall, exceeding 1.8 m in height above ground level;
- (b) erect a fence which is adjacent to or forms, part of a retaining wall with a combined height exceeding 2.5 m unless the Council approves otherwise where it is of the opinion that because of the natural contours of the land it would be unreasonable to limit the height to 2.5 m;
- (c) subject to by-law 4.2, erect a fence abutting a right-of-way or pedestrian accessway exceeding 1 m in height if within 1.5 m of a street boundary of a street abutting a lot;
- (d) subject to by-law 9, in a residential area erect a fence exceeding 1 m in height within 7.5 m of a street unless it complies with the following:
  - (i) it shall be constructed of brick, stone or concrete or other material approved by the Council;

- (e) erect a fence having a gate which opens or is able to open outwards onto a street or right-of-way;
- (f) in a rural area erect a fence within 7.5 m of a street of a height exceeding 1.5 m;
- (g) in a special rural area erect a fence other than one constructed of posts and wire or of a material approved by the Council.

4.2 Where a fence constructed of brick, stone or concrete exceeding 1 m in height is erected abutting a right-of-way or pedestrian accessway and is truncated at least 1.5 m x 1.5 m at the intersection of the right-of-way or pedestrian accessway and a street, paragraph (c) of by-law 4.1 does not operate so as to require the fence to be of a height not exceeding 1 m within 1.5 m of the street boundary.

5. Subject to these by-laws, a person may erect a fence constructed of not more than two different materials in a residential area within 7.5 m of a street if, but only if:

- (a) it complies with by-law 4.1 (d), other than sub-paragraph (i) thereof;

- (c) the second material of which the fence is constructed is one of the materials specified in the table below or a material approved by the Council and that material is finished or treated in the manner specified in the table or in a manner approved by the Council;

6.1 A person shall not erect a fence around or partly around a tennis court unless it complies with the following:

- (a) the height of the fence does not exceed 3 m;
- (b) no part of the fence is closer than 0.9 m to the boundary of the land on which the tennis court is located and any adjoining land unless the owner of the adjoining land is given the opportunity to comment on the location of the proposed fence;
