## Report of the Auditor

I have examined the books of account of the Shire of Gingin for the year ended 30 June 1986.

The Annual Accounts required by section 630 (3) of the Local Government Act were submitted to me for audit and have been found to be a correct extract from the books of account.

The accounts have been prepared in the form required by Local Government Act Accounting Directions.

I am unable to form an opinion as to the compliance with the Local Government Act and the Minister's Accounting Directions because of a conflict of accounting principles between the Act and the Accounting Directions.

M. J. BREMAN,

Local Government Auditor.

Report of Auditor.

- The financial statements of the Shire of Hall's Creek are prepared on the basis of historical cost. In preparing its balance sheet it is not the policy of the Council to charge depreciation to write off the cost of each fixed asset over its estimated useful life.
- This policy complies with the requirements of the Local Government Act and the Accounting Directions, although it is not in accordance with generally accepted accounting standards.
- Council has spent approximately \$600 for which no budget item was raised in the 1985/86 budget. Such expenditure is unauthorised expenditure in accordance with the Local Government Act.
- The Local Government Accounting Directions 1985 require Councils to prepare financial statements on the accrual basis of accounting. At 30 June 1986 the financial statements complied with these requirements, although throughout the year ended on that date there were inconsistencies with those requirements.
- I have, with the assistance of my staff, audited the books of the Shire of Hall's Creek for the year ended 30 June 1986. In my opinion, the financial statements, comprising schedules 1 to 16, and 20 to 25 are in agreement with the books and records of the Council, and, subject to my comments in paragraphs 3 and 4 and prepared on a basis consistent with the Local Government Act and the Accounting Directions.

This proposal, to be known as the "secondary" work program, should only include work expected to involve a substantial exploration component—appraisal work should not be included.

(b) particulars of—

(i) the technical qualifications of the applicant and of its employees;

(ii) the technical advice available to the applicant;

(iii) the financial resources available to the applicant, including evidence of the applicant's ability to fund the work program proposal, a statement of other exploration plans and commitments over the next six years, and a copy of the latest annual report for each applicant company;

(v) the percentage participating interest of each party to the application; and
