The purchaser shall within the six (6) months next following the date of acceptance of the tender, commence to develop the land in accordance with the development programme submitted with the tender and thereafter diligently process with and complete development over at least 50 per cent of the area within three (3) years next following the date of acceptance of the tender. If this condition has not been complied with in the time prescribed, the land may be absolutely forfeited together with all purchase money and fees that may have been paid.

On payment in full of the purchase money and interest by a purchaser of any location and subject to completion of the above development requirements, a Crown Grant will be issued.

The purchaser shall maintain existing and future improvements to the satisfaction of the Minister for Lands during the term of agreement to purchase.

A deposit of 10 per cent of the price tendered is payable at the time of tendering and the balance of the purchase price plus interest shall be paid within twenty-four (24) months of the date of acceptance of the tender by eight (8) quarterly instalments on the first days of January, April, July and October in each year. #### General Information

The locations are situated approximately 6 km north of Kununurra in the vicinity of the rice and peanut mills and have a bitumen road frontage.

None of the locations are directly connected to electricity but an electricity service exists at the junction of Mills Road and Weaver Plain Road which could be extended to any of the locations. The local State Energy Commission Office should be contacted regarding costs.

All locations may draw irrigation water from the Main Irrigation Channel by arrangement with the Water Authority of Western Australia, Kununurra. Water from this source is a generally assured supply but applicants should be aware that the channel water may be turned off from time to time over two week periods for maintenance purposes. Locations 658-661 have direct access to the Channel but Locations 428 and 656 will need to gain access to the channel by way of Locations 427 and 657 respectively.

The current charge for irrigation water is \$15.84 per year per hectare, irrigated or part thereof. This charge is subject to review on 30 June 1987.

Demonstrated horticultural experience and financial capacity will be factors taken into account in determining the successful tenders, and tenderers should accordingly provide information in respect of these matters together with development proposals.

Any person over the age of 16 years may lodge a tender.

Tenders in a sealed envelope endorsed "Tender for Kununurra Horticulture Blocks" accompanied by a deposit of ten per cent of the price tendered, together with the other required information must be lodged at the Department of Land Administration, Cathedral Avenue, Perth by 5.00 pm on Wednesday, 29 July 1987.

The highest, lowest or any tender will not necessarily be accepted.

Forfeiture provisions shall be in accordance with section 23 of the Land Act.

Soil surveys have been affected on the locations and details are available from the undermentioned offices.

#### LAND ACT 1933

#### Land Release

Department of Land Administration,  
Perth, 12 June 1987.

File No. 1930/985.

HIS Excellency the Governor in Executive Council has been pleased to approve under section 45A of the Land Act 1933 of Kununurra Lot 2257 having an area of 4.064 4 hectares being made available for sale for the purpose of "Roadhouse/Truck Stop" at the purchase price of \$55 000 subject to the following conditions—

- (i) The purchaser shall within six months next following the date of approval of the application, in accordance with detailed specifications approved by the Local Authority, commence to construct or cause the construction to be commenced and thereafter diligently proceed with and complete a programme of development to a stage of completion not less than that agreed under Clause (viii). If this requirement has not been finalised within two years from the date of approval of the application, the land may be absolutely forfeited together with all purchase money and fees that may have been paid.
- (ii) On payment of the first instalment of purchase money a licence will be available, upon which a mortgage can be registered.
- (iii) A deposit of 10 per cent of the purchase price is payable on application and the balance is payable within twelve months by four (4) quarterly instalments on the first days of January, April, July and October. The first instalment shall become due and payable on the first day of the quarter next following the date of allocation.

On payment of the first instalment a licence shall be available upon which a mortgage may be registered.

The amount outstanding during the 30 days immediately following the date of allocation shall be interest free, but all moneys outstanding after that period shall be subject to interest at the rate of 13.6 per cent per annum, calculated at quarterly rests on the balance outstanding at the end of the previous quarter. Such interest shall be due and payable with the prescribed instalments.

Nothing shall prevent the balance of purchase money being paid at an earlier date should the purchaser so desire, but a Crown Grant (freehold) will not issue until the conditions under which the land was released have been complied with.

A Crown Grant fee of \$55, plus an additional Assurance Fund fee of \$110 is payable with the final instalment.

- (iv) Intending applicants shall submit with their applications—
  - (a) Detailed plans of the proposed development which shall be in compliance with the Town Planning Regulations and Building By-laws as administered by the Shire of Wyndham-East Kimberley with particular reference to use of suitable building materials, landscaping proposals, access to and egress from the site and provision of power and water services.
  - (b) Details of timing of the proposed development programme, including details of staging where proposed, as from the date of allocation of the site.
  - (c) Details of cost estimates, related to stages of development.
  - (d) Details of source/s of funds.
  - (e) Details of any previous experience in the development and/or management of similar projects.
- (v) The Minister reserves the right to refuse any application on the grounds that the proposed development and/or development programme is inadequate or unsuitable or that the applicant has failed to show adequate capacity to fund his development programme.
- (vi) The site is not served by electricity and the SEC advises an approximate cost of \$35 000 for extension of electrical power to the lot. Neither the

Government nor the Local Authority shall be responsible for the provision of or any upgrading to utility services other than water supply.

- (vii) The purchaser shall within 30 days of allocation of the land, pay a service premium of \$115 000 for the provision of water to the lot. This service will be supplied within three (3) months of the payment of the service premium. Failure to pay this premium will invalidate the sale.
- (viii) Prior to the commencement of construction, the Minister shall advise the purchaser of the extent of development that will be necessary to enable the issue of a Crown Grant (freehold).

Subject to agreement between the purchaser and the Minister, the foregoing development obligations may be varied or added to from time to time.

A person in the employ of the State must apply through the Executive Director for the Governor's permission to hold this land. Written approval of the Permanent Head concerned should accompany such applications.

Applications accompanied by a deposit of \$5 500 must be lodged at the Department of Land Administration, Perth on or before Wednesday, 29 July 1987 together with the required development details and completed Land Board Questionnaire.

All applications lodged on or before the closing date will be treated as having been received on that date, and if there are more applications than one for the lot, the application to be granted will be decided by the Land Board.
