- (e) Where the bush on land owned or occupied by you has been bulldozed, chained or prepared in any similar manner for clearing by burning (whether you intend to burn the bush or not), you shall forthwith clear a firebreak not less than 20 metres wide immediately inside the external boundaries of land on which bulldozed, chained or otherwise prepared bush is situated.

## 2. Townsite Land

- (a) Where the land is 2 000 m<sup>2</sup> or less—
  - (i) A firebreak is not required but
  - (ii) Such land is required to be made safe from fire by the reduction of existing fire hazards. Compliance with such requirements need not require the removal of all flammable material.
- (b) Where the land is 2 000 m<sup>2</sup> or greater—Clear firebreaks not less than three metres wide along the whole of the inside of the external boundaries of the property and also immediately surrounding all buildings and haystacks situated on the land.

3. Bulk Fuel/Gas/Chemical Storage—In respect of any Rural or Townsite Land upon which there is situated any container/drum/installation used to store flammable liquids, chemicals or gas fuel (be they empty or not) including any ramp or support so constructed, you shall have the said land clear of all flammable materials for a minimum distance of six metres from the site perimeter.

4. Application to vary these requirements—If, because of the terrain or other natural features or to prevent erosion, it is considered impracticable or unnecessary to carry out works as required by this notice, you may apply to the Council or its duly authorised officer for permission to provide firebreaks in alternative positions or to abate fire hazards on the land in any other way. Approval for such alternatives will only be considered if submitted with the endorsement of the bush fire brigade for the area concerned. Applicants must be submitted to the respective brigade on or before 30 September, annually.

## 5. Definitions for the purpose of this notice—

“Bush” includes trees, bushes, plants, stubble, scrub and undergrowth of all kinds whatsoever alive or dead and whether standing or not standing and also a part of a tree, bush, plant or undergrowth, and whether severed therefrom or not so severed.

“Haystack” means any collection of hay including five round fodder bales or more stacked or placed together.

“Flammable Material” includes bush, timber, boxes, cartons, paper and like flammable materials, rubbish and also any combustible matter, but does not include green standing trees or growing bushes and plants in gardens or lawns.

“Safe from fire” means that the vegetation shall be controlled in such a way that it cannot carry or sustain the passage of fire. On uncleared land this means the use of either a firebreak, a fuel reduction cool burn or both.

The establishment of permanent green grass and tree areas is allowable provided that the grass has a summer growth phase, e.g. couch or kikuyu. The use of cereal grasses can cause high risk fire areas. Trees should be evergreens of the fire resistant variety with no foliage within 1.2 m of the ground in summer. Paperbark, tamarisks, wattles and pines are fire prone and should not be used in fuel reduced zones.

6. Penalty—Persons who fail to comply with the requirements of this order may be issued with an infringement (penalty \$40) or prosecuted with an increased penalty of up to \$400 and additionally, council may carry out the required work at the cost to the owner or occupier.

By Order of the Council,

## APPENDIX

## Counting of Votes

## (Clause 10.(1))

1. The counting of votes cast in the ballot for election of the members of the Senate under Section 10 (fb) and 10A (1) (ca) of the University of Western Australia Act shall be as follows in this Appendix.
2. The number of first choices recorded for each candidate shall be counted, and all informal voting papers shall be rejected.
3. The aggregate number of such first choices shall be divided by one more than the number of candidates required to be elected, and the quotient increased by one, disregarding any remainder, shall be the quota, and (except as hereinafter provided in Rule 11) no candidate shall be elected until he or she obtains a number of votes equal to or greater than the quota.
4. Any candidate who has, upon the first choices being counted, a number of such votes equal to or greater than the quota shall be declared elected.
5. Where the number of such votes obtained by any candidate is equal to the quota, the whole of the voting papers on which a first choice is recorded for such elected candidate shall be set aside as finally dealt with.
6. Where the number of such votes obtained by any candidate is in excess of the quota, the proportion of votes in excess of the quota shall be transferred to the other candidates not yet declared elected, next in the order of the voter's respective preferences, in the following manner—
  - (i) All the voting papers on which a first choice is recorded for the elected candidate shall be re-examined, and the number of second choices, or (in the case provided for in Rule 13) third or next consecutive choices, recorded for each unelected candidate thereon shall be counted.
  - (ii) The surplus of the elected candidate shall be divided by the total number of votes obtained by him or her on the counting of the first choices, and the resulting fraction shall be the transfer value.
  - (iii) The number of second or other choices, ascertained in paragraph (i) to be recorded for each unelected candidate, shall be multiplied by the transfer value.
  - (iv) The resulting number, disregarding any fractional remainder, shall be credited to each unelected candidate, and added to the number of votes obtained by him or her on the counting of the first choices.
7. (a) Where, on the counting of the first choices or on any transfer, more than one candidate has a surplus, the largest surplus shall be first dealt with. If then more than one candidate has a surplus, the then largest surplus next in order of magnitude shall be dealt with, and so on.
 

Provided that, if one candidate has obtained a surplus at a count or transfer previous to that at which another candidate obtains a surplus, the surplus of the former shall be first dealt with.

(b) Where two or more surpluses are equal, the surplus of the candidate who has the highest on the poll at the count or transfer at which they last had an unequal number of votes shall be first dealt with, and if they have had an equal number of votes at all preceding counts or transfers the Returning Officers shall decide by lot which candidate's surplus shall be first dealt with.
8. (a) Where the number of votes obtained by a candidate is raised up to or above the quota by a transfer as aforesaid, the candidate shall thereupon be declared elected. And in such case, notwithstanding the fact that the candidate may have reached the quota, such transfer shall be completed, and all the votes to which the candidate is entitled therefrom shall be transferred to him or her, but no votes of any other candidate shall be transferred to him or her.
 

(b) Where the number of votes obtained by a candidate is raised up to, but not above the quota by a transfer as aforesaid, the whole of the voting papers on which such votes are recorded shall be set aside as finally dealt with.

(c) Where the number of votes obtained by a candidate is raised above the quota by a transfer as aforesaid, the candidate's surplus shall be transferred to the candidates next in the order of the voter's respective preferences, in the following manner—

(i) The voting papers on which are recorded the votes obtained by the elected candidate in the last transfer shall be re-examined, and the number of third, or (in the case provided for in Rule 13) next consecutive choices recorded for each unelected candidate thereon counted.

(ii) The surplus of the elected candidate shall be divided by the total number of voting papers mentioned in paragraph (i), and the resulting fraction shall be the transfer value.

(iii) The number of second (or other) choices, ascertained in paragraph (i) to be recorded for each unelected candidate, shall be multiplied by the last mentioned transfer value.

(iv) The resulting number, disregarding any fractional remainder, shall be credited to each unelected candidate, and added to the number of votes previously obtained by him or her.

9. (a) Where, after the first choices have been counted and all surpluses (if any) have been transferred as hereinbefore directed, no candidate, or less than the number of candidates required to be elected, has or have obtained the quota, the candidate who is lowest on the poll shall be excluded, and all the votes obtained by that candidate shall be transferred to the candidates next in the order of the voter's respective preferences, in the same manner as is directed in Rule 6.

(b) The votes obtained by such excluded candidate as first choices shall first be transferred, the transfer value of the vote in each case being 1.

(c) The other votes of such excluded candidate shall then be dealt with in the order of the transfers in which, and at the transfer value at which, he or she obtained them.

(d) Each of the transfers which takes place under the two previous clauses of this rule shall be deemed for all purposes to be a separate transfer.

10. (a) Where the number of votes obtained by a candidate is raised up to or above the quota by any such transfer as aforesaid, the candidate shall thereupon be declared elected. And in such case, notwithstanding the fact that he or she may have reached the quota, such transfer shall be completed, and all the votes to which that candidate is entitled therefrom shall be transferred to him or her, but no other votes shall be transferred to him or her.

(b) Where the number of votes obtained by a candidate is raised up to, but not above, the quota by any such transfer as aforesaid, the whole of the voting papers on which such votes are recorded shall be set aside as finally dealt with.

(c) Where the number of votes obtained by a candidate is raised above the quota by any such transfer as aforesaid, the candidate's surplus shall be transferred to the candidates next in the order of the voter's respective preferences in the same manner as is directed in Rule 8, Clause (c). Provided that such surplus shall not be dealt with until all the votes of the excluded candidate have been transferred.

(d) Where any surplus exists it shall be dealt with before any other candidate is excluded.

11. The same process of excluding the candidate lowest on the poll, and transferring to other candidates his or her votes shall be repeated until all the candidates, except the number required to be elected, have been excluded, and the unexcluded candidates, who have not already been so declared, shall then be declared elected.

12. Where at any time it becomes necessary to exclude a candidate, and two or more candidates have the same number of votes and are lowest on the poll, then whichever of such candidates was lowest on the poll at the last count or transfer at which they had an unequal number of votes shall be first excluded, and if such candidates have had an equal number of votes at all preceding counts or transfers, the Returning Officers shall decide by lot which candidate shall be first excluded.

13. In determining what candidate is next in the order of the voter's preference, any candidates who have been declared elected or who have been excluded shall not be considered, and the order of the voter's preference shall be determined as if the names of such candidates had not been on the voting paper.

14. Where on any transfer it is found that on any voting paper there is no candidate opposite whose name a number is placed, other than those who have been already either declared elected or excluded, such voting papers shall be set aside as exhausted.

15. (i) Where in the case of a by-election one candidate only is to be elected and no candidate on the first count secures an absolute majority of the whole of the formal votes recorded at the election, the candidate who has the fewest votes is excluded (ie. regarded as defeated), and each ballot paper counted to him or her is (unless exhausted) counted to the unexcluded candidate next in the order of the voter's preference.

(ii) If no candidate then has an absolute majority of votes, the process of excluding the candidate who has the fewest votes and counting each of that candidate's ballot papers (unless exhausted) to the unexcluded candidate next in the order of the voter's preference is repeated until one candidate has an absolute majority of votes.

16. Every ballot paper not rejected as informal is to be counted in every count until it becomes exhausted, when it is rejected in all further counts. Where a candidate is excluded, any ballot paper counted to that candidate is deemed to be exhausted if there is not indicated upon it a consecutive preference for one unexcluded candidate.

17. If on any count two or more candidates have an equal number of votes and any one of them has to be excluded, then whichever of such candidates was lowest on the poll at the last count or transfer at which they had an unequal number of votes shall be first excluded, and if such candidates have had an equal number of votes at all preceding counts or transfers, the Returning Officers shall decide by lot which candidate shall be first excluded. ”
