13. Where the Council has granted consent for the development of land on a condition that involves the maintenance or continuance of the state or condition of any place, area, matter or thing, a person shall not use that land for any purpose while the state or condition of that place, area, matter or thing is not being maintained or continued in accordance with that condition.

16. In determining any application the Council shall have regard to the purpose for which land is zoned or reserved under the Scheme, to the orderly and proper planning of the locality, to the preservation of the amenities of the locality and to the matters in clause 77 and shall have due regard to any planning policy statement adopted by the Council relating to specific areas, use classes or building types and may refuse its consent, or may grant its consent subject to such conditions, if any, it may deem fit. (See clauses 17, 42.)

17. For the purposes of clauses 16, 49 and 71, a copy of all planning policy statements, as amended, shall be kept and made available for public inspection at the offices of the Council.

18. In the case of land reserved for the purpose of a public authority the Council shall consult with the authority before granting or refusing its consent.

19. The Council may determine that a particular application should be dealt with under clause 71. In making this determination, the Council shall have regard to any lists of buildings and places maintained by the Australian Heritage Commission or the National Trust of Australia (W.A.), and to the Council's Policy on Places of Historical and Scientific interest, to the character of the building and the area and to the public interest.

#### Part II—Reserved Land

##### Regional Reserves

The lands shown as "Regional Reserve" on the Scheme Maps are lands reserved by the Metropolitan Region Planning Authority pursuant to the Metropolitan Region Scheme and are shown on the Scheme Maps in order to comply with the Metropolitan Region Town Planning Scheme Act 1959 (as amended) and in no way impose on the City of Fremantle any liability to pay compensation.

##### Local Reserves

23. The land shown as Local Reserve on the Scheme Maps is land reserved by the Scheme for Local Authority purposes or for the purpose shown on the said Maps.

Land designated as a Local Reserve shall not be used except for the purpose for which the land is reserved under the Scheme or for any of the purposes set out in Table One.

24. Where the Council refuses consent for the development of land reserved under the Scheme on the ground that the land is reserved for public purposes, or grants consent subject to conditions that are unacceptable to the applicant, the owner of the land may, if the land is injuriously affected thereby, claim compensation for such injurious affection.

25. Claims for such compensation shall be lodged at the office of the Council not later than six months after the date of the decision of the Council refusing consent or granting it subject to conditions that are unacceptable to the applicant.

26. In lieu of paying compensation the Council may purchase the land affected by such decision of the Council at a price not exceeding the value of the land at the time of refusal of consent or of the granting of consent subject to conditions that are unacceptable to the applicant.

#### Part III—Land Use Requirements

##### Table One, the Land Use Table

27. A use class is an activity or a class of activities for which land may be used subject to Table One. For the purposes of this Part, the use classes are as follows (see clause 21)—

- (a) Administration: The office-based administrative or clerical functions of any land use, where these functions constitute the principal use at the place.

- (b) Advertising: The outdoor display but not sale of large-scale promotional material.

- (g) Residence—private: The occupancy of a dwelling house or unit, or of a grouped or multiple dwelling designed primarily for one separate family although it may be occupied by others.
- (h) Residence—other: The occupancy of a residential building or of a welfare hostel or home excluding a Residence—private.

- (p) Utility: The provision of water, sewerage, electricity, gas, communications and similar services.

28. Table One sets out the purposes for which land is zoned, by indicating the uses permitted in the various zones and reserves, such uses being determined by cross reference between the list of use classes on the left hand side of the Table and the list of zones and reserves on the top of the Table and subject to the provisions of the Scheme. The symbols in the Table have the following meanings—

“P” A use that is permitted under this Scheme.

“IP” A use that is not permitted unless such use is incidental to the principal use as determined by the Council.

“AA” A use that is not permitted unless consent is granted by the Council.

“X” A use that is not permitted.

29. In order to determine the use class in Table One to which an activity belongs, the Council shall apply the following rules of interpretation—

- (a) a use belongs to the use class which describes its purpose more specifically and is excluded from any use class which, by its more general meaning, would otherwise include it;

- (b) a use includes all ancillary activities normally necessary to the proper functioning of the predominant use;

- (c) separate or related uses may be assigned to specific areas within a building or lot.

#### Uses not listed

30. Where a use cannot reasonably be determined as falling within the interpretation of any one of the use classes listed in Table One the Council shall determine in which zone or zones, if any, the use may be permitted and shall, prior to granting consent, follow the advertising procedures of clause 83.

#### Development zone

31. In exercising its discretion with regard to any development in the Development zone, the Council shall have due regard for the appropriate Development Plan in Appendix A of the Scheme.

33. The Council shall not grant planning consent to the establishment of a noxious or hazardous use. (See clauses 34, 35).

34. Notwithstanding clause 33, the council may grant consent to the relocation of a noxious and/or hazardous use to a new location subject to a condition requiring the discontinuance of the use at the site vacated without the payment of compensation, and shall, prior to granting consent, follow the advertising procedures of clause 83.

35. Notwithstanding clause 33, the Council may grant consent to development involving wet and/or dry abrasive blasting subject to a condition that dry abrasive blasting shall only be carried out inside a building designed to minimise the emission of dust and noise, and the Council shall, prior to granting consent, follow the advertising procedures of clause 83.

##### Amenity

36. No land, building or appliance shall be used in such a manner as to permit the escape therefrom of smoke, dust, fumes, odour, noise, vibration, illumination or waste products in such quantity or extent or in such manner as to create or be a nuisance to any inhabitant of the neighbourhood of such land or to traffic or persons using roads in the vicinity.

37. No property shall be maintained or finished so that in the opinion of the Council its external appearance would disfigure the locality or tend to depreciate the value of the adjoining property. Further, all land and buildings shall be so used and maintained as to preserve the amenities of the neighbourhood in which they are situated.

38. No person shall—

- (a) install an amusement machine within premises open to the public, or

- (b) the carrying out of any development thereon for which, immediately prior to that time, a permit or permits required under the Town Planning and Development Act 1928 (as amended) and any other law authorising the development to be carried out had been duly obtained and was current.

42. Where a non-conforming use exists or was authorised as in clause 41, no erections, alterations or extensions of the building thereof or use of land in relation thereto shall be carried out unless the consent of the Council has been obtained. An application for consent shall be made under Part V and determined according to clause 16.

43. The Council may permit—

- (a) a change from one non-conforming use to another provided that the new use is less prejudicial to the amenity of the area or closer to the intended uses of the zone, and subject to such conditions as the Council sees fit, including any conditions limiting the time within which the use of the land shall conform with the Scheme.
- (b) minor repairs or maintenance necessary to ensure the safety and health of the public and users of the property.

## Discontinuance

44. When there is a discontinuance of use of any land or building, such land or building shall not thereafter be used other than in conformity with the Scheme.

45. Should the extent, scale or intensity of operation of a non-conforming use be decreased for a period of three months or more then it shall not thereafter be increased again unless the consent of the Council is obtained.

46. Pursuant to section 12 (2a) (c) of the Act, the buildings and structures of a drive-in theatre where that use is a non-conforming use shall not be altered or extended after five years of the coming into operation of the Scheme.

(See Clauses 5, 23, 27, 28, 29, 30, 32.)

## Part IV— Building Requirements

## Table Two the Building Requirements Table

47. Table Two indicates the minimum and maximum requirements for various buildings in the different zones, such requirements being determined by cross-reference between the list of buildings on the left hand side of the Table and the list of site characteristics and modes of measurement on the top of the Table.

48. Where no requirement is stated, the Council shall determine the requirement in any particular case.

## Relaxations

49. No person shall carry out development inconsistent with Table Two unless the consent of the Council is obtained. Except as specifically provided by the Scheme, the Council shall not relax the requirements of Table Two unless the relaxation is of a minor nature or unless (See clause 17)—

- (a) the Council has previously adopted a planning policy statement relating to the area, use class or building type in question, and
- (b) the Council is satisfied that any relaxation of Table Two will better achieve the objects of that planning policy statement.

## Table Three, the Parking Requirements Table

50. Table Three indicates the minimum number of car parking spaces which shall be provided when land is developed for the use classes listed in column one, such number being calculated by applying the ratio in column four to the types of areas listed in column two and column three. (See clause 70.)

51. Where no requirement is stated, the Council shall determine the number of spaces to be provided in any particular case.

## Relaxations

52. The Council may relax the minimum car parking requirement in Table Three where—

- (a) the Council is of the opinion that such provision is not necessary to the proper functioning of the development; or
- (b) sufficient area is set aside in the form of additional landscaping or otherwise to permit the subsequent construction of parking areas; or
- (c) different uses on the land will generate parking demand at different times, allowing parking spaces to be shared; or
- (d) the number of parking spaces required under Table Three can only be provided in a manner which results in a built form in conflict with the existing development in the locality; or
- (e) contractual arrangements have been made for the parking or shared use of parking areas which are in the opinion of the Council satisfactory; or
- (f) a contribution has been made to a Trust Account of the Council for the provision of public parking space in a locality where the development will generate the need for such parking space.

## Residential Development: Residential Planning Codes (R Codes)

53. For the purpose of the Scheme "residential planning codes" means the residential planning codes set out in appendix 2 to the Statement of Planning Policy No. 1, together with any amendments thereto. (See clause 21.)

54. A copy of the residential planning codes, as amended, shall be kept and made available for public inspection at the offices of the Council.

55. Unless otherwise provided for in the Scheme, the development of land for any of the residential purposes dealt with by the residential planning codes shall conform to the provisions of these codes.

## Residential Planning Codes: Variations and Exclusions

56. The development of land for any of the residential purposes dealt with by the residential planning codes shall—

- (a) conform with all other provisions of the Scheme which are not inconsistent with the residential planning codes; and
- (b) be subject to the provisions of clauses 66, 67, 69, 70, 72 and 77, and to the provisions of any Development Plan applicable to that land.

**Undersized and duplex lots**

57. Notwithstanding the provisions of the residential planning codes including those provisions with regard to the minimum area of lot per dwelling, the Council may grant consent to—

- (a) the development of a single dwelling on any lot in the Residence and inner Urban zones;
- (b) the development of two dwellings on any lot in the Residence and Inner Urban zones which is greater in area than 910 square metres and was created as a duplex lot.

**Minimum distance between buildings on the same lot**

58. The Council may, in the area defined on Map One, vary the required minimum distance between buildings in different occupancies on the same lot, where in the interests of maintaining amenity, traditional built forms or streetscapes the Council is satisfied that such a variation is desirable.

**Car Parking**

59. The Council may, in the area defined on Map One, vary the car parking requirements providing it is satisfied that such a variation is desirable.

60. Before deciding to vary the car parking requirements the Council shall take into consideration—

- (a) the effect of the proposed development on parking demand in the locality, having regard to the availability of alternative parking space and possible future developments;
- (b) any unusual or irregular condition relating to the shape or size of the subject lot or any adjoining lots; and
- (c) the effect on buildings and objects worthy of conservation, and on the streetscape.

**Open space**

61. The Council may, in the area defined on Map One, vary the open space requirements if one or more of the following circumstances apply (see clause 21)—

- (a) the subject lot is below 400 square metres in area;
- (b) the open space requirements would prevent a reasonable extension of an existing building;
- (c) the proposed development has been designed to reflect and reinforce the building traditions of the immediate vicinity; or
- (d) where, in a particular case, the interests of visual amenity would be better served by permitting a variation.

62. Any variation of the open space requirements shall be such as to fulfil the criteria set out in clause 22 (i) of the codes.

**Densities**

63. Subject to the procedures for the notification of affected owners and occupiers contained in clause 14 of the codes, the Council may, in the area defined on Map One, increase the permitted dwelling density by not more than 50 per cent if one or more of the following circumstances apply—

- (a) the proposed development would effect the discontinuance of a non-conforming use;
- (b) the proposed development incorporates and conserves one or more existing dwellings, on a lot coded for medium density;
- (c) the subject lot is a large site with adequate street frontage, and is coded for medium density;
- (d) In the immediate vicinity of the subject lot there are lots of diverse size and density, a significant proportion of which have been developed to densities higher than the applicable code.

Should the Council allow an increase in the permitted development density, the standards and provisions of the higher density code shall apply.

**Composite and central area buildings**

64. The building requirements for the following types of buildings shall be determined from Tables Two and Three:

- (a) composite buildings; and
- (b) residential developments, with or without a commercial component, on land zoned Central Business.

**Requirements for Granting Consent for Buildings**

65. Vehicular access shall be provided to all lots. (See clause 70.)

66. Where a road opening, widening or truncation is, or may be, dedicated free of cost as a condition of development consent the allowable density of the development (plot ratio or dwelling density) may be calculated on the area of the lot prior to the land being so dedicated. (See clause 56.)

**Urban design**

67. Where in the opinion of the Council the amenity of a place, street or locality relates significantly to the architectural or physical character of existing buildings and landscape, the Council shall ensure that the appearance of any proposed development will not impair the amenity of the place, street or locality in question and will maintain the harmony in the exterior designs of buildings. In making a determination the Council shall seek expert advice and shall have regard to such advice. (See clause 56.)

**Demolition**

68. No person shall demolish any building, structure or part thereof unless the consent of the Council is obtained, except where the Council has issued an order to do so under the Scheme or any other law. In considering an application for approval to demolish a building, the Council may—

- (a) its repair, renovation or reinstatement;
- (b) the extension of existing floor area by up to 25 per cent;
- (c) its replacement if accidentally destroyed.

70. Where development is proposed which would incorporate or conserve the whole or part of an existing building which the Council considers worthy of preservation, the Council may (See clauses 21, 56)—

- (a) permit an increase in the permissible floor area by an amount equal to the existing floor area conserved, up to a maximum increase of 50 per cent;
- (b) permit setbacks consistent with those of the existing building;
- (c) relax the requirements of clause 50 and clause 65 where in the opinion of the Council satisfactory access and parking arrangements are made.

71. (a) In this clause the term "development" shall have the additional meanings of changing the colour of the exterior of a building and demolition in whole or in part. (See clauses 17, 19.)

(b) No development of land subject to this clause shall be commenced without the consent of the Council. The Council may refuse consent or grant consent with or without conditions relating to the preservation of historic buildings and objects of historical or scientific interest.

(c) In considering an application subject to this clause, the Council shall have regard to any planning policy statement of the Council and to the published policies and the views of the Australian Heritage Commission and the National Trust of Australia (W.A.), which views the Council may solicit.

**Requirements in Particular Cases****Height**

- (b) the economic life of the building, in the opinion of the Council, is less than 20 years.

Restrictive covenants

75. Where the City of Fremantle has granted or was granted any restrictive covenant whereby the land affected thereby shall not be used for any purpose other than industrial purposes, and the materials used in the construction and erection of any building on such land is restricted, and the erection of any building on such land is subject to setback requirements, such covenant is hereby extinguished.

Residential Development in Unsewered Areas

76. Notwithstanding anything elsewhere appearing in the Scheme, all residential development shall be connected to a comprehensive sewerage system. However, where no such connection is available, no residential development other than the erection of a single house shall be approved unless—

- (a) the Health Department recommends to the Council that there are exceptional circumstances to warrant a variation from the requirement to connect to a sewer; or
- (b) the lot the subject of the application has been developed for residential purposes in excess of a single house, and redevelopment is being carried out only to an equivalent or lesser extent.

Conditions Relating to Uses and Buildings

77. In determining an application for consent for development, the Council shall have regard to and may attach conditions relating to the following matters (see clauses 16, 56)—

- (a) the intensity and nature of the proposed use, including its environmental impact by way of emissions, illumination and hours of operation;

Public comment

83. Before determining an application for consent to develop land the Council may (see clauses 30, 32, 34, 35, 85)—

- (a) advertise the proposal in a newspaper having local circulation, erect signs on or near the land and send letters to those likely to be affected by it;

and may by these or other means invite comments to be submitted by a named date to which comments the Council may have regard in determining the application.

Annual permit

84. Where a use is subject to an annual permit under clause 40, an application in a form specified by the Council shall be made annually prior to the first day of December. IT is hereby notified for public information, in accordance with section 7 of the Town Planning and Development Act 1928 (as amended) that the Hon Minister for Planning approved the Shire of Roebourne Town Planning Scheme Amendment on 3 December 1987 for the purpose of amending the above Town Planning Scheme by adding the following clauses to the Scheme Text as Clauses 2.5.11 and 2.5.12—

**2.5.11 Temporary Caravan Parking.**

2.5.11.1 An owner of Industrial zoned land may apply to the Council on the form in Schedule 3 hereto for approval for the temporary use of that land for the parking of one or more caravans for residential accommodation purposes.

2.5.11.2 An owner applying for approval for the temporary use shall provide to the Council with the application such documentary or other evidence as the Council requires that—

- (a) such person requires caravan accommodation within the Scheme Area; and
- (b) accommodation is not available in any registered caravan park within the Scheme Area at the time of the application,

and shall provide the name of the person or persons who will be accommodated in the caravan if approval for the temporary use is granted, or otherwise sufficiently identify the office, position, classification or occupational description of the person if accommodation is sought to be provided for an unspecified person having a certain office, position, classification or occupational description.

2.5.11.3 The Council upon receipt of an application under paragraph 2.5.11.1 may only grant approval for the temporary use of Industrial zoned land for the parking of one or more caravans for residential accommodation purposes if—

- (a) It is satisfied of the matters referred to in items (a) and (b) in paragraph 2.5.11.2;
- (b) It is satisfied that the arrangements made on the subject Industrial zoned land as to effluent disposal, water supply and power supply and in any other respect relevant to health and welfare are sufficient to ensure that any person to be accommodated in the caravan can be accommodated on the land for the period for which the approval is to be granted without risk of danger to the health, safety or well being of that person or any other person in the locality.

2.5.11.4 The Council may grant an approval for temporary use under this sub-clause for any period up to but not exceeding 6 months, but the Council upon receipt of a fresh application may grant a second or subsequent approval for a period not exceeding 6 months.

2.5.11.5 The owner of the subject land shall not permit, suffer or allow a caravan to be used on that land for accommodation purposes nor shall any person use a caravan for accommodation purposes while there is no current approval by the Council for that use. For the purpose of this paragraph a caravan shall be deemed to be used for accommodation purposes if it is parked on Industrial zoned land after the expiration of a temporary approval under this sub-clause, or after the refusal by the Council of a temporary approval and is occupied by any person continuously for more than one hour.

2.5.11.6 The Council shall not grant approval for the temporary use of Industrial zoned land for the parking of any caravan if that caravan could be accommodated in a registered caravan park within the Scheme Area. The prohibition in this paragraph applies not only to an initial application but also to a second or subsequent application after a temporary approval has been granted and has expired.

2.5.11.7 The Council in approving an application under this sub-clause may impose conditions on such approval, and without limiting the other remedies available to it where there is a breach of any condition so imposed, the Council may upon the breach of any condition revoke its approval.

2.5.11.8 There shall be no right of appeal against the refusal or failure of the Council to exercise any discretion conferred upon it under this sub-clause, nor against the imposition of any condition upon an approval of an application.

**2.5.12 Duration of Operation of Clause 2.5.11.**

2.5.12.1 Clause 2.5.11 shall continue in operation only until the expiry of a period of two years commencing from the date of gazettal of this Clause, or 31st December 1989, whichever is the sooner.

2.5.12.2 Any such temporary approvals granted under the provisions of Clause 2.5.11, and still being current at the time of expiry stated in Clause 2.5.12.1, shall automatically become null and void at that specified expiry date, regardless of any period of validity any temporary approval so granted may have had otherwise.
