## ENVIRONMENTAL PROTECTION ACT 1986

## Notice of Revision of a Draft Environmental Protection Policy

Environmental Protection Authority,  
Perth, 12 February 1988.

THE Environmental Protection Authority prepared a Draft Environmental Protection Policy for control of sulphur dioxide in the air environment of the Kalgoorlie-Boulder residential areas and released this Policy to the public on 14 August 1987, with an invitation for interested persons and organizations to submit written comments by 18 September 1987. Written submissions, together with comments received at a public meeting in Kalgoorlie on 10 September 1987, have been reviewed and taken into account by the Authority in a subsequent revision of the draft Policy.

The purpose of the Policy is to achieve and maintain a level of air quality appropriate to the residential areas of a mining town. The Policy proposes acceptable levels for sulphur dioxide averaged over periods of one hour, three hours and one day. The objectives of the Policy are proposed to be achieved by applying conditions on the operating licences of industries which emit sulphur dioxide. These conditions are specified in generalised terms in the Policy and a procedure is established for review of the Policy in the event that the objectives fail to be achieved.

The revised draft Policy has, on this date, been submitted together with a report thereon to the Minister for Environment, for his consideration.

In accordance with section 28 (c) of the Environmental Protection Act, notice is hereby given that members of the public may inspect copies of the draft Policy and the Authority's report at the following locations during the period 12 February to 5 March 1988—

3.2.2 The symbols used in the cross reference in the Zoning Table have the following meanings:

- “P” means that the use is permitted provided it complies with the relevant standards and requirements laid down in the Scheme and all conditions (if any) imposed by the Council in granting Planning Consent;
- “AA” means that the Council may, at its discretion, permit the use;
- “SA” means that the Council may, at its discretion, permit the use after Notice of Application has been given in accordance with clause 8.3.

3.2.3 Where no symbol appears in the cross reference of a use class against a zone in the Zoning Table a use of that class is not permitted in that zone.

3.2.4 Where in the Zoning Table a particular use is mentioned it is deemed to be excluded from any other use class which by its more general terms might otherwise include such particular use.

Predominant use to be limited to that specifically marked on the Scheme Map

3.2.5 If the use of land for a particular purpose is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the interpretation of one of the use classes the Council may:

- (a) determine that the use is not consistent with the objectives and purpose of the particular zone and is therefore not permitted; or
- (b) determine by absolute majority that the proposed use may be consistent with the objectives and purpose of the zone and thereafter follow the advertising procedures of clause 8.3 in considering an application for Planning Consent.

3.3 Additional Use: Notwithstanding anything contained within the Zoning Table the land specified in Appendices 2 and 3 may, subject to compliance with any condition specified in the schedule with respect to the land, be used for the purpose set against that land. The use so specified is in addition to the other uses permitted in the Zone in which the land is situated unless any of those uses is excluded or modified by a condition specified in that schedule.

3.4 Restricted Use: No person shall use land or any building or structure thereon in a restricted use zone, except for the purpose set against that land in Appendix 1 and 2 and subject to compliance with any conditions specified in the schedule with respect to the land.

#### PART IV—Non-Conforming Uses

4.1 Non-Conforming Use Rights: No provision of the Scheme shall prevent—

- (a) the continued use of any land or building for the purpose for which it was being lawfully used at the time of coming into force of the Scheme; or
- (b) the carrying out of any development thereon for which, immediately prior to that time, a permit or permits, lawfully required to authorise the development to be carried out, were duly obtained and are current.

4.2 Extension of Non-Conforming Use: A person shall not alter or extend a non-conforming use or erect alter or extend a building used in conjunction with a non-conforming use without first having applied for and obtained the Planning Consent of the Council under the Scheme and unless in conformity with any other provisions and requirements contained in the Scheme.

4.3 Change of Non-Conforming Use: Notwithstanding anything contained in the Zoning Table the Council may grant its Planning Consent to the change of use of any land from a non-conforming use to another use if the proposed use is, in the opinion of the Council, less detrimental to the amenity of the locality than the non-conforming use and is, in the opinion of the Council, closer to the intended uses of the zone or reserve.

4.4 Discontinuance of Non-Conforming Use:

4.4.1 When a non-conforming use of any land or building has been discontinued for a period of six months or more such land or building shall not thereafter be used otherwise than in conformity with the provisions of the Scheme.

4.4.2 The Council may effect the discontinuance of a non-conforming use by the purchase of the affected property, or by the payment of compensation to the owner or the occupier or to both the owner and the occupier of that property, and may enter into an agreement with the owner for that purpose.

4.5 Destruction of Buildings: If any building is, at the gazettal date, being used for a non-conforming use and is subsequently destroyed or damaged to an extent of 75 per cent or more of its value, the land on which the building is built shall not thereafter be used otherwise than in conformity with the Scheme, and the buildings shall not be repaired or rebuilt, altered or added to for the purpose of being used for a non-conforming use or in a manner or position not permitted by the Scheme.

#### PART V—Development Requirements

5.1 Development of Land:

5.1.1 Subject to clause 5.1.2 a person shall not commence or carry out development of any land zones or reserved under the Scheme without first having applied for and obtained the Planning Consent of the Council under the Scheme.

5.1.2 The Planning Consent of the Council is not required for the following development of land:

- (a) the use of land in a Local Reserve, where such land is held by the Council or vested in a public authority:
  - (i) for the purpose for which the land is reserved under the Scheme; or
  - (ii) in the case of land vested in a public authority, for any purpose for which such land may be lawfully used by that authority;
- (b) the carrying out of any works on, in, over or under a street or road by a public authority acting pursuant to the provisions of any Act;
- (c) the carrying out of works for the maintenance, improvement or other alteration of any building, being works which affect only the interior of the building or which do not materially affect the external appearance of the building;

- (d) the carrying out of works urgently necessary in the public safety or for the safety or security of plant or equipment or for the maintenance of essential services.

5.2 Discretion to Modify Development Standards: If a development, other than a residential development, the subject of an application for Planning Consent, does not comply with a standard or requirement prescribed by the Scheme with respect to that development the Council may, notwithstanding that non-compliance, approve the application unconditionally or subject to such conditions as the Council thinks fit. The power conferred by this clause may only be exercised if the Council is satisfied that—

- (a) approval of the proposed development would be consistent with the orderly and proper planning of the locality and the preservation of the amenities of the locality;
- (b) the non-compliance will not have any adverse effect upon the occupiers or users of the development or the inhabitants of the locality; and
- (c) the spirit and purpose of the requirement or standard will not be unreasonably departed from thereby.

5.3 Residential Development; Residential Planning Codes:

5.3.1 For the purpose of this Scheme "Residential Planning Codes" means the Residential Planning Codes set out in Appendices 2 and 3 to the Statement of Planning Policy No. 1, together with any amendments thereto.

5.4.1 The Residential Zones together with their pattern and allocation throughout the Scheme Area are designed to provide for the development of the Scheme Area in such a way as will—

- (a) provide sufficient land in appropriate locations for residential development to meet the needs of the Scheme Area's anticipated growth and population without unduly restricting the choice of sites;
- (b) promote and safeguard health, safety, convenience, the general welfare and the amenities of residential areas and their inhabitants.

Notwithstanding that a proposed development conforms in all other respects with the requirements of the Scheme, Council may at its discretion refuse to grant approval if in its opinion such development would by its siting or construction result in a significant deterioration of the amenity or landscape quality of the town.

5.4.2 Residential Planning Codes—Variations and Exclusions: For the purpose of this Scheme the Council shall apply the following Codes, variations and exclusions to the Residential Precincts.

Low Density Residential—R5 Code—Precinct 1: Council's objective is to maintain a very low density residential character in Precinct 1. Notwithstanding conditions of the R5 Code nothing shall prevent the Council from—

In this regard the Council, before supporting or approving any proposal for subdivision or development of land within the Zone, shall require the preparation of an Outline Development Plan for the whole of the Zone or for any particular part or parts as is considered appropriate by the Council with regard to the primary intent of the Zone.

Prior to the adoption of an Outline Development Plan council shall forward the proposal to the Town Planning Board for comment.

Upon the adoption of the Outline Development Plan and approval of the plan of subdivision the Council shall initiate rezoning and/or recoding of the land.

(c) Any departures from or alterations to the Outline Development Plan, may subject to the approval of the Board, be permitted if the Council considers that the proposed departure or alteration will not prejudice the progressive subdivision and development of the area the subject of the Plan.

(d) An application for Planning Consent to develop land included in the Zone shall not be approved until an Outline Development Plan has been prepared and adopted, unless the Council is satisfied that the proposed development will not prejudice the subsequent preparation and adoption of an Outline Development Plan.

#### 5.6 Town Centre Zone:

5.6.1 Objectives and Policies: The Council's objectives for controlling development within the Town Centre Zone are to—

- (a) prepare an overall Town Centre Strategy for the Zone which takes into account appropriate disposition of the Town Centre uses, economic servicing and proper standards of civic design. Such a strategy which should be considered in conjunction with this Scheme, will be a guide for the future development of the Town Centre zone and may be elaborated, amended or passed by an absolute majority of the Council provided—

(i) in the opinion of the Council, the alteration would be consistent with the orderly and proper planning of the locality and the presentation of the amenities of the locality;

(ii) notice of Council's intention to consider altering the Town Centre Strategy is published in a newspaper circulating in the Scheme area stating that submissions may be made to the Council within 35 days from the publication thereof.

#### 4.3 Change to Another Non-Conforming Use.

4.3.1 The Council may upon such conditions as it thinks fit permit the change of a non-conforming use to another non-conforming use if in its opinion the latter use is less prejudicial to the amenity of the area.

4.3.2 If the council approves the change of a non-conforming use to another use, the owner and occupier of the land on which the use is carried on shall comply with all the requirements of the Scheme relating to the new use and to the building or buildings used or to be used in respect thereof.

#### 5.3 Matters to be Considered by Council.

5.3.1 In considering and making its decision on applications for approval under Clause 5.1 the Council shall take into consideration the following matters—
