BUSH FIRES ACT 1954

Shire of Augusta-Margaret River

Notice to all owners and/or occupiers of land in the Shire of Augusta-Margaret River.

WITH reference to section 33 of the Bush Fires Act 1954 you are required to carry out fire prevention work on land owned or occupied by you in accordance with the provisions of this order.

Rural Areas

This work must be carried out by 22 December 1987 and kept maintained throughout the summer months until 12 April 1988.

Townsites

This work must be carried out by 1 December 1987, and kept maintained throughout the summer months until 12 April 1988.

An inspection of firebreaks and hazard removal will be carried out in all areas of the Shire by an authorised officer (townsites, after 1 December 1987, rural, after 22 December 1987.)

Persons who fail to comply with the requirements of this order may be issued with an infringement notice (penalty \$40) or prosecuted with an increased penalty, and additionally, Council may carry out the required work at cost to the owner or occupier.

A. Rural Land

1. A firebreak not less than 2 metres wide must be constructed inside and within 100 metres of the boundary of each property where the boundary is adjacent to or adjoins a constructed or used surveyed road. (Firebreaks constructed on road verges do not constitute a legal firebreak under the Bush Fires Act and Council approval is required prior to construction of additional firebreaks on roadside verges.)

2. A firebreak not less than 2 metres wide must be constructed within a perimeter of 20 metres of all home-steads, buildings, haystacks and fuel storage areas on the land.

3. Where uncleared land abuts a boundary, a firebreak not less than 2 metres wide must be constructed inside and within 100 metres of such boundaries.

B. Special Rural Land

1. The owners of all existing small rural holdings zoned as Special Rural in Town Planning Schemes must construct a firebreak not less than 2 metres wide, adjacent to and inside all boundaries.

2. A firebreak not less than 2 metres wide must be constructed within a perimeter of 20 metres of all home-steads, buildings, haystacks and fuel storage areas on the land.

3. Ungrazed pastured land can constitute a fire hazard and orders will be issued under section 33 of the Bush Fire Act, if the hazard is not abated.

C. Pine Plantations

Firebreaks not less than 10 metres wide around the perimeter of land on which pines are planted. Not less than 10 metres in width along those portions of pine plantations which enjoy a common boundary with road reserve and not less than 10 metres in width in such positions and that no part or compartment of pine plantation shall exceed 28 hectares in area.

D. All other Townsites (including Molloy Island)

In respect of land owned or occupied by you within any townsite or any area subdivided for other purposes, you shall—

1. Where the area of land is 2 024 square metres (approximately ½ acre) or less, remove all flammable material on the land except living standing trees, from the whole of the land, and
2. Where the area of land exceeds 2 024 square metres (½ acre) clear of flammable materials, firebreaks of at least 2 metres wide, immediately inside all external boundaries of land and also immediately surrounding all buildings situated on the land.

E. Townsites—Gracetown and Prevelly Park

In respect of land owned or occupied within these townsites or any area subdivided for other purposes, you shall—

1. Remove all flammable material (including ground fuel build up) on the whole of the land except living standing trees; or
2. Construct a firebreak of not less than 1.5 metres wide adjacent to and inside both side and rear boundaries together with a firebreak not less than 3 metres in width around all buildings on the land. All fuel residue material from firebreaks that are constructed to be removed from the block.

F. Fuel and/or Gas Depots.

In respect of land owned or occupied by you on which is situated any container normally used to contain liquids or gas fuel, including the land on which any ramp or support is constructed, you shall have the land clear of all flammable materials.

If it is considered impractical for any reason to clear firebreaks or remove flammable materials from the land as required by this Notice, you may make written application to the Council not later than 15 November 1987 for permission to provide firebreaks in alternative positions or to take alternative action to abate fire hazards on the land. This application must be countersigned by the Bush Fire Control Officer for the area in which the land is situated to signify his agreement to the variation. If permission is not granted by the Council or its duly authorised officer, you shall comply with the requirements of this notice.

Special Notice to Land Owners and Occupiers

The aim of the Council is to eliminate destructive bush fires and to this end all areas of the Shire are subject to an overall District Fire Protection Plan, where large scale hazard removal is carried out by the Shire's Bush Fire Brigades. The requirements of the Order are considered to be the Minimum standard of fire prevention work required to protect not only individual properties, but the district generally. In addition to the requirements of this Order, Council may issue separate "special" orders on owners or occupiers if hazard removal is considered necessary in some specific areas.

(iii) No provision had been made against the potential non-recoverability of the Wyndham Community Club recognised as a sundry debtor for self supporting loans raised by the Shire. The current security against these loans may prove to be inadequate. We are of the opinion that the difference between the outstanding self supporting loans including arrears, and the security for the loan, may be insufficient. Unless steps are taken to reduce the arrears within a reasonable period of time, consideration should be given to provide for any future write downs of the debt.
