- (i) if not implemented within the period of time specified in each such Approval shall cease to be valid;
- (ii) permit the use and development of land to occur for limited periods of time after the expiration of which periods, as specified in each such approval, the use shall cease and the site shall be restored to the condition extant at the time when the Approval was given unless a further approval has been sought and obtained.

2.5 Period for Making Decisions

2.5.1 The Council shall convey its decision on any such Application for Planning Approval to the Applicant in the form set out at Appendix 2 to this Scheme within 60 days of the date upon which it was received at the Council's offices unless the Council shall have first obtained the applicant's approval in writing for an extension of that period and in the event that a decision has not been made within the period or extended period, the Application may be deemed to have been refused for the purpose of appeal.

3.3 (a) Where Council refuses to grant a planning approval for the development of land reserved under the Scheme on the ground that the land is reserved for public purposes, or grants approval subject to conditions that are unacceptable to the applicant the owner of the land may, if the land is injuriously affected thereby, claim compensation for such injurious affection.

4.2 Land Uses Under the Scheme

4.2.1 Table No. 1 hereunder and the ensuing Clauses indicate the several uses which subject to the provisions of Part 2 may be permitted by the Council under this Scheme in the various zones. The suitability of each use may be determined by cross reference between the list of "Use and Development Classes" on the left hand side of the table and the list of "Zones", along the top of that table. In addition to the Zoning requirements reference should also be made to the list of General Provisions under Clause 4.4.

4.2.2 The symbols used in the cross references in Table No. 1 appended to this Clause have the following meanings—

"P" means uses in respect of which the Council's planning approval pursuant to Part 2 can be anticipated subject to compliance in full with the appropriate minimum site requirements and development standards specified in this Scheme.

"AA" means uses which Council exercising the discretionary powers available to it may approve under this Scheme.

"SA" means uses which Council exercising the discretionary powers available to it may approve under this Scheme after notification of the application concerned has been given in accordance with Clause 4.3.

"IP" means uses which will not be approved by the Council unless it can be satisfied that the proposed use will form a subservient and incidental function to the predominant use of the land as may be determined by the Council.

"—" means uses which are not permitted under this Scheme.

4.2.3 Notwithstanding that uses may be acceptable pursuant to the provisions of Clause 4.2.2 and Table No. 1—Zoning Table, nothing in this Part shall prevent the Council from refusing planning approval or granting planning approval subject to conditions, whether in principle or otherwise, on the grounds that the layout, design, height, siting or general appearance of the development is/are not acceptable to Council or will only be acceptable if the requirements of imposed conditions are satisfied.

4.2.4 In respect of uses and developments which are not specifically mentioned in Table No. 1 and which could not be reasonably determined as falling within the interpretation of one of the categories mentioned, the Council may either—

- (a) determine that the proposed use is consistent with the objective of the zone concerned and thereafter act as if it was included among the list of uses which may be permitted by the Council following the "SA" procedures, or
- (b) determine that the proposed use is inconsistent with the objectives of the zone concerned in which case the use shall be deemed to be prohibited.

4.2.5 A determination made by Council to the provisions of Clause 4.2.4 shall for the purpose of this Scheme, be regarded as the exercise of a discretionary power with the result that appeals may be lodged against such determinations.

4.3 Advertising of Applications

4.3.1 Where an Application is made for Planning Approval to commence or carry out development which involves an "SA" use the Council shall not grant Approval to that Application unless notice of the Application is first given in accordance with the provisions of this Clause.

4.3.2 Where an Application is made for Planning Approval to commence or carry out development which involves an "AA" use, or for any other development which requires the Planning Approval of the Council, the Council may require the applicant to give notice of the Application in accordance with the provisions of this Clause.

4.3.3 Where the Council is required or decides to give notice of an Application for Planning Approval the Council shall, or may require the applicant to cause one or more of the following to be carried out—

- (a) Notice of the proposed development to be served on the owners and occupiers of land within an area determined by the Council as likely to be affected by the granting of Planning Approval stating that submissions may be made to the Council with 21 days of the service of such Notice;

Scheme Area stating that submissions may be made to the Council within 21 days from the publication thereof;

- (c) A sign or signs displaying notice of the proposed development to be erected in a conspicuous position on the land for a period of 21 days from the date of publication of the notice referred to in paragraph (b) of this Clause.

4.3.4 The notice referred to in Clause 4.3.3 (a) and (b) shall be in the form contained in Appendix No. 3 with such modifications as circumstances require.

4.3.5 After expiration of 21 days from the serving of Notice of the Proposed Development, the publication of Notice or the erection of a sign or signs, whichever is the later, the Council shall consider and determine the Application.

*The discretionary power to approve Attached or Grouped Dwellings in the Rural Zone shall apply to a pair of Attached or Grouped Dwellings only on any one lot.

4.4 General Provisions

4.4.1 Compliance with Development Standards: Subject to the provisions of Clause 4.4.2 development within the Scheme Area shall conform to the standards set out—

- (a) In Table No. 1—Zoning Table, and
- (b) In Table No. 2—Development Standards and Car Parking Requirements, and
- (c) In the Residential Planning Codes—Country Towns, and
- (d) In this Part,

and where no standard is prescribed, shall be carried out in accordance with the requirements which Council may specify in each particular case.

4.4.2 Power to Relax Development Standards: Notwithstanding the provisions of the foregoing Clause, and with the exception of standards and requirements specified in the Residential Planning Codes, the Council may in very exceptional circumstances, relax the standards set out in this Part and in Table No. 2 provided that the relaxation of any standard will not prejudice the objectives of the Scheme bearing in mind the reasons for the particular requirement or will not establish an undesirable precedent or will not detract from the amenity of the locality.

4.4.3 Setbacks for Development Not Covered by the Residential Planning Codes: In instances where a site has more than one street frontage, the Council may determine which shall be regarded as the front for the purpose of the setbacks prescribed in Table No. 2 and may permit the observance of setbacks of one half of those specified in respect of the other street frontages.

In respect of development in the Commercial and Industrial Zones the need to vary the side boundary setbacks specified in Table No. 2 and to require the observance of rear boundary setbacks shall be determined by Council which shall take into account the

provision made for landscaping, car parking, servicing, loading and unloading and open storage.

4.4.4 Use of Land within the Front Setback Area: No open storage of goods, unserviceable vehicles or machinery shall be carried out within the front boundary setback area of any site within a Commercial, Light or General Industrial Zone which area shall be used only for landscaping, car parking, servicing, loading and unloading, or where appropriate, pursuant to an approval granted by Council for trade display.

4.4.5 Minimum Lot Sizes and Effective Frontages for Development not covered by the Residential Planning Codes: No such standards are specified in this Scheme and the site area and effective frontage of a lot shall be deemed to be adequate if a developer or potential user of any land can demonstrate to the satisfaction of the Council that the site can accommodate—

- (a) the proposed development or land use, and,
- (b) the required amounts of car parking and servicing for the use concerned as set out in Table No. 2, and,
- (c) the required amount of landscaping for the use concerned as set out in Table No. 2, and,
- (d) any other features or requirements which, in the Council's view are necessary for the effective operation of the use or development concerned.

4.4.6 Plot Ratio: Subject to the provisions of Clause 4.4.2, Plot Ratios for non-residential development within the Scheme Area shall not exceed 0.5.

4.4.7 Car Parking: With the exception of instances where alternative arrangements are made pursuant to the ensuing provisions of this Clause, car parking required to be provided pursuant to this Scheme shall be laid out and constructed generally in accordance with the layouts of parking bays and manoeuvring aisles shown in Appendix No. 6—Parking Layouts, except that where the angles of car parking vary from those

shown, Council may determine the width of the manoeuvring aisle which in no case shall be less than four metres. Car parking bays shall be capable of use independently of each other.

Where the Council so decides it may accept cash payments in lieu of the provision of paved parking spaces but only subject to the following requirements being satisfied—

- (a) the cash-in-lieu payment shall not be less than the estimated cost to the owner or developer of providing and constructing the parking spaces required by the Scheme, plus the value, as estimated by Council, of that area of his land which would have been occupied by the parking spaces.
- (b) Before the Council agrees to accept a cash payment in lieu of the provision of parking spaces, the Council must either have purchased land and/or provided a public car park nearby or have firm proposals to provide such a public car park within a period of four years of the time of agreeing to accept the cash payment.
- (c) Payments made under this Clause shall be paid into a special fund to be used for the provision of public car parking facilities and the Council may use this Fund to provide public parking facilities anywhere within the commercial centre of the town or in close proximity of the site in respect of which a cash-in-lieu arrangement is made.
- (d) If an owner or developer shall object to the amount of the costs or values determined by Council pursuant to sub-clause (a), the matter may be referred to arbitration in accordance with the provisions of Clause 6.7.

4.4.8 Servicing and Open Storage: For new uses or development projects which require the despatch or receipt of goods of any kind, loading and unloading space will be required to be provided clear of the street. In general, also Council will seek to ensure that most servicing vehicles are able to enter and leave a street in a forward direction.

All open storage areas shall be screened by landscaping, by fencing or by other means acceptable to Council to ensure that storage areas are not exposed to view from nearby roads or other public places.

4.4.9 Parking/Servicing Separated from Development: Where parking or loading and unloading is provided on a lot or lots separated from the lot upon which the development or redevelopment is to occur, Council will require to be satisfied that the land so allocated to parking will be permanently retained for that purpose by either requiring an amalgamation of the lots set aside for parking with the lots being developed or by any other means giving a similar assurance.

4.4.10 Treatment of Driveways and Parking Areas: All driveways and parking areas shall be constructed to Council's satisfaction and provided with a sealed surface with appropriate measures for drainage and the disposal of surface water. Where appropriate the Council may require the marking out of parking areas and the provisions of suitable "no parking" signs where thoroughfare must be preserved.

All parking areas, turning areas and driveways required by Council pursuant to this Scheme shall be provided at the time of the development and thereafter maintained to the satisfaction of Council.

4.4.11 Landscaping: Landscaped areas to be constructed, planted and maintained pursuant to this Scheme will, in general, be located in such positions on a site or sites so as to enhance the appearance of the affected street or streets and to screen from view or soften the impact of parking areas, open storage areas, drying areas and any other space which, by virtue of its use is likely to detract from the visual amenity of the townscape.

Landscaping proposals shall be submitted to and approved by Council and any planting designed to act as a screen shall be comprised of plants growing to a variety of heights to achieve the desired results.

All landscaping proposals approved by Council pursuant to this Scheme shall be carried out at the time of the development or at such other time as may be agreed in writing between the developer and the Council and shall thereafter be permanently maintained to the satisfaction of the Council.

4.5 Residential Development: Residential Planning Codes

4.5.1 For the purpose of this Scheme "Residential Planning Codes" means the Residential Planning Codes set out in Appendix 3 to the Statement of Planning Policy No. 1, together with any amendments thereto.

4.5.2 A copy of the Residential Planning Codes, as amended, shall be kept and made available of public inspection at the offices of the Council.

4.5.3 Unless otherwise provided for in the Scheme the development of land for any of the residential purposes dealt with by the Residential Planning Codes shall conform to the provisions of those Codes.

4.6 Residential Planning Codes: Variations and Exclusions

4.6.1 In the area coded R12.5/25, the R12.5 Code provisions shall apply unless Council is satisfied in a particular case, that a development of higher density is justified in which cases the density shall not exceed that of the R25 Code.

4.6.1 Where the R12.5 Code provisions apply the minimum setback from rear boundaries shall be 7.5 metres.

4.7 General Provisions Relating to Special Rural Zones

4.7.1 Development and Land Use: The provisions of this Clause shall apply specifically to all land included in the Special Rural Zone in addition to any provisions which are more generally applicable to such land under this Scheme.

The objective of the Special Rural Zone is to select land within the rural areas of the Shire wherein closer subdivision may be permitted to provide for such uses as hobby farms, horse breeding, rural-residential retreats, and small holdings in such a manner as to preserve the rural landscape and amenity consistent with the orderly and proper planning of the locality.

Specific provisions relating to the individual Special Rural Zones will be as laid down in Appendix No. 4 to the Scheme.

4.7.2 Development—

- (a) In accordance with Part 2 all development requires the prior approval of the Council and notwithstanding the provisions of Section 11.3 (4) of the Uniform Building By-laws, the Council will permit the erection of only one dwelling on each new lot and an aged persons unit or additional accommodation attached to such a dwelling may also be permitted.
- (b) Each dwelling shall be provided with a supply of potable water either from a reticulated system, an underground bore or a rainwater storage system with a minimum capacity of 92 000 litres or a combination of either to the satisfaction of the Council. A dwelling shall not be considered fit for human habitation unless such a supply has been installed and is operating.
- (c) In addition to dwellings which may be approved by Council pursuant to the foregoing sub-clauses, Council may also approve the erection of such outbuildings that would reasonably be associated with residential or agricultural use or such other use as may be approved by Council.
- (d) All applications for planning approval pursuant to Part 2 for development within a Special Rural Zone shall indicate the entire lot, a building envelope, the areas of natural vegetation, and any proposed landscaping, the site contours, the extent of any earthworks and the siting, setbacks, design and external appearance of all new buildings nominating the reason for the choice of the materials and the manner in which these will assist in integrating the buildings into the natural landscape.
- (e) The minimum set backs for development within the Special Rural Zone shall be as follows—

Front—15 m

Side—7.5 m

Rear—7.5 m

4.7.3 Land Use—

- (a) No person shall use or permit to be used any lot or any part of a lot for any purpose which would:—
 - detract from the rural/residential amenity of adjoining lots
 - detract from the rural character of the area generally
 - adversely affect the land by exceeding usual stocking rates with the resultant prospect of soil erosion.
- (b) The Council may, by notice served upon individual landowners or upon a subdivider of land within this zone, require the preservation of specified groups of trees and thereafter no landowner or subdivider shall cut, remove or otherwise destroy any group of trees so specified unless Council rescinds the notice or order.
- (c) In addition Council may require individual landowners to undertake a programme of tree planting to ensure that developments on the

subject lot are screened from public roads. Such landscaping is to be implemented and maintained to the satisfaction of Council.

- (d) No dwelling or any other building shall be erected other than within the building envelope defined by the Council for the lot concerned.
- (e) No person shall remove or permit the removal of any trees or other vegetation from any land within the Special Rural Zone without having applied for and secured the written approval of Council.

4.8 Special Use Zone: Appendix No. 5 lists the land included within the Special Use Zone. Column (a) describes the land included within the zone and column (b) indicates the use that may be carried out on the specified land.

No person shall use, or permit to be used, any land included in the Special Use Zone other than for the specific use or uses indicated in column (b) of the Schedule for that particular land except that Council may approve additional uses provided that any such additional use is ancillary or incidental to the primary use specified.

8. Electoral Roll

- (a) In the event of an election being required the Director or the Director's nominee shall, within 4 days after the close of nominations, supply the Returning Officer with a roll comprising a true and correct list of the names of all electors at the Institute. The roll shall specify whether the electors are members of the academic staff or are members of the salaried staff or are enrolled students of the Institute as at the day and time appointed for the receipt of nominations by the notice published under section 5 of this Statute, and the list shall constitute the electoral roll for use at the election.
- (b) The Director or the Director's nominee shall endorse and sign on the roll so prepared a certificate as to the correctness thereof and that roll shall be conclusive evidence of the right of each person enrolled thereon to vote at the election.
- (c) The Director or the Director's nominee may cause a supplementary roll or rolls to be prepared and endorsed in conformity with, and having the same effect as, sub-section (b) so as to include the names of eligible persons incorrectly omitted from the roll. Such supplementary roll or rolls shall be forwarded to the Returning Officer forthwith after endorsement.
- (d) The Returning Officer shall, at the place where he or she carries out the functions as a Returning Officer, make the roll, including any supplementary rolls, applicable to an election for an office available for inspection by any elector, or by any person authorised by the Returning Officer, during the ordinary hours of business until the day on which the result of the election is declared.

9. Polling

When after the receipt of nominations of candidates an election is necessary to elect an elective member of the Board, the Returning Officer shall, as soon as practicable after the time fixed for the close of such nominations—

- (i) cause ballot papers to be printed, in accordance with Forms No. 4, No. 5 and No. 6 in the Appendix to this Statute, as appropriate, containing the full names of all the candidates. The candidates' names shall appear on the ballot paper in the order determined by the Returning Officer by lot;
- (ii) cause a biography (not exceeding 150 words in length) submitted by each candidate to be printed, provided the information contained in the biography appears to the Returning Officer to be relevant to the candidate's qualifications for the election. If after 7 clear days from the last date of lodgement of nominations the Returning Officer does not consent to the printing of the biography submitted by the candidate, no biography shall be printed.

10. Voting

- (a) The Returning Officer shall appoint a polling place at the Institute.
- (b) The Returning Officer shall appoint not less than two members of the staff of the Institute as presiding officers at the polling place. No candidate or proposer shall act as a presiding officer.
- (c)
 - (i) An elector shall vote in terms of paragraph (e), (f) or (g) of section 19 (2) of the Act.
 - (ii) No postal votes will be accepted.
 - (iii) An elector shall cast his or her vote by personally attending at the appointed polling place at the Institute, between the hours of 8.00 a.m. and 6.00 p.m. on the day appointed for the poll. No elector shall cast more than one vote at an election.
 - (iv) The elector shall state his or her full name to the Presiding Officer.

(v) The Presiding Officer shall enquire whether the elector has voted before at the election and if the answer is in the negative and the elector's name is on the roll the Presiding Officer shall mark the name off the roll and hand the elector a ballot paper in the form of Form No. 4, No. 5 or No. 6 in the Appendix to this Statute, as appropriate. The Presiding Officer shall initial the ballot paper before handing it to the elector.

- (vi) The elector shall mark the ballot paper in accordance with the directions contained therein and deposit it in a locked and sealed ballot box provided by the Presiding Officer for that purpose.
 - (vii) An elector who spoils a ballot paper, and has not deposited it in a ballot box, may return it to the Presiding Officer who shall forthwith destroy it and hand the elector a further ballot paper.
 - (viii) The Presiding Officer shall keep a tally of the number of electors issued with a ballot paper.
 - (ix) As soon as practicable after the close of the poll the Presiding Officer shall forward all ballot boxes containing ballot papers to the Returning Officer. The Presiding Officer shall also forward to the Returning Officer rolls used at the election, all unused ballot papers issued to him or her, and a record of the number of ballot papers issued.
- (d) Voting shall not be compulsory.

11. Marking of Ballot Paper

- (a) When there are not more than two candidates, the elector shall mark his or her vote on the ballot paper by placing the numeral 1 opposite the name of the candidate for whom the elector votes.
- (b) When there are more than two candidates, the elector shall mark his or her vote on the ballot paper by placing the numeral 1 opposite the name of the candidate for whom the elector votes as first preference, and shall give contingent votes for all the remaining candidates by placing the numerals 2, 3 and so on (as the case requires) opposite their names, so as to indicate by such numerical sequence the order of the elector's preference.

Provided that in the case of sub-section (b), if numerals in arithmetical sequence are placed opposite the names of all the candidates but one, the next following numeral shall be deemed to be placed opposite the name of the remaining candidate.

12. Scrutineers

- (a) Each candidate at an election and the College shall be entitled to appoint, in writing, one scrutineer, each to be present at each of any polling places during the hours of polling, and one scrutineer each to be present during the scrutiny of votes cast under section 10 (c) of this Statute.
- (b) Every scrutineer shall, before acting as scrutineer, make and sign, before the Returning Officer or Presiding Officer, a declaration in accordance with Form No. 7 in the Appendix to this Statute.
- (c) Any candidate may attend and be present at the counting of the votes.

13. The Scrutiny

As soon as practicable after the close of the poll, the Returning Officer, in the presence of any approved scrutineer, shall proceed with the scrutiny and count of the votes.

14. Method of Count

The Returning Officer shall declare elected the candidate (if any) who has an absolute majority of votes. If no candidate has an absolute majority on the first count, the Returning Officer shall eliminate the candidate with the lowest number of votes and shall distribute the votes of such eliminated candidate amongst the remaining candidates according to the next preferences expressed on the relevant ballot paper. This procedure shall be repeated until one candidate has an absolute majority, whereupon that candidate shall be declared elected.

15. Informality of Ballot Paper

- (a) A ballot paper shall be informal—
 - (i) if it is not initialled by the Returning Officer or the other officer authorised in that behalf;
 - (ii) if, subject to sub-section (b), it is marked in any manner other than prescribed in section 11 of this Statute;
 - (iii) if it has upon it any mark or writing not authorised by this Statute which in the opinion of the Returning Officer will enable any person to identify the elector;
 - (iv) if it does not indicate the elector's vote; or
 - (v) if no mark is indicated on it.
- (b) A ballot paper shall not be informal for any reason other than the reasons stated in sub section (a) but shall be given effect according to the elector's intention in so far as the elector's intention is clear, and, in particular when there are only two candidates, a ballot paper shall not be informal by reason only of the elector having indicated a vote or first preference by a cross instead of the numeral 1.
- (c) The Returning Officer shall be the sole and final judge as to whether a ballot paper is informal.

16. Declaration of Poll

When the Returning Officer has completed the counting of the votes the Returning Officer shall declare the result of the election in the presence of the scrutineers and of any candidates who may be present at the time.

17. Preservation of Papers

On completion of the scrutiny and count of votes, the Returning Officer shall—

- (a) enclose in one packet all the used and counted ballot papers;
- (b) seal up the packet and endorse on the packet a description and the number of the contents, the date of the election and sign the endorsement; and
- (c) retain the sealed packet.

18. Certification of Result

When the result of an election has been ascertained and declared the Returning Officer shall forthwith furnish to the Chairman of the Board a certificate of the result and state therein the names of the candidates who have been elected, and such a certificate, when received by the Chairman of the Board shall be final and conclusive evidence of the election of those candidates as members of the Board, subject however to a determination of any appeal under section 20 of this Statute.

19. Destruction of Papers

Upon the expiry of three months after the date of the certification to the Chairman of the Board of the result of an election, the Returning Officer may authorise the destruction of the packets referred to in section 17 of this Statute.

20. Right of Appeal

A candidate shall have a right of appeal to the Chairman of the Board within seven days of the declaration of the poll. Such an appeal should be in writing, addressed to the Chairman of the Board and shall specify the reasons of the making of the appeal.

Upon receipt of an appeal aforesaid, the Chairman of the Board shall make such enquiry into the manner as is necessary and shall, in conducting the enquiry, provide the candidate who has lodged the appeal together with all other candidates in that election with an opportunity to make submissions upon the matters raised in the appeal. After enquiry, the Chairman of the board may confirm the election or annul the election and direct that a fresh election be held.
