## General Information

Traffic movements along the Great Northern Highway are poised to increase twofold, according to Main Roads Department estimates, following the completion of the sealing of the Newman to Port Hedland section of the Highway towards the end of 1989. Travelling distance north-south will decrease by 130 km via the completed highway and is expected to attract traffic away from the North West Coastal Highway.

The Western Australian Tourism Commission has funds available under the headwork deferral programme to assist developers to spread the start-up costs of headworks charges i.e. power, water and sewerage, up to a five year period. The Commission funds the servicing agent direct and the developer repays the money at treasury interest rates, with repayments geared to the cashflow of the business.

The services being provided to the lots are a gravel road, power and water and the ingoing premium of \$35 000 is payable within 30 days of acceptance of application.

At any time during the currency of the lease, upon completion of the minimum development of 100 caravan bays and ancillary facilities to the satisfaction of the Minister for Lands, consideration may be given to the lessee acquiring the freehold of the land. In this regard a purchase price of \$49 000 is fixed for Meekatharra Lots 957 and 958 which at the time of Crown Grant action will be amalgamated as one lot. The purchase price will remain valid for a period of 3 years from the date of approval of the lease.

Executive Director.
