- (c) Such land is required to be made safe from fire by the reduction of fire hazards.

Compliance with such requirements need not require the removal of all inflammable materials.

2. All other land—

(A) You are required to have constructed firebreaks, as specified in this notice.

(a) Immediately inside all external boundaries of all land exceeding 2 100 square metres in area whether the land be cleared, partly cleared, bulldozed chained, used for pasture or be undeveloped.

All firebreaks as designated above must be prepared on or before the 15 November, 1989 within that portion of the Shire lying generally north of the dividing line defined hereunder and on or before the 15 December, 1989 within that portion of the shire lying generally south-west of the dividing line defined hereunder or within 14 days of the date of your becoming owner or occupier should this be after those dates.

The firebreaks required by this notice are to be maintained clear of inflammable material to and including the 30 March, 1990.

Take notice that pursuant to Clause 33 (4) of the Bush Fires Act where the owner or occupier of land who has received notice fails or neglects to comply with the requisitions of the notice within the time specified, the Shire of Albany, may by its officers and with such servants, workmen and contractors vehicles and machinery as the officers deem fit, enter upon the land and carry out the requisitions of the notice which have not been complied with and pursuant to Clause 33 (5) of the Bush Fires Act the amount of any costs and expenses incurred may be recovered from you as the owner or occupier of the land.

Applications to vary the above requirements

If it is considered to be impracticable for any reason whatever to carry out works as required by this notice, you may apply to the Council of the Shire of Albany or its duly authorised officer no later than 14 days prior to the date by which the firebreaks are required by this notice for permission to provide firebreaks in an alternative position, to take alternative action to abate the fire hazards on the land or to alter or vary this notice in any other way.

Applications forms for this purpose are available from all Bush Fire Control Officers.

Note: Council, or its duly authorised officer will consider approval of other than firebreaks immediately inside the external boundaries where a more suitable alternative can be provided. Approval of such alternatives will only be considered if submitted with the endorsement of the Bush Fire Brigade for the area concerned and will be on a yearly basis. If permission to vary this order is not granted by the Council or its duly authorised officer, you must comply with the requirements of this notice.

The penalty for failing to comply with this notice is a fine not exceeding \$400 and a person in default is also liable, whether prosecuted or not, to pay the costs of performing the work directed in this notice if it is not carried out by the owner or occupier by the date required by this notice.

If the requirements of this notice are carried out by burning, such burning must be in accordance with the relevant provisions of the Bushfires Act.

(2) Land equivalent in area to a single residential lot (herein after referred to as a "house lot") that contains an existing residence as at the date of gazettal of the Scheme shall not be resumed pursuant to the provisions of this Clause nor form part of an owner's interest in the Scheme.

(3) The house lots referred in subclause (2) are so situated or are of such a value or size that a subdivisional lot has been excluded from the Scheme Area.

(5) Each new house lot offered pursuant to subclause (4) of this Clause shall be offered free of cost and the acceptance thereof shall not be debited against the owner's interest in the Scheme.

Scheme Works

8. (1) The following works (the Scheme works) shall be carried out—

(2) The Council may carry out the Scheme works or any of them itself or cause them or any of them to be carried out by any other person as the Council thinks fit.

(3) If the Council carries out the Scheme works or any of them itself it is entitled to recoup from the Scheme all expenses incurred by it including overhead and administration costs.

(4) If the Council does not carry out any item of the Scheme works itself it is entitled to recoup from the Scheme all reasonable supervision costs in respect of those works in accordance with clause 9 (1) (a).

Scheme Costs

9. (1) Subject to clause 42 the costs or estimated costs of the following items comprise the Scheme costs so far as they specifically relate to the servicing and or development of the land within the Scheme Area.

- (a) The costs of preparation, implementation and administration of the Scheme, including an amount to reimburse the Council for all overhead, supervision and management costs it incurs in the preparation, implementation and administration of the Scheme and all legal costs, planning costs, payments to engineering consultants, surveyors, valuers and other professional consultants and to auctioneers and real estate agents.
- (b) The costs of the Scheme works to be carried out, less any contributions deemed to be the responsibility of other persons/instrumentalities outside the Scheme Area that derive benefit from the Scheme works.
- (c) All compensation payable under the Act or the Public Works Act 1902, together with all costs and expenses incurred in determining and settling any compensation payments.
- (d) The cost of acquisition of any land within the Scheme Area which is acquired other than by resumption.
- (e) The costs of providing, repairing and upgrading sewerage, water supply and drainage works outside the Scheme Area necessary to provide for the proper functioning of those services within the Scheme Area to the extent to which those costs are not payable by or recoverable from any other person.
- (f) Any cost incurred as a result of the relocation of existing electricity, gas, water, sewerage, drainage or telephone services or of providing extraordinary services rendered necessary by the Scheme to the extent to which and in cases where the Council considers the cost justified.
- (g) Any interest charges or other fees or expenses incurred by the Council in raising funds used in the implementation of the Scheme.
- (h) All other costs and expenses which the Council is required to meet in order to implement or complete the Scheme.

(2) If any of the items of Scheme costs have not been paid or ascertained at the time when the Council is ready to transfer any replacement lots pursuant to the provisions of the Scheme, the Council may estimate the amount thereof and may revise an estimate from time to time.

(3) If the actual expenditure in respect of an item of Scheme costs exceeds or is less than the estimate thereof—

- (a) The amount of the excess over the estimate shall be debited to the Scheme and is payable by owners in proportion to their respective interests in the Scheme and in default is recoverable by the Council in a court of competent jurisdiction; or
- (b) The amount by which the actual expenditure is less than the estimate shall be credited to the Scheme and be dealt with in accordance with the provisions of the Scheme;

as the case requires.

Valuations

10. The old lots shall be valued as at the date on which the Scheme comes into operation by a Licensed Valuer appointed by the Council and shall be valued on the basis of unimproved value. Such values are herein referred to as "before values". The Council shall notify each owner in writing of the value so placed on his old lot.

11. Subject to clause 39 the new lots shall be valued as at the date on which the State Planning Commission endorses its final approval on the Plan of Survey in respect of the new lots created by the Scheme, but any easement required or granted under clause 21 shall be taken into consideration. Such values are herein referred to as "after values".

12. (1) If an owner objects to the valuation of his old lot he may give notice in writing of the objection to the Council within twenty-eight (28) days from the date of service of the notice of the valuation.

(2) If the valuer does not subsequently revise the valuation to a figure which is acceptable to the owner, the valuation shall be determined by arbitration in accordance with the provisions of the Scheme.

(3) If a valuation is revised as the result of an objection, the valuer may reconsider the value placed on other old lots and make any revaluation he considers just and equitable.

(4) Where the valuation of an old lot is revised, whether as the result of an objection or otherwise, the Council shall as soon as practicable notify the owner in writing of the revised valuation and thereupon the owner has in respect of the valuation so revised the rights of objection conferred by this clause.

(5) The Council may extend the time within which an objection may be made and may do so notwithstanding the period specified in subclause (1) has expired.

13. All valuations so made shall be entered into a Schedule of Valuations in accordance with Schedule A in the case of the old lots and Schedule B in the case of the new lots which shall be prepared by the Council and retained by it and be made available for inspection by owners at all reasonable times.

Owner's Interest In Scheme

14. (1) Each owner of land within the Scheme Area shall be offered as a consideration for the transfer of his land to the Council or as compensation for the resumption of land from him an interest in the Scheme calculated according to the following clauses.

(2) Subject to the Scheme, each owner of an old lot or portion of an old lot which is within the Scheme Area is entitled to an interest in the Scheme (the owner's interest).

(3) The owner's interest in the Scheme is that percentage to the nearest three decimals of the net profits of the Scheme which the before value of that owner's land bears to the total of the before values of all privately owned land within the Scheme Area, the owners of which have accepted the offer mentioned in sub-clause (1) of this Clause.

(4) The owner's interest calculated pursuant to this Clause shall be recorded in Schedule A.

Allocation and Disposal of New Lots

15. (1) The Council shall set aside a sufficient number of new lots as saleable lots in order to pay the costs of the Scheme.

(2) Subject to the provisions of the Scheme, all other new lots are replacement lots.

16. (1) The replacement lots shall be offered to the owners in proportion to their respective interests in the Scheme.

(2) The replacement lots so offered shall be allocated in as close proximity as possible to the owner's old lot so that if practicable the replacement lots will have characteristics similar to those of the old lot acquired from the owner.

Nature of Offers

17. An offer referred to in clause 16 shall if necessary be made either with an additional offer of a cash payment to the owner or subject to the owner making a cash payment in order that the value of the replacement lot or lots so offered and the cash payment made to or by the owner, as the case may be, is equal to the owner's interest.

18. (1) Notwithstanding clauses 16 and 17, an offer of a lesser number of replacement lots or no replacement lots but with a cash payment to the owner equal to the value of the owner's interest may be made if the Council thinks fit.

(2) Clause 28 does not apply to an owner who accepts an offer made to him pursuant to this clause notwithstanding that no replacement lots are offered to him.

19. (1) The Council may before making an offer to an owner under Clause 20 enter into an agreement with the owner to transfer to him one or more replacement lots in advance and on account of the owner's interest in the Scheme or the amount of compensation payable to him under the Public Works Act 1902, as the case may be, and so that the lot or lots so transferred or the value thereof specified in the agreement will be set off against and deducted from the owner's interest in the Scheme or the compensation so payable, as the case may be.

(2) Subject to Subclause (1), an agreement so made does not prejudice the rights of the owner under the Scheme or in relation to an offer made to him under the Scheme.

(3) Clauses 35 and 36 apply to a transfer of a replacement lot pursuant to an agreement made under Subclause (1).

20. The offers shall be made in writing to each owner and served by certified post on him at his address appearing in the rate book of the Council or other address for service notified by him to the Council and shall specify—

- (a) Any replacement lot or lots the subject of the offer;
- (b) The old lot in respect of which the offer is made;
- (c) The owner's interest in the Scheme;
- (d) The valuations of the old lot and the replacement lot or lots; and
- (e) The amount of any payment to be made to or by the owner, as the case may be, and how the sum to be paid is calculated.

21. (1) If a pipe drain has been or is to be laid across land within a new lot the new lot may be offered or sold expressly subject to the condition that the transferee shall grant to the Council or to the Western Australian Water Authority, as decided by the Council, a drainage easement over so much of the lot as is required for the drain.

If the Council has itself granted an easement to that Authority the lot shall be transferred subject to the easement.

22. Each offer shall specify a date being not less than thirty-five (35) days after the date of posting of the offer within which it may be accepted.

23. An offer shall be accepted by the owner to whom it was made by notice in writing to the Council at any time before the date specified in the offer and if not accepted before that date shall, unless the time has been extended by the Council, be deemed to have been rejected.

24. (1) A person may in writing signed by him and the transferee or assignee transfer or assign his interest in the Scheme.

(2) Upon receipt of a transfer or assignment duly stamped the Council shall cause the transferee's or assignee's name to be recorded as the owner of an interest in the Scheme.

25. Subject to the provisions of Clause 26, an owner who accepts the offer made to him is liable to pay to the Council all rates which would have been payable on the old lot acquired from him if the old lot had remained in the name of the owner until the date of registration of the transfer of the replacement lots to the owner.

26. (1) If the Council enters into an agreement with an owner as provided in Clause 19, the owner is liable to pay to the Council all rates which would have been payable on the old lot acquired from him if the old lot had remained in the name of the owner until the date of registration of the transfer to the owner of the replacement lots the subject of the agreement.

(2) Clause 25 applies to any further replacement lots offered to and accepted by the owner, but following the date of registration of the transfer referred to in subclause (1) the owner is only liable under Clause 25 for that proportion of the rates on the old lot as the value of the owner's interest in the Scheme less the value of the replacement lots transferred to the owner pursuant to the agreement bears to the total value of the owner's interest in the Scheme.

27. An offer accepted shall be deemed to have been accepted by the owner on the basis that the acceptance precludes all claims for compensation which the owner may otherwise have had in respect of the resumption from him of the old lot in respect of which the offer was made or otherwise in respect of the operation of the Scheme but does not preclude the owner from participating in the distribution of any surplus lots or surplus moneys under Clause 33.

28. (1) If an owner does not accept an offer he is not entitled to any interest in the Scheme or to participate in the distribution of any surplus lots or surplus moneys.

(2) Subclause (1) does not affect any claim for compensation under the Public Works Act 1902 which an owner has in relation to any land resumed from him pursuant to the Scheme.

Registration of Transfers

29. (1) The Council shall cause to be prepared and sent to each owner entitled a transfer of the replacement lot or lots offered to and accepted by the owner in accordance with the Scheme.

(2) If an owner fails—

- (a) To complete the transfer in accordance with the Transfer of Land Act 1893, and to return it to the Council for registration; or

- (b) To make a payment of any money which is due by him to the Council;

within twenty-eight (28) days after having been called upon to do so by notice served by certified post on the owner at his address appearing in the rate book of the Council or last known to the Council (which notice may be served with the transfer), the Council may rescind any agreement whereby the owner is entitled to have the land the subject of the transfer transferred to him and thereupon the owner has a claim against the Council only for a cash payment equal to the owner's interest and the land the subject of the transfer shall be deemed to be and be treated as a rejected lot or lots in accordance with the following provisions.

Saleable Lots and Rejected Lots

30. Subject to the Scheme, the Council may sell the saleable lots and the rejected lots either by public auction, tender or private contract as a whole or in separate lots upon the terms and conditions the Council thinks fit.

31. In the event of a sale by private contract the price shall not be less than the price recommended by the valuer unless after submitting the land for sale by public auction or tender that price has not been obtained.

32. If in the opinion of the Council it is not necessary to sell all the saleable lots or rejected lots in order to pay the Scheme costs or it is otherwise desirable not to sell any such lots, the Council may retain those lots until in the Council's opinion it is expedient to dispose of them, provided such decision does not prejudice the landowner's interests or entitlements pursuant to the provisions of the Scheme or the completion of the Scheme.

Surplus Lots and Money

33. The Council shall transfer all lots and pay all moneys comprising the net profits of the Scheme to the owners entitled to an interest in the Scheme in proportion to their respective interests calculated in accordance with Clause 14 (3) hereof, within six (6) months of the date Council adopts an audited Statement on the Scheme Accounts.

34. If an owner or other persons entitled to participate in the distribution of any lots or moneys cannot be contacted the Council shall after the expiration of six (6) years from the date of the resolution to adopt the audited Statement referred in Clause 33 hereof, sell the lots by public auction, tender or private contract and expend the net proceeds of sale of the lots and or moneys in the improvement or development of the Scheme Area and thereafter the owner or other person entitled has no claim against the Council in respect thereof.

Encumbrances on Title

35. In the event of an old lot being subject to a registered mortgage, charge or lease or to a caveat to protect the interest of a purchaser, mortgagee, chargee, lessee or other person having an estate or interest in the old lot the Council shall not make a payment of money or transfer a replacement lot to the owner of that old lot without the consent of all persons entitled to the benefit of the encumbrance or unless the replacement lot is subject to a similar encumbrance.

Rates and Charges and Moneys Owing to Council

36. (1) Except in the case of an owner who is an entitled pensioner under the Pensioners (Rates Rebates and Deferrals) Act 1966, no replacement lot shall be transferred to an owner unless all moneys owing by him to Council for rates and charges have been paid.

(2) Subject to subclause (1), the Council may deduct from any moneys payable to an owner the amount of any unpaid rates, or charges and any other moneys owing by the owner to the Council.

Fences

37. The Council is not liable to contribute to the cost of any fences on the boundaries of pedestrian accessways, public open space or drainage reserves where adjoining privately owned land.

Powers of Council

38. In addition to all other powers and authorities conferred upon it, the Council, in the conduct and management of the Scheme, has the following powers—

- (a) To enter and inspect any land within the Scheme Area.
- (b) To enter into agreements or arrangements with the owners of land within the Scheme Area.

(c) To extend the time within which an offer of replacement lots may be accepted notwithstanding that time has expired.

(d) To acquire by purchase or otherwise any land or buildings within the Scheme Area.

(e) To extend the time for payment of any moneys payable to it notwithstanding that time has expired and to accept security for the payment thereof.

(f) To transfer any land acquired by it in pursuance of the Scheme as compensation or part compensation and to enter into agreements relative to the determination and settling of compensation.

(g) To enter into any agreements or arrangements with the Crown, the Water Authority of Western Australia, the State Energy Commission, the State Planning Commission, the Main Roads Department or other Government instrumentality or statutory authority as are necessary for any purpose connected with the Scheme or the carrying out of the Scheme works or any of them.

(h) To remove, alter or demolish any building or structure which obstructs the observance or carrying out of the Scheme.

(i) Subject to Clause 8(1) (a), to make minor variations to the survey design where necessary or desirable.

(j) To let or lease on any terms and conditions it thinks fit any land or buildings acquired by it pursuant to the Scheme.

(k) With the consent in writing of all persons interested to vary the allocation of replacement lots offered to owners in accordance with the Scheme.
