 - (b) the licence shall be issued in the joint names of the applicants.
- 5.3 A licence shall be in the form of the Fourth Schedule.
- 5.4 Any person seeking the transfer of a licence shall make application in the form prescribed in the Fifth Schedule and shall forward the application to the Town Clerk together with the fee prescribed in the Sixth Schedule. The application shall be signed by the proposed transferee of the licence and the holder of the licence.

Licence Conditions

- 6.1 A licence shall be issued upon and subject to the following conditions:—
- (a) The holder of the licence shall display the licence and the certificate of registration of the eating-house in a conspicuous place in the eating-house;
 - (b) If the holder of the licence changes his or her place of residence, he or she shall within 14 days thereafter give notice in writing to the Town Clerk specifying in such notice his or her new place of residence;
 - (c) The holder of the licence shall not make or permit to be made any structural alteration in or addition to premises without the prior written approval of the local authority, nor make or permit to be made any other alterations, or additions in the premises including any fixtures or food preparation equipment without prior written consent of the Health Surveyor;
 - (d) The holder of the licence shall notify the Council of any circumstances existing in the eating-house which gives rise to the possibility the food may be, or has been contaminated on any part of the eating-house used for the storage, manufacture, preparation, processing, or sale of food, forthwith upon such circumstances arising;
 - (e) The applicant shall demonstrate competent knowledge of safe food handling as deemed satisfactory by a Health Surveyor of the Council prior to a licence being issued.
- 6.2 The holder of the licence shall comply with and observe the conditions of the licence imposed under this Clause.

Kitchen Area

- 7.1 Subject to Clause 25 hereof, the proprietor of an eating house shall ensure that the kitchen or room where food is prepared, manufactured, processed or cooked has a floor area of not less than 20 square metres or not less than 25 per centum of the floor area of the room or rooms and any outside area where meals are served to or consumed by the public, whichever floor area is the greater. Food storage and scullery area shall be in addition to this requirement.
- 7.2 Kitchen and/or food preparation areas in eating houses:—
- (i) Shall not have skirting boards, picture rails or any other like projection;
 - (ii) Where the walls are tiled or finished with an approved material, the wall finish shall be flush to the tiling or approved material or sealed in an approved manner;
 - (iii) Shall have all such furniture, fixtures, counters, bins, sinks, drains, boards, grease traps, tubs, vessels, fittings, utensils, implements and things for use on the premises as the Health Surveyor may from time to time direct for the proper conduct of the business;
 - (iv) Shall have hot water installation of capacity to supply sufficient hot water and adequate sink facilities for the thorough cleansing of all drinking vessels, dishes, plates and other vessels, tableware, spoons, forks, knives, and any other utensils used on the premises to the satisfaction of the Health Surveyor. The hot water system shall be located outside the kitchen or food preparation area unless otherwise permitted by the Health Surveyor;
 - (v) All service pipes, cables, and conduits shall be sealed into the walls or with the approval of the Health Surveyor, located in box channel.
 - (vi) All joints, intersections, cracks and crevices within any refrigeration unit or racks therein shall be sealed off with butyl mastic or other approval material.
- 7.3 The proprietor of a Restaurant, tearoom or takeaway food premises shall:—
- (i) Provide adequate and efficient means of refrigeration for the preservation of food to the satisfaction of the Health Surveyor;
 - (ii) Ensure that all potential hazardous foods shall be stored at safe temperatures as defined under the provisions of the Health Act (Food Hygiene) Regulations;
 - (iii) Keep or cause to be kept clean and in good condition and repair the floors, walls, ceilings and all portions of the premises and all fittings, stoves, ranges, utensils, implements, shelves, benches, counters, bins to the satisfaction of the Health Surveyor;
 - (iv) Provide and properly maintain at all times suitable and effective means for keeping and keep every room within the premises free from dust, rats, mice, cockroaches, flies, spiders, insects, bugs, ants, moths and all other vermin and, if in the opinion of the Health Surveyor effective means and methods of cleansing, eradication of vermin or insects from the premises cannot be done effectively when the ordinary business of the establishment is carried on, then the local authority may order the temporary closure of the premises to the public until such time as such cleansing and eradication of vermin or insects has been carried out to the satisfaction of the Health Surveyor and the proprietor shall comply with such order.
 - (v) Keep all portions of the premises free from any unwholesome or offensive odour arising from the premises or the operations carried thereon;

- (vi) Construct and arrange or cause to be constructed or arranged all furniture, fixtures, counters, bins, sinks, drainboards, tubs, vessels, fittings, utensils, and things in every kitchen, serving room, scullery or food preparation area on the premises so that the floor in every such room or place may at all times be kept in a thoroughly clean and sanitary condition to the satisfaction of the Health Surveyor;
- (vii) Not permit or suffer any table napkin which has been used as such or for any other purpose by any person to be placed for use by or to be used by any other person unless such table napkin shall have been thoroughly washed and cleansed since it was previously used by such firstmentioned person. Paper or disposable table napkins which have been used by any person for any purpose cannot be offered for use by any other person for any use whatsoever;
- (viii) Remove or cause to be removed the whole of the canned or preserved food, or any food contained in a hermetically sealed container (such container not being composed wholly of glass or stoneware) intended for use on the premises from such original can or container immediately after the same shall have been opened;
- (ix) Remove or cause to be removed any food which may have been served to any person or placed on any table occupied by any customer on the premises (and not then consumed or removed by him or her) immediately after such person shall have finished his or her refreshment, nor permit, suffer or allow any such food so removed to be again served to any person on the premises, and such food shall be immediately deposited in the waste food garbage bin; provided that in this paragraph food shall not mean or include the following substances, to wit sugar, pepper, salt, mustard, vinegar, sauces, spices or condiments if such substances are contained in receptacles or containers so constructed that the contents of such container cannot be handled by any person; provided further that in this paragraph food shall not include bread which is placed in a glass receptacle or container of a design and so constructed that the contents are only handled as required;
- (x) Not permit, suffer, or cause any fish to be gutted, cleaned or scaled on any portion of the premises unless such portion of the said premises shall have been constructed for such purposes and approved in writing by the Health Surveyor and shall not store any fish in any kitchen or food on the premises unless such fish has already been gutted, cleaned, scaled and washed;
- (xi) Not store or permit to be stored in any kitchen on the premises any petrol, kerosene, benzine, naphtha, alcohol, mineralised or methylated spirit or any volatile liquid (not being an article of food).

- 11.5 Subject to Clause 10.3 provide and maintain at all times at the entrance of each sanitary convenience a sign to indicate for which sex its use is intended.
- 11.6 Provide an approved sanitary napkin disposal unit in female toilets.

Wash Hand Basins

12. The proprietor of an eating house shall provide a wash hand basin in every kitchen and room where food is manufactured, processed, cooked or prepared for service.

12.1 The proprietor of an eating house shall:—

- (a) Provide and maintain at all times an adequate supply of hot and cold water and soap to every wash hand basin.
- (b) Provide a clean disposable towel or other approved means of hand drying for the use of every person using a wash hand basin.
- (c) Not cause, suffer or permit any wash hand basin to be used for any purpose other than personal ablutions.
- (d) Not install any wash hand basin under a counter, table, console or console table.

Storage Facilities

13. The proprietor of an eating house shall not cause, suffer or permit any food contained in a package, tin or container or any cooking, eating or drinking utensil to be stored in any place other than an approved cabinet, cupboard or shelf.

Changerooms

14. Subject to Clause 25 hereof the proprietor of a restaurant shall:—

- 14.1 Provide a separate changerroom for the use of each sex of persons engaged in the preparation, manufacture, processing, cooking or serving of meals.
- 14.2 Ensure that every changerroom provided under this Clause has a floor area of at least 3 square metres with an additional 0.75 square metres for each male or female such persons as the case may be, in excess of 4.

Garbage Room and Receptacles

15.1 In this Clause—

“Receptacles” means a polyethylene cart fitted with wheels and a handle and with a lid and of capacity of 240 litres supplied by the Council or its Contractor or other type of receptacle approved by the Council for the temporary deposit of waste, food, garbage or refuse.

15.2 The proprietor of an eating house shall—

- (a) Subject to clause 25 hereof provide a room or enclosure for the storage and cleaning of receptacles and ensure that such room or enclosure—
 - (i) Is of sufficient size to store all receptacles used in connection with the eating house;
 - (ii) Has a floor area of not less than 3 square metres or not less than 10 per centum of the floor area of the room or rooms where food is prepared, manufactured, processed or cooked, whichever area is the greater;
 - (iii) Has a floor constructed of concrete and graded evenly to a trapped gully and properly connected to an authorised drainage system;
 - (iv) Is enclosed by walls to a minimum height of 1.2 metres with the internal finish being of an approved impervious material;
 - (v) Has a water supply hose cock and adequate length of hose.
- (b) Ensure that all receptacles have close fitting lids;
- (c) Provide receptacles of sufficient number to contain all waste food, garbage and refuse which accumulates or may accumulate on the eating house;
- (d) Not deposit any waste food, garbage or refuse in any place other than a receptacle;
- (e) Subject to Clause 25 hereof store and cleanse all receptacles only in a room or enclosure provided in accordance with this clause;
- (f) Keep or cause to be kept all receptacles in a clean condition daily and, in good repair;
- (g) Ensure that every receptacle is kept free of flies, maggots, cockroaches, rodents and vermin at all times;
- (h) Not cause, suffer or permit any receptacle to be uncovered at any time except when the lid of the receptacle is removed for depositing any waste food, garbage or refuse and cause every such lid to be replaced immediately following the deposit of such waste food, garbage or refuse.

Exhaust Ventilation

16. The proprietor of an eating house shall when required by Council provide a system of exhaust ventilation in accordance with the following provisions.

16.1 Ventilation

- (i) All mechanical ventilating exhaust systems required or permitted to be installed in any eating house shall be for the purpose of the local exhaust of heat, fumes and other aerosols arising from cooking and/or heating appliances;
- (ii) Plans and specifications indicating in full all ventilating provisions shall be submitted to the Council and approval obtained prior to any installation being commenced;
- (iii) All kitchens and cooking areas shall be provided with adequate permanent ventilation or a mechanical ventilating supply system capable of supplying not less than ten complete air changes per hour of the air volume contained in such kitchen or cooking area and to be operating at all times the kitchen and cooking area is occupied;
- (iv) The re-circulation of mechanical ventilating supply air in such kitchen or cooking areas is not permitted.

16.2 Mechanical Exhaust

- (i) A mechanical exhaust system shall be required to be installed in any kitchen or cooking area with hoods serving such heating or cooking appliances. Providing that a lesser system of circulation and filtration of air drawn through an approved type of activated carbon filter range hood or similar, suitably positioned above heating and cooking appliances such as pizza and pastry ovens, small electric grill plates, micro-wave ovens, nut cooker, doughnut cookers, small rotisseries and similar equipment, may be permitted. The minimum face velocity shall be 0.38 metres per second per square metre per face area of hood. Such mechanical ventilating exhaust systems shall operate at all times when cooking, boiling and/or heating is being carried out;
- (ii) A mechanical exhaust system installed may, in special cases, be permitted to exhaust from other rooms or processes subject to compliance with such conditions of approval as may be specified by the Council;
- (iii) Make-up air shall be supplied to the kitchen or cooking area by means of an approved mechanical ventilating supply system. Provided that, where the make-up air is continuously drawn from an out of doors source or approved indoor area is free from contamination and impurity, approval may be given to this method as an alternative to a mechanical ventilating supply system.
- (iv) Plans and specifications indicating in full all mechanical exhaust system shall be submitted to the Council and approval obtained prior to any installation being commenced.

16.3 Exhaust Hoods

All exhaust hoods shall be—

- (i) Of approved design and be capable of being easily cleaned. A minimum width of 75 millimetres shall be provided at the base of the filter bank;

- (ii) Constructed of stainless steel or other approved impervious material in a permanent and workmanlike manner, smooth and free from obstructions. All joints are to be welded or lapped, rivetted and soldered grease tight, other joints of satisfactory mechanical strength and grease tightness may be permitted;
- (iii) Reinforced where necessary to provide stability;
- (iv) Construction shall be single skin unless otherwise approved;
- (v) The design and capture velocity for hoods other than canopy type hoods or side draft types shall be as approved;
- (vi) No projections, including electric light fittings, shall be permitted within the internal section of the hood without specific approval, provided that fire sprinklers may be fitted in approved positions.

16.4 Canopy type hoods shall be designed and constructed:—

- (i) To extend not less than 150 millimetres beyond the perimeter of all equipment to be ventilated;
- (ii) With the lowest part of the hood 2 metres above the floor;
- (iii) To be provided with capture velocities sufficient for the conveying of all heat, fumes and other aerosols to the hood exhaust openings but, in any case, the face velocity is to be not less than 0.38 metres per second per square metre of face area of hood. Provided that a lesser face velocity may be permitted over bain maries, hot water urns, and similar equipment, or hoods deleted by specific approval;
- (iv) Where a condensation gutter is provided around the base of such hood, such gutter shall be not less than 50 millimetres wide, not more 25 millimetres in depth;
- (v) To be so constructed as to provide a minimal area of horizontal flat surface within the hood;
- (vi) To minimise enclosed spaces of the hood wherein grease may accumulate;
- (vii) So that duct connections shall have a grease-tight joint;
- (viii) Where a canopy type hood is to abut a wall or ceiling, the following methods of construction will apply—
 - The back and/or end which abuts the wall shall be unsheeted so that the existing wall forms part of the hood, and such wall shall be of an approved smooth impervious finish.
- (ix) The top of the canopy type hood shall project through the ceiling into the roof space and be effectively sealed around the perimeter of the hood and ceiling junctions or with specific approval the top of such canopy shall be unsheeted so that the existing ceiling or underside of a concrete roof or upper floor slab shall form part of the hood.

16.5 Side Draft—limited use.

- (i) Side Draft or lateral hoods will not be permitted to be installed to service exposed charcoal and charcoal type fires;
- (ii) Side draft hood shall be designed to—
 - Extend not less than 150 millimetres beyond the length of the cooking appliances to be exhaust ventilated;
- (iii) Be provided with an exhaust volume equivalent to at least 0.61 metres per second per square metre of the top surface area of the cooking equipment to be ventilated;
- (iv) Enclosed spaces of the hood wherein grease may accumulate, shall be minimised;
- (v) Where a lateral or side draft hood is to abut a wall or ceiling the construction and installation shall be as for canopy type hoods.

16.6 Exhaust openings in hoods shall be located in approved positions. Provided that the following matters are taken into consideration in respect to such approved position—

- (i) Access to internal sections of the hood for cleaning purposes;
- (ii) A uniform capture velocity being maintained within the hood;
- (iii) The location and types of cooking and heating appliances being served by the hood.

16.7 The enclosure of a canopy type hood may be permitted provided that:—

- (i) The enclosure is of approved design;
- (ii) The enclosure is constructed of impervious material of single skin construction;
- (iii) The whole or such part as may be specified of the panelling forming the enclosure is easily removable for cleaning and maintenance purposes.

16.8 Ducting

- (i) Ducts shall be constructed of galvanised steel or other approved metal in a permanent and workmanlike manner, smooth and free from obstructions on the interior;
- (ii) Joints shall be grooved, welded or lapped, rivetted and soldered airtight. Other joints of satisfactory mechanical strength and airtightness shall be permitted;
- (iii) Approved fire dampers may be required within the duct system dependent on the fire isolation requirements for the building;
- (iv) Grease tight clean outs shall be provided near each elbow, angle or duct junction of horizontal sections and at such other positions as may be specified;
- (v) The ductwork shall be easily accessible for cleaning and maintenance purposes;
- (vi) Flexible ducts or connections, where required an approved, shall be non-collapsible, greaseproof and fire resistant and shall be kept to a minimum.

- 16.9 The exhaust discharge of a mechanical ventilating system shall be located in an approved position and be removable for the purposes of cleaning.
- 16.10 All mechanical ventilating exhaust systems installed shall be provided with approved means of grease filtration. Provided that grease filters may not be required where the hood is exhausting solely over the bain maries, hot water heaters, dish washers and similar appliances from which the emission consists chiefly of heat and/or water vapour.
- (i) Where grease filters are to be fitted, to the hood, they shall be fixed at an angle of not less than 60 degrees to the horizontal; provided that alternatives may be approved;
 - (ii) All grease filters shall be of non-combustible construction designed for the specific purpose and shall be easily detachable (by hand without tools) for maintenance and cleaning purposes;
 - (iii) The filters shall be installed in such a position that their efficiency will not be impaired nor a fire hazard created by exposure to high temperature;
 - (iv) The distance from the lowest edge of the grease filters, which shall be located above the cooking surface, and in the case of deep fryers, the top oil level shall be determined as the cooking surface, shall be not less than—
 - (a) Appliances other than charcoal and charcoal type fires—600 millimetres;
 - (b) Exposed charcoal and charcoal type fires—1 350 millimetres.
 - (v) All filters, hoods and ducts shall receive regular cleaning and maintenance and be kept in a clean condition at all times.
- 16.11 Measurement of Air Flow
Air flows shall be measured by an anemometer used in such a manner that the average air flow rate of the measured surface is ascertained.
- 16.12 The proprietor of an eating house shall maintain in good order and clean condition at all times every exhaust ventilation system.

Outside Area—Paving

17. The proprietor of an eating house shall not use any outside area for serving meals to the public unless the following requirements are complied with:—
- 17.1 The whole of the area used for such purpose and a space of 2.4 metres beyond it in all directions shall be paved with impervious material which shall have a fall of not less than 1 in 120 to an impervious channel discharging over a trapped gully and properly connected to a drain.
- 17.2 The surface of any paved outside area shall be finished in a manner capable of being kept clean.
- 17.3 The proprietors of an eating house shall not permit meals to be served in any outdoor situation unless such proprietor has written approval granted by the Council approving such area for the consumption of meals. The proprietor shall comply with all conditions of such approval.

Cleanliness

18. The proprietor of an eating house shall—
- 18.1 At all times keep or cause to be kept clean and in good condition and repair the floors, walls, ceilings and all other portions of the eating house and all fixtures and fittings, stoves, ranges, cooking, eating and drinking, utensils, implements, shelves, counters, tables, benches, bins, cabinets, sinks, drain-boards, drains, grease traps, tubs, vessels and other things used in the eating house or in connection with the preparation or storage of food therein.
- 18.2 Keep all portions of the eating house to which the public have access, free from any unwholesome or offensive odour arising from the eating house or the operations carried on therein.
- 18.3 Maintain in a clean and tidy condition all yards, footpaths, passage ways, paved areas, stores or outbuildings used in connection with the eating house.
- 18.4 Cleanse daily and at all times keep and maintain all sanitary conveniences and all sanitary fittings and grease traps on the premises in a clean and sanitary condition.

Rats and Vermin

19. The proprietor of an eating house shall—
- 19.1 Ensure that the eating house and every room and apart thereof is kept free at all times from rodents, cockroaches, flies, spiders, insects, ants, moths and vermin.
- 19.2 Provide at all times all effective means and methods for the eradication and control of rodents, cockroaches, flies, spiders, insects, ants, moths and vermin.

Contamination

20. The proprietor of an eating house shall—
- 20.1 Not cause, suffer or permit—
- (a) Any person to sleep; and
 - (b) Any bed or bedding to be kept, housed, stored or accommodated, in any kitchen or room where food is prepared, manufactured, processed, cooked or stored;
- 20.2 Not cause, suffer or permit any food, which is unsound, unwholesome, contaminated, putrescent or weeviled to be used for or in the preparation of any meal.
- 20.3 Cause any food which is unsound, unwholesome, contamination, putrescent or weeviled to be immediately withdrawn from sale, stock or use and to be disposed of in a garbage receptacle.
- 20.4 Cause all drinking straws to be protected from contamination by flies, dust or other sources.
- 20.5 Cause all food to be at all times protected from the direct rays of the sun.
- 20.6 Cause any brine or pickle used for the pickling of meat to be removed as often as is necessary to prevent it from becoming offensive.

20.7 Ensure that any person whilst engaged in the manufacture, preparation, processing, cooking or serving of meals is wearing protective clothing and properly clothed with no part of his or her torso bare, with clean clothing and that the clothing is maintained in a clean condition to the satisfaction of the Health Surveyor.

20.8 Not cause, suffer or permit any food to be prepared, manufactured, processed, cooked or stored in any room wherein any water closet or urinal or any wash hand basin for use in connection with the same is situated.

21. No person shall prepare, manufacture, process, cook, store, pack or serve any food in any eating house in which any work is carried on that may or is likely to contaminate such food or affect its wholesomeness or cleanliness.

Tableware

22. The proprietor of an eating house shall—

22.1 Cause all table linen place mats, menus and menu covers and other table coverings to be kept in a clean and sanitary condition.

22.2 Not place or suffer or permit to be placed upon a table or before a person, any table napkin or serviette which is unclean or which has been used by another person unless it has been washed and laundered since the last such occasion of use.

Storage of Goods Incompatible with Food

23. The proprietor of an eating house shall—

23.1 Store and keep all wood, coal and coke used as fuel, in a store separated from the eating house and constructed of brick walls and concrete floor.

23.2 Not use, keep or store or permit to be used, kept or stored any petrol, bottles or containers of liquified petroleum gas, kerosene, benzine, naphtha, alcohol, mineralised or methylated spirit or any volatile liquid, or any other item incompatible with food—(not being an article of food) in any kitchen or room where food is prepared, manufactured, processed, cooked or stored.

Accommodation of Public

24. The proprietor of any eating house shall not cause, suffer or permit a greater number of persons to be accommodated in any room or rooms wherein meals are consumed by the public than will allow of a ration of one person to every one square metre of the floor area of such room or rooms.

Exemptions

25.1 A person carrying on the business of an eating house immediately prior to the prescribed date of these by-laws may apply in writing to the Council for an exemption from compliance with the whole or any part of the requirements of Clauses 7, 7.2, 8.1, 9.2 (a), (b), 10.1, 10.2, 11.1, 14.1, 14.2, 15.2 (a), (b), 16.3 vi. 16.5, 16.6, 16.7, 16.9 and 23.1 of this Part of this by-law.

C. "Firebreak Period" means the time between the 1st day of November in any year and until the 31st day of March in the year following.

D. "Fuel Storage Site" means any land, ramp, yard or building normally occupied by any drums or tanks used for the storage of fuel or the foundations or supports of any structure supporting such drums or tanks whether containing fuel or not.

E. "Inflammable Material" include bush (as defined in the Bush Fires Act 1954-1979) timber, boxes, cartons, paper and like inflammable materials, rubbish and any combustible material.

F. "Rural Land" means all land within the Municipality of the Shire of Wagin not defined as "Townsite Land".

G. "Townsite Land" means all land within the boundary of the Wagin Townsite.

2. Subject to By-law 3 owners and occupiers of land in the Municipality of the Shire of Wagin shall provide and maintain firebreaks during the firebreak period of the dimensions prescribed within these By-laws.

A. Rural land

Firebreaks not less than 2.5 metres wide shall be cleared of all inflammable material.

(i) inside and adjacent to all internal boundaries of all cleared land and inside and adjacent to boundaries which adjoin cleared land, and

(ii) parallel to and 20 metres distant from boundaries which adjoin railway reserves, and

(iii) completely surrounding all crops on land adjoining railway reserves, and

(iv) a distance of 20 metres from the perimeter of all buildings and haystacks, or groups of buildings and haystacks and shall completely encircle such buildings and haystacks, by the 15th December in any one year.

B. Fuel Storage Sites

Land within a perimeter of 6 metres outside the external boundary of the land used as a fuel storage site shall be cleared of all inflammable material.

C. Townsite Land

(i) Where the area of land is .202 hectares or less, all inflammable material on the land shall be removed from the whole of the land and

(ii) When the land exceeds .202 hectares in area, firebreaks not less than 2 metres wide shall be cleared of all inflammable material immediately inside all external boundaries of the land and immediately surrounding all buildings situated on the land.

3. If it is considered impracticable for any reason to clear firebreaks or remove inflammable material from land as required by these By-laws, the approval of the Council must be obtained for any variation. Approval will only be granted up to or before 30th October in any year and will not be considered unless the prior consent of the appropriate Fire Control Officer has been obtained.

4. Failure to comply with these By-laws shall be an offence. The penalty shall be in accordance with the provisions of the Bushfires Act 1954.

LOCAL GOVERNMENT ACT 1960

Municipality of the Shire of Greenough

By-law Relating to Trading in Public Places

IN pursuance of the powers conferred upon it by the undermentioned Act and of all other powers enabling it, the Council of the abovementioned Municipality hereby records having resolved on the twenty-ninth day of September 1989 to make and submit for confirmation by the Lieutenant Governor and Administrator the following by-law relating to trading in public places within the Shire of Greenough.

1. Interpretation: In this by-law, unless the context otherwise requires—
 - “Public Place” includes a street, way, park, reserve and place which the public are allowed to use, whether or not it is private property.
 - “Trading” means selling or hiring of goods, wares, merchandise or services, or offering goods, wares, merchandise or services for sale or hire, in a street or other public place and includes displaying goods, wares or merchandise for the purpose of offering them for sale or hire, soliciting orders or carrying out any other transaction therein.
 - “Community Association” means an institution, association, club, society or body, whether incorporated or not, the objects of which are of a charitable, benevolent, religious, cultural, educational, recreational, sporting or other like nature and the members of which are not entitled or permitted to receive any pecuniary profit from the transactions thereof.
2. This by-law shall not apply to the selling or offering for sale of newspapers or magazines, nor shall it apply to community associations.
3. No person shall carry on trading in any public place unless that person is acting within the specifications of a current licence issued under this by-law and for which all fees and charges have been paid.
4. An application for a licence shall be in writing and shall contain such information as the Council may require.
5. In considering an application for a licence the Council shall have regard for any relevant policy statements, and for the desirability of the proposed activity and its location and for the circumstances of the case, and may refuse to issue a licence, in which case it shall provide the applicant with reasons in writing.
6. The Council may issue a licence specifying such requirements, terms and conditions as the Council sees fit, including—
 - 6.1 the place to which the licence applies;
 - 6.2 the days and hours when trading may be carried on;
 - 6.3 the number, type, form and construction, as the case may be, of any stand, table, structure or vehicle which may be used for trading;
 - 6.4 the particulars of the goods or services or transaction in respect of which trading may be carried on;

- 6.5 whether and under what terms the licence is transferable;
 - 6.6 any prohibitions or restrictions concerning the causing of any nuisance, the use of signs, the making of noise and the use of amplifiers, sound equipment, sound instruments and lighting apparatus;
 - 6.7 any requirements concerning the display of the licence holder's name and other details of licence, the care, maintenance and cleansing of the place of trading or the vacating of the place when trading is not taking place;
 - 6.8 any requirements regarding the acquisition by the licence holder of public risk insurance;
 - 6.9 the period not exceeding 12 months during which the licence is valid.
7. The amount of the charges and fees shall be calculated and payable in accordance with the Schedule hereto.
8. The Council may at any time revoke a licence.
9. Where a licence is revoked the Council shall if requested provide the licence holder with reasons in writing and shall refund the charge having first deducted the charge applicable to the period from the issuing of the licence to its revocation.
10. Any person who contravenes or fails to comply with any provision of the by-law commits an offence and is liable on conviction to a penalty for each offence of not more than \$1 000 or imprisonment for six (6) months.

DAIRY INDUSTRY ACT, 1973

IT is hereby notified for general information that, in accordance with the provisions of the Dairy Industry Act 1973 (as amended) the Dairy Industry Authority of Western Australia has fixed the undermentioned prices and rates for market milk, deemed to include unflavoured milk sold for human consumption within the State of Western Australia, including milk for ships' stores and international airlines (hereinafter embraced by the term ships' stores) to be effective in the undermentioned dairy areas and districts as from 1 January 1990.

- (a) Metropolitan Dairy Area,
- (b) South-West Coastal Dairy Area Shires of Collie, Dardanup, Harvey, Murray, Waroona.
- (c) South Coastal Dairy Area.

Minimum Prices to Dairymen: Minimum price to be paid to dairymen by the Authority at the dairy for market milk containing not less than 11.75 per cent total milk solids as determined by Australian Standard 2300.1.1 in relation to a representative composite sample taken over a testing period; and containing not less than 3.2 per cent milk fat as determined by the infra-red absorption method in relation to the same representative composite sample at the rate of 30.33 cents per litre for market milk sold for human consumption in areas within the State of Western Australia not constituted as dairy areas within the meaning of the Dairy Industry Act 1973 (as amended) excluding ships' stores market milk, hereinafter embraced by the term, Outside Authority Area market milk; 41.90 cents per litre for other market milk; less a maximum deduction for transport of bulk market milk determined by the Authority.

Maximum Prices to Authority: Maximum price to be paid to the Authority by dairy produce factories for market milk at the rate of—

- 31.27 cents per litre for market milk sold as Outside Authority Area market milk;
- 42.84 cents per litre for market milk sold as ships' stores;
- 43.14 cents per litre for other market milk sold as skim milk and low-fat unflavoured milk;
- 44.44 cents per litre for all other market milk.

Acceptance and Disposal of Milk by the Authority: It is further determined that, where milk delivered by a dairyman—

is found to contain less than 11.75 per cent total milk solids, as determined by the aforementioned Standard Method during any testing period on a second or succeeding occasion after 1 January 1987 or a second or succeeding occasion in any subsequent quota year, milk supplied by that dairyman for the duration of that testing period will not be accepted by the Authority as market milk.

is found to contain less than 3.2 per cent milk fat, as determined by one of the aforementioned methods during any testing period on a second or succeeding occasion after 1 January 1987 or a second or succeeding occasion in any subsequent quota year, milk supplied by that dairyman for the duration of that testing period will not be accepted by the Authority as market milk.

is found by the Authority or its authorised agent on a certain day to contain antibiotic or other inhibitory substance on a second occasion after 1 January 1987 or a second occasion in any subsequent quota year, milk supplied by that dairyman for that one day will not be accepted by the Authority as market milk.

is found by the Authority or its authorised agent on a certain day to contain antibiotic or other inhibitory substance on a third or succeeding occasion after 1 January 1987 or on a third or succeeding occasion in any subsequent quota year, milk supplied by the dairyman for the duration of that testing period in which that day occurs will not be accepted by the Authority as market milk.

is found by the Authority or its authorised agent on a certain day to contain added water on the first occasion after 1 January 1987 or on the first occasion in any subsequent quota year, milk supplied by that dairyman for that one day will not be accepted by the Authority as market milk.

is found by the Authority or its authorised agent on a certain day to contain added water on a second or succeeding occasion after 1 January 1987 or on a second or succeeding occasion in any subsequent

quota year, milk supplied by that dairyman for the duration of the testing period in which that day occurs will not be accepted by the Authority as market milk.

is found by the Authority or its authorised agent on a certain day to contain added solids on the first occasion after 1 January 1987 or on the first occasion in any subsequent quota year, milk supplied by that dairyman will not be accepted by the Authority as market milk for a minimum of two testing periods.

is found by the Authority or its authorised agent on a certain day to contain added solids on a second or succeeding occasion after 1 January 1987 or a second or succeeding occasion in any subsequent quota year, milk supplied by that dairyman will not be accepted by the Authority as market milk for a minimum of four testing periods.

is found by the Authority or its authorised agent on a certain day from 1 February 1987, to have a bacterial count over 50 000 bacteria per millilitre, milk supplied by that dairyman will not be accepted by the Authority as market milk as follows:

on the fourth occasion in any twelve month period—for one day;

on the fifth occasion in any twelve month period—for two days in that month;

on the sixth occasion in any twelve month period—for three days in that month;

on the seventh occasion in any twelve month period—for five days in that month;

and

on the eighth or succeeding occasion in any twelve month period—for the duration of the testing period in which that day occurs.

Where milk delivered by a dairyman is acceptable as market milk and the abovementioned prices for market milk apply, the milk is accepted by the Authority at the dairyman's registered dairy produce premises.

Provided that nothing in the Dairy Industry Act, 1973-1983, requires the Authority to accept all or any milk delivered to it by any person; and milk delivered to and accepted by the Authority may be disposed of by the Authority to milk vendors or other persons.

The Recommended Prices—

which may be charged by milk vendors to milk vendors and milk distributors;

which may be charged by milk distributors to milk shops;

at the undermentioned rates and may apply in the dairy areas and districts mentioned for unflavoured whole milk and reduced-fat milk which is sold in—

Ten-or-Twenty-litre Bags-in-Crate;

Two-litre Containers;

One-litre Containers;

Six Hundred Millilitre Containers;

Three-Hundred Millilitre Containers.

DAIRY INDUSTRY ACT 1973

Directions by the Minister to the Dairy Industry Authority under section 27

I, ERNEST FRANCIS BRIDGE, Minister for Agriculture, being the Minister for the time being administering the Dairy Industry Act 1973, pursuant to the powers conferred by section 27 of that Act, hereby direct the Dairy Industry Authority to determine applications for market milk quota

made to it under section 26 of the Act in respect of the quota year commencing on 1 January 1990, on the following basis or principles.

1. (1) Subject to this paragraph, a dairyman holding a market milk quota or a special milk products quota at the end of the 1989 Quota Year shall, upon application duly made, be granted initially, a market milk quota for the 1990 Quota Year of an amount that is not less on a daily basis than the sum of the amount of market milk quota held by him at the end of the 1989 Quota Year and an amount of market milk quota equivalent to the conversion to market milk quota, in accordance with approved terms and conditions, of the amount of special milk products quota held by him at the end of the 1989 Quota Year.

Provided that—

- (a) the dairy premises to which the application relates and upon which milk is to be produced are the same as the dairy premises referred to in the quota certificate held by the applicant, or the registered premises authorised by the Authority under section 28 (2a) immediately before the end of the 1989 Quota Year; and
- (b) the land which in the opinion of the Authority is associated with the dairy premises is sufficient, in the opinion of the Authority, to ensure the continuity and certainty of production.

(2) Notwithstanding that the requirements of sub-paragraph (1) of this paragraph may apply to a dairyman, unless such requirements are satisfied by a dairyman in his application, he shall not be granted a market milk quota.

(3) Where a dairyman short supplies market milk quota issued to him at any time during the course of the 1990 Quota Year, the quota shall be reduced in accordance with the approved terms and conditions for short supply.

2 (1) The Authority may refuse an application if approval of the application would result in the applicant or the applicant together with any person associated with the applicant (as determined by the Authority in accordance with sub-paragraph (2) of this paragraph) holding a market milk quota of more than 2 100 litres daily for the 1990 Quota Year.

(2) The Authority may determine that a person is associated with an applicant if that person holds a market milk quota and is in the opinion of the Authority—

- (a) a partner of the applicant;
- (b) a corporation of which the applicant is an officer or director;
- (c) where the applicant is a corporation, an officer or director of the corporation;
- (d) an officer or director of any corporation of which the applicant is an officer or director;
- (e) an employee or employer of the applicant;
- (f) an employee of a natural person of whom the applicant is an employee;
- (g) a corporation whose directors are accustomed or under an obligation whether formal or informal, to act in accordance with the directions, instructions or wishes of the applicant or, where the person is a corporation, of the directors or management of that person;
- (h) a corporation in accordance with the directions, instructions or wishes of which, or of the directors or management of which, the applicant is accustomed or under an obligation, whether formal or informal, to act;
- (i) a corporation in which the applicant holds a substantial interest; or
- (j) where that person is a corporation—a person who holds a substantial interest in the corporation,

but persons shall not be regarded as associates if the Authority is satisfied on representations made by one or more of them and after its own enquiries (if any) that they are commercially independent in their respective enterprises.

Dated this day 8th December 1989.

ERNEST F. BRIDGE,
Minister for Agriculture.
