2.4.2 Claims for such compensation shall be lodged at the office of the Council not later than six months after the date of the decision of the Council refusing planning consent or granting it subject to conditions that are unacceptable to the applicant.

## 3.3 Zoning Table

3.3.1 The Zoning Table indicates, subject to the provisions of the Scheme, the several uses permitted in the Scheme Area in the various zones, such uses being determined by cross reference between the list of use classes on the left hand side of the Zoning Table and the list of zones at the top of the Zoning Table.

3.3.2 The symbols used in the cross reference in the Zoning Table have the following meanings:

'P' means that the use is permitted provided it complies with the relevant standards and requirements laid down in the Scheme and all conditions (if any) imposed by the Council in granting planning consent.

'AA' means that the Council may, at its discretion, permit the use.

'SA' means that the Council may, at its discretion, permit the use after notice of application has been given in accordance with Clause 6.2.

3.3.3 Where no symbol appears in the cross reference of a use class against a zone in the Zoning Table a use of that class is not permitted in that zone.

3.3.4 Where in the Zoning Table a particular use is mentioned it is deemed to be excluded from any other use class which by its more general terms might otherwise include such particular use.

3.3.5 If the use of land for a particular purpose is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the interpretation of one of the use classes, the Council may:

- (a) determine that the use is not consistent with the objectives and purposes of the particular zone and is therefore not permitted; or
- (b) determine by absolute majority that the proposed use may be consistent with the objectives and purpose of the zone and thereafter follow the advertising procedures of Clause 6.2 in considering an Application for Planning Consent.

#### PART IV—NON-CONFORMING USES

##### 4.1 Non-Conforming Use Rights

No provision of the Scheme shall prevent:

- the continued use of any land or building for the purpose for which it was being lawfully used at the time of coming into force of the Scheme; or
- the carrying out of any development thereon for which, immediately prior to that time, a permit or permits, lawfully required to authorise the development to be carried out, were duly obtained and are current.

##### 4.2 Extension of Non-Conforming Use

A person shall not alter or extend a non-conforming use or erect, alter or extend a building used in conjunction with a non-conforming use without first having applied for and obtained the planning consent of the Council under the Scheme and unless in conformity with any other provisions and requirements contained in the Scheme.

##### 4.3 Change of Non-Conforming Use

Notwithstanding anything contained in the Zoning Table the Council may grant its planning consent to the change of use of any land from one non-conforming use to another use if the proposed use is, in the opinion of the Council, less detrimental to the amenity of the locality than the non-conforming use and is, in the opinion of the Council, closer to the intended uses of the zone or reserve.

##### 4.4 Discontinuance of Non-Conforming Use

4.4.1 When a non-conforming use of any land or building has been discontinued for a period of six months or more such land or building shall not thereafter be used otherwise than in conformity with the provisions of the Scheme.

4.4.2 The Council may effect the discontinuance of a non conforming use by the purchase of the affected property, or by the payment of compensation to the owner or the occupier or to both the owner and the occupier of that property, and may enter into an agreement with the owner for that purpose.

#### 4.5 Destruction of Buildings

If any building is, at the gazettal date, being used for a non conforming use, and is subsequently destroyed or damaged to an extent of 75% or more of its value, the land on which the building is built shall not thereafter be used otherwise than in conformity with the Scheme, and the buildings shall not be repaired or rebuilt, altered or added to for the purpose of being used for a non-conforming use or in a manner or position not permitted by the Scheme.

### PART V—DEVELOPMENT REQUIREMENTS

#### 5.1 Development of Land

5.1.1 Subject to Clause 5.1.2 a person shall not commence or carry out development of any land zoned or reserved under the Scheme without first having applied for and obtained the planning consent of the Council under the Scheme.

5.1.2 The planning consent of the Council is not required for the following development of land:

- (a) The development of land in a local reserve, where such land is held by the Council or vested in a public authority;
  - (i) for the purpose for which the land is reserved under the Scheme; or
  - (ii) in the case of land vested in a public authority, for any purpose for which such land may be lawfully used by that authority.
- (b) The erection of a boundary fence except as otherwise required by the Scheme;
- (c) The erection on a lot of a single dwelling house, including ancillary outbuildings, in a zone where the proposed use is designated with the symbol 'P' in the cross-reference to that zone in the Zoning Table, except where the single dwelling house:
  - (i) is not the first erected on the lot;
  - (ii) is more than 3.5 metres in height; or,
  - (iii) is to be constructed of materials and finishes out of character with those used generally in the locality.
- (d) The carrying out of any works on, in, over or under a street or road by a public authority acting pursuant to the provisions of any Act;
- (e) The carrying out of works for the maintenance, improvement or other alteration of any building, being works which affect only the interior of the building or which do not materially affect the external appearance of the building;
- (f) The carrying out of works urgently necessary in the public safety or for the safety or security of plant or equipment or for the maintenance of essential services.

#### 5.2 Special Design Areas

The following provisions shall apply to all land included in the area designated on the Scheme Maps as a Special Design Area in addition to any other provisions which are more generally applicable to such land under this Scheme.

Prior to considering any development or subdivision in the Special Design Area the Council will prepare, or require to be prepared, a plan of the overall proposed development for the area. Approval of Council and the Commission must be sought with regard to a plan prepared within a Special Design Area.

This plan shall include:

- (a) An assessment of the existing situation in regard to;
  - the type, quality and quantity of existing vegetation,
  - the depth and nature of the soils, including rock,
  - the existing contour information adequate to depict the landform,
  - any existing structures or improvements on the land.
- any other features the Council considers relevant in terms of the land in question.
- (b) Information concerning the proposal for the land including;
  - the proposed and ultimate subdivision of the land,
  - new contours of the site,
  - services and facilities for the development,
  - the trees and areas of vegetation to be preserved,
  - new tree planting, landscape and proposed public open space areas,
  - the nature, form, scale and proposed use of the development on the land, and where applicable,
  - the staging of the proposal, and
  - the maintenance strategy for the development.

#### 5.3 Development on Land Subject to Dampness or Flooding

5.3.1 Where, in the opinion of the Council, the dampness of the site on which a building is proposed to be constructed so warrants, the Council may require that one or all of the following measures shall be carried out;

- (a) the subsoil shall be effectively drained;
- (b) the surface of the ground beneath the building shall be regraded or filled and provided with adequate outlets to prevent any accumulation of water beneath the building;
- (c) the surface of the ground beneath the building shall be covered with an approved damp-resisting material.

5.3.2 A building shall not be constructed upon any land defined by the Council as being liable to flooding or inundation.

#### 5.4 Development Table

Any development that is permitted under the provisions of Part II and Part III of this Scheme shall conform to the requirements for that use as specified in Table II—Development Table.

5.4.1 Development Requirements: Where requirements for a particular use are not set out in this Scheme, the development shall conform to the provisions for the predominant use of the zone in which it is situated, as determined by the Council, or where such provisions are inappropriate, to such requirements as the Council shall determine.

For the purposes of this Clause, the predominant uses in zones and local reserves shall be deemed to be as outlined in their respective objectives.

5.4.2 Combined Uses: Where two or more uses are combined in a single development, the development shall conform to the requirements for each use respectively, or where such requirements are inappropriate, to such requirements as the Council shall determine.

#### 5.5 Development of Land Subject to Non-Conforming Use Rights

5.5.1 Except where otherwise provided, any application to alter or extend a non-conforming use shall be in conformity with the provisions of the Scheme relevant to that use. In a particular case, the Council may require that a non conforming use comply with the setbacks and other provisions set out for the predominant use of that zone.

5.5.2 Any change of use or development shall be in accordance with Table I PROVIDED THAT the Council may permit:

- (i) minor repairs or maintenance necessary to ensure the safety and health of the public and users of the property;
- (ii) an extension of the buildings subject to the non conforming use by up to 20% of the floor area of the building existing at the time of gazettal of the Scheme, or by such greater proportion which the Council considers will not prejudice the objectives of this Scheme, provided always that such extension is within the limits of the setbacks in this Scheme.

The power conferred by this Clause may only be exercised if the Council is satisfied that:

- (a) approval of the proposed development would be consistent with the orderly and proper planning of the locality and the preservation of the amenities of the locality;
- (b) the non-compliance will not have any adverse effect upon the occupiers or users of the development or the inhabitants of the locality or upon the likely future development of the locality; and
- (c) the spirit and purpose of the requirement or standard will not be unreasonably departed from thereby.

#### **5.7 Residential Development**

5.7.1 Development in the Residential Zone shall comply with the objectives for that Zone as outlined in Part III and the Residential Planning Codes.

(c) The Residential Planning Code for land zoned Urban in Boxwood Hill and Needilup Townsites shall be R10.

(d) Residential Development in the Rural Zone shall comply with the specific requirements of the Council, however these shall not be lesser than those specified for the R2 Residential Planning Code.

5.7.4 Where a dwelling is more than 3.5 metres in height the Council may seek the views of the adjoining owners that may have their amenity affected by the proposal. The Council shall take into consideration these opinions when assessing an application for planning consent.

#### **5.8 Development on Land Abutting a Residential Zone**

Any non-residential development on land abutting a Residential Zone shall conform to such standards as the Council determines. These standards shall be assessed on the basis of the potential nuisance of the proposed development on the residential area.

#### **5.9 Commercial Development**

5.9.1 Commercial development in the Commercial Zone shall comply with the requirements of Table II and the objectives for that Zone as outlined in Part III.

5.9.2 Loading Docks and access ways shall be provided sufficient in size to wholly contain delivery vehicles on site or within the building and to permit the passage of vehicles from and to the street without backing.

5.9.3 Where the Council considers it appropriate, rear access shall be provided to each tenement, in order to avoid using the front entrance, another tenement or an arcade for service deliveries.

#### **5.10 Industrial Development**

5.10.1 Industrial Development in the Industrial Zone shall comply with the requirements of Table II and the objectives for that Zone as outlined in Part III.

5.10.2 The front setback area may be used only for the purposes of landscaping, visitors carparking or access. The Council may approve the use of the front setback area for display or for loading and unloading of vehicles. No material or product may be stored within the front setback area.

Areas other than the front setback that are visible from a public street or place shall be developed with landscaped open space or screened to the approval of the Council.

5.10.5 Loading Docks and access ways shall be provided sufficient in size to wholly contain delivery vehicles on site or within the building and to permit the passage of vehicles from and to the street without backing.
