4.7.2 The Scheme Map defines those parts of Scheme Area, other than the area encompassed by the Limited Rural Strategy prepared in Amendment No. 1 for the area centered on Hopetoun and extending approximately 5km from Hopetoun, considered to be the preferred locations for Special Rural Zones and wherein the Council is prepared to consider initiating amendments to the Scheme to include land with the Special Rural Zone but this shall not preclude the Council from initiating such amendments in respect of land outside the parts of the Scheme Area so defined.

4.7.3 The Council shall not initiate an amendment to the Scheme to include land within the Special Rural Zone until the owner of that land has prepared an Evaluation Report and the Council has approved that Report.

4.7.4 Prior to preparing the said Evaluation Report the owner shall submit to Council three copies of—

- (a) A plan showing the area proposed to be included in the Special Rural Zone (hereinafter called the "subject land").

- (h) physical and natural features it is intended to conserve and, where appropriate, details of any proposals for landscaping and other works,
- (i) the staging of the proposed subdivision if appropriate, and
- (j) areas to be set aside for landscape protection, tree planting etc.

4.7.8 The owners shall also submit to Council draft documents of an amendment to the Scheme to include the subject land with the Special Rural Zone and in particular such measures and special provisions for the control of land use and development as are necessary to ensure that the objectives of the zone are achieved and the qualities of the rural environment are not impaired.

4.7.9 On receipt of an Evaluation report the Council may consult with any public or statutory body and may either—

- (i) approve the Evaluation Report with or without modifications, or
 - (ii) refuse to approve the Evaluation Report,
- and shall advise the owner in writing accordingly.

4.7.10 If the Council approves the Evaluation Report with or without modification, it shall initiate an amendment to the Scheme to transfer the subject land from the Rural Zone to the Special Rural Zone.

- (d) In addition to dwellings which may be approved by Council pursuant to the foregoing sub-clauses, Council may also approve the erection of such outbuildings that would reasonably be associated with residential or agriculture use or such other use as may be approved by Council.
- (e) All applications for planning approval pursuant to Part 2 for development within the Special Rural Zone shall indicate the entire lot, the areas of natural vegetation and any proposed landscaping, the site contours, the extent of any earthworks, the siting, setbacks, design and external appearance of all new buildings nominating the reason for the choice of the materials and the manner in which these will assist in integrating the buildings into the natural landscape.
- (f) No person shall use or permit to be used any lot or any part of a lot for any purpose which would—
 - * detract from the rural/residential amenity of adjoining lots
 - * detract from the rural character of the area generally

- (g) In approving any application to use or develop land within the Special Rural Zone, the Council will encourage each lot owner to undertake a programme of tree planting related to the degree to which the land or buildings are exposed to view and such a programme may be in addition to that carried out as a part of the subdivision of the land.
- (h) The Council may, by written notice served upon individual landowners or upon a subdivider of land within the Special Rural Zone, require the preservation of specific areas of natural vegetation and thereafter no landowner, subdivider or occupier of the land shall cut, remove or otherwise destroy any vegetation in the area so specified unless the Council rescinds the notice or order.
- (i) Where lots area covered or substantially covered by vegetation either natural or introduced, the approval of the Council is required for the clearance of any part of any lot and the Council shall determine the extent of which the land may be cleared bearing in mind the nature of the land and intended use of the Special Rural Zone involved.

B. Rural Zone

4.7.14 The objectives of the Rural Zone are—

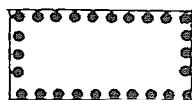

- (i) to encourage the continued use of land within the Rural Zone for broadacre farming, and
- (ii) to retain the rural character and amenity of the rural area.

4.7.15 The Council will generally not recommend approval of an application to subdivide land within the Rural Zone unless the subdivider can demonstrate that—

- (a) the proposed subdivision would not materially prejudice the objectives of the Rural Zone,
- (b) the proposed subdivision would not prejudice, or would enhance, the agricultural use of the owners landholding,
- (c) in the case of resubdivision the number of resultant lots would remain the same or be reduced and would preserve or promote the use of the land for broadacre farming.
- (d) the Council is satisfied that the proposed subdivision or subsequent development is consistent with the objectives of the Rural Zone or are of such importance to the District that it overrides the demands of agriculture.

4.7.16 In relation to the area of land the subject of a Limited Rural Strategy pursuant to Amendment No. 1 to the Scheme, the Council shall, when considering applications for development and/or subdivision, have regard to the findings of that Limited Rural Strategy.

As a condition of approval the Council may require the animals to be stabled or corralled.
- Where in the opinion of the Council the continued presence of animals on any portion of land in the estate is likely to contribute, or is contributing to dust pollution or soil erosion, notice may be served on the owner of the said land, requiring the immediate removal of those animals specified in the notice for a period specified in the notice.

The location of the facility shall be to the satisfaction of both the Council and the Bush Fires Board and the facility shall be constructed to the specifications of the Bush Fires Board.
- 19.13 With the intention of preserving the existing natural vegetation and mature trees and preventing land use practices detrimental to the amenity of the locality, the approval of the Council is required for any intensive agricultural pursuit. The Council will have regard to limits on stocking, the limited groundwater resources, tree and vegetation preservation

and the effects on the environment of the locality and residents of the estate when considering the application and may, should approval be granted, impose any conditions the Council deems fit and may modify or vary such conditions to take account of seasonal changes.

19.14 The land is situated within the catchment of the Peel-Harvey system where nutrient control through fertiliser application is to be promoted.
