- 21.3 "The developer of the estate shall within the "Tree Planting Area" depicted on the subdivisional Guide Plan, plant indigenous and native trees and shrubs of a species and at a density and distribution to be determined by the Council following consultation with the Environmental Protection Authority. Tree planting shall occur and be undertaken to the satisfaction of the Council prior to the endorsement by the State Planning Commission of Diagrams of Survey to create the lots depicted on the Subdivisional Guide Plan. Application and distribution of fertilizer to the land shall be subject to the prior approval of the Council."
- 21.4 "The developer of the estate shall maintain the trees and shrubs planted within the "Tree Planting Area" to the satisfaction of the Council until the land as a whole or in lots is sold. - 21.7 "At the time of building application for each lot a plan of the site shall be submitted by the applicant to the satisfaction and specifications of the Council which shall show site contours, existing trees and stands of vegetation, those trees and vegetation to be removed and retained and proposals for tree planting and maintenance."
- 21.8 "The keeping of horses, sheep, goats and other grazing animals shall be subject to the prior approval of the Council. Approval to keep animals shall not exceed the stocking rates recommended by the Department of Agriculture for the applicable pasture types."
- 21.9 "Council will approve the grazing of animals outside of the Building Envelope provided that the Council is satisfied that nutrient input to the land can be controlled to the satisfaction of the Environmental Protection Authority and that such will not result in the removal or damage of the vegetation and trees or result in soil erosion and dust pollution. As a condition of approval the Council may require the animals to be stabled or corralled."
- 21.10 "Where in the opinion of the Council the continued presence of animals on any portion of land in the estate is likely to contribute, or is contributing to dust pollution or soil erosion, notice may be served on the owner of the said land, requiring the immediate removal of those animals specified in the notice for a period specified in the notice."
- 21.11 "When notice has been served on a landowner in accordance with this Clause the Council may also require the land to be fully rehabilitated within 3 months of the serving of the notice."
- 21.12 "Stormwater drainage shall be contained on-site to the satisfaction and specifications of the Council. The developer of the estate shall obtain the approval of the Water Authority and the Council for drainage proposals prior to commencement of site works."

Council shall, when considering a request to obstruct or dam any part of the drainage system through a private property, have regard to the effects on the drainage system, impacts on the land and environment generally and shall consult with any agency deemed necessary prior to determining whether to approve the request."

- 21.14 "The landowner shall be responsible for the establishment and maintenance of firebreaks to the specifications and satisfaction of the Council and any other fire prevention measures that may be required by the Council for the estate will be at the landowners cost in proportion of the landholdings to the whole of the estate."

- 21.16 "Signs, hoardings or advertisements shall not be erected without the prior written approval of the Council."
