## PART IV NON-CONFORMING USES

#### 4.1 Non-Conforming Use Rights

No provision of the Scheme shall prevent:

- (a) the continued use of any land or building for the purpose for which it was being lawfully used at the time of coming into force of the Scheme; or
- (b) the carrying out of any development thereon for which, immediately prior to that time, a permit or permits, lawfully required to authorise the development to be carried out, were duly obtained and are current.

## 4.2 Extension of Non-Conforming Use

A person shall not alter or extend a non-conforming use or erect, alter or extend a building used in conjunction with a non-conforming use without first having applied for and obtained the planning consent of the Council under the Scheme and unless in conformity with any other provisions and requirements contained in the Scheme.

#### 4.3 Change of Non-Conforming Use

Notwithstanding anything contained in the Zoning Table the Council may grant its planning consent to the change of use of any land from one non-conforming use to another use if the proposed use is, in the opinion of the Council, less detrimental to the amenity of the locality than the non-conforming use and is, in the opinion of the Council, closer to the intended uses of the zone or reserve.

## 4.4 Discontinuance of Non-Conforming Use

- 4.4.1 When a non-conforming use of any land or building has been discontinued for a period of six months or more such land or building shall not thereafter be used otherwise than in conformity with the provisions of the Scheme.
- 4.4.2 The Council may effect the discontinuance of a non-conforming use by the purchase of the affected property, or by the payment of compensation to the owner or the occupier or to both the owner and the occupier of that property, and may enter into an agreement with the owner for that purpose.

#### 4.5 Destruction of Buildings

If any building is, at the gazettal date, being used for a non-conforming use, and is subsequently destroyed or damaged to an extent of 75% or more of its value, the land on which the building is built shall not thereafter be used otherwise than in conformity with the Scheme, and the buildings shall not be repaired or rebuilt, altered or added to for the purpose of being used for a non-conforming use or in a manner or position not permitted by the Scheme.

#### PART V DEVELOPMENT REQUIREMENTS

- 5.1 Development of Land
- 5.1.1 Subject to Clause 5.1.2 a person shall not commence or carry out development of any land zoned or reserved under the Scheme without first having applied for and obtained the planning consent of the Council under the Scheme.
- 5.1.2 The planning consent of the Council is required for any development proposed within 40 metres of land classified on the Scheme Map as a 'Major Road'.
- 5.1.3 The planning consent of the Council is not required for the following development of land:
  - (a) The development of land in a local reserve, where such land is held by the Council or vested in a public authority;

  - (b) The erection of a boundary fence except as otherwise required by the Scheme;
  - (c) The erection on a lot of a single dwelling house, including ancillary outbuildings, in a zone where the proposed use is designated with the symbol 'P' in the cross-reference to that zone in the Zoning Table, except where the single dwelling house is not the first erected on the lot;
  - (d) The carrying out of any works on, in, over or under a street or road by a public authority acting pursuant to the provisions of any Act;
  - (e) The carrying out of works for the maintenance, improvement or other alteration of any building, being works which affect only the interior of the building or which do not materially affect the external appearance of the building;
  - (f) The carrying out of works urgently necessary in the public safety or for the safety or security of plant or equipment or for the maintenance of essential services.

#### 5.2 Special Design Areas

The following provisions shall apply to all land included in the area designated on the Scheme Maps as a Special Design Area in addition to any other provisions which are more generally applicable to such land under this Scheme.

Prior to considering any development proposal in a Special Design Area the Applicant will provide the Council with adequate information and drawings to;

- (a) ensure that the proposal will be compatible in scale, design and setback to the adjacent buildings.
- (b) ensure that the building materials, textures and colours are sympathetic to the appropriate existing structures in the Special Design Area.
- (c) ensure that existing facades, considered by the Council to be of architectural, historic or heritage value, are retained and enhanced.

The Council may request any additional information that it considers necessary to properly assess the proposal.

- 5.3 Development on Land Subject to Dampness or Flooding
- 5.3.1 Where, in the opinion of the Council, the dampness of the site on which a building is proposed to be constructed so warrants, the Council may require that one or all of the following measures shall be carried out;
  - (a) the subsoil shall be effectively drained;
  - (b) the surface of the ground beneath the building shall be regraded or filled and provided with adequate outlets to prevent any accumulation of water beneath the building;

## 5.4.2 Combined Uses

Where two or more uses are combined in a single development, the development shall conform to the requirements for each use respectively, or where such requirements are inappropriate, to such requirements as the Council shall determine.

<sup>(</sup>i) \* means 'to be determined by the Council' in each particular case.

<sup>(</sup>ii) Landscaping to be generally at street frontage.

- 5.5 Development of Land Subject to Non-Conforming Use Rights
- 5.5.1 Except where otherwise provided, development of non-conforming uses shall be in conformity with the provisions of the Scheme relevant to that use.   - (ii) an extension of the buildings subject to the non-conforming use by up to 20% of the floor area of the building existing at the time of gazettal of the Scheme, or by such greater proportion which the Council considers will not prejudice the objectives of this Scheme, provided always that such extension is within the limits of the setbacks in this Scheme.

#### 5.6 Discretion to Modify Development Standards

If a development, other than a residential development, the subject of an application for planning consent, does not comply with a standard or requirement prescribed by the Scheme with respect to that development the Council may, notwithstanding that non-compliance, approve the application unconditionally or subject to such conditions as the Council thinks fit.

The power conferred by this Clause may only be exercised if the Council is satisfied that:

- (a) approval of the proposed development would be consistent with the orderly and proper planning of the locality and the preservation of the amenities of the locality;
- (b) the non-compliance will not have any adverse effect upon the occupiers or users of the development or the inhabitants of the locality or upon the likely future development of the locality; and
- (c) the spirit and purpose of the requirement or standard will not be unreasonably departed from thereby.

#### 5.7 Residential Development

- (c) Any development proposed at a density greater than R10, subject to clause (b) above, will only be considered by the Council if it can be proven that an effective method of effluent disposal, satisfactory to the Council's requirements, can be provided. If this cannot be provided, development of residential use shall be permitted to the R10 code.
- (d) Notwithstanding the right to develop a single house on an existing lot, residential development in the 'Rural/Mining' Zone shall comply with the specific requirements of the Council, however these shall not be lesser than those specified for the Residential Planning Code 'R2'.
- 5.8 Development on Land Abutting a Residential Zone
