TOWN PLANNING AND DEVELOPMENT ACT 1928
APPROVED TOWN PLANNING SCHEME AMENDMENT

Shire of Manjimup

Town Planning Scheme No. 2—Amendment No. 47

Ref: 853/6/14/20. Pt. 47.

It is hereby notified for public information, in accordance with Section 7 of the Town Planning and Development Act 1928 that the Hon. Minister for Planning approved the Shire of Manjimup Town Planning Scheme Amendment on July 3, 1994 for the purpose of:

1. Deleting Clause 5.2.9 (iii) and adding a new clause to read:—

“ (iii) Provisions Relating to Special Rural Zones

1. If a plan of subdivision indicating building envelopes, tree preservation areas and other management requirements for a special rural area has not been produced when the land is rezoned, a suitable plan is to be prepared and submitted to Council and the State Planning Commission as part of any application for subdivision. Upon being satisfied that the plan fulfils planning objectives, Council will endorse the plan and use it to assist implementation of development and management provisions.
2. Notwithstanding the provisions of the Scheme and what may be shown on a plan of subdivision adopted by Council, the State Planning Commission may, after consultation with the Council, approve a minor variation to a subdivision design but further breakdown of lots so created will be deemed to be contrary to the provisions of the Scheme.

Land Use and Development

3. In addition to a building permit Council Planning Approval is required for all development including a dwelling house and outbuildings.
4. Not more than one dwelling may be constructed or occupied on a lot within a Special Rural Zone.
5. In addition to any other general Scheme provision, land included in a Special Rural Zone will be subject to any provision set out against it in Appendix 1 of the Scheme.
6. Within a Special Rural Zone building setbacks from lot boundaries shall be a minimum of:—
 - a. from a road boundary—20 metres
 - b. from other boundaries—15 metres
7. No building, outbuilding or fence shall be constructed of materials or be of a colour which in the opinion of Council is detrimental to the character or natural landscape of the locality.
8. All buildings constructed shall by virtue of materials and design be reasonably fire resistant. The Council may from time to time specify standards for fire resistant buildings.
9. No soil, rock or gravel reasonably suspected of being affected by plant disease and no declared plant or animal shall be introduced into the Special Rural zone.
10. Fencing design and materials are to be to Council's satisfaction. Council shall not approve fibro cement or similar materials which are considered to be inconsistent with the Rural character of the area.
11. Council may take any action which it considers necessary to reduce or eliminate any adverse effects on the environment caused solely or partly by the stocking of animals or by other development on a lot and any expense in this regard which may be incurred by Council, shall be recoverable from the registered owner of the land.
12. The keeping of livestock will not be permitted unless the applicant can demonstrate to Council that the animals are correctly yarded and lots will be managed to ensure that the soil and vegetation are not denuded. In considering any request to keep animals, the recommendations of the Department of Agriculture may be sought.
13. Within any Stream Protection Area identified on a Plan of subdivision, the following provisions are to apply to an area with the minimum width of 10 metres, measured outwards from the top of both banks of the water courses:—
 - (a) No new dams, artificial retention of flow, pumping, diversion of water or modification of stream course, bed or banks without a Water Authority of Western Australia approval.
 - (b) The activities of stock to be controlled such that the problems of erosion, pollution and vegetation degradation do not occur.

- (c) No spray (pesticide/herbicide), non cultivation and non nitrogenous fertiliser application buffer of 50 metres from the water course, shall be established on all land within the amendment areas. The no spray requirements will not preclude carrying out of noxious weed control in accordance with the Agricultural Protection Board requirements.

Building Envelopes

14. A building envelope for a lot shall be defined so as to attain the maximum flexibility for the location of buildings, but subject to:—
- avoidance of significant landscape elements
 - avoidance of areas where ground or soil conditions may prejudice the structural integrity of buildings or result in potential for pollution, erosion or flooding
 - the envelope containing an effluent disposal area in accordance with the provisions of the Scheme
 - conforming to the building setback requirements of the Scheme
15. Building and development except for fences and firebreaks must be contained within the building envelope defined on a plan adopted by Council for the zone.
16. Council may at its discretion approve the relocation of a building envelope, or construction of a building outside the building envelope if it is satisfied that the amenity of the area, the privacy of adjoining properties and the landscape or environment of the area will not be detrimentally affected.

Services

17. The area for the disposal of effluent shall be sited so as to be no closer to a stream line or water body than a distance of 30 metres, and where soil types are assessed as having unsuitable absorption ability the minimum distance will be 100 metres. Generally, unsuitable soil types or landforms will be deep light sands, or subject to water logging or with a shallow water table.
18. The minimum vertical clearance between the bottom of any approved onsite effluent disposal system and the highest known ground water table or bedrock shall be 1.2 metres and where soil types are assessed as having unsuitable absorption capacity the minimum vertical clearance shall be 2 metres.
19. No dwelling house shall be constructed unless a domestic water supply consisting of at least an adequate roof catchment area, and a water storage tank of not less than ninety two thousand (92,000) litres is incorporated in the plans and specifications of the building and constructed at the same time as the building provided that the Shire may relax this requirement if it is satisfied that there is an adequate natural supply of potable water available on the site or reticulated water is available.

Tree Preservation and Landscape Enhancement

20. Within any Special Rural zone no indigenous tree or substantial vegetation may be felled or removed unless with the approval of Council, except:
- trees which are dead, diseased or dangerous
 - for the purpose of a firebreak required by a regulation or by-law, or for bush fire fuel reduction purposes.
 - for the purpose of any approved development works.
21. Where land in a proposed Special Rural Zone is considered by Council to be deficient in tree cover and that such deficiency would upon development result in loss of landscape values, Council may require that the planting and maintenance for a period of two years of additional trees. Additional planting may be required as a special provision at the time of rezoning or as a condition of subdivision or Planning Approval.

Fire Control

22. Within a fuel reduction area identified on a Subdivision Guide Plan all substantial vegetation capable of creating a fire hazard will be removed to the satisfaction of Council, the Bushfires Board and the Department of CALM.
23. Within an area identified on a subdivision guide plan as subject to parkland clearing, the density of substantial vegetation will be reduced to a level satisfactory to Council, the Bushfires Board and CALM.
24. Ongoing management of strategic firebreaks, fuel reduction areas, areas subject to parkland clearing and other fire control measures required by the Bushfire Act is the responsibility of individual lot owners.
25. The Council shall require all landowners to minimise the amount of inflammable materials on their land and clear all inflammable materials save for live-standing trees within a twenty metre radius around all buildings.
26. Strategic firebreaks identified on a plan of subdivision shall be developed and maintained in accordance with the Fire Management Plan.

27. The Council can direct a landowner to clear all inflammable material from his land where it constitutes a fire hazard and should the landowner not do so within a reasonable period, the Council is empowered to carry out that work and any expense in this regard which may be incurred by Council shall be recoverable from the registered owner of the land.

Advice to Lot Owners

28. The subdivider shall make arrangements to the satisfaction of the Local Authority to ensure prospective purchasers and successors on title are advised of the general and special provisions which apply to the Special Rural zone and such other provisions of the Scheme that may affect it.
2. Delete the word "limited" contained in Clause 5.2.9 (i) of the Scheme text.

TOWN PLANNING AND DEVELOPMENT ACT 1928
APPROVED TOWN PLANNING SCHEME AMENDMENT
Shire of Serpentine-Jarrahdale

Town Planning Scheme No. 2—Amendment No. 26

Ref: 853/2/29/3, Pt. 26.

It is hereby notified for public information, in accordance with section 7 of the Town Planning and Development Act 1928 that the Hon Minister for Planning approved the Shire of Serpentine-Jarrahdale Town Planning Scheme Amendment on July 2, 1994 for the purpose of—

1. Rezoning Serpentine Agricultural Area portion of Lot 40 Abernethy Road, Byford, from "Rural Zone" to "Special Residential Zone" and "Public Open Space".
2. Amending the Guide Plan pertaining to Amendment No. 20.
3. Inserting in Appendix 3 of the Scheme Text Special provisions Series 6 as follows—

Description of Land

Portion of Lot 40 Abernethy Road, Byford, on Certificate of Title Volume 1801 Folio 673

Special Provisions

- 6.1 Notwithstanding the provisions of Table 1—Zoning Table, Caretaker's Dwelling shall be an "IP" use.
- 6.2 Every application for a building licence shall be accompanied with a certificate from a suitably qualified engineer advising that:
 - (a) assessment of the ground on which the structure is to be erected has been carried out; and
 - (b) foundation design for the structure is adequate.
- 6.3 Stables shall be constructed in accordance with Council's Health and Building By-laws and Policies and shall be registered with Council.

Description of Land

Special Provisions

- 6.4 Every lot shall have a manure bin made from an impermeable material.
- 6.5 A reticulated water supply from the Water Authority of Western Australia's network shall be provided to each lot.
- 6.6 On-site effluent disposal systems servicing development on the lots shall be to the specifications and satisfaction of both the Local Authority and the Environmental Protection Authority. The use of "non standard" effluent disposal systems may be required and in any event the following requirements shall be satisfied:
- (i) A 2 metre separation is achieved between the base of the leach drain and the highest recorded groundwater level; and
 - (ii) At least a 100 metre horizontal separation is achieved between the disposal system and existing drains, water courses or water bodies; and
 - (iii) The area around each effluent disposal system shall be planted with indigenous trees and shrubs by the landowner and be maintained to the satisfaction of the Local Authority; and
 - (iv) Prevention of direct movement of wastewater and nutrient from the locality of each disposal area.
- 6.7 The land is situated within the Serpentine Groundwater Area and a well licence for a bore must obtained from the Water Authority of Western Australia. The siting of bores shall be to the requirements of the Authority having regard to the location of any effluent disposal systems, water bodies, drains and neighbouring bores.
- 6.8 The drainage system shall not be altered without the prior approval of the Council. Council shall, when considering a request to obstruct or dam any part of the drainage system through a private property, have regard to the effects on the drainage system, impacts on the land and environment generally and shall consult with any agency deemed necessary prior to approving the request.
- 6.9 The landowner shall be responsible for the establishment and maintenance of fire-breaks to the specifications and satisfaction of the Council and any other fire prevention measures that may be required by the Council for the estate will be at the landowner's cost in proportion of the land-holdings to the whole of the estate.
- 6.10 Stormwater shall be contained on-site to the satisfaction and specifications of the Council who shall have regard to the recommendations of the Environmental Protection Authority. The developer of the estate shall obtain the approval of the Water Authority and the Council for drainage proposals prior to commencement of site works.

Description of Land

Special Provisions

- 6.11 No indigenous vegetation and trees shall be destroyed or cleared except, but subject to the developer of the estate/landowner obtaining the prior consent in writing of the Council where such vegetation and trees are dead, diseased or where the clearing is required for the purpose of a firebreak, dwelling, outbuilding, fence and/or house driveways.
- 6.12 The developer of the estate shall within the "Tree Planting Area" depicted on the Subdivisional Guide Plan, plant indigenous and native trees and shrubs of a species and at a density and distribution to be determined by the Council following consultation with the Environmental Protection Authority. Tree planting shall occur and be undertaken to the satisfaction of the Council prior to the endorsement by the State Planning Commission of Diagrams of Survey to create the lots depicted on the Subdivisional Guide Plan.
- 6.13 The developer of the estate shall maintain the trees and shrubs planted within the "Tree Planting Area" and vegetation retained on each lot to the satisfaction of the Council until the land as a whole or in lots is sold. Thereafter the new landowner(s) shall be responsible for the maintenance and replacement (if and where necessary) of those trees and shrubs planted by the developer and vegetation retained on each lot to the satisfaction of the Council.
- 6.14 Within this estate land uses other than a single residence, that are permitted or may be permitted by the Council pursuant to the Scheme shall only be permitted when the Council is satisfied following consultation with the Environmental Protection Authority that the land use does not involve excessive nutrient application or the clearing of the land.
- 6.15 Notwithstanding Clause 5.8.6 (b) of the Scheme Text any residence and all other outbuildings shall be constructed within the Building Envelope shown on the Subdivision Guide Plan.
- 6.16 The keeping of horses, sheep, goats and other grazing animals shall be subject to the prior approval of the Council and these animals shall be restricted to the area within the Building Envelope. Approval to keep animals shall not exceed the stocking rates recommended by the Department of Agriculture for the applicable pasture type.

Description of Land

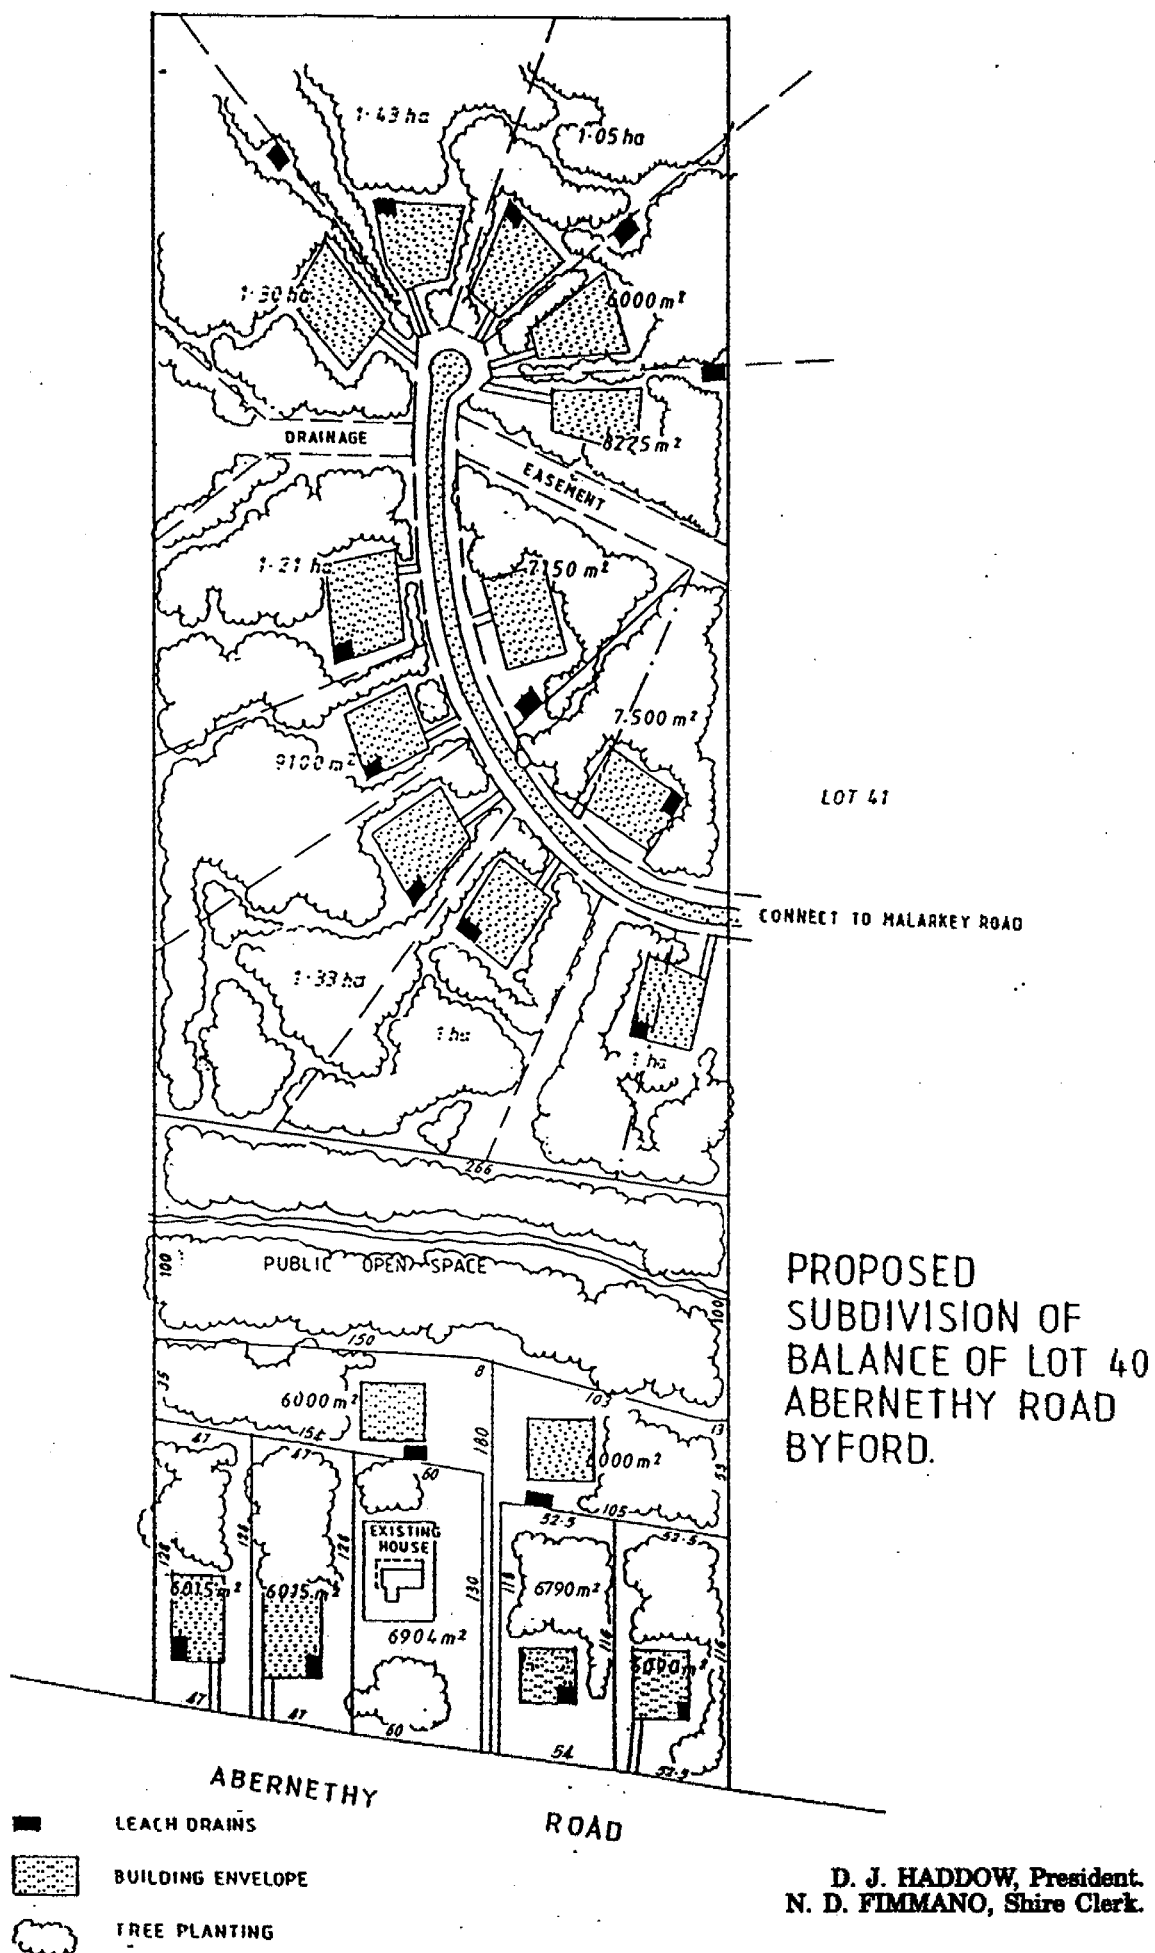

Special Provisions

Council may approve the grazing of animals outside of the Building Envelope provided that the Council is satisfied that nutrient input to the land can be controlled to the satisfaction of the Environmental Protection Authority and that such will not result in the removal or damage of the vegetation and trees or result in soil erosion and dust pollution. As a condition of approval the Council may require the animals to be stabled or corralled.

Where in the opinion of the Council the continued presence of animals on any portion of land in the estate is likely to contribute, or is contributing to dust pollution or soil erosion, notice may be served on the owner of the said land, requiring the immediate removal of those animals specified in the notice for a period specified in the notice.

When notice has been served on a landowner in accordance with this Clause the Council may also require the land to be fully rehabilitated within 3 months of the serving of the notice.

- 6.17 At the time of building application for each lot a plan of the site shall be submitted by the applicant to the satisfaction of the Council which shall show site contours, existing trees and stands of vegetation, those trees and vegetation to be removed and retained and proposals for tree planting and maintenance.
- 6.18 With the intention of preserving the existing natural vegetation and mature trees and preventing land use practices detrimental to the amenity of the locality, the approval of the Council is required for any intensive agricultural pursuit. The Council will have regard to limits on stocking, the limited groundwater resources, tree and vegetation preservation and the effects on the environment of the locality and residents of the estate when considering the application and may, should approval be granted, impose such conditions as the Council deems fit and may modify or vary such conditions to take account of seasonal changes.
- 6.19 The land is situated within the catchment of the Peel-Harvey system where nutrient control through fertiliser application is to be promoted. Therefore the application, type and distribution of fertiliser to the land shall be subject to the prior approval of the Council who shall consult with the Environmental Protection Authority before any approval is granted.
- 6.20 As part of the reticulated water supply system the developer shall provide at his expense below ground fire hydrants which shall be to the specifications and satisfaction of the Western Australian Fire Brigade.

TOWN PLANNING AND DEVELOPMENT ACT 1928
APPROVED TOWN PLANNING SCHEME AMENDMENT

Shire of Serpentine-Jarrahdale

Town Planning Scheme No. 2—Amendment No. 35

Ref: 853/2/29/3. Pt. 35.

It is hereby notified for public information, in accordance with Section 7 of the Town Planning and Development Act 1928 that the Hon. Minister for Planning approved the Shire of Serpentine-Jarrahdale Town Planning Scheme Amendment on July 2, 1994 for the purpose of:

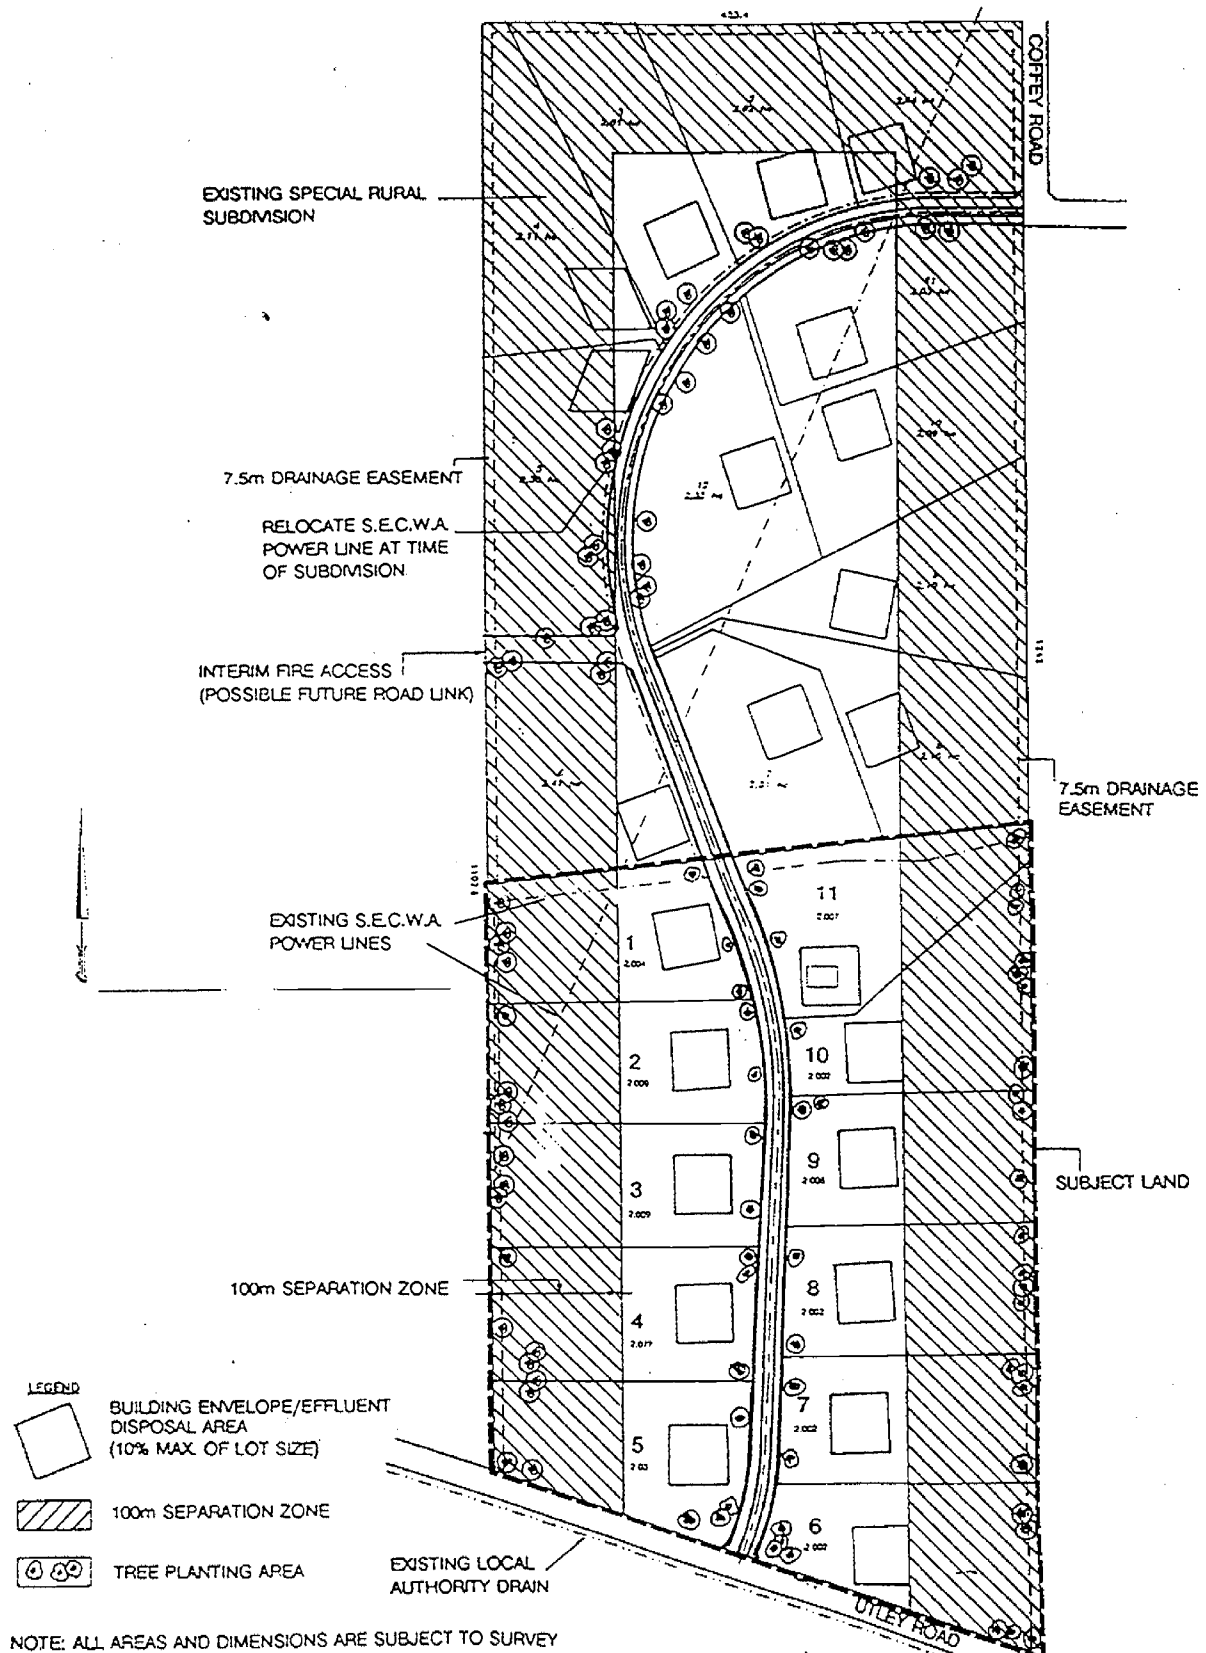

- (1) Amending the Scheme Map by rezoning southern portion of Lot 825 Utley Road, Serpentine from "Rural" to "Special Rural".
- (2) Adding a new Clause to Appendix 4 of the Scheme Text as follows:

APPENDIX 4 **Special Rural Zone**
Provisions relating to Specific Areas (continued)

No. 25 "Utley Road, Serpentine" southern portion of Lot 825 as delineated on the Scheme Map.

- 25.1 The minimum lot size shall be two hectares.
- 25.2 No indigenous vegetation and trees shall be destroyed or cleared except, but subject to the developer obtaining the prior consent in writing of the Council, where such vegetation and trees are dead, diseased or where the clearing is required for the purpose of a firebreak, dwelling, outbuilding, fence and/or house driveways.
- 25.3 On-site effluent disposal systems servicing development on the lots shall be to the specifications and satisfaction of the Council. The use of "non-standard" effluent disposal systems may be required and in any event the following requirements shall be satisfied:
 - (i) A 2 metre separation is achieved between the base of the leach drain and the highest recorded groundwater level or bedrock;
 - (ii) At least a 100 metre horizontal separation is achieved between the disposal system and existing/proposed drains, water courses and/or water body;
 - (iii) The area around each effluent disposal system shall be planted with indigenous trees and shrubs by the landowners and be maintained to the satisfaction of the Local Authority;
 - (iv) Prevention of direct movement of wastewater and nutrient from the locality of each disposal area; and
 - (v) If necessary, soil amendment around and under each disposal area.
- 25.4 The developer of the estate shall within the "Tree Planting Area" depicted on the Subdivisional Guide Plan, plant indigenous and native trees and shrubs of a species and at a density and distribution to be determined by the Council following consultation with the Environmental Protection Authority. Tree planting shall occur and be undertaken to the satisfaction of the Council prior to the endorsement by the State Planning Commission of Diagrams of Survey to create the lots depicted on the Subdivisional Guide Plan.
- 25.5 The developer of the estate shall maintain the trees and shrubs planted within the "Tree Planting Area" and vegetation to be retained on each lot to the satisfaction of the Council until the land as a whole or in lots is sold. Thereafter the new landowner(s) shall be responsible for the maintenance and the replacement (if and where necessary) of those trees and shrubs planted by the developer and vegetation retained on each lot to the satisfaction of the Council.
- 25.6 Within this Special Rural estate land uses other than a single residence, that are permitted or may be permitted by the Council pursuant to the Scheme shall only be permitted when the Council is satisfied following consultation with the Environmental Protection Authority that the land use does not involve excessive nutrient application or the clearing of the land.
- 25.7 Notwithstanding Clause 5.9.6 (b) of the Scheme any residence and all other outbuildings shall only be constructed within the Building Envelope shown on the Subdivisional Guide Plan.
- 25.8 Signs, hoardings or advertisements shall not be erected without the prior written approval of the Council.

- 25.9 At the time of the building application for each lot a plan of the site shall be submitted by the applicant to the satisfaction and specifications of the Council which shall show site contours, existing trees and stands of vegetation, those trees and vegetation to be removed and retained and proposals for tree planting and maintenance.
- 25.10 The keeping of horses, sheep, goats and other grazing animals shall be subject to the prior approval of the Council and these animals shall be restricted to the area within the Building Envelope. Approval to keep animals shall not exceed the stocking rates recommended by the Department of Agriculture for the applicable pasture types.
- Council may approve the grazing of animals outside of the Building Envelope provided that the Council is satisfied that nutrient input to the land can be controlled to the satisfaction of the Environmental Protection Authority and that such will not result in the removal or damage of the vegetation and trees or result in soil erosion and dust pollution. As a condition of approval the Council may require the animals to be stabled or corralled.
- Where in the opinion of the Council the continued presence of animals on any portion of land in the estate is likely to contribute, or is contributing to the dust pollution or soil erosion, notice may be served on the owner of the said land, requiring the immediate removal of those animals specified in the notice for a period specified in the notice.
- When notice has been served on a landowner in accordance with this Clause the Council may also require the land to be fully rehabilitated within 3 months of the serving of the notice.
- 25.11 Stormwater drainage shall be contained on-site to the satisfaction and specifications of the Council who shall have regard to the recommendations of the Environmental Protection Authority. The developer of the estate shall obtain the approval of the Water Authority and the Council for drainage proposals prior to commencement of site works.
- 25.12 The drainage system shall not be altered without the prior approval of the Council. Council shall, when considering a request to obstruct or dam any part of the drainage system through a private property, have regard to the effects on the drainage system, impacts on the land and environment generally and shall consult with any agency deemed necessary prior to determining whether to approve the request.
- 25.13 The landowner shall be responsible for the establishment and maintenance of firebreaks, in accordance with Council's standard firebreak requirements, and any other fire prevention measures that may be required by the Council for the estate will be at the landowners cost in proportion of the landholdings to the whole of the estate.
- 25.14 With the intention of preserving the existing natural vegetation and mature trees and preventing land use practices detrimental to the amenity of the locality, the approval of the Council is required for any intensive agricultural pursuit. The Council will have regard to limits on stocking, the limited groundwater resources, tree and vegetation preservation and the effects on the environment of the locality and residents of the estate when considering the application and may, should approval be granted, impose any conditions the Council deems fit and may modify or vary such conditions to take account of seasonal changes.
- 25.15 The land is situated within the catchment of the Peel-Harvey Estuarine system where nutrient control through conservation based fertiliser application is to be promoted. Therefore the application, type and distribution of fertiliser to the land shall be subject to the prior approval of the Council who shall consult the Environmental Protection Authority and Department of Agriculture before approval is granted.
- 25.16 The land is situated within the Serpentine Groundwater Area and a well licence for a bore must be obtained from the Water Authority of Western Australia. The siting of bores shall be to the requirements of the Authority having regard to the location of any effluent disposal systems, water bodies, drains and neighbouring bores. The licence will contain a number of conditions including the quantity of water that can be pumped each year. Under current management guidelines 1500 kilolitres per year is allocated. The allocation of 1500 kilolitres if efficiently used is sufficient for domestic use and the irrigation of up to 0.1 hectares.
- 25.17 The design should not preclude the requirement to contain a 1:100 year (1%) flood. Development of land fill on each lot shall, therefore have an area of not less than 2 000m² for a house and curtilage, with a minimum land level of not less than the accepted 1% probability flood level for that land.
- 25.18 The developer shall carry out a site investigation to determine the geotechnical properties of the soils. Such information shall form the basis of the design of the roads, drainage systems and site filling. A copy of the site investigation shall be lodged with Council prior to or at the same time as drawings are submitted for approval.
- 25.19 All ATU/Ecomax systems only, and amended soils as necessary as determined by the Principal Environmental Health Officer by inspection.
