The Owner/Tenant shall be responsible for the construction and maintenance of stock proof fencing to protect native vegetation, and revegetation. Animal numbers shall not exceed the stocking rates recommended by the Department of Agriculture. Calculation of stocking rates shall be based on the internal dimensions of the fenced stock holding area. The keeping of animals shall not result in the removal or damage of revegetation and trees or result in soil degradation and dust pollution.

- 4.3 Where in the opinion of Council, the continued presence of animals on any portion of land is likely to contribute, or is contributing to the removal or damage of revegetation and trees, dust pollution or soil degradation, notice may be served on the owner of the said land, requiring immediate removal of those animals specified in the notice for a period specified in the notice.

When notice has been served on a landowner in accordance with this Clause the Council may also require the land to be fully rehabilitated within 3 months of serving the notice.

- 7.3 Council's support for the subdivision of stages two and three shall be subject to the implementation of the approved revegetation plan, to Council's satisfaction, for the whole of Special Rural Zone Area 11.

8.0 Water Supply

- 8.1 Potable water supplies shall be developed to the standards of Council, the Health Department of WA and the Water Authority of WA.

9.0 Effluent Disposal

- 9.1 On-site effluent disposal shall be the responsibility of the individual landowners. The disposal of liquid and/or solid wastes shall be carried out with an effluent disposal system approved by Council and the Department of Health. Systems shall be designed and located to minimise nutrient export and/or release into any waterway or groundwater.
- 9.2 Council shall require the use of amended soil type effluent disposal systems, such as Eco max/ATU's in the following situations
- where a 100 metre setback from a creek line or water course cannot be achieved;

- 10.5 Council may request the Commission to impose a condition at the subdivision stage for a contribution towards the provision of fire fighting facilities in the locality.
- 10.6 The subdivider shall make arrangements to the satisfaction of Council to ensure prospective purchasers, in the transfer of lots, are aware of the fire management guidelines of the Home owners Bushfire Survival Manual and AS 3959-1991 'Construction of Buildings in Bushfire Prone Areas'.
