**NATURE OF ACT:** The compulsory taking of the land to grant estates, interests and rights under written law for the purpose specified in the Schedule (and ancillary purposes).

**COMMENCEMENT OF ACT:** The taking of the land is subject to the procedural requirements of Part 2, Division 3, Subdivision B of the Native Title Act 1993 (Commonwealth) and section 17(2) of the Land Acquisition and Public Works Act. The taking of the land will proceed if—

- (1) there is no "native title party" (as defined by the Native Title Act) in relation to the taking of the land or, if there is a native title party, the taking may validly proceed under the Native Title Act ; and
- (2) the Minister for Works decides to proceed with the taking upon completion of the procedures provided by section 17 (2) of the Land Acquisition and Public Works Act.

**Native title parties—**Any person who is a native title party in relation to the taking of the land or who becomes a native title party within two months of when notice of intention to take the land is given, is entitled to the negotiation and procedural rights provided in Part 2, Division 3, Subdivision B of the Native Title Act.

The two months within which persons must become a native title party will close on 7 August 1996.

The expression "native title party" is defined in sections 29, 30 and 253 of the Native Title Act. Enquiries regarding becoming a native title party should be directed to the National Native Title Tribunal, 1 Victoria Avenue, Perth, or GPO Box 9973, Perth WA 6001, telephone (09) 268 7272.

**Other interest holders—**Persons having or claiming other interests in any of the land may under section 17(2) of the Land Acquisition and Public Works Act, lodge an objection in writing to the proposed taking with the Department of Land Administration, PO Box 2222, Midland, no later than 7 August 1996. Objections must be in the Form of Objection, copies of which are available from the Department of Land Administration telephone (09) 273 7089 or (09) 273 7293.

**TIME DURING WHICH THE ACT WILL CONTINUE TO BE DONE—**Following the taking of the land estates in fee simple, conditional purchase leases, licenses to occupy, leasehold estates for periods of up to 99 years and leases in perpetuity will be granted in relation to the land either by public auction, invitation of applications or tenders, private treaty or some other process.

**KIND OF DISTURBANCE TO LAND—**Disturbance to the land may thereafter be caused by the use and/or construction on the land consistent with the purpose(s) specified in the Schedule by the persons receiving the grants.

Enquiries relating to the proposed taking of the land may be directed to the Native Title Unit, Department of Land Administration, PO Box 2222, Midland 6056 (telephone (09) 273 7089 or (09) 273 7217).

Dated this 27th day of May 1996.

GRAHAM KIERATH, Minister for Lands.

**APPROVED TOWN PLANNING SCHEME AMENDMENT**

*Shire of Serpentine-Jarrahdale*

Town Planning Scheme No. 2—Amendment No. 18

Ref: 853/2/29/3, Pt. 18.

It is hereby notified for public information, in accordance with Section 7 of the Town Planning and Development Act, 1928 (as amended) that the Hon Minister for Planning approved the Shire of Serpentine-Jarrahdale Town Planning Scheme Amendment on May 26, 1996 for the purpose of—

- (1) Amending the Scheme Map by rezoning Lots 175, 176 and 180 and portion Lot 3 on the corner of Kargotich Road and Rowley Roads, Oakford, from "Rural" to "Special Rural"
- (2) Providing a Subdivision Guide Plan endorsed by the Shire Clerk as proof of this Amendment
- (3) Adding a new Clause to Appendix 4 of the Scheme Text as follows—

APPENDIX 4 Special Rural Zone

Provisions relating to Specific Areas (continued)

No. 19 Lots 175, 176 and 180 and portion Lot 3 on the corner of Kargotich and Rowley Roads, Oakford

- 19.1 The Council will not recommend lot sizes of less than 2 hectares.
- 19.2 No indigenous vegetation and trees shall be destroyed or cleared except, but subject to the developer obtaining the prior consent in writing of the Council, where such vegetation and trees are dead, diseased or where the clearing is required, for the purpose of a firebreak, dwelling, outbuilding, fence and/or house driveways.
- 19.3 On-site effluent disposal systems servicing development on the lots shall be to the specifications and satisfaction of the Council. The use of "non-standard" effluent disposal systems may be required and in any event the following requirements may need to be satisfied depending on the system to be used—
  - (i) A 2 metre separation is achieved between the base of the leach drain and the highest recorded groundwater level or bedrock;
  - (ii) at least a 100 metre horizontal separation is achieved between the disposal system and existing/proposed drains, water course and/or water body;
  - (iii) the area around each effluent disposal system shall be planted with indigenous trees and shrubs by the landowners and be maintained to the satisfaction of the Local Authority; and
  - (iv) prevention of direct movement of waste water and nutrient from the locality of each disposal area.
- 19.4 The developer of the estate shall within the "Tree Planting Area" depicted on the Subdivisional Guide Plan, plant indigenous and native trees and shrubs of a species and at a density and distribution to be determined by the Council following consultation with the Department of Environmental Protection. Tree planting shall occur and be undertaken to the satisfaction of the Council prior to the transfer of lot(s) to a new owner.
- 19.5 The developer of the estate shall maintain the trees and shrubs planted within the "Tree Planting Area" and vegetation to be retained on each lot to the satisfaction of Council until the land as a whole or in lots is sold. Thereafter the new landowner(s) shall be responsible for the maintenance and replacement (if and where necessary) of those trees and shrubs planted by the developer and vegetation retained on each lot to the satisfaction of the Council.
- 19.6 Within this Special Rural estate land uses other than a single residence, that are permitted or may be permitted by the Council pursuant to the Scheme shall only be permitted when the Council is satisfied following consultation with the Department of Environmental Protection that the land use does not involve excessive nutrient application or the clearing of the land.
- 19.7 A building envelope with an area not exceeding 2,000m<sup>2</sup> shall be defined in a position to be agreed by the Council in locations as generally depicted on the Subdivision Guide Plan and no building envelope shall be closer than 20 metres to the primary street boundary or Western Power Transmission Line Easement  
 Notwithstanding Clause 5.9.6(b) of the Scheme any residence and all other outbuildings shall only be constructed within the approved Building Envelope.
- 19.8 At the time of the building application for each lot a plan of the site shall be submitted by the applicant to the satisfaction and specifications of the Council which shall show site contours, existing trees and stands of vegetation, those trees and vegetation to be removed and retained and proposals for tree planting and maintenance.
- 19.9 The keeping of horses, sheep, goats and other grazing animals shall be subject to the prior approval of Council and these animals shall be restricted to the area within the Building Envelope. Approval to keep animals shall not exceed the stocking rates recommended by the Department of Agriculture for the applicable pasture types.

Council may approve the grazing of animals outside the Building Envelope provided that the Council is satisfied that nutrient input to the land can be controlled to the satisfaction of the Department of Environmental Protection and that such will not result in the removal or damage of the vegetation and trees or result in soil erosion and dust pollution.

As a condition of approval the Council may require the animals to be stabled or corralled.

Where in the opinion of the Council the continued presence of animals of any portion of land in the estate is likely to contribute, or is contributing to the dust pollution or soil erosion, notice may be served on the owner of the said land, requiring the immediate removal of those animals specified in the notice for a period specified in the notice.

When notice has been served on a landowner in accordance with this Clause the Council may also require the land to be fully rehabilitated within 3 months of serving of the notice.

19.10 Stormwater drainage shall be contained on-site to the satisfaction and specifications of the Council who shall have regard to the recommendations of the Department of Environmental Protection. The subdivider of the estate shall obtain the approval of the Water Authority and the Council for drainage proposals prior to commencement of site works.

19.11 The drainage systems shall not be altered without the prior approval of Council.

The drainage design should not preclude the requirements to contain a 1:100 year (1%) flood. Development of land fill on each lot shall, therefore have an area of not less than 2 000m<sup>2</sup> for a house and curtilage, with a minimum land level of not less than the accepted 1% probability flood level for that land.

Council shall when considering a request to obstruct or dam any part of the drainage system through a private property, have regard to the effects of the drainage system, impacts on the land and environment generally and shall consult with any agency deemed necessary prior to determining whether to approve the request.

19.12 The subdivider shall prepare and implement a Fire Management Plan that identifies the need for and the construction requirements relative to strategic firebreaks, water supplies and equipment and any other fire management requirements that may be deemed necessary, to the specification and satisfaction of the local authority and the Bush Fire Board of WA.

19.13 With the intention of preserving the existing natural vegetation and mature trees and preventing land use practices detrimental to the amenity of the locality, the approval of the Council is required for any intensive agricultural pursuit. The Council will have regard to limits on stocking, the limited groundwater resources, trees and vegetation preservation and the effects on the environment of the locality and residents of the estate when considering the application and may, should approval be granted, impose any conditions the Council deems fit.

19.14 The developer shall carry out a site investigation to determine the geotechnical properties of the soils. Such informations shall form the basis of the design of the roads, drainage systems and site filling. A copy of the site investigation shall be lodged with Council prior to, or at the same time as construction drawings are submitted for approval.

19.15 Construction and specification of Bridle Paths and Public Access Way including bollards and gates to be to the satisfaction of Council.

D. J. HADDOW, President.  
N. D. FIMMANO, Shire Clerk.

In 1989 the Legislative Assembly formed a Select Committee to review the issue of establishing a 'Right to Farm' in Western Australia. In its final report the committee reported under six Terms of Reference.

These included:

- the necessity for legislation;
- the need for codes of practice;
- the need for farmers to be indemnified against nuisance actions;
- the effect on local government planning;
- the definition of "agricultural operation"; and
- the need for compensation.
