LG601**BUSH FIRES ACT 1954***Shire of Kalamunda***NOTICE TO OWNERS/OCCUPIERS OF LAND**

In the interests of minimising fire hazards and protecting all Shire residents, landowners are required before 30 November 1996 to remove all inflammable material, or to clear firebreaks as detailed in the following and to maintain the land or the firebreaks clear of inflammable material up to and including 31 March 1997.

Following are details of fire prevention measures required before 30 November 1996 or within 14 (fourteen) days of the date of your becoming the owner or occupier, should this be after 15 November 1996.

1. On Townsite Land or Land Subdivided for Residential Purposes
Clear firebreaks at least three metres wide immediately inside all external boundaries of the land, and also immediately surrounding all buildings situated on the land. Keep gardens free of unnecessary leaves and rubbish, and lop any trees that can endanger your house in the event of a fire.
2. Rural/Special Rural Land
Clear firebreaks at least three metres wide, immediately inside all external boundaries of the land, and within thirty metres of the perimeter of any hay stack, building or group of buildings so as to completely surround such haystacks, buildings or group of buildings.
3. Fuel Dumps and Depots
Removal of all inflammable material from all land where fuel drum ramps or dumps are located, and where fuel drums, whether containing fuel or not, are stored to a distance of at least five metres outside the perimeter of any drum, ramp or stack of drums.

If it is considered to be impracticable for any reason to clear firebreaks or to remove inflammable material from land as required by this notice, you may apply to the Council in writing on or before November 1996 for permission to provide firebreaks in alternative positions, or to take alternative action to abate fire hazards on the land.

The firebreaks Inspection Officers will commence inspection of firebreaks and fire hazards early in the season, and will provide advice on potential fire hazards and suggested remedial measures.

Although the Bush Fires Act does specify penalties for not taking appropriate fire prevention action, the need for all residents to protect not only their own home and possessions but also those of neighbours and other Shire residents should be the overriding concern.

If fire prevention measures are carried out by burning, such burning must be in accordance with the relevant provisions of the Bush Fires Act which includes the necessity for permits to burn during the restricted burning season.

Council staff are available to provide advice and further information on requirements, and the various passive and active measures that may be taken to minimise the fire risk of living in the Hills environment.

DAVID VAUGHAN, Chief Executive Officer.
