PUBLISHED BY AUTHORITY JOHN A. STRIJK, GOVERNMENT PRINTER AT 3.30 PM

## PUBLISHING DETAILS

The Western Australian *Government Gazette* is published by State Law Publisher for the State of Western Australia on Tuesday and Friday of each week unless disrupted by Public Holidays or unforeseen circumstances (changes to this arrangement will be advertised beforehand on the inside cover).

Special *Government Gazettes* and Extraordinary *Government Gazettes* are published periodically, all gazettes are included in the subscription price.

The following guidelines should be followed to ensure publication in the *Government Gazette*.

- Material submitted to the Executive Council and which requires gazettal will require a copy of the signed Executive Council Minute Paper and in some cases the Parliamentary Counsel's Certificate.
- Copy should be received by the Manager (Sales and Editorial), State Law Publisher no later than 12 noon on Wednesday (Friday edition) or 12 noon on Friday (Tuesday edition).
- Lengthy or complicated notices should be forwarded several days before advertised closing date for copy. This is to ensure inclusion in current edition. Failure to observe this request could result in the notice being held over until the following edition.
- Proofs will be supplied only when requested.
- No additions or amendments to material for publication will be accepted by telephone.

Send copy to:

The Manager (Sales and Editorial),  
State Law Publisher  
Ground Floor, 10 William Street, Perth, 6000  
Telephone: 9321 7688 Fax: 9321 7536

## ADVERTISERS SHOULD NOTE:

- All Notices should be written in 'plain English'.
- Signatures (in particular) and proper names must be legible.
- All copy should be typed and double spaced.
- If it is necessary through isolation or urgency to communicate by facsimile, confirmation is not required by post. If original copy is forwarded later and published, the cost will be borne by the advertiser.
- Documents not clearly prepared and in the required format for gazettal, will be returned to the sender unpublished.
- Late copy received at State Law Publisher will be placed in the following issue irrespective of any date/s mentioned in the copy.

(Section 33)

## Notice to all Owners and Occupiers of Land

Pursuant to the powers contained in Section 33 of the Bush Fires Act 1954, you are hereby required on or before the 1st November 1997 or within fourteen days of you becoming owner or occupier of land should this be after the 1st day of November 1997 to clear firebreaks and remove inflammable material from the land owned or occupied by you as specified hereunder and to have the specified land and firebreaks clear of all inflammable material from the 1st day of November 1997 up to and including the 30th day of April 1998.

## 1. Land Outside of Townsites

- 1.1 All buildings on land which is outside townsites shall be surrounded by two firebreaks not less than two metres wide cleared of all inflammable material, the inner firebreak to be not more than twenty metres from the perimeter of the building or group of buildings and the outer firebreak not less than 200 metres from the inner firebreak.
- 1.2 To remove all inflammable material from the whole of the land between the firebreaks required in paragraph 1.1 above.

## 2. Land in Townsites

- 2.1 All land in the townsite shall have firebreaks at least three metres in width cleared of all inflammable material immediately inside and along all external boundaries of the land and where there are buildings on the land additional firebreaks three metres in width shall be cleared immediately surrounding each building.

If it is considered for any reason to be impractical to clear firebreaks or remove inflammable material as required by this notice you may apply to the Council or its duly authorised Officer not later than the 31st day of August 1997 for permission to provide firebreaks in alternative positions or take alternative action to remove or abate any fire hazard. If permission is not granted by Council or its duly authorised officer, you shall comply with the requirements of this notice.

By Order of the Council,

S. J. DECKERT, Chief Executive Officer.

---

If the requirements of this notice are carried out by burning, such burning shall comply with the relevant provisions of the Bush Fires Act. "Inflammable material" does not include green growing trees or green growing plants in gardens.

**LG502****BUSH FIRES ACT 1954***Shire of Kent***FIREBREAK ORDER**

## Notice to all Owners and/or Occupiers of Land within the Shire of Kent

Pursuant to the powers contained in Section 33 of the Bush Fires Act you are hereby required to plough, cultivate, scarify, burn or otherwise clear firebreaks on all land owned or occupied by you by 15 October 1997 and thereafter to keep these firebreaks clear of all material until 7 February 1998 (inclusive).

Firebreaks are required in locations and to the specifications as detailed below—

## 1. LAND WITHIN TOWNSITE

- (a) On land not exceeding 4050 square metres in area, all flammable material shall be removed.
- (b) On land exceeding 4050 square metres in area, a firebreak 2.5 metres wide shall be constructed inside and immediately adjoining all external boundaries.
- (c) Firebreaks 2.5 metres wide shall be constructed inside and immediately surrounding all buildings and improvements situated on the land.
- (d) Stored fuel, oil and flammable materials shall be protected from fire as prescribed in the Explosives and Dangerous Goods Act 1961 and the Flammable Liquids Regulations 1967 and which include that a firebreak 6 metres wide shall be provided immediately surrounding storage areas.

## 2. RURAL LANDS—LAND USED FOR AGRICULTURAL PURPOSES

- (a) Firebreaks of 3 metres width shall be constructed within 50 metres of, and surrounding all buildings and haystacks.

- (b) Firebreaks not less than 5.5 metres wide shall be constructed around the outside boundary of land rolled, logged, etc. for new clearing.
- (c) Stored fuel, oil and flammable materials shall be protected from fire as prescribed in the Explosives and Dangerous Goods Act 1961 and the Flammable Liquids Regulations 1967 and which include that a firebreak 6 metres wide shall be provided immediately surrounding storage areas.

### 3. GENERAL

If it is considered impractical for any reason to clear firebreaks as required by this notice, you may apply to the Council or any duly authorised officer no later than 13 October 1997 for permission to provide alternative protection measures. If permission is not granted by the Shire or duly authorised officer, you shall comply with the requirements of this notice.

### 4. PENALTY

The penalty for non-compliance with this notice is a maximum of \$1000 and notwithstanding prosecution, Council may enter on the land and carry out the requisite work at the owner/occupiers expense.

### 5. PROVISION OF FIRE APPLIANCE

Pursuant to the powers contained in Regulation 38A(4) of the Act, no person shall operate or suffer the operation of a harvesting machine in any course or fine grain crop during the period 1 November 1997 to 22 March 1998, unless they have first provided an operational firefighting appliance, having a capacity of at least 500 litres of water, situated in or adjacent to the paddock prior to the commencement of and during the said harvesting. In addition a harvester must also be equipped with a fire extinguisher.

If the requirements of this notice are to be carried out by burning, such burning must be in accordance with the relevant provisions of the Bush Fires Act.

Dated this 8th day of September 1997.

By Order of the Council,

IAN FITZGERALD, Chief Executive Officer.

## PLANNING

**PD401****TOWN PLANNING AND DEVELOPMENT ACT 1928**

## ADVERTISEMENT OF APPROVED TOWN PLANNING SCHEME AMENDMENT

*CITY OF CANNING*

## TOWN PLANNING SCHEME No. 40—AMENDMENT No. 29

Ref: 853/2/16/44, Pt 29.

It is hereby notified for public information, in accordance with Section 7 of the Town Planning and Development Act 1928, that the Hon Minister for Planning approved the City of Canning Town Planning Scheme Amendment on September 5, 1997 for the purpose of—

- (1) The deletion of paragraph 5.4.1.5 and its replacement with the following:
 

5.4.1.5 Where a site has dual coding the lower code shall prevail as the maximum permissible residential density for any land within the Residential zones unless—

  - (a) reticulated sewerage is or becomes available to any land within the zone or subject to the provisions of the Government Sewerage Policy; and
  - (b) for development of more than two dwellings the minimum development site frontage is 25 metres unless otherwise indicated on the Scheme Map of a *gazetted* Town Planning Development Scheme.
- (2) The definition of “development site frontage” to be included in Appendix 1 as follows:
 

“Development site frontage” is defined as the total continuous frontage which the development site has to public streets and may include the following:

  - frontage to adjoining open space where the open area forms an integral part of the total design.
  - frontage to Rights-of-Way as determined by Council where such ways are used to provide the primary vehicular access to one or more of the dwellings.
- (3) The deletion of Clause 5.4.2 and its replacement with the following:
 

5.4.2 Residential Design Guidelines

Where a site has dual coding Council may approve residential development at a density exceeding that applicable at the R17.5 Code if it is generally consistent with the design criteria in the Residential Design Guidelines in Appendix 7.
- (4) Deletion of existing Appendix 7—Residential Design Guidelines—and replacement with revised Appendix 7—Residential Design Guidelines—

**RESIDENTIAL DESIGN GUIDELINES****1. PURPOSE OF THE GUIDELINES**

Many of the residential areas of the City are likely to undergo a good deal of change over the next decade or so. This will occur as older housing is redeveloped, sewerage and drainage extended to previously under-serviced land, and vacant and underdeveloped sites utilised more effectively.

Inevitably urban consolidation and infill, particularly where it involves medium density housing, creates concerns about the quality of the resulting development. Existing residents, in particular, also worry about the possible effect of new and more intensive housing on their street appearance, property values, privacy, and so on—what town planners call the amenities of their locality.

The purpose of the *Guidelines* is to provide clear information to owners, residents, designers and developers on what basis development above the R17.5 Code will be supported, and to provide guidance on how development can be built in ways which protect and even improve the quality of the environment.

They will also assist Council's staff in discussing development proposals with owners and developers, and in assessing applications for the Council's approval.

**2. SCOPE OF THE GUIDELINES**

These Guidelines are to be applied to all grouped and multiple dwelling development above the R17.5 Code in Precincts or on sites the subject of split coding (such as R17.5/R30).

However, they are also relevant to other residential unit developments and the development of single houses, especially those on smaller lots which result from subdivision of older residential lots.

**3. RELATIONSHIP WITH R-CODES**

All residential development is required to comply with provisions of the Residential Planning Codes (R-Codes) which form part of this Scheme and these Guidelines are intended to supplement, not replace the requirements of the R-Codes and the Scheme.

**4. OBJECTIVES FOR DESIGN OF RESIDENTIAL DEVELOPMENT**

- to fit in with the desired future character of the locality as outlined in Council's Local Housing Strategy;
- to create a pleasant living environment for all occupants of the development.

## 5. DESIGN

### 5.1 Sympathy with Streetscapes

New development *should* be required to respect existing streetscapes.

The design of grouped and multiple dwelling development should acknowledge any existing development on site and desirable features of the streetscape with respect to building type or scale, roof pitches, setbacks, tree cover and landscaping, garages and driveways, front fences, adjoining and surrounding houses.

### 5.2 Retention of Existing Dwelling

Consideration should be given to retention of the existing dwelling if it is in reasonable condition and likely to offer a design benefit to the new development *and/or contribute towards the maintenance of existing character*. Integration of the proposed development with the existing house should include attention to aspects such as roof design, roof colour, wall colour, texture and specific design features such as the use of special building materials and fixtures.

### 5.3 Relationship to Street

Wherever possible the dwelling should be designed to face public streets in the traditional manner and front entrances to all rear units should be clearly visible from a street.

In the case of grouped and multiple dwellings with an internal access way the entrances to dwellings should be visible from the internal or communal street and the space should be semi-private and transitional.

A good view of the proposed development from the road should be encouraged by staggering dwellings and breaking up of roof expanses and integrating with site landscaping.

### 5.4 Access and Driveways

For two dwelling developments the landscaped accessway to the rear dwelling should be generally a minimum of 5m wide or 6m wide where there is a major opening to a habitable room facing onto the accessway unless the development lot adjoins a Public Open Space area and that area forms an integral part of the total design.

Long straight driveways (generally in excess of 25m) and extensive areas for paving should be avoided wherever possible.

In general the length of a driveway should be related to the setback of buildings from the driveway. Longer driveways (greater than 25m) to rear dwellings should be designed as mini-streets with a minimum 2m setback between the driveway and any adjacent buildings, screen walls or fences. The extent of paved areas and number of crossovers should be limited as far as possible.

Where a Right-of-Way exists adjoining the lot, consideration should be given to using it for access to the development.

### 5.5 Fencing

Fences on street boundaries or within a setback area should not interrupt the streetscape.

If a front fence or wall is desired to define the boundary of public space or provide security to the garden, it should normally allow clear sight through it or over it to the house behind. Solid panels should only be permitted to a height of 750mm and the overall height should not exceed 1.8 metres.

Front walls with solid panels between 750mm and 1800mm height will be considered for approval by Council only where homes face noisy roads, adjoin incompatible land uses, or for other reasons relating to general amenity.

Front walls should be compatible in both materials and style with the existing buildings on site or with structures within the streetscape.

*Sheet fencing such as fibro cement is not considered acceptable within the front setback or on the front boundary. This includes dividing fences within the front setback.*

### 5.6 Landscaping

*Landscaping strips should be provided along both sides of driveways.*

Existing vegetation and trees should be retained wherever *practicable* and reinforced by additional planting. Particular attention should be given to the retention of existing street trees.

Each development proposal is to indicate what is to be retained and details of new plantings.

### 5.7 Advantages of a Private House

In order to provide for the advantages of single house accommodation the extent of each unit should be clearly defined and there should also be a clear distinction between public space, community space and private space within the development.

All site services should be conveniently located and adequate space available for household amenities such as garbage, mail and clothes drying.

### 5.8 Privacy and Overlooking

It is recognised that the degree of privacy that might be enjoyed with single houses on large lots can not always be enjoyed with medium density development.

However, windows to habitable rooms, living rooms, bedrooms or kitchens should be positioned so that they avoid a direct view into a neighbour's garden or of a neighbour's window or can be adequately screened from view.

### 5.9 Living with the Climate

North facing private gardens should be encouraged and the main windows of living areas oriented to the north.

The number of windows facing west should be limited but windows may be located to take advantage of breezes from the south-west in the summer.

Landscaping and planting should be used effectively to achieve passive solar benefit.

## 6. ACCEPTABLE FORMS OF REDEVELOPMENT

Development shall generally conform to one or more of the following types:

- Dwellings each fronting a public street (corner lots).
- Single dwellings on narrow frontages based on resubdivision of existing lot with each dwelling having direct access to the street.
- Dwellings which make use of rear Rights-of-Way as well as public street access.
- Two dwellings with a suitable landscaped accessway to the rear dwelling.
- Dwellings on suitably sized lots, with a central driveway from which buildings and walls are separated by a suitable landscape strip unless it can be demonstrated that a side accessway to the rear units will create design advantages for the living environment of the dwellings and the impact on streetscape

## 7. DEVELOPMENT IN TOWN PLANNING DEVELOPMENT SCHEME AREAS

In areas covered by Development Schemes, particularly TP Scheme No. 17 (Cannington Lakes Scheme) and TP Scheme No. 21 (Queens Park/East Cannington Guided Development Scheme), covering the areas of East Cannington, Queens Park and Cannington, any residential development above the R17.5 Code is also required to be in accordance with the Scheme Map for the area.

## 8. REQUIREMENT FOR AN OUTLINE DEVELOPMENT CONCEPT PLAN

Council may require that development proposals on blocks within the City be assessed within the framework of an Outline Development Concept Plan where:

- Existing size and shape of lots in that area is considered to provide a significant constraint to the achievement of the objectives outlined in this Appendix.
- Where it is considered that a comprehensive approach to the redevelopment of the subject area will be in the interests of the landowners, the community and the appearance of the area in general.

Such areas may be determined by Council Resolution after precinct evaluation or after consultation with owners of land in any area and are to be included in a Council Policy pursuant to Clause 2.7.12 (Powers to Make Policies).

I. F. KINNER, Chief Executive Officer.

#### **ADVERTISEMENT OF APPROVED TOWN PLANNING SCHEME AMENDMENT**

#### *CITY OF MANDURAH*

#### TOWN PLANNING SCHEME No. 1A—AMENDMENT No. 276

Ref: 853/6/13/9, Pt 276.

It is hereby notified for public information, in accordance with Section 7 of the Town Planning and Development Act 1928, that the Hon Minister for Planning approved the City of Mandurah Town Planning Scheme Amendment on September 5, 1997 for the purpose of—

- A) Rezoning Pt Murray Loc 1036 and Pt Murray Loc 498, Florida from “Residential 1 (R5, R12.5 & R20)”, “Commercial” and “Rural” Zones, and “Local Recreation”, “District Recreation”, “Community Purpose” reserves to “Florida Development Zone”; and
- B) Adding to the legend of the Scheme Map the zone “Florida Development Zone” as depicted on the accompanying amendment map.
- C) Inserting the following new clauses into the Scheme Text—

#### 4.9 FLORIDA DEVELOPMENT ZONE

##### 4.9.1 Purpose and Intent of Zone

The primary purpose of the Florida Development Zone is to provide for future residential and urban-related development after comprehensive planning has been carried out for the relevant areas provided that this conforms with any regional structure plans and policies of the Western Australian Planning Commission (WAPC), any local structure plans, planning policies and retail strategy adopted by the Council and any WAPC buffer requirements, for the Water Corporation Caddadup wastewater treatment works.

- 4.9.2 Council may adopt an Outline Development Plan with or without modifications over the whole or portion of the zone.
- 4.9.3 The Outline Development Plan shall include:
- (i) the overall layout and identification of land uses;
  - (ii) the proposed major road system;
  - (iii) the location of community and recreation facilities;
  - (iv) the proposed staging of development;
  - (v) the Residential Planning Code which shall apply to the appropriate areas of land;
  - (vi) a report to support and outline the location and layout of the plan; and
  - (vii) such other information as Council may require.
- 4.9.4 An Outline Development Plan may be modified by such means as the Council deems appropriate provided that any modification which in the opinion of the Council and the Western Australian Planning Commission is substantial shall be dealt with by procedures similar to those for the approval of the Plan.
- 4.9.5 The Outline Development Plan together with any modifications, when adopted by the Council and approved by the Western Australian Planning Commission, shall be kept available at the office of the Council for inspection by any interested person to the same extent as the documents forming part of the Scheme.
- 4.9.6 Generally, uses within the Florida Development Zone shall be in accordance with those identified on the approved Outline Development Plan and the associated technical guidelines adopted by Council. More particularly, the specified uses permitted within each general use classification shall conform with the permitted uses and development standards set out in the Zoning and Development Tables of the Scheme for the equivalent zoning.
- 4.9.7 Within the Florida Development Zone, subdivision shall be generally in accordance with the approved Outline Development Plan, or any variation approved by the Western Australian Planning Commission.
- 4.9.8 All development within the Florida Development Zone shall accord with the approved Outline Development Plan and associated Technical Guidelines.
- 4.9.9 Within the Florida Development Zone, approval to development shall not be determined by Council until the Outline Development Plan and any associated Technical Guidelines have received approval from both the Council and the Western Australian Planning Commission.
- 4.9.10 Prior to determining non-residential land use applications set out in an Outline Development Plan or where a proposal is not strictly in accordance with the terms, conditions and provisions of an approved Outline Development Plan or the Technical Guidelines attached thereto, Council will be required to advertise and deal with the proposal as set out in Clause 6.2 of the Scheme.
- 4.9.11 Any applicant aggrieved by a decision of the Council or the Western Australian Planning Commission in regard to the approval or amendment of an Outline Development Plan shall have a right of appeal pursuant to the provisions of Part V of the Act.
- 4.9.12 Notwithstanding the specific provisions relating to the Florida Development Zone, the following shall apply to development of land in that zone and shall be addressed in the Outline Development Plan and Technical Guidelines under sub-clause 4.9.4—
- a) Provision for visual and acoustic buffering between residential areas and major regional transport routes;
  - b) Provision for commercial and community facilities readily-accessible to the resident population;
  - c) Protection of significant remnant vegetation of conservation value should be examined and appropriate measures incorporated in the Plan;
  - d) The impact of groundwater extraction and the requirements of the Water Corporation of Western Australia should be taken into consideration;
  - e) The impact of the proposals on groundwater quality and quantity should be taken into consideration and where possible water sensitive design techniques should be employed;
  - f) A dual use path system should be designed with provision of facilities for cycling in accordance with WAPC Policy DC 1.5 (Bicycle Planning); WAPC Policy DC 2.6 (Residential Road Planning) and "Bikewest Guidelines for the Design of Bicycle Facilities";
  - g) Any development shall have regard for buffer requirements for the Water Corporation wastewater treatment works at Caddadup;
  - h) A foreshore reserve should be provided on land abutting the Indian Ocean generally in accordance with the requirements of the Western Australian Planning Commission Coastal Policy and should be generally be in accordance with the Foreshore Management Plan dated August 1996 (No. 96/22) and approved by the City of Mandurah.

### WASTEWATER TREATMENT—BIOSOLIDS REUSE PERTH METROPOLITAN AREA

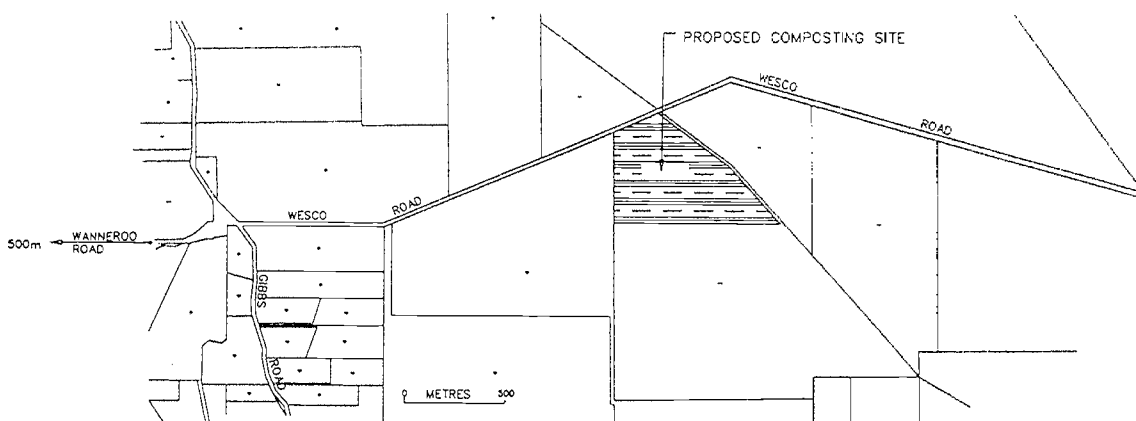

Notice of Authorisation to Construct a Biosolids Composting and Transfer Facility at  
Wesco Road, Nowergup: City of Wanneroo

To secure the long-term beneficial reuse (recycling) of stabilised wastewater treatment sludge in the Perth Metropolitan Area, the Water Corporation proposes to construct the following works—

- \* Two Composting Areas, consisting of two x 3.3 ha, 300mm thick compacted limestone hardstands,
- \* Two Impermeable Biosolids Transfer Areas, constructed using two x 1.1 ha compacted limestone hardstands surrounded by a series of impermeable (liner) earthen walls
- \* A Stormwater and Leachate Collection System, consisting of an impermeable collection sump, a series of earthen walls and a network of 150 mm polyethylene drainage pipework.
- \* Groundwater monitoring, consisting of two monitoring bores and two monitoring underdrains.
- \* Associated Fencing, Limestone Roads, Power Supply and Groundwater Supply.

The location of the proposed works is on a portion of Crown Reserve 27590 at a "worked-out" quarry at Wesco Road, Nowergup as shown on the plan.

Construction of these facilities will not involve clearing of any vegetation.
