PERTH, FRIDAY, 29 SEPTEMBER 2000 No. 205 SPECIAL

PUBLISHED BY AUTHORITY JOHN A. STRIJK, GOVERNMENT PRINTER AT 3.45 PM

Electricity Corporation Act 1994

Electricity Distribution Access (Regional Systems) Amendment Order 2000

Made by the Minister under section 93(2) of the Act.

1. Citation

This order may be cited as the *Electricity Distribution Access (Regional Systems) Amendment Order 2000*.

2. Commencement

This order comes into operation on 1 October 2000.

3. The order amended

The amendments in this order are to the *Electricity Distribution Access (Regional Systems) Order 1998**.

[* *Published in Gazette 3 November 1998, p. 6076.*]

4. Clause 3 amended

Clause 3 is amended by inserting before the definition of “regional system” the following definition —

“

“**distribution exit point**” has the same meaning as it has in the *Electricity Distribution Regulations 1997*;

”.

5. Clause 4 replaced

Clause 4 is repealed and the following clause is inserted instead —

“

4. Regional system access

Under clause 2(1) of Schedule 6 to the Act, the corporation is to make available regional system access to an existing or prospective user for the transport of electricity if —

- (a) the electricity is to be transported to a single distribution exit point; and
- (b) the amount of electricity to be transported is to be at least 300 megawatt hours in the period of 12 months beginning on the day on and from which the existing or prospective user wants access to be made available.

”.

C. J. BARNETT, Minister for Energy.

Electricity Corporation Act 1994

Electricity Distribution Access (Renewable Energy) Order 2000

Made by the Minister under section 93(1)(b) of the Act.

1. Citation

This order may be cited as the *Electricity Distribution Access (Renewable Energy) Order 2000*.

2. Commencement

This order comes into operation on 1 October 2000.

3. Definitions

In this order —

“**access**” means access to spare capacity and new capacity;

“**distribution exit point**” has the same meaning as it has in the *Electricity Distribution Regulations 1997*;

“renewable source” means a source of energy that is not derived from a fossil fuel or a man-made nuclear fission process.

4. Access — electricity generated from renewable sources

Under clause 2(1) of Schedule 6 to the Act, the corporation is to make available access to an existing or prospective user for the transport of electricity generated from a renewable source if —

- (a) the electricity is to be transported to a single distribution exit point; and
- (b) the amount of electricity to be transported is to be at least 300 megawatt hours in the period of 12 months beginning on the day on and from which the existing or prospective user wants access to be made available.

C. J. BARNETT, Minister for Energy.
