Permit applications (see attached form) shall specify a work program (minimum number of wells to be drilled, line kilometres of seismic, geophysical, geochemical surveys etc.) to be carried out, and estimated expenditures for each of the six years. Wells referred to in the work program should not include development wells.

Where there is more than one applicant to the application, the percentage participating interests of each party to the application is to be supplied including evidence that a satisfactory settlement has been, or can be reached on a Joint Operating Agreement (a copy of a Heads of Agreement dealing will generally suffice).

An information package on the release areas detailing the criteria for assessment of applications and the conditions to apply following the award of a permit, and including a plan of the release areas and an application proforma, is available on CD-ROM.
