ENVIRONMENT

EV301*

Environmental Protection Act 1986

Environmental Protection (Dardanup Pine Log Sawmill Noise Emissions) Approval 2002

Made by the Minister for the Environment and Heritage under regulation 17(7) of the *Environmental Protection (Noise) Regulations 1997* after receiving a report from the Authority for the purposes of the regulation.

1. Citation

This approval may be cited as the *Environmental Protection (Dardanup Pine Log Sawmill Noise Emissions) Approval 2002*.

2. Duration of approval

- (1) This approval comes into operation on the day on which it is published in the *Gazette* and stops being in force at midnight on 30 June 2012 unless it is revoked before that time or is continued in force under subsection (2).
- (2) If, on or before 30 June 2011, Wespine applies for a further approval under regulation 17 to allow noise emitted from the mill to exceed or vary from the standard, then this approval continues in force until the Minister either grants or refuses to grant that application.

3. Interpretation

- (1) In this approval —
 - “**abnormal event**” means an unexpected event the occurrence of which is beyond the immediate control of, and could not reasonably have been foreseen by, Wespine (such as an accident or emergency, a breakdown of plant or equipment or extreme weather conditions);
 - “**assigned level**” means a noise level determined under clause 6;
 - “**commercial premises**” has the same meaning as in regulation 2(1);

“impulsiveness” has the same meaning as in regulation 9;

“industrial and utility premises” has the same meaning as in regulation 2(1);

“influencing factor” has the same meaning as in regulation 8;

“ L_{A1} assigned level” means an assigned level which, measured as an $L_{A\text{ Slow}}$ value, is not to be exceeded for more than 1% of any period of 4 hours;

“ L_{A10} assigned level” means an assigned level which, measured as an $L_{A\text{ Slow}}$ value, is not to be exceeded for more than 10% of any period of 4 hours;

“ $L_{A\text{ max}}$ assigned level” means an assigned level which, measured as an $L_{A\text{ Slow}}$ value, is not to be exceeded at any time;

“ $L_{A\text{ Slow}}$ ” has the same meaning as in regulation 2(1);

“mill” means the pine log sawmill at Moore Road, Dardanup that is the subject of the *Dardanup Pine Log Sawmill Agreement Act 1992*;

“mill site plan” means the plan marked “A” that was initialled by or on behalf of the parties to the Dardanup Pine Log Sawmill Agreement a copy of which is set out in the Schedule to the *Dardanup Pine Log Sawmill Agreement Act 1992*;

“noise-sensitive premises” has the same meaning as in regulation 2(1);

“modulation” has the same meaning as in regulation 9;

“regulation” means regulation of the *Environmental Protection (Noise) Regulations 1997*;

“tonality” has the same meaning as in regulation 9;

“Wespine” means Wespine Industries Pty Ltd or its assignee.

- (2) To the extent that there is any inconsistency between this approval and the Minister’s Statement No. 725 of 14 April 1993, the approval prevails.

4. Grant of approval

Under regulation 17(7) of the *Environmental Protection (Noise) Regulations 1997*, approval is granted to Wespine to allow the noise emitted from the mill to exceed or vary from the standard prescribed by regulation 7(1).

5. Conditions of approval

- (1) For the purposes of clause 4, regulations 7(1) and (2), 8(2) and 9(3) do not apply in relation to the noise emitted from the mill while this approval is in force and is being complied with.
- (2) However, this approval is granted on the condition that —
 - (a) noise emitted from the mill complies with clauses 6 and 7; and
 - (b) Wespine complies with clause 10.

6. Maximum permitted noise levels

- (1) Noise emitted from the mill, when received at premises of a kind referred to in column 1 of an item in the Table in Schedule 1, at a time of day referred to in column 2 of the item, must not exceed —
 - (a) if the premises are situated outside the area of land at Dardanup shown coloured brown on the mill site plan — any of the assigned levels specified opposite the time of day in column 3 of the item; or
 - (b) in the case of premises referred to in column 1 of item 1 in the Table that are situated within the area of land at Dardanup shown coloured brown on the mill site plan — any of the noise levels calculated by adding the respective influencing factor to each of the assigned levels specified opposite the time of day in column 3 of the item.
- (2) For the purposes of calculating the influencing factor to be added under subclause (1)(b), the land shown coloured blue on the mill site plan is taken to be Type A — industrial and utility premises within the meaning of Schedule 3 clause 2(1) of the regulations.

7. Permitted tonality, impulsiveness and modulation

Noise emitted from the mill, when received at premises referred to in column 1 of an item in the Table in Schedule 1, must be free, for at least 99% of any period of 4 hours, from any tonality, impulsiveness and modulation.

8. Determining levels of noise emission

For the purpose of assessing the level or character of noise emitted from the mill, the following are not to be taken into account —

- (a) noise emissions of a kind referred to in regulation 3;
- (b) noise emitted as a result of construction work carried on at premises occupied by the mill;
- (c) noise emitted by safety warning devices attached to plant or equipment for the purpose of ensuring that Wespine complies with its obligations under the *Occupational Safety and Health Act 1984*.

9. Noise resulting from abnormal events

An emission of noise that contravenes clause 6 or 7 is taken not to breach a condition of this approval if —

- (a) the emission is a result of the occurrence of an abnormal event;
- (b) where the emission contravenes clause 7 — it is a result of an event the occurrence of which results in the accidental or unintended emission of the noise;

- (c) Wespine takes all reasonably practicable measures to stop the emission as soon as is reasonably practicable; and
- (d) Wespine notifies the Chief Executive Officer of the occurrence of the abnormal event within 21 days after the day on which it occurred, or within any further time allowed by the Chief Executive Officer on the application of Wespine.

10. Abnormal events register

- (1) Wespine must keep an abnormal events register for the purposes of this approval.
- (2) If an abnormal event or any other event results in the emission of noise that contravenes clause 6 or 7, Wespine must enter in the register the following particulars —
 - (a) the nature of the event;
 - (b) the date and time of the occurrence of the event;
 - (c) details of the contravention, including the level and characteristics of the noise (if known) and the duration of the emission;
 - (d) the measures taken by Wespine to stop the emission;
 - (e) the measures (if any) taken by Wespine to prevent or minimise the possibility of —
 - (i) the occurrence of a similar event in the future; or
 - (ii) the emission of noise that contravenes clause 6 or 7 if a similar event occurs in the future.
- (3) Wespine is to make the register available for inspection by an inspector on request.

BUSH FIRES ACT 1954

City of Belmont

FIREBREAK NOTICE

Notice to all owners and or occupiers of land in the City of Belmont

Pursuant to the powers contained in Section 38 of the Bush Fires Act 1954 (as amended) you are hereby required on or before the 30th day of November 2002, or within fourteen days of the date of you becoming the owner or occupier should this be after the 30th day of November 2002, to remove from the land owned or occupied by you all flammable material as to clear firebreaks in accordance with the following and thereafter to maintain the land or firebreaks clear of flammable material up to and including the 31st day of March 2003, in such positions and to such dimensions as required by this notice—

- (1) Where the area of land is less than 3000 square metres remove all flammable material from the whole of the land.
- (2) Where the area of land is 3000 square metres or more a firebreak must be provided not less than 3.0 metres in width inside and along the whole of the external boundaries of the land.
- (3) Provide a firebreak not less than two (2) metres in width immediately abutting all buildings, outbuildings, sheds etc, with all overhanging branches, trees, limbs etc to be trimmed back clear of all firebreaks and removed from the land.

If for any reason it is considered impractical to clear firebreaks or to remove the flammable material from the land as required by this Notice, application must be made in writing to the Council or its duly Authorised Officer on or before the 15th day of November 2002 for permission to provide firebreaks in alternative positions or take alternative action to abate a fire hazard. If permission is not granted by the Council or its duly Authorised Officer you shall comply with the requirements of this Notice in its entirety.

Penalty:

The penalty for failing to comply with this Notice is a fine of not more than \$1000 and a person in default is also liable whether prosecuted or not, to pay the cost of performing the work directed in this Notice, if it is not carried out by the owner or occupier by the date required by this Notice.

Note:

The requirements of this Notice should be carried out by means other than burning, ie. Mowing, rotary hoeing, ploughing, scarifying or cultivating.

BRUCE R. GENONI, Chief Executive Officer.

Permit applications (see attached form) shall specify a work program (minimum number of wells to be drilled, line kilometres of seismic, geophysical, geochemical surveys etc.) to be carried out, and estimated expenditures **for each of the six years**. Wells referred to in the work program should not include development wells.

Applicants should also make themselves aware of the existence of any areas, which have the potential to restrict exploration activities.

Applications are to be made in accordance with Section 31 of the Petroleum Act 1967. Consideration of an application for the grant of a Permit shall take into account work programs relative to the whole of the area applied for, the adequacy of the work program and the applicant's technical and financial ability to undertake the work. Permits are awarded on the understanding that the first two years work commitment will be fulfilled without variation.

Where there is more than one applicant to the application, the percentage participating interests of each party to the application is to be supplied including evidence that a satisfactory settlement has been, or can be reached on a Joint Operating Agreement (a copy of a Heads of Agreement dealing will generally suffice).

An information package on the release areas detailing the criteria for assessment of applications and the conditions to apply following the award of a permit, and including a plan of the release areas and an application proforma, is available on CD-ROM. Copies of the CD-ROM can be obtained from the Petroleum Division, Department of Mineral and Petroleum Resources by contacting Kerrie Heier on (08) 9222 3186.

Obtaining and observing the release package is essential to making an informed application for any of the areas.

LODGEMENT OF APPLICATIONS

Applications **must be lodged by 4:00pm Thursday 24 APRIL 2003**. Applications, together with supporting data, should be submitted to—

Director Petroleum Division
Department of Mineral and Petroleum Resources
Level 11, Mineral House
