## NOTICE OF INVITATION FOR APPLICATIONS FOR EXPLORATION PERMITS

(2004 Offshore Acreage Release—West Australian Adjacent Area)

I, William Lee Tinapple, the delegate of the Designated Authority in respect of the adjacent area of Western Australia, for and on behalf of the Commonwealth-Western Australia Offshore Petroleum Joint Authority, acting pursuant to Section 20(1) of the Petroleum (Submerged Lands) Act 1967, hereby invite applications for the grant of exploration permits in respect of the following Blocks within the areas as described in the following schedule.

The Commonwealth/State/Territory jurisdictional boundary in coastal waters is determined by the Australian Maritime Boundaries Information System Dataset of 2000, released in January 2001 by the Australian Surveying and Land Information Group (now Geoscience Australia National Mapping Division).

Section 5AAA of the Petroleum (Submerged Lands) Act 1967 provides that, where a change to the baseline of Australia’s territorial sea would impact on the boundary of an existing petroleum title (in Commonwealth or State or Territory waters), there is in fact no such impact. The Commonwealth, State or Territory Act (as the case may be) under which the title has been granted, continues to apply to the title and the whole title area for as long as the title remains in force. Therefore, this Instrument does not apply to any such area that is already under title.

Applications for areas **W04-6 to W04-14** will be received up until 4:00 pm on Thursday, **23 September 2004**.

Applications for areas **W04-1 to W04-5 and W04-15 to W04-17** will be received up until 4:00 pm on Thursday **31 March 2005**.

**APPLICATIONS FOR AREAS—W04-1 TO W04-17**

**Applications for the award of a permit over areas W04-1 to W04-17 are required to be made in the approved manner, submitted in duplicate and should be accompanied by—**

## 1.1 Details of—

## 1.1.1 Technical Assessment

The applicant's technical assessment of the petroleum potential of the area, including the concepts underlying its proposed exploration work program, with sufficient detail to support that program

## 1.1.2 Minimum Guaranteed Work Program

The applicant's minimum guaranteed proposal (including indicative minimum expenditure) for exploration wells to be drilled, 3D and 2D seismic and other surveying activities, data evaluation and other work, for each year of the first three years of the permit term. This proposal, to be known as the minimum guaranteed work program, should comprise work expected to involve a substantial exploration component—normally, appraisal work should not be included

## 1.1.3 Secondary Work program

The applicant's proposal (including indicative minimum expenditure) for exploration wells to be drilled, 3D and 2D seismic and other surveying activities, data evaluation and other work, for each of the three remaining years of the permit term. This proposal, to be known as the secondary work program, should comprise work expected to involve a substantial exploration component—normally, appraisal work should not be included.

NOTE: Applicants should note it is mandatory that the minimum work program proposed in each year of the exploration permit is stated precisely to avoid any ambiguity. Proposals for work programs that cannot be guaranteed to be undertaken within the first 3 years of the permit must not be included.

## 1.2 Particulars of the applicant—

## 1.2.1 the technical qualifications of the applicant and of its key employees

## 1.2.2 the technical advice available to the applicant

## 1.2.3 the financial resources available to the applicant, including evidence of the applicant's ability to fund the work program proposed, a statement of other exploration commitments over the next 6 years, and a copy of the latest annual and quarterly reports for each applicant company

## 1.2.4 where relevant, the viability of the consortium lodging the application, including evidence that a satisfactory settlement has been, or can be, reached on the Joint Operating Agreement (a copy of a signed Heads of Agreement dealing will generally suffice), and

## 1.2.5 the percentage participating interest of each party to the application.

### 1.3 Other Information

Such other information as the applicant wishes to be taken into account in consideration of the application. Where an applicant has previously had an exploration permit cancelled such information might include why the applicant believes the prior failure is irrelevant to the current application.

### 1.4 Fee

Each application must be accompanied by a fee of \$A3,900, payable to the Commonwealth of Australia through an Australian bank or bank cheque.

An information package on the release areas detailing the work program bidding system outlined above and including the criteria for assessment of applications and the conditions to apply following the award of a permit, is available on the Department of Industry, Tourism and Resources Website at [www.industry.gov.au/petexp](http://www.industry.gov.au/petexp), or on CD-ROM. Copies of the CD-ROM can be obtained through the Department of Industry, Tourism and Resources by e-mailing [petroleum.exploration@industry.gov.au](mailto:petroleum.exploration@industry.gov.au).

***Obtaining and observing the release package is essential to making an informed application for any of the areas.***

The Government will also publish on-line data about Australia's petroleum exploration opportunities. This spatial data gives key hydrocarbon well information (about hydrocarbon shows, biostratigraphic age, porosity and depositional environment) and will be released on the Geoscience Australia internet site at [www.ga.gov.au](http://www.ga.gov.au) free of charge.

It should be noted that any income derived in the future from the recovery of petroleum from these areas will be subject to the Commonwealth Government's Resources Rent Tax.

### Lodgement of Applications

Applications for areas **W04-6 to W04-14** will be received up until 4:00 pm on Thursday, **23 September 2004**.

Applications for areas **W04-1 to W04-5 and W04-15 to W04-17** will be received up until 4:00 pm on Thursday **31 March 2005**.

Applications, together with supporting data should be submitted in the following manner to—

Director Petroleum Division  
Department of Industry and Resources  
Level 11, Mineral House  
100 Plain Street  
EAST PERTH WESTERN AUSTRALIA 6004

Attention: Petroleum Applications Receiving Officer

The following special instructions should be observed:—

- two copies of the application and supporting data together with the application fee should be sealed in an envelope or package, clearly marked "Application for Exploration Permit Area ... Commercial-in-Confidence"; and
- further enclosed in a plain covering envelope or package and delivered by hand or posted to the above address.

Receipts for applications (received and delivered by hand) will be issued by the Petroleum Applications Receiving Officer.

### **DISCRETE AREA RELEASE**

Invitation for Applications for the Grant of Exploration Permits

RELEASE DATE: TUESDAY 30 MARCH 2004

CLOSING DATE: THURSDAY 4:00PM 30 SEPTEMBER 2004

### **AREAS AVAILABLE**

Applications are invited for the grant of exploration permits over the following discrete areas **within Western Australia's coastal waters and onshore Perth and Officer Basins** as identified on the attached plans.

**Applications will be received up until 4.00 pm on Thursday, 30 September 2004.**

**Combined Coastal Waters Areas****Area L04-2 with T04-1**

These areas comprise blocks described below which straddle the baseline dividing the Petroleum Act 1967 from the Petroleum (Submerged Lands) Act 1982.

Despite that two statutes are involved, only a single combined application (proposing a unified work program) is necessary. However the application fee in this instance is \$7800.00.

While two permits will be issued to the successful applicant, those permits will, as far as the legislation allows, be dealt with as one.

### APPLICATION DETAILS

Central to any application made is the program of work proposed for each of the years of the six year term. Applications are to be made in accordance with Section 31 of the Petroleum Act 1967 and Section 21 of the Petroleum (Submerged Lands) Act 1982 as appropriate. Consideration of an application for the grant of a Permit shall take into account work programs relative to the whole of the area applied for, the adequacy of the work program and the applicant's technical and financial ability to undertake the work. Permits are awarded on the understanding that the first two years work commitment will be fulfilled without variation.

Where there is more than one applicant to the application, the percentage participating interests of each party to the application is to be supplied including evidence that a satisfactory settlement has been, or can be, reached on a Joint Operating Agreement (a copy of a Heads of Agreement dealing will generally suffice).

Applicants should also make themselves aware of the existence of any areas, which have the potential to restrict exploration activities eg, National Parks, Nature Reserves, Marine Parks, World Heritage Areas, Conservation Reserves, Defence Areas and Mining Titles.

Insofar as Reserved Land is concerned, entry for exploration purposes is subject to approval by the Minister. In this regard, it should be noted that Government policy, at least, is such that petroleum extraction from within National Parks, Nature Reserves and access to Conservation Estates should not be presumed.

In respect to offshore areas, impacts on fishing activities should also be considered.

Any applications over the above onshore areas may be subject to the provisions of the Commonwealth Native Title Act 1993 and applicants should be prepared to negotiate with Native Title parties pursuant to the right to negotiate provisions of the NTA. It should, however, be noted that the right to negotiate does not apply offshore.

Applicants should also be aware that all the areas available for application are subject (at least in part) to Native Title claims. Plans showing these claim boundaries are available from the Department of Industry and Resources.

An information package on the release areas detailing the criteria for assessment of applications and the conditions to apply following the award of a permit, and including a plan of the release areas and an application proforma, is available on CD-ROM. Copies of the CD-ROM can be obtained from the Petroleum Division, Department of Industry and Resources by contacting the Senior Titles Officer (Titles) on (08) 9222 3278.

Applications are to be made in accordance with Section 31 of the Petroleum Act 1967 or Section 21 of the Petroleum (Submerged Lands) Act 1982 as appropriate. Consideration of an application for the grant of a Permit shall take into account work programs relative to the whole of the area applied for, the adequacy of the work program and the applicant's technical and financial ability to undertake the work. Permits are awarded on the understanding that the first two years work commitment will be fulfilled without variation.

Where there is more than one applicant to the application, the percentage participating interests of each party to the application is to be supplied including evidence that a satisfactory settlement has been, or can be, reached on a Joint Operating Agreement (a copy of a Heads of Agreement dealing will generally suffice).
