**LG501\*****BUSH FIRES ACT 1954***Shire of Augusta-Margaret River***BUSH FIRE NOTICE AND REQUIREMENTS**

Notice to all owners/occupiers of land in the Shire of Augusta-Margaret River.

In accordance with Section 33 of the Bush Fires Act 1954, you are required to carry out fire prevention work on land owned or occupied by you in accordance with the provisions of this order.

The penalty for non-compliance with this notice is a maximum of \$1000, and notwithstanding prosecution, Council may enter upon the land and carry out required works at the owners/occupiers expense.

**TOWNSITES****Gracetown—Prevelly—Gnarabup****Compliance Date: 6th December 2003 to 12th April 2004**

In respect of land owned or occupied within these townsites, or any area subdivided for other purpose, you shall—

1. Where undeveloped land abuts developed land a firebreak not less than 2 metres wide is required, and
2. a 1 metre clearance is required around all buildings.

**ALL OTHER TOWNSITES****Including Molloy Island****Compliance Date: 6th December 2003 to 12th April 2004**

In respect of land owned or occupied within these townsites, or any area subdivided for other purpose, you shall—

1. Where the area of land is up to and including 4,000 sqm, remove all flammable material from the land, except living standing trees, and
2. where land exceeds 4,000 sqm, clear the land of all flammable material, and install firebreaks at least 2 metres wide immediately inside all external boundaries of the land, and also immediately surrounding all buildings situated on the land.

**RURAL LAND****Compliance Date: 21st December to 12th April 2004**

A firebreak not less than 2 metres wide must be constructed inside and within 100 metres of the boundary of each property where the boundary is adjacent to a road reserve.

In addition—

1. A firebreak not less than 2 metres wide must be constructed within a perimeter of 20 metres of all homesteads, buildings, haystacks and fuel storage areas on the land.
2. Where uncleared land abuts a boundary, a firebreak not less than 3 metres wide must be constructed inside and within 100 metres of all such boundaries.

**SPECIAL RURAL & RURAL RESIDENTIAL LAND****Compliance Date: 21st December 2003 to 12th April 2004**Pastureland Blocks

1. The owners/occupiers of all existing rural holdings zoned 'Special Rural' or 'Rural Residential' in Town Planning Schemes, must construct a firebreak not less than 2 metres wide immediately inside all boundaries.
2. The land shall be grazed, slashed, or the fire hazard reduced by some other means, to the satisfaction of a duly appointed officer.
3. An area of 30 metres around all buildings must be cleared of hazardous material to create a 'fuel-free zone', defined as an area devoid of leaves, weeds, rubbish and dead timber. Trees are acceptable provided they are not heavily barked and do not overhang the buildings.

Bushland Blocks

Same requirements as for pastureland block, (where trees occur close to the boundaries, permission may be granted by a duly appointed officer, to construct firebreaks up to 6 metres inside such boundaries). Residents of 'bush blocks' should be aware of the particular problems related to their home environment. The annual build-up of leaf litter, branches, etc., rapidly leads to unacceptable, dangerous fuel levels and periodic, low intensity burns should be undertaken. Efficient 'mosaic' burning should result in the owners not having to burn for periods of between 4-7 years, depending on the density of fuel levels and the rate of build up. Your area Fire Control Officer can offer advice and your local Bushfire Brigade or Volunteer Fire and Rescue Service can assist with your programme.

Note: 'Bushland' is defined as pre-existing, native or 'remnant' vegetation, and includes trees and understorey.

**DEFINITION OF FIREBREAK**

A minimum of 2 metres wide, to bare mineral earth, with a vertical clearance of 4 metres, all firebreaks are to be maintained until 12th April.

Firebreaks constructed on road verges do not constitute legal firebreaks under the Bush Fires Act.

**PLANTATIONS****Eucalypt and Pine**

Compliance date: 21st December 2003 to 12th April 2004

All plantations exceeding 3 hectares.

'Existing' plantations (pre-1997) require a 10 metre firebreak, the outer 5 metres must be cleared of all flammable material (to bare earth), the remaining 5 metres must be maintained in a low fuel condition.

'New' plantations (post-1997) require a 15 metre firebreak, the outer 10 metres must be cleared of all flammable material (to bare earth), with no overhanging branches for a vertical clearance of at least 10 metres, the remaining 5 metres must be maintained in a low fuel condition.

Eg. Very short grass may be considered 'low fuel'.

Trees may not be planted closer than 15 metres from the outer edge of the firebreak.

**Vineyards**

Firebreaks must be at least 5 metres in width, cleared of all flammable material (to bare mineral earth) around the perimeter of the block.

**BUSHFIRE PRECAUTIONS**

**Prohibited Burning Time:** The 'prohibited burning' time that applies within the Shire is: 22nd December 2003 to 28th February 2004 (inclusive).

**Restricted Burning Times:** The 'restricted burning' times are 9th November 2003 to 21st December 2003 (inclusive) and 1st March 2004 to 12th April 2004 (inclusive).

These dates may be subject to variation according to seasonal conditions, but any changes will be advertised locally.

If for any reason it is considered impracticable to comply with the requirements of this order, you may make written application to the Shire Fire Control Officer no later than November 15th for permission to provide firebreaks in alternative position or to take alternative action to abate the fire hazards on your land. The application must be countersigned by the Fire Control Officer for your area to signify their agreement to the variation. No applications, whether written or verbal, will be considered after this date.

JAMES TRAIL, Chief Executive Officer.

**BUSH FIRES ACT 1954**

*Shire of Kalamunda*

**FIREBREAK NOTICE**

In the interest of minimising fire hazards and protecting all Shire residents, landowners / occupiers are required before the 1st December of each year to remove all inflammable matter to clear firebreaks as detailed in the following notice and maintain the land or the firebreaks clear of all inflammable matter up to and including the 31st March of the following year. Following are the details of fire prevention measures required before 1st December of each year or within 14 days of you becoming the owner or occupier should this be after this date.

**Failure or neglect to comply with this notice may render all owners/occupiers liable to infringement action—a fine of \$250 or \$5000 if court action is taken.**

**1. Property with building on with an area of less than 4,000 square metres.**

Slash all grass and clear all dead inflammable matter to a height no greater than 5cm.

Prune all trees and shrubs around all buildings to provide a safety zone.

Clean all the roofs and gutters of inflammable matter.

**2. Vacant land with an area of less than 4,000 square metres.**

Slash all grass and clear all dead inflammable matter to a height no greater than 5cm.

Install a three metre wide firebreak by removing all dead inflammable matter immediately inside all external boundaries and to a vertical height of four metres.

**3. Property with building on with an area greater than 4,000 square metres.**

Slash all grass and clear all dead inflammable matter to a height no greater than 5cm.

Install a three metre wide firebreak by removing all dead inflammable matter around all buildings and immediately inside all external boundaries of each lot and to a vertical height of four metres.

Prune all trees and shrubs around all buildings to provide a safety zone.

Clean all the roofs and gutters of inflammable matter.

**4. Vacant land with an area greater than 4,000 square metres.****GRASSED**

All grass to be slashed to a height no greater than 5cm. If property is stocked, the number of livestock must be able to graze the grass down by the end of December to a safe fuel loading. ( grass flattened )

Install a three metre wide firebreak by removing all dead inflammable matter around and immediately inside all external boundaries of each lot and within twenty metres of, and surrounding, the perimeter of any haystacks or stockpiled inflammable matter.

**BUSH**

Install a three metre wide firebreak by removing all dead inflammable matter around and immediately inside all external boundaries of each lot and all buildings (also create a twenty metre wide low fuel zone around such areas). All firebreaks are to be cleared to a vertical height of four metres to allow access for emergency vehicles.

Fuel loadings of dead inflammable matter should be maintained at a safe level to enable firefighters to control a fire under wildfire conditions. Fuel loadings need to be maintained under 8 tonnes per hectare.

**In some circumstances, eg large blocks, additional requirements may apply.**

**5. Fuel Dumps and Depots.**

Remove all inflammable matter from land where fuel drums ramps or dumps are located, and where fuel drums, whether containing fuel or not, are stored to a distance of at least ten metres outside the perimeter of any drum, ramp or stack of drums.

**6. General**

The Firebreak Inspection Officers will commence inspection of firebreaks and fire hazards early in the season, and will provide advice on potential fire hazards and suggested remedial measures.

Where the owner or occupier of the land who has received notice fails or neglects to comply with the requisitions within the time specified, the Shire of Kalamunda may, by its officers and with such servants, workmen and contractors, vehicles and machinery as the officers deem fit, enter upon the land and carry out the requisitions of the notice which have not been complied with. The amount of any costs and expenses incurred shall be recovered from you as the owner or occupier of the land.

Although the Bush Fires Act does specify penalties for not taking appropriate fire prevention action, the need for all residents to protect not only their own home and possessions but also those of neighbours and other Shire residents should be the overriding concern.

If the prevention measures are carried out by burning, such burning must be in accordance with the relevant provisions of the Bush Fires Act which includes the necessity for permits to burn during the restricted burning season.

**Prior to any burning, please contact your local council.**

Restricted Burning Times—Permits Required	2nd November to 30th November 1st April to 30th April

Prohibited Burning Times (TOTAL FIRE BAN)	1st December to 31st March
---	----------------------------

THESE DATES CAN BE VARIED DUE TO SEASONAL CONDITIONS. (extended or shortened) Any changes to these dates will be advertised in the local newspaper circulated within the Shire.

**TOTAL FIRE BAN WHEN THE FIRE DANGER INDEX IS VERY HIGH OR EXTREME****7. Application to vary the above requirements.**

If it is impracticable for any reason to clear firebreaks or to remove inflammable matter from the land as required by this notice, you may apply to the Council in writing before November 15 of each year for permission to provide firebreaks in alternative positions, or take alternative measures to abate the fire hazards on the land.

If permission is not granted in writing by Council, you shall comply with the requirement of this notice.

**8. Alternative methods of fuel reduction**

Slashing, mowing, chemical spraying, raking and mowing and Councils kerbside pick up.

Council staff are available to provide advice and further information on requirements, and the various passive and active measures that may be taken to minimise the fire risk of living in the Hills environment.

Leighton Beach and Environs

Call For Public Submissions

The Western Australian Planning Commission is considering a proposal to amend the Metropolitan Region Scheme for land in the City of Fremantle and the Towns of Mosman Park and Cottesloe. Public comment is invited.

At Leighton Beach the amendment will reflect several of the major components of the "*Leighton Planning Guidelines (December 2000)*" and make minor modifications to the existing road reservations in the area. At North Quay the amendment will reflect ongoing planning for the operational needs of the Port of Fremantle.

Full details of the proposals can be found in the Commission's explanatory *Amendment Report*. This document, along with the amending plan and other documentation showing the proposed changes to the zones and reservations of the Scheme, will be available for public inspection from 31 August 2004 to 3 December 2004 at the following locations—

- Department for Planning and Infrastructure, Wellington Street, Perth
- JS Battye Library, Francis Street, Northbridge
- City of Perth, St George's Terrace, Perth
- City of Fremantle, William Street, Fremantle
- Town of Cottesloe, 109 Broome Street, Cottesloe
- Town of Mosman Park, Memorial Park, Bay View Terrace, Mosman Park

Documents are also available from the Commission's Internet Site [www.wapc.wa.gov.au](http://www.wapc.wa.gov.au).

Any person who wishes to make a submission either supporting, objecting or providing comment on any provisions of the proposed Amendment should do so on a submission form (Form 6A). This form is available from the display locations, the *Amendment Report* and the Internet.

Submissions must be lodged with the—

Secretary  
Western Australian Planning Commission  
469 Wellington Street  
PERTH WA 6000

on or before 5.00pm Friday, 3 December 2004. Late submissions will not be considered.
