CONSERVATION AND LAND MANAGEMENT ACT 1984**PROPOSAL TO RESERVE WESTERN AUSTRALIAN WATERS****Proposed Geographe Bay/Leeuwin-Naturaliste/Hardy Inlet Marine Park**

Notice is hereby given under section 14 of the Conservation and Land Management Act 1984 (CALM Act) of a proposal to reserve Western Australian waters under section 13(1) of the CALM Act as a Class A marine park in the south west capes region.

Any person may make a written submission on this proposal and all persons with an interest in the proposal are encouraged to do so.

Marine parks are created to protect natural features and aesthetic, scientific and educational values while at the same time enabling compatible recreational and commercial uses (the statutory purpose of marine parks is provided in CALM Act section 13B(1)).

The proposed Geographe Bay/Leeuwin-Naturaliste/Hardy Inlet Marine Park comprises Western Australian waters, the airspace above those waters, the seabed below those waters, and the subsoil to a depth of 200 metres below that seabed that are contained within and bounded by a line—

- (i) commencing in Geographe Bay at the intersection of the seaward limit of the Coastal Waters of the State (3 nautical miles seaward of the territorial sea baseline) and the geodesic between latitude 33°32'48" south, longitude 115°24'33" east and latitude 33°34'51" south, longitude 115°27'12" east; and
- (ii) extending south-easterly along that geodesic to the mainland High Water Mark;
- (iii) thence generally south-westerly, westerly, and north-westerly along the High Water Mark, and/or Low Water Mark or other existing seaward tenure boundary (subject to the exclusions detailed below) to Cape Naturaliste;
- (iv) thence generally southerly along the High Water Mark (or other existing seaward tenure boundary and subject to the exclusions detailed below) to Cape Leeuwin;
- (v) thence generally northerly, easterly and north-easterly along the High Water Mark (or other existing seaward tenure boundary) to the mouth of the Hardy Inlet;
- (vi) thence generally northerly (and various other directions) along the High Water Mark (or other existing seaward tenure boundary) to latitude 34°15'36" at the lower reaches of the Blackwood River;
- (vii) thence east along latitude 34°15'36" across the Blackwood River to the High Water Mark;
- (viii) thence generally south-easterly along the High Water Mark to the point where the Scott River enters the Scott River Basin;
- (ix) thence south-easterly along the geodesic across the Scott River to the High Water Mark;
- (x) thence generally south-easterly, south-westerly, southerly, and north-easterly along the High Water Mark to the mouth of the Hardy Inlet, including Swan Lake and The Deadwater;
- (xi) thence generally north-easterly and easterly along the High Water Mark to longitude 115°17'00" east;
- (xii) thence south along longitude 115°17'00" east to the seaward limit of the Coastal Waters of the State;
- (xiii) thence generally easterly, southerly, north-westerly, northerly, south-easterly, easterly, and north-easterly along the seaward limit of the Coastal Waters of the State to the point of commencement.

The Marine Park area will exclude all unallocated Crown land on islands landward of the High Water Mark, and all reserved land on islands landward of existing High or Low Water Mark tenure boundaries.

The Marine Park area will exclude rivers, creeks, drains, inlets, and estuaries except where specifically described above. The boundary of the Marine Park will extend across the mouth of such features on a line across the shortest distance between the adjacent Marine Park boundaries.

[NOTES: All geographic coordinates are expressed in terms of the Geocentric Datum of Australia 1994 ("GDA94"). All geographic co-ordinates are approximate only and are subject to survey. "Western Australian waters" means all waters—that are within the limits of the State; or that are "coastal waters of the State". "Coastal waters of the State" has the meaning given to that term in the Off-shore (Application of Laws) Act 1982 section 2. Low Water Mark (L.W.M) is the ordinary low water mark at spring tides. High Water Mark (H.W.M.) is the ordinary high water mark at spring tides as defined in the Land Administration Act 1997 section 3.]

An indicative management plan has been prepared outlining how the proposed Geographe Bay/Leeuwin-Naturaliste/Hardy Inlet Marine Park, would be managed. This plan includes a map and details of the proposed boundaries, zoning and management strategies for the proposed marine park.

The proposed management zones for the proposed Geographe Bay/Leeuwin-Naturaliste/Hardy Inlet Marine Park are intended to be classified under CALM Act section 62(1a) as general use area, sanctuary area, recreation area and special purpose areas for (a) surfing and (b) shore-based activities.

Two recreation areas are proposed at Cowaramup Bay and Hamelin Bay. The following activities are considered to be incompatible with the purpose of these areas: all commercial fishing activities (including abalone; salmon; demersal gillnet; longline; wetline; net; crabbing; aquarium and specimen shell collecting; coral, 'live' rock and 'live' sand collecting; rock lobster; beach seine; and trawling); pearling; aquaculture; charter fishing; petroleum exploration and development; mineral sands exploration and development; installation of pipelines; dredging and dredge spoil dumping for shipping activities; recreational crabbing; recreational netting; non-shore based recreational rock lobster collecting; recreational shell collecting; recreational coral collecting; and taking invertebrates on compressed air.

Two special purpose areas for the primary purpose of shore-based line activities are proposed at Eagle Bay and Cosy Corner. The following activities are considered to be incompatible with the purpose of these areas: all commercial fishing activities except shore based abalone fishing and shore based rock lobster fishing; recreational non-shore based abalone fishing; recreational non-shore based line fishing; recreational non-shore based netting; recreational crabbing; recreational shell collecting; recreational non-shore based rock lobster fishing; recreational coral collecting; and spearfishing.

Ten special purpose areas for the primary purpose of surfing are proposed at Windmills, Three Bears, Yallingup, Moses Rocks, Goannas, Moses Beach, Gallows/Guillotines, Ellensbrook, Margaret River and Redgate. In these areas, the following activities are considered to be incompatible with the purpose of the area: commercial rock lobster fishing; commercial coral, 'live' rock and 'live' sand collecting; commercial trawling; recreational shell collecting; recreational coral collecting; recreational rock lobster potting (except for the Margaret River special purpose (surfing zone) in which this activity will be permitted); and dredging and dredge spoil dumping.

Copies of the indicative management plan can be inspected at the offices and libraries of the Shires of Capel, Busselton and Augusta Margaret River. Copies of the plan can be obtained from the following Department of Environment and Conservation (DEC) offices—
