**BUSH FIRES ACT 1954***Shire of Koorda***ANNUAL FIREBREAK NOTICE 2006/2007**

Notice of Owners and/or Occupiers of Land within the Shire of Koorda

In pursuance of the powers conferred in Section 33 of the *Bush Fires Act 1954*, notice is hereby given to all owners and/or occupiers of land within the Shire of Koorda that Council has adopted the following requirements to prevent the outbreak or spread of a bush fire within the Shire.

All owners and/or occupiers of land are required to carry out fire prevention work in accordance with this notice on land owned or occupied by you on or before the 31 day of October 2006 or within fourteen days of the date of you becoming the owner or occupier should this be after the 31 day of October 2006. All work required by this Notice shall be maintained until the 15 day of March 2007.

**"Firebreak"** means an area of ground, of a specified width that is kept and maintained 'reasonably' clear of all material (living or dead) by scarifying, cultivating, ploughing or other means, and includes the pruning and removal of any living or dead trees, scrub or other material that overhang the cleared firebreak area to a vertical height of 4.5 metres from the ground. In this instance, 'reasonably' is intended to mean "best endeavour", acknowledging that it is impracticable to clear and maintain a firebreak 'totally clear' of inflammable for the period of this notice.

**"Flammable Material"** means material that can be easily ignited, i.e.—dead or dry grass, leaves, timber, paper, plastic and other material or thins deemed by an authorised officer to be capable of combustion.

**Rural Land—**

- On all land owned or occupied which is not within a townsite subdivision, firebreaks not less than three (3) metres wide must be cleared inside and along the external boundary of all land.
- For the purpose of this part, all Road Reserves are to be taken as boundaries.
- The maximum area allowed with a single perimeter firebreak must not exceed 400 hectares.
- Where buildings or hay stacks are situated on the property, additional firebreaks not less than three (3) metres in width must be provided within ten (10) metres of the perimeter of such buildings or hay stacks in such manner as to completely encircle the buildings or hay stacks.

**Townsite Land—**

- All lots within townsites are required to be completely cleared of all debris of any inflammable nature and maintained free of such material.

If it is considered impractical for any reason to clear firebreaks or remove flammable materials from the land as required by this notice, a written applications for a variation may be made to the Chief Executive Officer, to reach him not less than two weeks prior to the date by which the firebreak(s), are to be cleared.

No such application will be considered unless it bears the signature of the Fire Control Officer for the area in which the property is situated signifying that the Officer's agreement to the variation applied for.

Persons who fail to comply with the requirements of this Order may be issued with an infringement notice or prosecuted with a penalty up to \$1,000.00 through the courts, and additionally, Council may carry out the required work at a cost to the owner or occupier.

Restricted-Permit Required:	19th September 2006	to	31st October 2006
Prohibited-No Burning:	1st November 2006	to	31st January 2007
Restricted-Permit Required:	1st February 2007	to	15th March 2007

Landholders should note that as the reasonable installation and maintenance of fire breaks is a local Council requirement. Any landholder not meeting this obligation may breach their insurance provisions.

G. J. McDONALD, Chief Executive Officer.

*Annual Firebreak Notice*

A copy of Councils Firebreak notice is attached for your information and action, it should be noted that properties *must have* necessary firebreaks installed and that the maximum area allowed without a single perimeter firebreak is 400 hectares.

The above licensing matters can be dealt with at the Shire office between the hours of 8.30am and 4.00pm.
